ROCKSTAR GAMES PRESENTS

# RED DEAD REDEMPTION II

THE COMPLETE OFFICIAL GUIDE

## FOREWORD

*Red Dead Redemption 2* is our attempt to tell a new kind of story in a new kind of video game world. You'll play as Arthur Morgan and live the experiences of his time with the Van der Linde gang, a group of notorious outlaws on the run across 19<sup>th</sup> century America. As Arthur, you will experience every aspect of outlaw life, from robbing banks and hijacking trains to forging relationships with fellow gang members as you fight and run to escape the clutches of the law and the hypocrisies of polite society.

We worked closely with the very talented team at Piggyback to design this guide as a companion during your time inside the world of *Red Dead Redemption 2* as you live and travel both with the Van der Linde gang and on your own.

We really hope you enjoy your time in the world.

Rockstar Games

# CONTENTS

An opening chapter that will help you to develop a solid understanding of the game's core systems from the very start, offering concise and accessible introductions to key features.

## PRIMER

On-screen Display	8	Horses	18
Essential Commands	9	Crime	19
Game Structure	11	Challenges	21
Traveling Efficiently	13	Hunting	22
Maps & Markers	13	Fishing	23
Locations & Landmarks	14	Items & Crafting	24
Attributes & Meters	16		

This chapter details every last step you'll need to take to complete the *Red Dead Redemption 2* storyline, while also highlighting other opportunities that you may wish to explore as and when they become available.

## MISSIONS

The Story So Far	28	Chapter 03	54
Chapter Structure	30	Chapter 04	72
Medal Goals	30	Chapter 05	86
Note on Trophies & Achievements	31	Chapter 06	94
Chapter 01	31	Epilogue – Part 1	114
Chapter 02	38	Epilogue – Part 2	122

A comprehensive presentation of optional endeavors, activities and assorted diversions that you can encounter on your travels.

## EXPLORATION

Introduction	134	Bounty Hunting	184
Horses	134	Stranger Missions	186
Transportation	142	Gunslingers	192
Camp	143	Loansharking	194
Hunting	146	Treasure Hunting	196
Fishing	163	Special Collectibles	199
Attributes	166	Gangs	218
Honor	169	Table Games	220
Challenges	171	Chance Encounters	223
Law Enforcement	174	Special Characters	228
Robberies	178		

## UPDATE NOTICE

While we have taken every step to ensure that the contents of this guide are correct at time of going to press, subsequent updates to the *Red Dead Redemption 2* game code may contain adjustments, gameplay balancing and even feature additions that cannot be anticipated at time of writing.

## VERTICAL TAB

The vertical tab on the right-hand margin of each double-page spread is a navigational tool designed to help you find your way around the guide. The top section lists the individual chapters, while the lower section highlights the part of the chapter you are currently reading.

## ATLAS

Introduction	238
Map Legend	238
Notes & Navigation	239
Overview Map	240
Atlas	241

An atlas of the entire game area offering expanded topographic maps, with detailed annotations revealing the positions of points of interest and collectibles.

## WEAPONS

Weapon Stats	282
Weapon Degradation	283
Ammunition & Projectiles	284
Gunsmiths	286
Other Shops	287
Weapon Customization	288
Weapon Sheets	292

An exhaustive appraisal of all weapons, including stats, ammunition, customization, and advice on how best to maintain your firearms.

## ITEMS

Consumables	302
Kit & Tools	312
Equipment	314
Valuables	315
Documents	316
Crafting	320
Cooking	323
Shop Lists & Crafting	324

A complete catalog of all items and crafting possibilities encountered in the game, including parameters, availability conditions and other notable characteristics.

## EXTRAS

Trophies & Achievements	332
Total Completion	334
Compendium	334
Checklists	337
Points of Interest & Shacks	338
Unique Collectibles	340
Event Areas	342
Poisonous Trail	344
Secrets	346

A variety of trials, trivia and titillation not covered elsewhere, including secrets, Trophies and Achievements, and advice on working towards Total Completion.

# PRIMER

This opening chapter will help you to develop a solid understanding of *Red Dead Redemption 2*'s most vital systems from the very start, offering concise and accessible introductions to key game features.

# ONSCREEN DISPLAY

The following annotated screenshot illustrates a typical gameplay screen.

**1 Reticle:** Whenever you equip a weapon a white reticle appears. Hold **L2/L1** and use **R** to adjust your aim; the reticle will turn red when it hovers on a valid target. Headshots generally offer maximum efficiency.

**2 Ammunition:** The first figure represents the number of shots remaining for your active weapon; the second details your total stock. The icon corresponds to the type of ammunition currently selected.

**3 Attribute Meters:** The meters visible in the lower-left corner of the screen represent vital attributes – from left to right, health, stamina, Dead Eye, horse stamina, and horse health. Turn to page 16 to learn more about these systems.

**4 Radar:** The mini-map in the lower-left of your screen shows your immediate surroundings, annotated with useful details such as

cardinal directions, mission objectives, and assorted points of interactivity. See page 13 for details. You can expand your radar or turn it into a simple compass by holding **+**.

**5 Dynamic Information:** Onscreen notifications will appear in accordance with your actions and events in the world – such as obtaining items or rewards, completing objectives, and becoming wanted.

**6 Context-Sensitive Prompts:** Whenever you can perform a context-sensitive action, a corresponding prompt will appear in the lower-right corner of the screen. These are used in many different situations, such as collecting items, interacting with the environment, and to make decisions during missions or interactive conversations. Press, tap or hold the displayed button to choose the specified action.

# ESSENTIAL COMMANDS

The opening hours of *Red Dead Redemption 2* are filled with opportunities to learn about and practice actions and abilities, but the following recap of all essential button commands will prove useful should you forget a particular function, or miss a tutorial. If you are familiar with the original *Red Dead Redemption* and the *Grand Theft Auto* series, you should feel right at home from the very start.

Many potential actions and interactions are activated via context-sensitive button presses. The relevant prompts will appear in the lower-right corner of the screen when they are available.

## ★ BASIC MOVEMENT ★

With the exception of crouch-walking, the following commands apply when you are both on foot and riding a horse.

- ★ **L** | **Walking:** Tilt **L** to walk in any direction. This pace of movement is suited for ambulating through crowds in towns, or while taking in the sights on your many travels.
- ★ **L** + **X/A** (hold) | **Running:** Running will be your primary movement speed in most situations. It is much faster than walking, yet it does not drain your stamina. While riding a horse or driving a wagon, this also enables you to maintain your gait after a gallop, and to automatically follow companions during group rides.
- ★ **L** + **X/A** (tap repeatedly) | **Sprinting:** Sprinting enables you to run at maximum speed, at the cost of stamina. This is vital in critical situations, such as an escape or chase, but can also shorten journeys if you do not have a steed at hand. While riding a horse, try to tap the button in a rhythm that matches your mount's gallop. This special technique makes it possible to travel at great speed without draining the horse stamina meter.
- ★ **○/△+L** | **Crouch-walking:** An essential technique during infiltration situations, crouch-walking is also recommended while hunting. It enables you to move steadily while keeping a low profile and making very little noise. Note that you can also crouch-run by simultaneously holding **X/A**.

## ★ COMBAT ★

- ★ **L1/L3** | **Draw/Holster Weapon:** Whenever possible, you should always ready your weapon before hostiles engage you. Don't neglect to holster it afterwards: carrying a weapon in hand when there is no need to do so might lead to unfortunate misunderstandings.
- ★ **L2/L1** (hold) + **R2/R1** | **Aim and Shoot:** Most weapons in the game are used with these controls. Ready your weapon by holding **L2/L1**, line up a shot with **R** – the reticle will turn red when directed at a valid target – then open fire with **R2/R1**. By default, *Red Dead Redemption 2* offers a medium level of aiming assistance, which means that you will automatically lock on to enemies in your line of fire when you raise your weapon. With this system, the reticle is usually positioned on your target's chest. If you very briefly flick **R** and fire as you lock on to a foe, it's possible to secure near-instant

headshots. You can then release **L2/L1** and repeat the maneuver immediately with another target if required.

- ★ **R2/R1** | **Shoot from the Hip:** If you do not hold **L2/L1**, you will fire in the direction that you are facing, automatically locking on to the closest target. This can prove helpful in situations where you need to strike instantly.
- ★ **○/△** | **Dead Eye:** Whenever you face large groups of enemies, especially when there is a danger that you will be overwhelmed, this command enables you to slow down the flow of time while aiming a weapon. This skill is upgraded early in the adventure, making it possible to "tag" targets with **R1/RB**; you can then press **R2/R1** to fire at all of them in rapid succession. Note that triggering Dead Eye drains the corresponding meter. You can end the effect by pressing **○/△** again.
- ★ **R1/RB** | **Take/Exit Cover:** Taking cover helps you to remain unseen during infiltrations, and makes it more difficult for enemies to hit you during shootouts. Note that you can move along a cover surface by tilting **L** to improve your firing angle, or to avoid incoming fire if partially exposed. To move around corners or transition to the next available cover spot, tilt **L** and press **○/X**. While in cover, you can move out to fire by holding **L2/L1**; release it to immediately snap back into cover.
- ★ **○/B** | **Reload:** Your character will reload automatically whenever his weapon runs out of ammunition, but this leaves you vulnerable. To avoid the horror of the "dead man's click", you should get into the habit of manually reloading whenever you have the opportunity during shootouts, ideally from behind cover.
- ★ **L2/L1** (hold) + **○/X** | **Combat Dive:** When you need to dodge an incoming threat, such as a predator charging at you, diving sideways can instantly put you out of harm's way.
- ★ **○/B** | **Silent Takedown:** If you manage to stealthily approach an enemy from behind, this technique offers a quiet way to remove them from the equation. These attacks are non-lethal if you are unarmed; should you brandish a melee weapon such as a knife, the victim will be killed.
- ★ **○/B** | **Melee Combat:** During brawls, tap this button to punch or kick your opponents. When facing skilled enemies, you will often need to block their blows first with **○/X**, then follow up with swift counters. You can also grapple them with **△/Y**.

## ★ EXPLORATION ★

- ★ **[L3] + [R3] / [LT] + [RT]** | **Eagle Eye:** This ability triggers a heightened sense of awareness and intuition whereby points of interest in your immediate vicinity, such as animal tracks and collectibles, will be temporarily highlighted. You can even choose to focus on tracks with **[R1] / [RB]** to keep them visible for a while after you leave Eagle Eye mode.
- ★ **[L] + [R] / [X]** | **Jumping/Vaulting/Climbing:** As well as a basic jump that can suffice for everything from hopping over a ditch to leaping onto a moving train, this button is also employed to vault or clamber over obstacles in your path such as fences and walls. There are also instances where you can use it to climb to vantage points while exploring, or to occupy favorable high ground before you engage nearby adversaries.
- ★ **[O] (hold)** | **Satchel:** Opening your satchel (or your cargo when near your horse) gives you access to the items you currently have in your personal inventory. This enables you not only to heal or restore your attribute cores whenever necessary, but also to view documents or keep track of the collectibles that you gradually acquire.

## ★ COMMAND LIST ★

The following tables describe the controller commands that can be performed in *Red Dead Redemption 2* with the standard settings.

### GENERAL CONTROLS

COMMAND	NOTES
<b>[L]</b>	Move
<b>[R]</b>	Adjust the camera angle
<b>[L3] / [RT]</b>	Crouch; pressed simultaneously with <b>[L3] / [RT]</b> , activate Eagle Eye
<b>[R1] / [RB]</b>	While selecting a weapon in the wheel menu, maintain (repair) that weapon; pressed simultaneously with <b>[L3] / [RT]</b> , activate Eagle Eye; hold to look behind
<b>[X] / [A]</b>	Hold to run; tap repeatedly to sprint; during cutscenes, hold to skip
<b>[O] / [X]</b>	Tap to jump, vault or climb obstacles; hold to pick up collectibles and search pieces of furniture; while focusing on an animal, tap to draw its attention
<b>[A] / [Y]</b>	Interact with the environment; loot bodies; skin animals; close drawers and doors that you have opened while searching pieces of furniture; hold to rest
<b>[L1] / [LB]</b>	Hold to display the wheel menu; tap to draw or holster your weapon
<b>[R1] / [RB]</b>	Take/exit cover; cycle through different interactions; while focusing on an animal, study it, then show/hide its info
<b>[L2] / [LT]</b>	Hold to trigger interactive conversations with nearby characters
<b>[R2] / [RT]</b>	Tap to draw your weapon; fire weapon
<b>[O]</b>	Hold to open your satchel (or cargo when near your horse)
<b>[O]</b>	Tap to display the log; hold to check your journal
<b>[O]</b>	Whistle
<b>[O]</b>	Tap to view your current objective, expand the radar, and display your honor rating as well as information on your environment; hold to change the radar type
<b>[L3] / [RT]</b>	Tap to toggle camera view; hold to trigger cinematic camera
<b>[OPTIONS] / [PS]</b>	Display the pause menu; hold to open the map

### HORSE-SPECIFIC CONTROLS

COMMAND	NOTES
<b>[L]</b>	Steer
<b>[L3] / [RT]</b>	Hold while riding to pat your horse
<b>[X] / [A]</b>	While riding, tap to gallop; hold to follow a companion and match their speed; double tap and tilt <b>[L]</b> forward while in formation to move up
<b>[O] / [X]</b>	While riding, tap to jump; while on foot, focusing on a horse, tap to calm and pat it
<b>[A] / [Y]</b>	Tap to mount/dismount your horse; while riding, hold to hitch your horse; while on foot, tap to lead a horse that you're focusing on
<b>[O] / [B]</b>	While riding, kick a target to either side; while leading your horse, stop leading
<b>[L1] / [LB]</b>	While riding or on foot near your horse, hold to view the weapons stored on your mount
<b>[R1] / [RB]</b>	When moving, slow down; when stationary, back up; while riding in formation, double tap and tilt <b>[L]</b> backward to move down
<b>[L2] / [LT]</b>	While on foot, hold to focus on a nearby horse
<b>[O]</b>	While focusing on your horse, brush it
<b>[O]</b>	While riding or on foot near your horse, hold to check your horse cargo; while focusing on your horse, feed it
<b>[O]</b>	Whistle/call your horse

### COMBAT-SPECIFIC CONTROLS

COMMAND	NOTES
<b>[L]</b>	Tilt to peek out while in cover
<b>[R]</b>	Adjust the position of your aiming reticle
<b>[O] / [X]</b>	While aiming, tap to dive; during melee combat, tap or hold to block enemy blows; while in cover, transition to the next available cover spot
<b>[O] / [B]</b>	Reload your weapon; tap while unarmed or equipped with a weapon to strike an enemy
<b>[A] / [Y]</b>	During melee combat, grapple your opponent
<b>[R3] / [RT]</b>	While aiming, activate Dead Eye
<b>[L1] / [LB]</b>	Hold to display the weapon wheel, then select a weapon with <b>[R]</b> and release to equip it; tap to draw/holster your weapon
<b>[R1] / [RB]</b>	Take/exit cover
<b>[L2] / [LT]</b>	Hold to aim your equipped weapon
<b>[R2] / [RT]</b>	Use/fire weapon, either from the hip or more accurately while aiming by holding <b>[L2] / [LT]</b>
<b>[O]</b>	While aiming, toggle shoulder view
<b>[O]</b>	While aiming, raise your gun to the sky to make a warning shot

### MENU-SPECIFIC CONTROLS

COMMAND	NOTES
<b>[L] &amp; [O]</b>	Menu and map navigation; in the weapon wheel, change ammunition type
<b>[L3] / [RT]</b>	On the map, place/remove a marker
<b>[R]</b>	In the wheel menu, select an item; on the map, zoom in or out
<b>[X] / [A]</b>	Confirm selection; on the map, place/remove a waypoint
<b>[O] / [B]</b>	Cancel selection/go back
<b>[O] / [X]</b>	On the map, display the index
<b>[L1] / [LB]</b>	Navigate tabs
<b>[R1] / [RB]</b>	Navigate tabs
<b>[L2] / [LT]</b>	In the wheel menu, navigate the items within the same category; on the map, zoom out
<b>[R2] / [RT]</b>	In the wheel menu, navigate the items within the same category; on the map, zoom in

## GAME STRUCTURE

*Red Dead Redemption 2* is a nonlinear adventure set in a massive, feature-packed world.

Between missions and countless other activities, you can freely explore almost every inch of the map, traveling its vast expanses and scouring its numerous points of interest for opportunities that might arise. You will encounter homesteads, hideouts, towns and many other unique settings, each with their own distinctive layouts, ambient events and potential rewards. Whenever your wanderlust is briefly sated, you can also choose to head back to camp to converse with key characters, apply upgrades and appearance changes, or simply sleep in preparation for another long and productive day.

You should note that *there is no right or wrong way to play*. Some will choose to complete the main storyline as quickly as possible, while others will venture off the beaten path and immerse themselves in the environment and incidental events. To help you to plot your own personal journey, this section offers a quick guide to some of the more substantial endeavors that you can get involved with in the world. We also offer advice on certain settings and options that you may wish to adjust in order to suit your gaming preferences.

## ★ MISSIONS ★

When a mission is available for you to start, a circular blip with the initials of the person you need to see appears on your map and radar. Once you are ready, talk to that individual at the marked location to begin.

The main storyline is divided into chapters, each consisting of a number of missions. These are unlocked gradually as you fulfill specific conditions. This guide features a dedicated Missions chapter (see page 26) where you will find extensive flowcharts revealing the exact unlock requirements for each installment of the story.

When you complete a mission, you obtain a medal that grades your performance. Each mission has a unique set of medal goals: the accolade you receive depends on how many of the goals you manage to fulfill. However, these requirements are only revealed in the Progress ► Story menu after you complete an assignment for the first time. They typically require you to complete additional feats, and often entail completing the mission with great speed and accuracy.

Depending on your play style and level of proficiency, it might make sense for you to ignore medal goals when you undertake a story episode for the first time. This will give you greater freedom to explore

during a first playthrough, and to deal with adversity and opportunities at your own pace.

You can replay all story missions via the Progress ► Story option in the pause menu. Focusing on medal goals during a later attempt will mean that you'll have a better understanding of the structure and layout of each assignment. Naturally, you will also greatly benefit from having honed your skills over the intervening hours.

## SAVING

*Red Dead Redemption 2* employs an autosave system that automatically records your progress whenever you hit discrete story milestones, after you complete noteworthy feats and challenges, and when your character sleeps at a camp or in a bedroom.

You can also manually record your progress and create additional save files via the Story option in the pause menu (**[OPTIONS] / [PS]**). This function is restricted during missions and a number of other gameplay activities.

## ★ FREE ROAMING ★

Outside of missions you are free to roam around and explore the map as you please — and you should, because it's packed with surprises and secrets. While it's possible to just race through the game, speeding towards the conclusion of the main storyline, we suggest that you always make the time to observe and enjoy the sheer beauty of the world.

Whenever you travel over the map, you will regularly run into opportunities of all kinds on your way. These include collectibles and chances to harvest useful items, encounters with enemy gangs or law enforcement, fishing spots, ambushes, and myriad other ambient events.

## ★ OTHER ACTIVITIES ★

You have access to a wealth of activities in *Red Dead Redemption 2*. These can range from mini-games, to item requests made by other characters, to assignments such as capturing a wanted outlaw.

One thing that you should take into account with these activities is not so much their difficulty, but the distances that you may be required to travel to acquire and complete them. It usually makes sense to fulfill optional objectives whenever you are passing through an area, particularly when you can arrange to start them or bring them to a conclusion *en route* to your next destination.

## DIFFICULTY &amp; ACCESSIBILITY

While *Red Dead Redemption 2* does not feature difficulty modes, there are various options and features that you can use to adjust the gameplay experience based on your proficiency and preferences.

**Toggle View:** If you press multiple times, you will notice that you cycle between four possible camera positions. The most distant third-person view makes it easier to keep track of your enemies, locate collectibles, and to generally have a better sense of your bearings. Opting for the first-person perspective will offer a profound sense of immersion, but may increase the difficulty of certain activities.

**Lock-On Mode:** There are a few parameters that you can tweak in the "Pause Menu > Settings > Controls" menu to simplify the process of aiming. This enables you to adjust the exact level of Assisted Aim you require, both when you are on foot and while riding a horse or vehicle. Assisted Aim is a feature where the game will automatically "snap" your reticle to the closest enemy in your direct field of view when you aim your weapon. A "wide" Assisted Aim means that the

game will instantly lock on to enemies that are much further away from the direction that your character is facing, greatly decreasing the difficulty of firefights. Conversely, Free Aim removes all targeting assistance — which can make combat significantly more challenging.

**Tap Assist:** Occasional action sequences require you to hit buttons repeatedly in order to deal with unique scenarios. Tap Assist makes this process easier by requiring fewer button presses, or by enabling you to simply hold the button instead. If you suffer from repetitive strain injuries, carpal tunnel syndrome or any other similar considerations, be sure to visit this option.

**Skip Checkpoint:** If you struggle with a particular gameplay sequence and fail three times in a row, the game will present an opportunity to skip the checkpoint entirely, effectively moving you one step forward in the mission. This usually means jumping past no more than a minute's worth of gameplay, though there are exceptions.

## TRAVELING EFFICIENTLY

When you need to reach a destination quickly, there are ways to optimize or shorten your journey.

## ★ MAP READING ★

Learning to read your map is a critical skill that you should try to develop early in the story. Before you set off on a long journey, studying the map in advance can help you to shave seconds or even entire minutes from your travel time.

Whenever a mission requires you to reach a location that you have previously visited, the game automatically shows you a recommended path to follow (in the form of a dynamic line on your map) as long as you are riding a horse. The recommended path also appears when you manually place a waypoint, even if you're on foot. While this always defines a reliable route, it is not necessarily the most efficient or fastest option. If you take the time to look at your map, and pay attention to your surroundings as you travel, you'll gradually acquire the ability to take shortcuts and skip areas that might slow your progress significantly.

One important factor to consider is that your map is topographic: it gives a clear sense of the exact elevation of each area of terrain by showing not only surface features, but also a representation of relief with contour lines that connect places of identical elevation.

If your route takes you through flat plains, chances are you will be able to move in a straight line, heading directly for your objective. Should you move through mountains or canyons, the only path available will probably be winding and potentially treacherous in places. Paying attention to the precise topology will also reveal vantage points or tactically-advantageous features that you can make the most of while completing objectives.

## ★ FAST TRAVEL ★

Certain camp upgrades (see page 143) will give you access to a special map near your bed. If you examine it with , this opens a Fast Travel menu in which you can choose to jump to key locations that you have visited so far — primarily the main towns and a few other landmarks. Select any of these entries and you will automatically reach the destination in question after a brief cutscene.

As you complete specific story missions early on in the adventure, you will also unlock the possibility to use trains and stagecoaches to be transported almost instantly to any town that you have previously visited; ticket prices vary in accordance with the distance traveled. These features are particularly helpful when you are engaged in travel-intensive activities, such as treasure hunting or resource gathering.

## MAPS &amp; MARKERS

## ★ MAP ★

You can access the map at any time via the pause menu by pressing , or alternatively hold that same button to be taken there directly.

Once on the map screen, your character's position is represented by a small pin that points in the direction faced (). You can scroll with , zoom in or out as required with (or & , and position manual annotations: a waypoint that will also activate a route line with , or markers that will highlight multiple locales that you'd like to return to with . A complete index of active or known icons is available by pressing .

The map is initially obscured from view. You reveal it gradually by exploring, with text annotations and icons added when you discover new places and animal habitats.

## ★ RADAR ★

The radar shows a small portion of the main map that corresponds with your immediate surroundings. The four letters on the outer edge are, of course, cardinal directions (North, East, South, West). All other icons that appear here are identical to those found on the main map.

Most icons disappear once out of the mini-map's boundaries, with the notable exception of mission blips, your horse, waypoints and markers, which remain visible at all times. These appear on the radar itself if you

are close, or will otherwise rest on its outer rim and gradually fade to indicate their approximate location over longer distances.

Active enemies are represented by red dots on the radar. When they are outside of its range, a red threat indicator on the outer edge illustrates the direction that you must travel to face them — or, conversely, which area to move away from if you wish to avoid a confrontation.

You will occasionally be asked to search specific locations to find items, characters, or animals. These zones are clearly marked in yellow or white on your map and radar. Note that you can expand your radar or turn it into a simple compass by holding .

## ★ MAP MARKERS ★

You can manually drop one waypoint and multiple markers on the map with / and / respectively. These remain visible on your radar at all times, making them very useful navigational tools. The same commands enable you to remove these annotations if you no longer need them.

### MAP & MINI-MAP LEGEND

ICON	MEANING	ICON	MEANING	ICON	MEANING
	Your Character		Barber		Stable
	Your Horse / Temporary Horse		Butcher		Stagecoach
	Marker		Doctor		Train Station
	Waypoint		General Store		Tailor
	Enemy		Gunsmith		Trapper
	Corpse		Hotel		Bait Shop
	Mission Vendor		Newspaper Seller		Five Finger Fillet
	Stranger		Post Office		Poker
	Campsite		Saloon		Blackjack
	Gang's Camp		Show		Dominoes

## LOCATIONS & LANDMARKS

*Red Dead Redemption 2's* world is full of opportunities. This section introduces the locations that will be of most relevance to you during the opening hours of your adventure.

Note that certain services (such as shops) are unavailable when their icons are grayed out. A smaller icon inset in the main icon will sometimes appear to offer additional information on its current status. In general, most business premises will be unavailable if you have an active wanted level.

### ICON VARIATIONS

ICON	MEANING
	The feature (here, a general store) is available
	The feature is currently unavailable because the business is closed. It will be open if you come back during opening hours
	The feature is currently unavailable because it is locked. It will become available after you reach a specific point in the main storyline
	With active wanted level: the building is closed until the ongoing commotion has subsided
	The feature is available, and something awaits you there – for example, a new product in a store, or a new interaction, and so forth

## ★ CAMP ★

The Van der Linde gang is usually based in a camp where you can avail yourself of assorted services and fraternize with the other outlaws.

When fellow gang members are marked with an icon featuring their initials (for instance, for Dutch), these correspond to mission starting points. Speak or move close to the character in question to trigger the assignment.

Gang members are not mere mission vendors, however. They are permanent inhabitants of the camp, offering countless ambient conversations, anecdotes, and day-to-day scenes that develop the story in more subtle ways.

After completing an early mission for Leopold Strauss you will be able to upgrade various features of the camp itself via the ledger outside Dutch's tent. These upgrades require substantial financial investments, but they lead to significant benefits. These include the possibility to unlock the Fast Travel feature or to improve the range and quality of the free supplies that you can claim when you visit. To increase the camp funds required to purchase such upgrades, you can contribute directly by making donations via the titling box near the ledger.

### CAMP ICONS

ICON	MEANING
	Your tent is where you can sleep, shave, and change clothing
	Pearson is the camp's cook and butcher. By donating hunting spoils to him you can not only feed your group, but also have him craft valuable upgrades for you – including satchels with improved capacity
	Provisions are available at Pearson's wagon
	Ammunition and arms are available at Arthur's wagon
	Health supplies are available at Strauss's wagon
	Camp stew
	Chores are simple activities that you can perform to help the camp
	The ledger enables you to purchase camp upgrades. You can also contribute to the camp funds via the titling box
	Your personal savings

## ★ TOWNS ★

Most towns offer all sorts of services and amenities, so it's a good idea to visit them regularly. Some features are initially unavailable; you unlock them by completing specific missions during the adventure's early chapters.

### TOWN ICONS

ICON	MEANING
	Towns feature a great number of mission vendors and characters that you can interact with. Some of the former are initially called "strangers" and are marked with a distinctive question mark icon. Visiting them is always a good idea as they will often be the trigger point for an entire chain of events
	Barbers can cut and style your hair and shave your beard, enabling you to change your appearance. This can help you to avoid detection if you have an active bounty and would prefer to avoid potential trouble
	Butchers buy and sell animal parts, used in many recipes
	Doctors are purveyors of tonics and stimulants, used to restore attribute bars for both you and your horse
	General stores sell all kinds of products, such as provisions, hunting and fishing gear, and clothing
	Gunsmiths specialize in weapons and ammunition
	Fences buy and sell illegal merchandise, such as dynamite and moonshine. They also have rare and exotic goods for sale, such as talismans and trinkets
	Hotels enable you to both sleep (to refill your attribute meters and cores) and take baths (to get yourself clean and restore your cores). You can also use the wardrobe to change clothing
	Newspaper sellers do exactly as their name implies, enabling you to stay up to date with the latest events
	You can have your portrait taken at photo studios
	Post offices are often (but not always) located at train stations and have two main functions: they enable you to send and receive mail, and to settle any active bounty on your head
	Saloons sell drinks and nutritious meals
	Shows offer entertainment for a modest entry fee
	Stables provide a variety of horse-related services, including the possibility to buy and sell mounts, customize their appearance, or to upgrade their equipment
	Train stations and stagecoaches facilitate travel between regions
	Tailors and the trapper enable you to purchase new clothing
	Table games available in towns include Five Finger Fillet, Poker, Blackjack and Dominoes

## ★ THE WILDERNESS ★

Much of the world map in *Red Dead Redemption 2* consists of large and untamed natural expanses, ranging from mountains, to plains, to swamps. As you explore these lands, you will soon find that they are full of dangers and opportunities.

Some of the most common encounters as you travel involve animals, from timid rodents to fearsome bears. All species have their own habitats, making it possible to stalk and avail yourself of their unique resources once you know where and when they might be found. We cover the topic of hunting a little later in this chapter (see page 22).

The world is also full of rivers and lakes that are home to all sorts of fish. As soon as you receive your fishing rod during the second chapter of the adventure, you can lose yourself in this engrossing pursuit, which requires both specific gear and knowledge of where the best fishing spots are (see page 163 for details).

One point to keep in mind when you are in the wilderness is that you can set camp virtually anywhere. Select the camp option in the item wheel and you will create a campfire. This enables you to sleep, which refills your attribute meters, and to craft and cook. You should make it a habit to camp regularly, particularly when you notice that your attribute cores are running low.

Different regions have varying climates, and these can be potentially harmful to your character. Make sure that you change or adapt your outfits accordingly when required, by stopping either at camp or at a tailor's shop. Wearing suitable attire will enable you to prevent the detrimental effects of hot or cold temperatures.

Last but not least, the game follows a day/night cycle, where one in-game day takes 48 minutes in real life (with the exception of your camp, where time flows more slowly). The current time of day has multiple gameplay consequences – for example, some shops or special characters can only be encountered during specific hours, certain missions play out differently during day or night, and various creatures may only be found at particular times. When you need to complete an objective at an exact hour, note that you can pass the time by sleeping at a campfire, in your tent at the gang camp, or by renting a room. You will usually be given three options regarding how long you want to sleep, enabling you to wake up at the most convenient time for you.

# ATTRIBUTES & METERS

There are five main attributes in the game: three exclusive to your character, and two exclusive to your horse.

## ATTRIBUTES

ICON	NAME	DESCRIPTION
	Health	The amount of damage that your character can sustain
	Stamina	The level of physical exertion your character can endure, such as when sprinting or jumping
	Dead Eye	The amount of time you can spend in Dead Eye mode
	Horse Stamina	The degree of physical exertion your horse can endure, such as when galloping and jumping
	Horse Health	The amount of damage that your horse can sustain before it falls

These attributes are represented by dynamic meters that appear in the lower-left corner of the screen. Each meter actually consists of two separate gauges: a **main attribute meter**, and an **attribute core**.

## ★ MAIN ATTRIBUTE METERS ★

Main attribute meters are represented by a circular gauge. They are depleted in accordance with certain actions or events (for example, taking damage will reduce your health meter) and can be replenished by using tonics, sleeping, or through the restorative effect of attribute cores. The latter occurs automatically over time for health and stamina, and with every kill for Dead Eye.

Your character's attribute meters start at a low level but can be improved. As you perform specific actions, you will acquire attribute experience points; when these reach specific milestones, the related attribute will level up and gain an additional meter segment.

## ★ ATTRIBUTE CORES ★

Cores are the icons that appear inside each attribute meter, and primarily serve as a last-resort extension of the corresponding attribute. If a main attribute meter is fully depleted, additional usage or damage will begin to deplete the core. With the health attribute, exhausting the main meter and its core leads to death.

The secondary function of cores is that they determine the recovery rate of the related attribute meter. When full, you enjoy the maximum possible replenishment speed; if depleted, you will need to wait longer.

This makes cores extremely important. If you sustain damage during battle, for example, having a full health core will enable you to heal fairly quickly; you just have to stay in cover for a moment. The same situation with an almost empty core will prove far more challenging.

and will likely require the use of a health tonic if you have one... or a fraught conclusion to your current confrontation.

Cores drain slowly over time through hunger and fatigue. Your stamina core, for example, is a lightning icon that is initially entirely white; as times goes by, however, you will notice that it gradually drains, with depleted sections colored in gray.

In normal conditions, it takes 90 minutes for a core to drain completely. Adverse weather conditions can increase the speed at which they are depleted. Cores, therefore, require regular "maintenance".

## ★ CORE MAINTENANCE ★

Restoring cores can be achieved by sleeping, bathing, or by eating appropriate food. Note that the game offers a preview of the impact of each item on the affected meters before you actually consume it.

Sleeping is a cheap and convenient way to replenish your cores. The following options are available:

★ **Campfires:** After you complete the early story mission "Exit Pursued By A Bruised Ego", you can set up your own camp almost anywhere either by resting (hold **△/Y**, then press the same button again) or by selecting the camp option at the bottom of the item wheel. Camping gives you access to multiple options, including crafting and sleeping, making this a staple feature that you will use often. Note that you cannot set up camp in towns.

★ **Bed:** You can sleep in your own bed at the gang's current camp.

★ **Rented Rooms:** Another option is to rent rooms in towns for a flat rate.

For a full guide to attribute cores, see page 167.

## ★ HEALTH ★

Health is probably the most straightforward attribute, representing physical integrity. Allowing your character's health meter and core to fully deplete will result in death. Try to always have tonics at hand for emergency situations where you may need to urgently top up this gauge in order to survive.

An easy way to level up this attribute is to regularly perform melee knockouts or thrown weapon kills. Once you have access to a boat, rowing is also an effective method to extend your meter. For a full list of appropriate training methods, see page 167.

## ★ STAMINA ★

Stamina determines your ability to maintain physical exertion, and requires diligent management.

The most common cause of stamina depletion is sprinting. To minimize the overall drain, switch between maximum speed (by repeatedly tapping **△/A**) and running speed (by holding **△/A**) at regular intervals to enable the meter to refill without unnecessarily encroaching upon the core.

While riding your horse, the same principles apply to its separate stamina gauge. However, when you gallop at full speed by repeatedly tapping **△/A**, you can actually prevent the meter-draining process

by pressing the button in sync with your mount's gallop. Mastering the required rhythm won't take too long, and will leave you free to take in the sights as you travel.

A very simple way to level up your stamina meter quickly is to sprint often and for extended periods. See page 167 to study all possible training methods.

## ★ DEAD EYE ★

Dead Eye is a special skill that enables you to slow down the flow of time while aiming a weapon, giving you a temporary but massive advantage over your enemies.

To trigger Dead Eye, press **△/Y** while aiming. The basic way to employ it is to shoot targets manually while enjoying the slow-motion advantage.

After your Dead Eye ability improves early on in the adventure, you can queue attacks on multiple enemies, or hit a particular target numerous times. With Dead Eye active, move the aiming reticle over intended victims and press **(R1)/RB** to tag them; when ready, press **(R2)/RT** to fire at all specified targets in rapid succession.

To level up this attribute, hone your combat skills to perform long-distance headshots and free-aim kills. For a full list of appropriate training methods, see page 167.

### CRAFTING

## HORSES

Horses are an integral part of the *Red Dead Redemption 2* adventure. Not only do they enable you to move around much faster than you can on foot, they also offer storage opportunities that make it easy to change your equipment when required. You can even use them to carry pelts and captured targets or animal carcasses that you need to transport.

## ★ SADDLING HORSES ★

If you want to acquire a new horse without purchasing one at a stable, you have two options:

- ★ You can "break" wild horses to gain their trust. This is achieved by locking on to the horse from a distance (after catching it with your lasso if required) to initiate the calming process. Once the horse allows you to get close, you can calm it, then mount it. Try to stay on its back by tilting **L** in the opposite direction to where it pulls. If you manage to stop it from bucking you off and ride it for a while, it will eventually be tamed and become your temporary horse.
- ★ You can also steal horses, with the exception of those that belong to fellow gang members, and ride them temporarily.

Horses will only truly become yours if you put your saddle on them – a feature unlocked after a few hours of play in the main storyline. To do so, approach a calm horse with a saddle in hand and hold **C**. You can only have one saddle, and therefore one main horse, at a time. To remove the saddle from your current horse, focus on it (hold **L2**/**LT**) then hold **C**.

## ★ STABLES ★

Stables are available in all major towns. These give you access to the following services:

- ★ Buying and selling horses.
- ★ Buying horse care items such as horse food and tonics.
- ★ Buying or upgrading equipment such as saddles, saddlebags, and stirrups.
- ★ Keeping up to three horses safely. You could, for example, leave your favored fast horse in a stable while you ride a more resilient steed for an upcoming battle.
- ★ Customize your horse's appearance and accessories, or rename it.

## ★ HORSE CARE ★

To keep your horse healthy and happy, you need to keep it fed and clean. A horse's health and stamina cores are affected negatively when it gets hungry or dirty. Hold **L1**/**LB** and navigate to the horse wheel menu to select the relevant items.

Nutritious foods such as oatcakes, apples and hay will satisfy your horse's hunger more substantially than treats. Giving these foods to your mount will also increase bonding. Certain herbs and plants picked in the wild can also be fed to your horse. You should avoid overfeeding your mount: indulging it when it is already full can cause it to gain weight – see page 135 for details.

## ★ HORSE BONDING ★

Bonding represents the level of trust and understanding between you and your horse. Higher levels translate into the following benefits:

- ★ Improved horse health and stamina, and new commands available.
- ★ Improved whistle range and response speed when you call your horse, even during combat.
- ★ Ability to cross deeper water and navigate more challenging terrain.
- ★ Lower chances for your horse to flee when facing predators.

The following actions will contribute to increased horse bonding:

- ★ Calming your horse when it's agitated.
- ★ Patting your horse.
- ★ Feeding your horse when it's hungry and grooming it when it's dirty.
- ★ Removing a heavy item stowed on your horse.
- ★ Leading, riding, and swimming with your horse.
- ★ Hitching your horse with **A**/**Y** at a hitching post or tree. A hitched horse regenerates its cores more rapidly and cannot wander away.

Some horses will become agitated if they feel threatened or hear loud noises (such as gunshots). Use silent weapons such as the bow to avoid spooking a new mount; its courage will increase as you unlock horse bonding levels.

You can call your horse by whistling with **C**. At first the whistling range is limited, but this will improve as your bonding level increases. Your horse will not respond if it is too far away, stabled, or if you are indoors or at camp.

## CRIME

## ★ CRIMINAL ACTIVITIES ★

As you might expect, your association with the Van der Linde gang will regularly call for you to take part in illegal activities.

## ROBBERIES

After you complete the game's first few missions, you unlock the ability to perform robberies at locations such as shops, homesteads and camps. Stealth is sometimes an option, but most daylight activities will require a suitable show of force. Draw your weapon once inside to threaten the occupants; naturally, you can reasonably expect certain individuals to fight back or attempt to involve the law. A successful robbery will be one in which you intimidate or quietly avoid the majority of people in the vicinity, incapacitate potential heroes quickly, and make good your escape without an extended chase.

A little later in the story, it is also possible to hold up stagecoaches and trains loaded with valuables. Talking to certain employees at post offices will give you hints about such potential targets.

## LOANSHARKING

Early on in the adventure Leopold Strauss, one of Dutch's gang members, will offer you missions in which you are tasked to "encourage" reluctant debtors to pay up.

Individuals who owe money to the gang are marked on the map with a dollar icon.

## BOUNTY HUNTING

Each town has a noticeboard at the depot or sheriff's office, occasionally displaying suspected criminals in the area. You can retrieve posters from these boards to obtain the necessary details, then hunt down bounty targets for rewards.

As a rule, you will receive more honor for bringing in a wanted target alive than by killing them. This requires you to lasso and hogtie them, then deliver them to the local sheriff's office on horseback.

Wanted targets tend to be hidden in well-guarded areas, so it makes sense to prepare your approach and observe the terrain. Some routes can prove much safer than others, be it in terms of cover points or stealth-kill opportunities.

## CRIMINAL ACTIVITY OVERVIEW

ICON	MEANING	DESCRIPTION
	Home Robbery	
	Shop Robbery	
	Bank Robbery	Use either stealth or brute force to steal from the designated target
	Stagecoach Robbery	
	Train Robbery	
	Loansharking	Confront debtors who owe money to the gang
	Bounty Hunting	Go after outlaws and bring them back to a sheriff's office, either dead or alive

## ILLEGAL MERCHANDISE

Certain "fence" shopkeepers won't trouble you with questions about whether items were legally acquired. These are marked with the icon.

Two fences are specialized in a certain type of goods: one will buy stolen wagons and the other stolen horses. These are unlocked during the early chapters of the storyline.

## ★ THE HONOR SYSTEM ★

The honor system measures how your actions are perceived in terms of morality by in-game characters. As a general rule of thumb, actions that are considered as honorable (such as rescuing townsfolk from danger or turning in criminals to the law) will add to your honor score; conversely, activities that are considered dishonorable (such as killing innocent civilians and larceny) will impact your honor negatively.

Every time you hit certain honor milestones you achieve a specific rank. Reaching certain ranks will reward you with unique benefits. You can find a complete guide to this system, with a list of all events and actions that impact your honor positively or negatively, on page 170.

## ★ WITNESSES ★

Whenever a civilian spots you committing a crime, they may try to report your action to a lawman. If they succeed you will become wanted, causing agents of the law to seek you out. To prevent witnesses from raising the alarm, you can either stop them (focus on them, then press **△/○**), or tackle them with **○/□**. You then have multiple interaction options to convince them to forget what they saw. They tend to move quickly, so you will need to be decisive in order to catch them.

Dead bodies that you leave in your wake can also prove problematic. If they are sighted and reported, lawmen will come to investigate. Should they spot you during this process, they are unlikely to leap to a conclusion that will work in your favor. This is why it sometimes makes sense to hide cadavers when there's a danger of them being discovered. To do so, approach the corpse and press **△/○**; you can then convey it to a suitable spot and press the button again to drop it.

## ★ THE WANTED SYSTEM ★

When you commit crimes that are reported by witnesses, you become wanted by the local authorities and a bounty is placed on your head. Paying your bounty effectively resets the wanted system in a region. You should note, though, that each state in the game tracks its own wanted criminals and bounty levels.

When you have an active wanted level, the area where the law is currently searching for you is represented by a red circle on your map. You can lose your pursuers by escaping, by hiding, or by killing all nearby lawmen (though this final option is both risky and costly, as it will increase your active bounty dramatically).

As a rule, escaping is by far the most sensible option. Whistle your horse if it is within range, then gallop out of the red circle. In many cases you will have lawmen in hot pursuit, but you can often outpace them, or shoot to deter or disable more persistent individuals. Once you are out of the red perimeter lawmen will continue their search for a short while. As long as you are not identified during that time, you have nothing to fear. It is usually enough to continue galloping away until the coast is clear.

Any bounty placed on your head depends on the gravity of your crime. Murders, jailbreaks and robberies count among the most serious offenses, and therefore lead to the highest bounties.

Once you have been witnessed taking part in criminal activity in an area, law enforcement will make a note of your current physical description. You can make yourself harder to recognize in the following ways:

- ★ By changing your clothes. You can do this at your lodging, at various shops, in a rented room, or when facing your horse.
- ★ By altering your hair and beard, which you can do in your camp tent or at a barber's shop.
- ★ Wearing a mask or bandana also makes it harder for witnesses to positively identify you, potentially enabling you to talk your way out of trouble if you are interrogated.

## ★ THE VAN DER LINDE GANG ★

There are many missions where fellow gang members can fight alongside you, especially when you face large groups of enemies or lawmen. Companions will attack on their own and are experienced gunslingers, but you should not count on them to do all the work for you. It is your contribution to the battle that usually matters most.

Whenever a companion's presence is integral to the flow of a mission, it is your responsibility to protect the individual in question. If they happen to die in a shootout, you will be forced to restart from the previous checkpoint.

## ★ ENEMY GANGS ★

Red Dead Redemption 2's world is home to many rival gangs of outlaws and misfits. These groups vary in size and structure, but each has its own territory and is unlikely to welcome Dutch's gang on their turf.

Attacking enemy camps is dangerous, but can yield valuable loot if the raid is a success.

# CHALLENGES

Challenges are gameplay accomplishments that you complete sequentially. There are nine categories in total.

ICON	CATEGORY	GENERAL DESCRIPTION
	Bandit	Theft and robbery
	Explorer	Treasure hunting
	Gambler	Winning table games
	Herbalist	Crafting and herb-picking
	Master Hunter	Hunting and skinning animals
	Horseman	Horse-riding feats
	Sharpshooter	Shooting feats
	Survivalist	Crafting and fishing
	Weapons Expert	Knife and thrown weapon feats

Each category features ten challenges. Completing all ten within a category will provide various rewards: attribute increases, dollar payments and, more importantly, reinforced equipment that (once unlocked) can be obtained at any trapper shop.

You can expect to complete a number of challenges via natural progression in the adventure. The more advanced ones, however, will typically require much more effort.

You can find a complete list of challenges and all related rewards on page 172.

# HUNTING

Animals are valuable natural resources that can be hunted for their meat, hides, and other useful materials.

## ★ TRACKING ★

The easiest way to track nearby animals is to activate Eagle Eye by simultaneously pressing **[E] + [R]** / **[L] + [R]**.

In Eagle Eye mode, animal tracks are clearly identified by luminous trails. You can then press **[R1] / [RB]** to highlight the trails for a while (even after you exit Eagle Eye mode), making them easier to follow.

If you pay attention during Eagle Eye mode, you will also notice a subtle visual effect emanating from your character's body: this represents scent, which is carried by the wind. You can use this information to find out in advance if the prevailing breeze is likely to carry your scent toward your quarry, potentially ruining your approach.

There are additional signs of animal life in the wilderness that you can identify to track species down, without necessarily activating Eagle Eye – including footprints, excrement, or the remains of eaten prey.

Each animal species has specific habitats. You can find annotated maps that detail these on page 149.

## ★ ANIMAL PARTS ★

Once successfully hunted, most animals in the wilderness can be skinned. You can then decide what to do with the resulting goods.

Depending on their size, animal parts are either stored in your satchel or stowed on your horse by pressing **[E] + [X]**.

★ You can cook and eat many types of meat when you rest at a campfire. Consuming food is one of the most convenient ways to maintain your attribute cores (see page 166 for details).

★ You can deliver animal parts and donate them to the gang camp, or take them to butchers in town to sell. Either way, be sure to offload them before they begin to decompose.

★ Many animal parts can be sold at general stores and to the trapper, or donated to Pearson to unlock various upgrades, including satchel enhancements.

★ Some body parts, such as teeth and claws, have mysterious powers when crafted into talismans – see page 313.

Note that skinning animals will help you to unlock ranks in the Master Hunter set of challenges.

## ★ HUNTING EQUIPMENT ★

When hunting, you need to choose your weapon carefully to avoid ruining your reward. Carcasses that have been damaged by multiple puncture wounds or other forms of damage are worth less than those that are broadly pristine.

Early on in the adventure, the bow is the hunter's weapon of choice. It enables you to perform clean and quiet kills without scaring away all the animals in the vicinity. For optimal results, try to aim your arrows at the head or neck of your prey. Note that you can call an animal while aiming at it. Doing so just before you release your arrow can help you to land a clean shot when the animal raises its head to look in your direction.

There are specialized types of arrows that can prove extremely helpful when hunting. Of particular interest are small game arrows (to obtain better quality pelts from small prey) and poison arrows (an efficient way to take down big animals quickly).

## ★ HUNTING ACCESSORIES ★

There are items that you can craft or purchase to help you while hunting.

★ **Bait** will attract wild animals, with predators and herbivores responding to different varieties. You can drop it on the ground, then hide nearby: it may take a few minutes for the appropriate creature to take notice. You can also use fresh carcasses to lure certain animals.

★ **Cover scents** can make it harder for animals to detect your presence, making it easier to sneak closer and catch your prey unawares.

# FISHING

Fishing is an engrossing activity with multiple layers of complexity to take into account, from the equipment you use to the habitat of the species you're aiming to catch. We cover this topic in a dedicated section of this book – see page 163. To get you started immediately, though, the following brief introduction will help.

## ★ BASICS ★

There are many places in the world of *Red Dead Redemption 2* where you can fish. Equip your fishing rod from the item wheel, then select a bait appropriate for the species you intend to catch.

### FISHING CONTROLS

COMMAND	EFFECT
<b>L1 / [LB]</b>	Hold to display the fishing wheel
<b>[Y] / [RB]</b>	After catching a fish, press to quick-equip bait
<b>L2 / [LT]</b>	Hold to grip rod
<b>R2 / [RT]</b>	With <b>[L2] / [LT]</b> held, hold then release to cast out, press to hook a fish; tap to flick bait
<b>[L]</b>	With <b>[L2] / [LT]</b> held, move rod
<b>[R]</b>	Rotate clockwise to reel in
<b>[O] / [B]</b>	Reset cast, cut line

Hold **[L2] / [LT]** to get a firm grip on the rod, then hold and release **[R2] / [RT]** to cast out. When you get a firm bite, the fishing rod will be pulled downwards; quickly press **[R2] / [RT]** to attempt to hook the fish before it can swim away.

Each species approaches the bait differently. Some species nibble cautiously before they take a firm bite; others are more confident and will repeatedly take firm bites. Predators can grab the bait suddenly and without warning, so be ready to react at all times. When a fish makes a meaningful meal of the bait, the bobber gets pulled under the water: this is your cue to strike.

When a hooked fish is struggling, it will aggressively try to escape. Your goal here is to control it by pulling the rod left or right in the opposite direction to the movement of the fish. This will gradually tire your potential catch, making it struggle less. Whenever you notice this, make the most of that window of opportunity to reel in as much fishing line as you can before the fish resumes its fight.

## ★ BAITS & LURES ★

Food bait (such as bread) and natural bait (such as worms) are cheap and readily available. That said, you will use them each time a fish bites – whether it escapes or you catch it. This means that you will regularly need to rebait your hook.

Artificial lures are more expensive than bait, but they can be used more than once. There are different lures that are suited to attracting river, lake, and swamp-dwelling species. After casting out using a lure, keep reeling it in slowly to make it look like a little swimming fish or insect; a stationary lure will not attract any fish. This makes lure fishing harder, but it is the only way to attract larger catches.

## ★ FISHING TIPS ★

Environmental conditions play a decisive role when fishing.

★ As a general rule, fish are less likely to see your bait in poor weather, so it makes more sense to attend to other business until the sky is clear.

★ Larger fish and rarer species can only be caught using special lures. These can be purchased in stores, most notably the Bait and Tackle shop in the Bayou.

★ There are prime fishing spots in the wilderness where larger (and even legendary) species can be found. We reveal their positions and all relevant details on page 164.

## ITEMS &amp; CRAFTING

*Red Dead Redemption 2* features a massive range of items and weapons that you can use for all sorts of purposes. This guide offers you dedicated reference chapters for both categories: see pages 300 and 280 respectively

This section acts as a simple introduction, giving a general description of the types of objects that you will be collecting and using during the opening hours of the story

## ★ ITEMS ★

- ★ **Provisions** are consumables that you can eat, drink or smoke to replenish one or more of your attribute cores, sometimes at the cost of others
- ★ **Tonics** are remedies that restore one of your main attribute meters. They also usually grant you the "fortified" status effect, which artificially extends the meter in question for a set duration.
- ★ **Ingredients** are plants and meat products that can be used for cooking
- ★ **Materials** are animal skins required for crafting
- ★ **Kit items** are unique tools with gameplay applications, such as the binoculars that enable you to see over long distances, or the bandana that you can wear to prevent witnesses from identifying you
- ★ **Valuables** are precious goods that can be sold or crafted into other items.
- ★ **Documents** include the numerous letters, pamphlets, maps, and many other items that you will accumulate throughout your adventure
- ★ **Horse cargo** corresponds to bodies and pelts stowed on your mount

## ★ WEAPONS ★

- ★ **Pistols** are compact firearms that are not as powerful as revolvers but can hold more ammunition. They can also be reloaded quickly
- ★ **Revolvers** are six-chambered sidearms that offer greater damage and accuracy than pistols, but slower reload times.
- ★ **Rifles** are ranged longarms that offer great accuracy and power, but usually have a low rate of fire
- ★ **Repeaters** provide a superior rate of fire and ammunition capacity to rifles, but lower accuracy and damage
- ★ **Sniper rifles** grant excellent damage and precision over long distances
- ★ **Shotguns** shoot a batch of buckshot. They are effective only when a fight is practically toe-to-toe, though they are peerless when it comes to clearing a room or holding a narrow choke point. They are even more impactful with slug ammunition
- ★ The **bow** is a silent and accurate weapon, ideal for stealth kills and hunting. Various kinds of arrows can be crafted and used for specific benefits
- ★ **Melee weapons** are perfect for brawls and situations where it's not possible to carry a gun. You can fight with your fists, various knives, and even hatchets and swords.
- ★ **Throwables** such as throwing knives and tomahawks are an alternative to the bow if you need to eliminate a target quietly. If stealth is not required, volatile area-of-effect weapons such as fire bottles and dynamite can decimate groups of enemies in close proximity
- ★ The **lasso** enables you to rope certain animals and to immobilize enemies. This comes in very handy when you're moving in to capture a target that is wanted alive. Once you've temporarily incapacitated someone with a lasso, keep **L2/L3** held as you approach them and then press **○/B** to hogtie them. The hogtied individual can then be looted, picked up, carried, and placed on your horse. Lassoed targets will break free after a short time if you fail to hogtie them. Likewise, hogtied individuals may escape their bonds after a while if left unattended for too long

## WEAPON MAINTENANCE

Weapons require regular maintenance to perform optimally. Taking care of them will enable you to negate any stat reductions due to wear and tear. To restore a weapon to its original state, select it from the weapon wheel and press **○/B** then clean it with gun oil – an item available from gunsmiths and from looted enemies. Alternatively, you can pay a gunsmith to clean your weapons for you.

## ★ AMMUNITION ★

There are many types of ammunition. Some of these possess special properties that can help in specific circumstances.

- ★ **High velocity cartridges** increase range and penetration through
- ★ **Split point cartridges** cause increased damage on impact.
- ★ **Express and explosive cartridges** maximize your damage output
- ★ **Small game arrows** enable you to acquire better quality pelts when hunting small animals.
- ★ **Poison arrows** are perfect to take down big animals quickly
- ★ **Fire arrows and dynamite arrows** offer increased damage potential over a wide radius.

You can change the ammunition type currently in use via the weapon wheel; use **↵** while selecting a weapon to browse through the varieties you have to hand

Ammunition can be obtained in multiple ways.

- ★ Looted from dead enemies
- ★ Found as a collectible
- ★ Bought from gunsmiths or general stores.
- ★ You can also create ammunition via crafting

## ★ LOADOUT ★

You can only carry a set number of weapons at a time. When you require specific equipment to complete an objective, move close to your horse's saddle and hold **L1/LB** to display the wheel menu, where you can move through tabs with **R3/RB**. As you gradually acquire multiple weapons within the same categories, tilt **R** in the appropriate direction and tap **L2/L3** or **R2/RT** to cycle through the available choices

The weapons you select will be the ones you will be taking with you when you move away from your horse. Choosing the right loadout is vitally important prior to certain missions that might require specialized tools – such as shotguns for crowd control, the bow to perform silent kills, or sniper rifles for long-distance eliminations.

## ★ SATCHEL ★

All the items that you find, such as provisions and materials, are stored in your satchel. You can access it by holding **○** to study or use any of the items it contains.

If you bring him the right ingredients, Pearson – the gang's butcher – will offer to craft special satchels with upgraded capacities.

## ★ CRAFTING ★

You can craft certain items on the go using the crafting tools in your item wheel, but you have access to a wider selection when you are at your camp or a campfire in the wilderness. Crafting is accomplished by using ingredients. These range from herbs and animal parts that you acquire in the wilderness, to items that you purchase in towns. Certain shops also offer crafting services to upgrade your gear – but only if you provide the required materials to the shopkeeper

Among the many items that you can craft are meals, health cures and tonics for both yourself and your horse, improved ammunition, and equipment

## ★ OUTFITS ★

When you encounter harsh weather conditions, it's important to select the right outfit. If you fail to do so, being too hot or too cold will drain your attribute cores very quickly. You can change your clothes at a camp, in a rented room, a tailor's shop, or while near or on your horse

When you are poised to commit crimes, you can also equip a mask or bandana from the item wheel to hide your face. This will make it more difficult for witnesses to identify you – and, by extension, impede the ability of lawmen to mark you as an outlaw. There are also certain areas where you may need to wear the correct outfit to avoid being recognized

New clothes can be purchased at various shops or obtained as rewards, and you can also change your hair and facial hair at a barber's shop or at your camp

## ★ WHEEL MENU ★

You can display the wheel menu at any time by holding **L1/LB** and then move through tabs with **R1/RB**

- ★ The **weapon wheel** enables you to switch weapons and ammunition as you see fit
- ★ The **item wheel** gives you access to your consumables and special items that will be of use to your character
- ★ The **horse wheel**, which is only available when in close proximity to your mount, features the items required to take care of your horse – as well as your alternative clothes and headwear

Whenever you display the wheel menu, note that the flow of time slows down but does not stop completely. If you change your loadout in the midst of a shootout, for example, your enemies will continue to fire at you while you're making your adjustments. Note that this also applies to the satchel

## ★ UPGRADES ★

You can purchase equipment upgrades from any gunsmith store, enabling you to enjoy bonuses such as increased ammunition capacity and slower weapon degradation

Though possible only at a later stage of the adventure, completing challenges will enable you to acquire reinforced pieces of equipment that provide superior boons

# MISSIONS

This chapter details every task you'll need to take to complete the *Red Dead Redemption 2* storyline, while also highlighting other opportunities that you may wish to explore as and when they become available.

Our coverage for each story chapter begins with a flowchart that reveals the exact availability conditions of all missions, as well as optional tasks and feature unlocks. If you wish to progress in the game with minimal assistance, these diagrams will help you to plan ahead without spoiling major gameplay or plot developments.

If you seek additional guidance, each flowchart is followed by traditional mission walkthroughs that will help you overcome all obstacles on the way. These also include optional mission goals that you can complete to attain the best possible rewards (and overall).

Most gameplay features are introduced gradually as you play through the opening hours of the story, with tutorials and onscreen prompts providing useful explanations. If you would like a more complete presentation of *Red Dead Redemption 2*'s key systems to get the best possible start, we encourage you to read the Primer chapter: see page 6.

# THE STORY SO FAR

The Van der Linde gang have fled from Blackwater into the Grizzly Mountains after a failed robbery. Caught by surprise by a late spring storm, they are desperately looking for shelter to lick their wounds.

This section briefly introduces the principal characters in Red Dead Redemption 2. You may wish to watch the story's opening cutscene before you read any further.

## DUTCH VAN DER LINDE

The charismatic leader of the Van der Linde gang, Dutch is radically opposed to government control. He values individual liberties above all else and dreams of living an independent existence, appropriating wealth from others and answering to no authority. He is reluctantly starting to realize that the way of life he holds dear is fast becoming an unrealistic proposition.

## ARTHUR MORGAN

Dutch's trusted right arm and the story protagonist, Arthur has been a member of the gang since he was a young boy, when he was saved by Dutch – and has followed him ever since. His loyalty to the gang leader has been unwavering in this time, though the recent events at Blackwater have clearly troubled him.

## HOSEA MATTHEWS

Hosea is both the most senior member of the gang and Dutch's oldest friend. Intelligent and level-headed, Hosea regularly advises Dutch and is valued for his wisdom. As much as he shares similar ideals, he appears to be much more pragmatic in his understanding of what lies in store for the gang.

## ABIGAIL ROBERTS

Abigail is John's romantic partner and the watchful mother of Jack. An orphan who worked as a prostitute from a very young age, she was introduced to the gang by Uncle five years ago.

## JOHN MARSTON

John has been Dutch's protégé since he was 12. He is now at a personal crossroads in his life. Husband in all but lawful status to Abigail, and the father of Jack, he isn't always clear about where his priorities lie. John was badly wounded during the Blackwater events that occur just prior to the beginning of the story.

## UNCLE

Not exactly the most productive gang member, Uncle is a wheeler-dealer and drunkard who is always around when the whiskey is open.

## BILL WILLIAMSON

Bill is an ex-cavalry soldier who was dishonorably discharged from the army. He then turned to a life of violence, drinking, intimidation and murder. He met Dutch five years ago and has been a member of his gang ever since. Easily angered and not the brightest of the band, he will do anything for Dutch.

## MICAH BELL

Micah has only been with the gang for about five months. A vindictive individual, he always seems to approve of Dutch's decisions.

## PINKERTONS

A detective agency established by Allan Pinkerton, the Pinkertons are private agents hired by the US government to track western outlaws such as those from the Van der Linde gang. Well organized and heavily armed, their goal is to put an end to the very lifestyle and ideals pursued by Dutch.

## JAVIER ESCUELLA

A notorious bounty hunter and Mexican revolutionary from Nuevo Paraiso, Javier was forced to flee his country. He joined the gang four years ago and feels a strong affinity with Dutch's ideals. Very committed, passionate and loyal, he will stick by his leader through thick and thin.

# CHAPTER STRUCTURE

*Red Dead Redemption 2*'s main storyline is divided into chapters. Each in-game chapter features a number of missions that are unlocked in a particular order, and sometimes under specific conditions. A new mission, for example, might become available only one in-game hour after you complete another.

Our coverage of every story chapter begins with a large diagram, such as the one you can see on the page to your right. This offers a convenient and comprehensive overview of all available missions, as well as how they are connected.

These diagrams also reveal key features that are unlocked as you progress in the main storyline — such as optional activities, mini-games, interactions with special characters, and even details such as the availability of weapons in gun stores. Each entry comes with a page reference that will lead you straight to the appropriate section of this guide if you require more information.

You might notice that a handful of "stranger missions", which are technically optional, are covered here rather than in the Exploration chapter dedicated to such events and opportunities. This is because these specific stories are connected to the main plot, and are time sensitive; should you fail to complete them before you reach particular story milestones, you will miss them altogether.

The pages that follow each diagram feature walkthroughs for every individual mission that is part of the chapter in question. Should you struggle with a particular scene, or need assistance to secure the best rewards, this is where you will find step-by-step guidance. Each mission walkthrough includes a map annotated with numbers. These same numbers are used as paragraph headings in the text, which should help you to find your bearings instantly.

## MEDAL GOALS

Most main story missions in *Red Dead Redemption 2* have hidden medal goals that are not revealed by the game during your initial playthrough. If your primary task is to rob a bank, for instance, a set of optional goals might require you to do so within a specific time limit while maintaining a high level of accuracy during shootouts.

The medal you receive upon mission completion depends on how many optional goals you have fulfilled.

### MEDAL AWARD RULES

MEDAL RANK	REQUIREMENTS
	Awarded if you complete a mission with all optional goals fulfilled.
	Awarded if you complete a mission with at least half of the optional goals fulfilled.
	Awarded if you complete a mission with at least a third of the optional goals fulfilled.

Though we cover these optional objectives throughout the chapter, we invite you to read the following advice before you go any further:

As we explain in the Primer chapter, we wholeheartedly recommend that you play at your own pace instead of attempting to complete all medal goals on a first playthrough. They are far easier to secure via later replays when you are familiar with each mission.

★ If you are aspiring to reach what the game defines as total completion, note that it is not necessary to achieve all medal goals.

★★ You can replay missions to try your hand at the medal goals via the Progress > Story option in the pause menu. The best time to do this, we would suggest, is after you reach the end of the main storyline.

If you manage to receive a total of 70 gold medals (in any missions), you will unlock the "Gold Rush" Trophy/Achievement (see page 334).

## IMPORTANT NOTE ON TROPHIES & ACHIEVEMENTS

If you are an ardent completionist, it's important to bear in mind that a handful of Trophies and Achievements can only be unlocked if you attend to certain tasks at specific points in the storyline. These are documented in the following table.

### TIME-SENSITIVE TROPHIES / ACHIEVEMENTS

ICON	TROPHY/ACHIEVEMENT	REQUIREMENT	NOTES
	Friends with Benefits	Complete a companion activity in each camp.	See page 146 for a complete rundown of all companion activities. Every time the Van der Linde gang relocates during the course of the story, be sure to complete one of them.
	Errand Boy	Complete five item requests for fellow gang members.	See page 145 for a full list of possible item requests. Most of these are available from Chapter 2 to Chapter 4.
	Breaking and Entering	Recover the stash from four homesteads.	Two home robberies are time-sensitive. You can find a complete overview on page 182.
	Give to the Poor	Donate \$250 to the gang's tiding box.	Make sure you take the time to deposit the required sum before the end of Chapter 4.
	Lending a Hand	Complete all optional honor missions.	The main storyline features a number of missions that you are free to accept or decline. We cover all of these assignments and their availability conditions in the pages that follow.

## ★ OUTLAWS FROM THE WEST ★

- Medal Goals**
- ★ Take no damage during the shootout
  - ★ Loot six or more items from Adler Ranch
  - ★ Finish with at least 80% accuracy

**Notes**

The main challenge here is to take no damage during the shootout. Stay in cover until opportunities arise to quickly pop out and eliminate one target at a time.

**1** After the opening cutscene, hold **X/A** and tilt **L** as required to keep up with Dutch. Take note of onscreen instructions as they appear.

When you reach the homestead, hitch your horse by holding **A/Y**, then follow Dutch on foot. Take cover in the shed on your left (**R1/RB**) once instructed to do so.

After looking in the direction of Micah (**C**), equip your revolver: hold **L1/LB** and tilt **C** upward, then release. You now need to protect Dutch by eliminating the men that are threatening him. Hold **L2/LT** to aim your weapon at one of them, adjust the reticle on your target with **R**, then open fire with **R2/RT**. Stay in cover and pick off enemies until the coast is clear. Note that one of them will appear on the upper level, and another from the outhouse on your left, requiring you to aim accordingly. You can safely ignore the O'Driscoll that runs away; killing him would only lower your honor.

**4** Follow Dutch into the house and hold **C/X** to pick up all available collectibles, including those found inside furniture and upstairs. Hold **C** when the onscreen prompt appears to open your satchel and eat some of your provisions (such as baked beans). This will restore a portion of your health core, increasing your health recovery rate – see page 16 for more details on this topic.

**5** Back outside, walk to the nearby barn and open the door with **A/Y**. Head inside, then press **C/B** repeatedly to subdue your opponent. Hold **L2/LT** and follow the onscreen instructions to interrogate him once he's down, before picking up your weapon and hat. After you have dealt with the O'Driscoll, hold **L2/LT** to focus on the horse in the barn then slowly approach while calming it with **C/X**. Lead it with **A/Y**, hitch it on a post, then enter the cabin.

## ★ ENTER, PURSUED BY A MEMORY ★

- Medal Goals**
- ★ Finish with at least 80% accuracy
  - ★ Kill all the wolves without taking any damage

**Notes**

Avoiding damage can be tough, especially during the first encounter. Try to take out at least one wolf from a distance as they run down the hill. It might also help to stay close to Javier, despite his complaints; the wolves will prioritize him, leaving you with more time to target them. Be quick though, as Javier will not survive many bites.

**1** Follow Javier on horseback until you automatically get down from your horse.

**2** Approach the saddle and open the wheel menu by holding **L1/LB**, tilt **R** upward to select sidearms, then simultaneously press **L2/LT** or **R2/RT** to select the sawed-off shotgun. Release **L1/LB** to equip the weapon.

**3** Follow Javier on foot, crouching with **C/X** when the button prompt appears. After you trigger a cutscene, walk up the hill.

When you are attacked by wolves, draw them to you with **C/X** and open fire as soon as they are within range. Note how the reticle turns red. Ideally you should aim for the head, but their movement speed makes this difficult. Focus on one at a time by holding **L2/LT** and shoot until it falls. Be ready to dive sideways with **C/X** whenever they attack you.

**5** As you ride back toward the camp, more wolves will attack you. Open fire as they surround Javier and John; once again, aim for the head if possible for quicker takedowns. The rest of the ride should pass without incident.

## CRAFTING

Though crafting is only unlocked at the end of Chapter 1, you can already make a habit of collecting resources whenever you encounter them during your travels. Even if you don't need everything that you gradually amass, you can still profit by selling surplus items – and therefore bankroll other things that will benefit you.

Crafting is achieved by using ingredients such as herbs and animal parts that you acquire in the wilderness, and items that you purchase in towns. Certain shops also offer crafting services that enable you to upgrade your gear if you deliver the requisite materials to the shopkeeper.

You can read an introduction to the crafting system on page 24 of the Primer chapter.

B

## ★ OLD FRIENDS ★

## Medal Goals

- ★ Get 15 headshots
- ★ Catch and hogtie Kieran in under 45 seconds
- ★ Complete the mission in under 15 minutes 30 seconds
- ★ Kill three O'Driscolls in the same Dead Eye use
- ★ Complete the mission without using any health items

## Notes

These objectives are not complicated, but they do call upon skills that require a fair amount of practice. To kill three enemies in the same Dead Eye instance, you need to "tag" them by moving the aiming reticle to their heads; once all three have been marked, tap (R2) (X) to fire at the targets in rapid succession.

**1** Head to the marker at the Colter camp to initiate this mission, then follow Dutch.

**2** When you are instructed to retrieve the repeater from your horse, move to the saddle and hold (L1) (LB) when in close proximity. Like before, tilt (D) in the relevant direction (here, to the left for longarm shoulder weapons) to select your loadout, then release (L1) (LB). When you own multiple weapons within one category, use (L2) (LT) and (R2) (RT) to cycle through them. For this mission, we suggest you take the carbine repeater and the cattiman revolver. As a rule, it's always wise to review your loadout whenever you expect intense battles to occur. Having the right weapons with you will often make your life significantly easier.

**3** Follow Dutch until he asks you to crouch (D) (LT), then get in cover (R1) (RB) near him. During the conversation, hold (L2) (LT) and choose to take the lead with (D) (X). This will give you full control over how and when you choose to initiate hostilities. Carefully adjust your aim to take down the first enemy with a clean headshot.

**4** This battle involves multiple allies and enemies. Move from one cover position to the next with due caution, regularly reloading with (D) (B) when you are safe. Keep track of where the O'Driscolls are

located on your radar: their positions are marked with red dots, or red segments that indicate their approximate location when they are out of radar range. Pay attention to elevated vantage points, such as the water tower: these are prime positions for enemies to appear. Be careful not to overlook them.

**5** After the initial assault, loot the bodies of some of your victims. A second wave of O'Driscolls will soon attack from the forest; this serves as a formal introduction to the Dead Eye feature. Activate it with (D) (LB) while aiming your weapon to trigger a slow-motion effect that makes it much easier to target and dispatch your foes. While the ability is active, you automatically "tag" enemies when you move the reticle over them. Press (R2) (RT) to fire at all marked enemies in quick succession. Bear in mind that marking their heads guarantees a clean kill. Dutch will soon ask you how to proceed next. We suggest you choose to defend, as it will give you the advantage of superior cover points during the next stage of the battle. During this entire section, try to stay close to your allies: keeping them alive is a mandatory requirement.

**6** Feel free to loot the bodies to top up your ammunition. There are also a handful of items to pick up in the camp. Once you're done, head to the area marked in yellow on your map and radar to find more items to retrieve and, more importantly, dynamite in the large red crate.

Follow Dutch during the ride back to camp, then start chasing the man as soon as Dutch asks you to. During your approach, select the lasso in the weapon wheel; you need to take him back alive. Once you are close enough, aim at the O'Driscoll by holding (L2) (LT) and throw the lasso with (R2) (RT). Keep (L2) (LT) held at all times, even when your target falls to the ground, then dismount and walk to him. Press (D) (B) at close range to hogtie him, rendering the man completely harmless. Pick him up and stow him on your horse, then head back to camp and carry your prisoner to the highlighted area to complete the mission.

P

## ★ THE AFTERMATH OF GENESIS ★

## Medal Goals

- ★ Kill each deer with one arrow
- ★ Do not spook either deer
- ★ Get a clean kill on the second deer

## Notes

As long as you crouch-walk at all times, remain out of sight, and secure headshots on the first attempt, you should complete all of these objectives.

**1** You will trigger this mission by greeting Pearson at camp. Hold (L2) (LT) while next to him, then press (D) (X).

**2** Follow Charles until you automatically dismount. Retrieve your bow from your horse's saddle before you begin the search for deer in the vicinity.

There are deer tracks in front of Charles. Crouch-walk as you follow them to make as little noise as possible. If you struggle to identify them, press (D) (LT) and (D) (RT) simultaneously: this will activate Eagle Eye, which heightens your instincts. In Eagle Eye mode, points of interest

such as animal tracks are highlighted. You can even choose to "lock" these tracks with (R1) (RB) to keep them visible for a time after you disable Eagle Eye.

When you spot the first deer, equip your bow and aim at the animal by holding (L2) (LT). Press and hold (R2) (RT) to draw the string until it's taut (pay attention to the sounds) to increase power, but be sure to release the arrow before your stamina is depleted. Aim to hit the deer's head or neck to secure a clean kill. Such "perfect" kills lead to hunting spoils of optimal condition – and, therefore, greater value.

The second deer is on the other side of the river. Activate Eagle Eye again to locate its tracks, then slay it in the same fashion.

**6** Pick up either of the carcasses by holding (D) (X), then press (D) to whistle your horse. The range of this call is initially limited, but will improve over time as the bond with a steed grows (see page 18 for details). Stow the deer on the back of your horse before riding back to camp with Charles.

**7** Drop the carcass in Pearson's kitchen, then hold (D) (LT) to skin the animal and complete the mission.

EPILOGUE 2

## ★ WHO THE HELL IS LEVITICUS CORNWALL? ★

### Medal Goals

- ★ Save Lenny when he is hanging from the train
- ★ After stopping the train, take out the guards within one minute 30 seconds
- ★ Take no damage during the shootout
- ★ Get ten headshots
- ★ Complete the mission without using any health items

### Notes

These requirements are all about accuracy and efficiency. The key scene is the shootout that occurs after you stop the train. Make sure you remain in cover at all times, moving to secure quick individual kills when nobody is firing at you. Mastery of headshots is a real boon here.

**1** Follow Dutch as he explains the plan.

When you reach the robbery site, ride down toward the water tower to check on Bill. After your brief conversation, pick up the spool by holding **△/X**, then walk to the nearby detonator to connect it with **△/Y**. Once you're done, ride back up to Dutch on the cliff above the tunnel. Don't forget to select your loadout before the robbery begins. The cartman revolver and carbine repeater are excellent choices here. You should also take the time to conceal your face with a bandana: hold **L1/LB** to display the wheel menu, then switch to the item wheel with **(R1/RB)**, tilt **R** toward the bottom-left, then release **L1/LB**.

Once the train arrives, sprint to the overhang and jump on the train. Move to the side and hold **△/Y** to grab Lenny. Tap **△/A** repeatedly to pull him up.

**4** Head toward the front of the train. After Lenny incapacitates the first guard, you can ask him to eliminate the second one, or do so yourself. Crouch-walking to him to perform a silent melee takedown is an option, though a headshot with any weapon works just as well. You will need to get rid of a few more men as you progress. Be sure to take cover if you're not confident that you can eliminate them swiftly.

**5** When an enemy grapples with you at the front of the train, press **△/B** repeatedly to break free and knock him down. You should then head to the front of the engine car and press **△/Y** to pull the brakes.

**6** As soon as the train stops, take cover behind the nearby rock and pick off the enemies one after the other. They will soon be joined by a second wave coming from the back of the train. Carefully move towards them from one cover point to the next until the last adversary falls.

After you are joined by the rest of the gang, walk to Bill to take some dynamite and place it on the carriage door with **R2/RB**. Light the fuse with **△/Y**, then retreat to a suitable distance before it explodes. Get on the train and search the carriage thoroughly to obtain various collectibles. Your main objective is the lock box in the cabinet at the back of the carriage; hold **△/Y** to open it and retrieve the bonds inside. Back outside, deal with the guards as you see fit. If you decide to get them back on the train rather than kill them, make your way to the engine car. Note that you are free to loot all the bodies and search the carriages to secure more collectibles. Start the train with **△/Y** to complete the mission.

## ★ EASTWARD BOUND ★

### Medal Goals

- ★ Pick up Javier when you enter Horseshoe Overlook
- ★ Complete the mission within six minutes

### Notes

Javier awaits just before the camp's entrance, your final destination. Stop the wagon close to him to pick him up.

**1** Follow the rest of the caravan until a cutscene is triggered.

**2** Pick up the broken wheel by tilting **L** forward and roll it back toward the wagon. Bash it a few times with **△/A** to put it back into place.

Get into the driving seat with **△/Y**. The rest of the journey to Horseshoe Overlook should be entirely uneventful. Don't forget to pick up Javier just before you reach your destination.

## THE STORY SO FAR

After a failed robbery, Dutch's gang fled from Blackwater into the Grizzly Mountains, where a late spring storm left them half-frozen and starving. Holed up in an abandoned mining town, they tended their wounds before finally catching a break. After stealing documents from the rival O'Driscoll gang, Arthur and his companions were able to rob a train and seize funds from its powerful local sponsor, a railway magnate called Louisa Cornwall. Seizing the opportunity of a lull in the storm, the gang decided to move east to a new camp location: Hornehook Overlook.

U

## ★ POLITE SOCIETY, VALENTINE STYLE ★

**Medal** ★ Return the lost wagon horse to its owner  
**Goals** ★ Find Karen in under 45 seconds  
**Notes** These requirements are entirely straightforward. Head straight for room 2B upstairs once you enter the hotel to find Karen within the allotted time.

Speak to Uncle at the edge of the camp to trigger this mission, then follow the waypoint as you ride toward Valentine. Note that you can help the coach driver to get his horse back if you wish. This optional

objective serves as a refresher course on how to calm horses: approach while focusing on it by holding **L2**, **U** then press **△**/**Y** until you can lead it back to its owner (**△**/**Y**).

**2** Once in Valentine, follow Uncle and the various onscreen markers and objectives until a stranger assaults Tilly. Walk over and intervene to rescue her.

Next, head inside the hotel and make your way to room 2B upstairs. Kick the door, knock out the man inside with melee attacks (**△**/**Y**), then follow Karen back outside.

**4** As soon as the man who recognizes you starts to flee, borrow a nearby horse and chase him. Tap **△**/**Y** repeatedly to gallop at maximum speed; remember that timing your presses to match the rhythm of your horse's hooves will enable you to avoid stamina loss. If you lose sight of your target, a red segment on the outer rim of your radar will indicate his general whereabouts.

**5** The man will eventually fall from his mount and end up hanging from a cliff. You are free to either save him or let him die. Both outcomes end the mission, though your decision will lead to a gain or decrease in honor (see page 19 for details). Note that you can then return the borrowed horse to its owner in Valentine for an honor gain.

FE

## ★ AMERICANS AT REST ★

**Medal** ★ Save Javier within 15 seconds  
**Goals** ★ Defeat Tommy with in one minute 30 seconds  
**Notes** Follow the advice detailed in the accompanying walkthrough.

**1** Meet Javier and Charles at the waypoint in the saloon. Punch with **△**/**Y** during the brawl that ensues, but be ready to pay attention when new fighting mechanics are introduced (see the nearby box-out for details). After taking down your first opponent, you can assist your three companions.

After the brief cutscene, deal with the man restraining you by tapping **△**/**Y** repeatedly. You now need to rush to help Javier, who is being attacked by the giant who walked down the stairs.

This individual, Tommy, is a much more dangerous pugilist than those you have fought before now. Punching him relentlessly will simply not work, so you need to opt for astute counterattacks: focus on blocking his attacks, then swiftly hit him with a punch or two when an opening presents itself—and repeat. Mash **△**/**Y** to break free should he manage to grab you.

## NEW MELEE MECHANICS

The "Americans at Rest" mission introduces two new moves that you can use during brawls.

Press **△**/**Y** to block incoming assaults. This is an essential skill that you will need to employ when you face skilled or resilient foes who are more likely to counter your blows. In early encounters, you'll taking the initiative: most of the time your opponent will defend your job on, so you'll want you with a counter. Instead, let him attack you and, before his blow lands, block: this will briefly leave him exposed to a couple of quick punches. Repeat this sequence multiple times and your opponent will soon fall. Note that pressing **△**/**Y** (with **L2**/**U** held and **U** timed in a direction) with the right timing enables you to dodge a blow: you can then counterattack while your opponent is off-balance.

You can grapple enemies with **△**/**Y**. You then have three options: releasing them by pressing **△**/**Y**, choking them by holding **△**/**Y**, and punching them (repeatedly if you want) with **△**/**Y**.

## ★ WHO IS NOT WITHOUT SIN ★

**Medal Goals**

- ★ Win two hands of poker
- ★ Return Swanson to camp within two minutes five seconds

**Notes**

As long as you sprint on foot and gallop while on horseback, the time-sensitive requirement should pose no particular difficulty.

**1** Head to Flatneck Station, just southwest of the camp, and look for Reverend Swanson inside the building. If you would like an introduction to poker, accept the man's invitation, you can find a detailed guide to the game on page 220.

**2** Back outside, look for the reverend in the highlighted area. You can talk to two characters outside the station to get directions. Once you've found him, you have to knock out his creditor. Much like Tommy in "Americans at Rest", this is not your average opponent, so you need to adopt defensive tactics. Allow him to attack you first and block with **[X]**, then immediately follow up with a brief flurry of punches.

**3** When the creditor falls, you will notice that a passer-by saw your deeds. If you let this witness report your crime, you will become wanted and a bounty will be placed on your head. This acts as an introduction to the Wanted system (see page 20). For now, all you need to know is that you can stop witnesses before they report illegal activities, but you will need to give chase immediately. In this instance, sprint or gallop after the man and hold **[L]** **[D]** to interact with him. Select "Stop Witness" (**[X]** **[Y]**), then threaten with the same button. Alternatively, you can beat him, rob him, or perform a warning shot by aiming and tapping **[X]** before pressing the trigger.

Reverend Swanson can be found at the nearby viaduct, and you need to act swiftly: sprint to his position and help him to release his foot by tilting **[L]** forward and press **[X]** **[A]** repeatedly.

**5** After the cutscene, pick up Swanson and stow him on your horse. Ride back to camp, hitch your mount at the marked location, then finally drop the reverend off in his bed to complete the

## ★ THE FIRST SHALL BE LAST ★

**Medal Goals**

- ★ Silently kill the bounty hunters by the river with Javier
- ★ Shoot the rope to free Sean
- ★ Get ten headshots
- ★ Complete the mission without using any health items

**Notes**

The tricky part here is to secure ten headshots. Get used to flicking **[R]** every time you lock on to a target and this should become less intimidating.

**1** You need to meet Javier just to the north of Blackwater to initiate this mission. The entire region is in lockdown, meaning that any law enforcement forces will shoot on sight. Stay close to the river to the north to avoid any potential encounters.

**2** After the cutscene, mount your horse and head to the highlighted area to the north. Follow the boat as it sails down the river until it moves close to the shore. Observe the scene with your binoculars, then ride with your allies to the riverside.

Cross the river with Javier. Once Treawny performs his diversion crouch-walk to reach the two guards and – with your knife in hand – stealth-kill the one on the left.

Your objective is to move up the canyon, running from one cover point to the next and eliminating any foes in range. Look out for snipers, as they can be a nuisance: try to eliminate them with clean headshots when an opportunity arises.

Apply the same strategy when you storm the enemy camp at the top of the canyon: take cover, briefly hop out and lock on to a target (ideally flicking **[R]** at this precise moment to aim for the head), then fire and switch back to cover – and repeat. Note that you can shoot the rope from which Sean is hanging to rescue him before the battle ends. Cut him free when he's on the ground to end the mission.

## ★ PAYING A SOCIAL CALL ★

### Medal Goals

- ★ Silently kill four O'Driscolls
- ★ Get 12 headshots
- ★ Finish with at least 80% accuracy
- ★ Complete the mission without using any health items

### Notes

If you eliminate all the lone O'Driscolls on the camp perimeter with bow headshots, you then only need to carefully and methodically take out the remaining ones from cover during the final shootout to get a perfect result.

**1** Speak to Kieran, the O'Driscoll tied to a tree at your camp, to begin this assignment. Follow him and John on horseback until you reach the Six Point Cabin hideout. Make sure you take the bow, your carbine repeater and your throwing knives with you before you move away from your horse.

**2** Your priority here is to remain incognito, which is easier to achieve by taking the lead. Start by crouch-walking towards the O'Driscoll who is relieving himself against a tree. Wait until he's done talking to his friends, then take him down silently from behind with your knife in hand. Proceed in the same way with the next two enemies: as you stab one, Bill will kill the other simultaneously. There is one more lone guard that you can kill in the same manner at the bottom of the hill.

Once at the perimeter of the hideout, your goal is to eliminate all O'Driscolls in the area. Though a shootout is a perfectly valid approach, you will make your life much easier by eliminating as many foes as you can with stealth kills in advance. Close-range assaults are impractical here, though, so this is where your bow will come in handy: throwing knives are slightly less reliable due to their limited range. You can eliminate all lone guards without raising the alarm. They are all represented by red dots on your map, making them easy to track.

**4** When the only O'Driscolls remaining are those around the campfire, stealth is no longer viable. Choose a suitable cover point, draw your carbine repeater, then open hostilities with a clean headshot. The rest of the battle should pose no particular problems. Head to the cabin when the coast is clear.

**5** After the cutscene, search the cabin. In addition to the various supplies available, there are a few money clips on the table. Don't forget to examine the chimney and to pick up the double-barreled shotgun hung on it. Open the weapon wheel and press **△** while selecting the newly-acquired shotgun to display the maintain menu: you can then press **○/X** to clean it with gun oil. Before you leave, note that there are a few additional items to collect in the camp outside.

(L) \$

## ★ MONEY LENDING AND OTHER SINS – I & II ★

**1** Note that there are no medal goals for this mission. Speak to Strauss at the back of the camp, where he will ask you to retrieve money from debtors. You only need to go after one of them to complete the mission, but taking care of all three will lead to a better payment.

**2** Mr Wröbel lives in a small house found in the middle of a marked area, just west of camp. Confront him, then loot his house to settle the debt. You can obtain various supplies while there, and even steal his horse from the barn outside.

**3** You will find Chick Matthews under a wooden canopy in Guthrie Farm, to the west of Emerald Ranch. To identify him, however, you first need to talk to the man sitting on a nearby uprooted tree. Matthews uses this opportunity to get away on horseback. Immediately gallop after him; as soon as you catch up, stop him as you see fit, though we recommend the lasso. This will reward you with a treasure map, which you can examine by selecting it in your satchel.

After viewing the treasure map, head to the waypoint and examine the hole in the tree.

**5** Lily Millet sits on a bench by a house at the northern edge of Emerald Ranch, to the east of Valentine. Confront her to trigger a fist fight with Cooper. Focus on defensive tactics and counterattacks to knock him out, then loot him to retrieve the money.

**6** Once ready, return to camp and interact with the tidying box located next to Dutch's tent. This unlocks the ledger, a feature that enables you to purchase camp upgrades and to restock supplies. Open it and purchase an upgrade of your choosing – such as the provisions, for example, which will unlock better food items for you to collect. To study the available options, see page 143.

(D)

## ★ A QUIET TIME ★

### Medal Goals

- ★ Try to make amends with an old rival
- ★ Catch Lenny in the act
- ★ Don't get arrested

### Notes

Tommy, the old rival, is sitting at a table in the main room while you're looking for Lenny for the first time, while Lenny can be caught in the act in room 1A upstairs when he disappears for the third time. Finally, run on the left side of the alleyway to escape the law, avoiding the wooden barrier before you reach it, then turn right and jump over the fence. Achieving this leads to an alternative ending scene where you wake up in the wilderness.

**1** After speaking to Dutch in his tent to begin this mission, mount your horse and head to the Valentine saloon with Lenny.

**2** Once inside, lean on the bar with **△** **Y**. The rest of this sequence is best enjoyed without advance notice of what occurs. If by any chance you struggle to locate Lenny in the three instances when he disappears, you will find him first on the walkway upstairs, then on the bar, and finally in the main room.

H

## ★ EXIT PURSUED BY A BRUISED EGO ★

**Medal Goals**

- ★ Track the bear within one minute 30 seconds
- ★ Shoot the bear at least six times
- ★ Complete the mission within 12 minutes

**Notes**

Tracking the bear and completing the mission quickly is easy when you know where to go in advance on a repeat attempt.

**1** Hosea awaits your arrival at camp. Start by removing your saddle from your old horse (hold **L3**/**LB** and **○**), then place it on your new one. You can now mount it and follow Hosea to Valentine.

**2** Take the horse inside the stable and decide what to do with it. When offered the opportunity to buy a new one, make your decision in accordance with the stats and money that you are prepared to spend. A good mount can really make a difference in the vast *Red Dead Redemption 2* game world, so an upgrade is one of the best investments you can make. Back outside, mount up and follow Hosea again.

**3** When Hosea asks you to hunt a rabbit, draw your bow and take down the animal, then set up camp by selecting the corresponding entry in the item wheel. Once seated in front of the fire, follow the onscreen instructions to cook plain game twice, then go to sleep until morning.

After a little crafting, get back on your horse and follow Hosea. Don't forget to take your best weapons from your saddle. Look for clues of the legendary animal's presence by activating Eagle Eye (**L3**+**○**/**LT**+**○**). Clues are highlighted by a distinct visual effect; inspect the footprints by holding **△**/**Y**. Using Eagle Eye again will then reveal the animal's tracks, which you can highlight with **RB**/**RB**. Continue to look for new clues and follow the trail until you trigger a cutscene.

**5** Whether you choose to use bait or to split up, you end up facing a huge bear. Fire at will during the automatic Dead Eye moment! Once the coast is clear, check on Hosea to complete the mission. If you feel up to the task, you can now attempt to finish off the bear to defeat your first legendary animal (see page 162).

L5

## ★ MONEY LENDING AND OTHER SINS – III ★

**Medal Goals**

- ★ Complete the mission within two minutes ten seconds

**Notes**

Beat up Downes to conclude the exchange quickly then rush back to camp.

**1** Search for Thomas Downes in the marked area, just southwest of Valentine. You will find him a short walk from the east of the house. Try to convince him to pay his debts in whichever manner you deem appropriate.

**2** After the cutscene, return to Strauss back at camp to complete the mission.

M

## ★ BLESSED ARE THE MEEK? ★

**Medal Goals**

- ★ While escaping, kill all mounted lawmen within 55 seconds
- ★ Get 15 headshots
- ★ Finish with at least 70% accuracy
- ★ Complete the mission without using any health items

**Notes**

Read "The Sharpshooter Technique" to improve your ability to perform headshots. Given the number of enemies you face, this is the perfect mission to practice this technique until you master it, making it easier to complete all four objectives in one go.

**1** You will find Micah at Strawberry's jail building. Make sure you arrive well-equipped and completely rested, as you will have to survive a major shootout during this mission.

You can speak to Micah from outside, through the barred window. To free him, grab the hook from the nearby steam donkey and attach it to the cell window, then return to the device and pull the lever. You can alternatively use dynamite should you have any at hand or loot the cell key from the lawmen inside the jail.

**3** As soon as Micah is out, a fierce battle will take place on the streets of Strawberry. As usual, jump in and out from cover to eliminate your enemies effectively, landing as many headshots as possible (see "The Sharpshooter Technique"). Whenever you clear an area of lawmen, follow Micah and ready yourself for the next wave.

**4** Once you're back outside the jail building, hop back on your horse and follow Micah. Law enforcement forces will likely give chase. Use the same technique as before to take them down quickly with headshots. This works just as well on horseback as it does on foot. Ride away until you are no longer wanted.

### THE SHARPSHOOTER TECHNIQUE

A fundamentally simple but hard-to-master technique makes it possible to align instant headshots on most enemies if you are using *Red Dead Redemption 2*'s default aiming scheme. Every time you lock on to an adversary, your weapon's reticle is positioned on the target's chest. If you very briefly tilt **R** at this very moment to align the reticle over the head and open fire, you can kill the foe instantly.

- ★ Hold **L2**/**LB** to lock on to your target (reticle on the chest).
- ★ Apply a subtle flick on **R** (reticle on the head).
- ★ Immediately press **R2**/**RT** to fire (headshot).
- ★ Release **L2**/**LB** and you can repeat the maneuver on the next target in the vicinity.

With practice, this method will enable you to dispatch groups of foes in mere seconds. Note that you can also equip special ammunition types to improve your efficiency (see page 284).

## ★ WE LOVED ONCE AND TRUE – I TO III ★

- Medal Goals**
- ★ Peacefully convince the Chelonians to let you take Jamie
  - ★ Return Jamie to Mary within two minutes

**Notes**

When returning Jamie to Mary, follow the railroad rather than the path suggested on your radar to save time. Having a few horse stimulants can be useful to be able to constantly gallop at full speed. Choose the "positive" answer in both instances during your conversation with the Chelonian leader by pressing **[Y]** **[X]**.

**1** Head to Arthur's tent and read the letter on the table.

**2** Next, make your way to Mary's house at the northern edge of Valentine. During the cutscene that follows, you are free to decide whether you wish to help Mary or not. If you accept, you will continue with the rest of the mission. Should you refuse, this particular story will end here.

**3** If you chose to help Mary, you can now ride to the next waypoint to the east of Cumberland Forest. Hitch your horse and walk to the group of Chelonians by the cliff's edge.

**4** After the cutscene, hop on your horse and gallop after Jamie. This is a rather long chase, so try to press **[X]** **[A]** in sync with your mount's gallop to avoid stamina loss.

When you regain control of Arthur after the train cutscene, tightly hold **[R2]** **[RT]** to fill the meter, then press firmly to draw your weapon: this triggers an automatic Dead Eye instance in which you have a couple of seconds to align a clean shot at Jamie's gun. Make sure the reticle is suitably positioned (killing Jamie will result in failure), then press **[R2]** **[RT]** to fire.

**6** Finally, head to Valentine's train station. Note that you can actually follow the railroad for a more direct ride: it will take you straight to your destination.

## ★ GOOD, HONEST, SNAKE OIL ★

- Medal Goals**
- ★ Stop Benedict Albright falling off the cliff
  - ★ Hogtie Albright within one minute 15 seconds
  - ★ Return Albright to the sheriff within one minute 30 seconds

**Notes**

Our walkthrough covers all of these requirements. Note that you can shave a few seconds off the timer on your way back to the sheriff by heading directly to his office rather than by staying on the main road.

**1** Head to the sheriff's office in Valentine to trigger this mission. Your objective is to capture a man with a bounty on his head and deliver him back to the sheriff. Ride to the location marked on your map, which is directly north of Valentine.

When you reach the gorge, do not cross the river. Instead, ride up the cliff path that runs alongside it to reach your target, Benedict Albright. After you confront him, pull him up when he falls from the cliff: tilt **[L]** upward and press **[X]** **[A]** repeatedly.

**3** As soon as the chase begins, gallop at full speed alongside the river to catch up with Albright. Cross the river at the first opportunity and continue the chase on the opposite bank.

**4** You will soon reach an area where the current is weaker, enabling you to lasso the fugitive while he's still in the water. Hold **[L2]** **[LT]** and **[R2]** **[RT]** whilst on horseback to pull the target in, then dismount and walk to him: you can then press **[Y]** **[B]** to hogtie him. Once he is suitably restrained, you can release **[L2]** **[LT]**.

**5** Finally, stow Albright on your horse and return him to the sheriff's station. The mission ends when you drop him in the cell.

## ★ THE SPINES OF AMERICA ★

- Medal Goals**
- ★ Loot all items from the Carnody Dell house
  - ★ Don't get spotted
  - ★ Deliver the wagon to Emerald Ranch within one minute 10 seconds

The night time scenario (**[E]**) is by far the easiest option if you intend to complete all three objectives. As long as you crouch-walk during the entire burglary, opening all doors gently, you will remain undetected. This will leave you plenty of time to methodically loot all items in the house. Don't neglect to take the food and drink that you find. You can leave via the stagecoach at the front of the property – the shortest and safest way to get to Emerald Ranch and meet the deadline.

**1** Speak to Hosea outside Emerald Ranch's barn, then ride with him to the northwest.

**2** Once you reach the designated area, hitch your horse and hide behind the marked rock. From this position, take out your binoculars: hold **[LT]** **[LB]**, press **[RT]** **[RB]** to display the item wheel, tilt **[R]** to the right, then release **[LT]** **[LB]**. Look toward the house through the binoculars until a cutscene is triggered. You then have to choose between robbing the house during the day (**[E]**) or at night (**[E]**).

**3A** In the daytime scenario, you need to sneak into the house via the back door while Hosea causes a distraction at the front. Your time is limited as his diversion only lasts a couple of minutes, but the house is completely empty while you avail yourself of its valuables. Just be sure to leave the premises when Hosea begins to say goodbye. If you wish to take no chances, all you need to do is search the chimney to complete your main objective. However, there

are many additional valuables in the house's three chests (two downstairs, and one upstairs), as well as inside various pieces of furniture. Just don't forget to close any door or drawer that you open: if you fail to do so, someone will notice the burglary and raise the alarm. When ready, quietly go around the back of the house and meet Hosea inside the barn.

In the evening scenario, arguably the easiest of the two, you can enter the house via the front door – but silence is golden, as you must take care to avoid waking the sleeping occupants or leaving any clue of your nocturnal visit. As long as you crouch-walk the whole time and remember to leave all furniture as you found it prior to pilfering, though, little can go wrong. After you reach the required haul, Hosea will be waiting for you on the stagecoach outside the front door.

**4** You now need to take the stagecoach back to your starting point at Emerald Ranch to complete the mission. In the daytime scenario, it makes sense to make a left U-turn right as you leave the barn: this will not expose you to any potential witnesses as you depart. In the nocturnal scenario, Hosea awaits you aboard the stagecoach outside the front door. You are then free to drive straight back to Emerald Ranch.

## ★ POURING FORTH OIL I-IV ★

<b>Medal Goals (Part II)</b>	★ Deliver the wagon to the drop-off within one minute 45 seconds
<b>Notes</b>	This is much easier to achieve if you steal the oil tank from Cornwall Factory Kerosene & Tar (2A), as this leaves you much closer to the drop-off point

<b>Medal (Part IV)</b>	<ul style="list-style-type: none"> <li>★ Kill all the train guards before Sean fires a shot</li> <li>★ Clear the baggage car of loot</li> <li>★ Escape the law within one minute 30 seconds</li> <li>★ Get ten kills using Dead Eye</li> <li>★ Complete the mission without using any health items</li> </ul>
------------------------	---

<b>Notes</b>	The key here is make effective use of the Dead Eye "tagging" function: while in Dead Eye mode, mark the heads of multiple enemies with (RT) (RB) before taking them all down at once with (R2) (X). This method is the best way to kill the train guards before Sean can fire a shot. During the main shootout, brief Dead Eye bursts to kill single targets are also great to work toward the related requirement. The rest of the objectives are a simple matter of efficiency
--------------	--

**1** After speaking to John at camp, your goal is to steal an oil tank required for the train robbery; this part will be skipped if it is the only mission available, or should four in-game hours pass while it is active. There are two possible locations, both marked by a dedicated icon (4): a challenging one at Cornwall Kerosene & Tar (2A), and an easier one that moves from that same location to Valentine (2).

This oil tank is located just north of the railway, in the yard enclosed by a wooden fence, with multiple guards patrolling in the area. Their numbers are such that a pure stealth approach is unlikely to succeed

Instead, stand behind the fence and observe the yard from the northeast corner. After a short while, you should notice that the guards' patrols leave the oil tank unattended. Use this opportunity to clamber over the fence and sneak to the wagon. Jump into the seat and brazenly ride it straight out of the courtyard. The sentries posted at the nearby exit might fire at you – but it should be too little, too late. Head south until you are outside the red circle to complete your escape

This alternative wagon is much easier to steal. Initially located close to the other one, a driver eventually arrives to deliver it to Valentine. This leaves you free to take possession of the oil tank at any point on the way or to steal it from its fixed position once it reaches its destination. All you have to do is take out the driver. Be mindful of potential witnesses.

- 3** Take the oil tank to the waypoint
- 4** Meet John back at camp
- 5** After one in-game hour, you can then meet him again at the waypoint to the east of camp, then head to the next one to the southwest
- 6** Bring the wagon to a halt over the railway tracks. Afterwards, head inside the first carriage. Accompany John and rob the passengers by holding (L2) (Y), following the onscreen prompts to beat them as required. Repeat this show of force in the second carriage until John asks you to go check on Sean

Head to the baggage car at the far end of the train and keep a close eye on Sean. As soon as he is attacked by an enemy, activate Dead Eye to take down the aggressor, then immediately pick off the second man on the rooftop just above. Note that you can now manually "tag" enemies with (RT) (RB) before firing while in Dead Eye mode. Two additional assailants will appear inside; deal with them immediately. Once the coast is clear, search the baggage car to retrieve valuables, particularly in the chest and cabinets at the far end

8

When lawmen arrive after a brief cutscene, you need to eliminate them all from your position on the train. A second wave will soon appear on the other side, so stay behind cover. If you feel overwhelmed, get rid of at least a few targets instantly with Dead Eye. After dispatching all hostiles, mount up and gallop straight to the north until you are clear of the search area. If you are fast enough, you will lose any pursuers before they have a chance to reach you. If not, take down those closest to you, and keep going in the same direction until the mission is complete.

M

## ★ AN AMERICAN PASTORAL SCENE ★

<b>Medal Goals</b>	<ul style="list-style-type: none"> <li>★ Headshot each of the mounted guards protecting the wagon</li> <li>★ Kill ten enemies using Dead Eye</li> <li>★ Complete the mission within five minutes fifty seconds</li> <li>★ Complete the mission without using any health items</li> </ul>
<b>Notes</b>	You can take out most of the mounted guards with swift Dead Eye headshots. Try to gallop close to them to make the maneuver a little easier

**1** Head to the marked area just east of Strawberry. You'll find Micah by a campfire overlooking the forest. Follow him until the stagecoach arrives

Before you can rob the stagecoach, you need to eliminate the guards surrounding it. As they are all in relatively close proximity, this is a perfect opportunity to take them all down with a Dead Eye ambush: carefully tag their heads with (RT) (RB), then open fire to kill them all at once. If your Dead Eye gauge is empty, you'll either need to consume a suitable tonic to replenish it, or use standard marksmanship to complete the objective

**3** Once all guards are down, get on the stagecoach. After the ambush, methodically pick off each enemy in turn using your new weapon, making careful use of cover at all other times. Join Micah at the stagecoach and shoot the lock to complete the mission

A

## ★ A FISHER OF MEN ★

**1** You will find Abigail in her tent at camp. Speak to her, then to Jack, before jumping onto your horse and heading to the marked area.

**2** Once at the riverbank, follow the onscreen instructions to equip your fishing rod from the item wheel and the cheese from the bait wheel. Next, cast out, this works in the same way as aiming and firing a weapon. You then need to wait and press (R2) to hook the fish when you feel a bite. As soon as a fish attempts to escape, tilt (L) in the opposite direction to where it is moving, then rotate (R) clockwise to reel it in whenever it tires. Keep alternating between these processes until you catch the fish. Before you go for a second fish, quick-equip more cheese (or do so via the bait wheel if you prefer). After the cutscene, ride back to camp to complete the mission.

**Medal Goals**

- ★ After arriving at the river, catch a fish within one minute 30 seconds
- ★ Complete the mission within seven minutes 20 seconds

**Notes** You should find both objectives easy to complete – even on a first attempt.

F

## ★ THE SHEEP AND THE GOATS ★

**Medal Goals**

- ★ Herd all the sheep back to the pen in Valentine
- ★ Get 35 headshots
- ★ Finish with at least 80% accuracy
- ★ Complete the mission without using any health items

**Notes**

If you struggle to maintain the required accuracy make liberal use of Dead Eye to align clean headshots, consuming tonics to refill the meter when necessary.

**1** John awaits your arrival at Valentine, in the auction yard. Follow him as you lead your horse to the hitching post.

**2** Enter the gun store and speak to the gunsmith to browse his catalogue. Peruse the Rifles section and flip pages until you reach the rolling block rifle, which is the one that you need to purchase.

**3** Meet up with John back outside and follow him on horseback.

**4** At the top of the ridge, walk to John's position. From this vantage point, shoot close to the ranchers with your new weapon to scare

them off, but be careful not to wound them. The targets can be a little hard to identify from such a long distance, so look for the large flock of sheep first.

Once the ranchers are gone, return to your horse and ride down the hill. Move near the stragglers to return them to the flock, then start herding the entire group by moving behind them to make them go in the desired direction. During the journey, be sure to round up any stragglers quickly; you should also take care not to trample sheep. Shout or even shoot close to them to make them run faster. Your destination is Valentine's auction yard.

6

Meet Dutch in the saloon. After the cutscene, you have an opportunity to demonstrate your shooting prowess. Hold (R2) very lightly to fill the meter entirely, then firmly to trigger Dead Eye mode. "Tag" the heads of the two men holding your friends hostage as a priority, and any other hostiles if you have time; more kills will simplify the ensuing shootout.

7

Fight your way through the streets of Valentine, popping in and out of cover, and landing as many headshots as you can. After Strauss is

shot, your task is to protect him. Use the cart as cover, moving from one side to the other in accordance with the position of nearby enemies. As well as those in plain sight, there are foes hidden behind windows and positioned at vantage points such as balconies and on top of the stable building toward the end. This can be a very taxing battle. If you struggle, consider consuming tonics that both restore Dead Eye and confer the fortified status, such as snake oil. This will enable you to activate Dead Eye multiple times in a row and for extended periods of time.

8

Once you reach the end of the street, eliminate anyone who poses an obvious threat, then pick up Strauss and put him on John's horse. You have one more shootout to survive after this. Start to pick off the foes in front of you, but note that the real objective here is to flee. The moment you see an opening, jump onto your horse and gallop away southwards. Following the railroad is a smart choice. The mission ends when you successfully escape the law.

D

## ★ A STRANGE KINDNESS ★

**Medal Goals**

- ★ Return the captive to his family within one minute 40 seconds
- ★ Get five headshots
- ★ Finish with at least 80% accuracy
- ★ Complete the mission without using any health items

**Notes**

These objectives are quite straightforward. Activate Dead Eye at the very beginning of the ambush to set up three headshots instantly; you then only need two more to complete the related goal.

**1** Speak to Dutch in his tent, then mount your horse and ride with Charles to Dewberry Creek to the southeast.

**2** Search the marked area, then the nearby camp, looking inside both tents and behind the wooden crates.

3

After the cutscene, mount your horse and head south. Once you reach the camp by the lake, free the captive settler lying on the ground. As soon as the ambush begins, eliminate your enemies with a few headshots.

4

Once the dust settles, cut the settler free and deliver him on horseback to his family at Dewberry Creek.

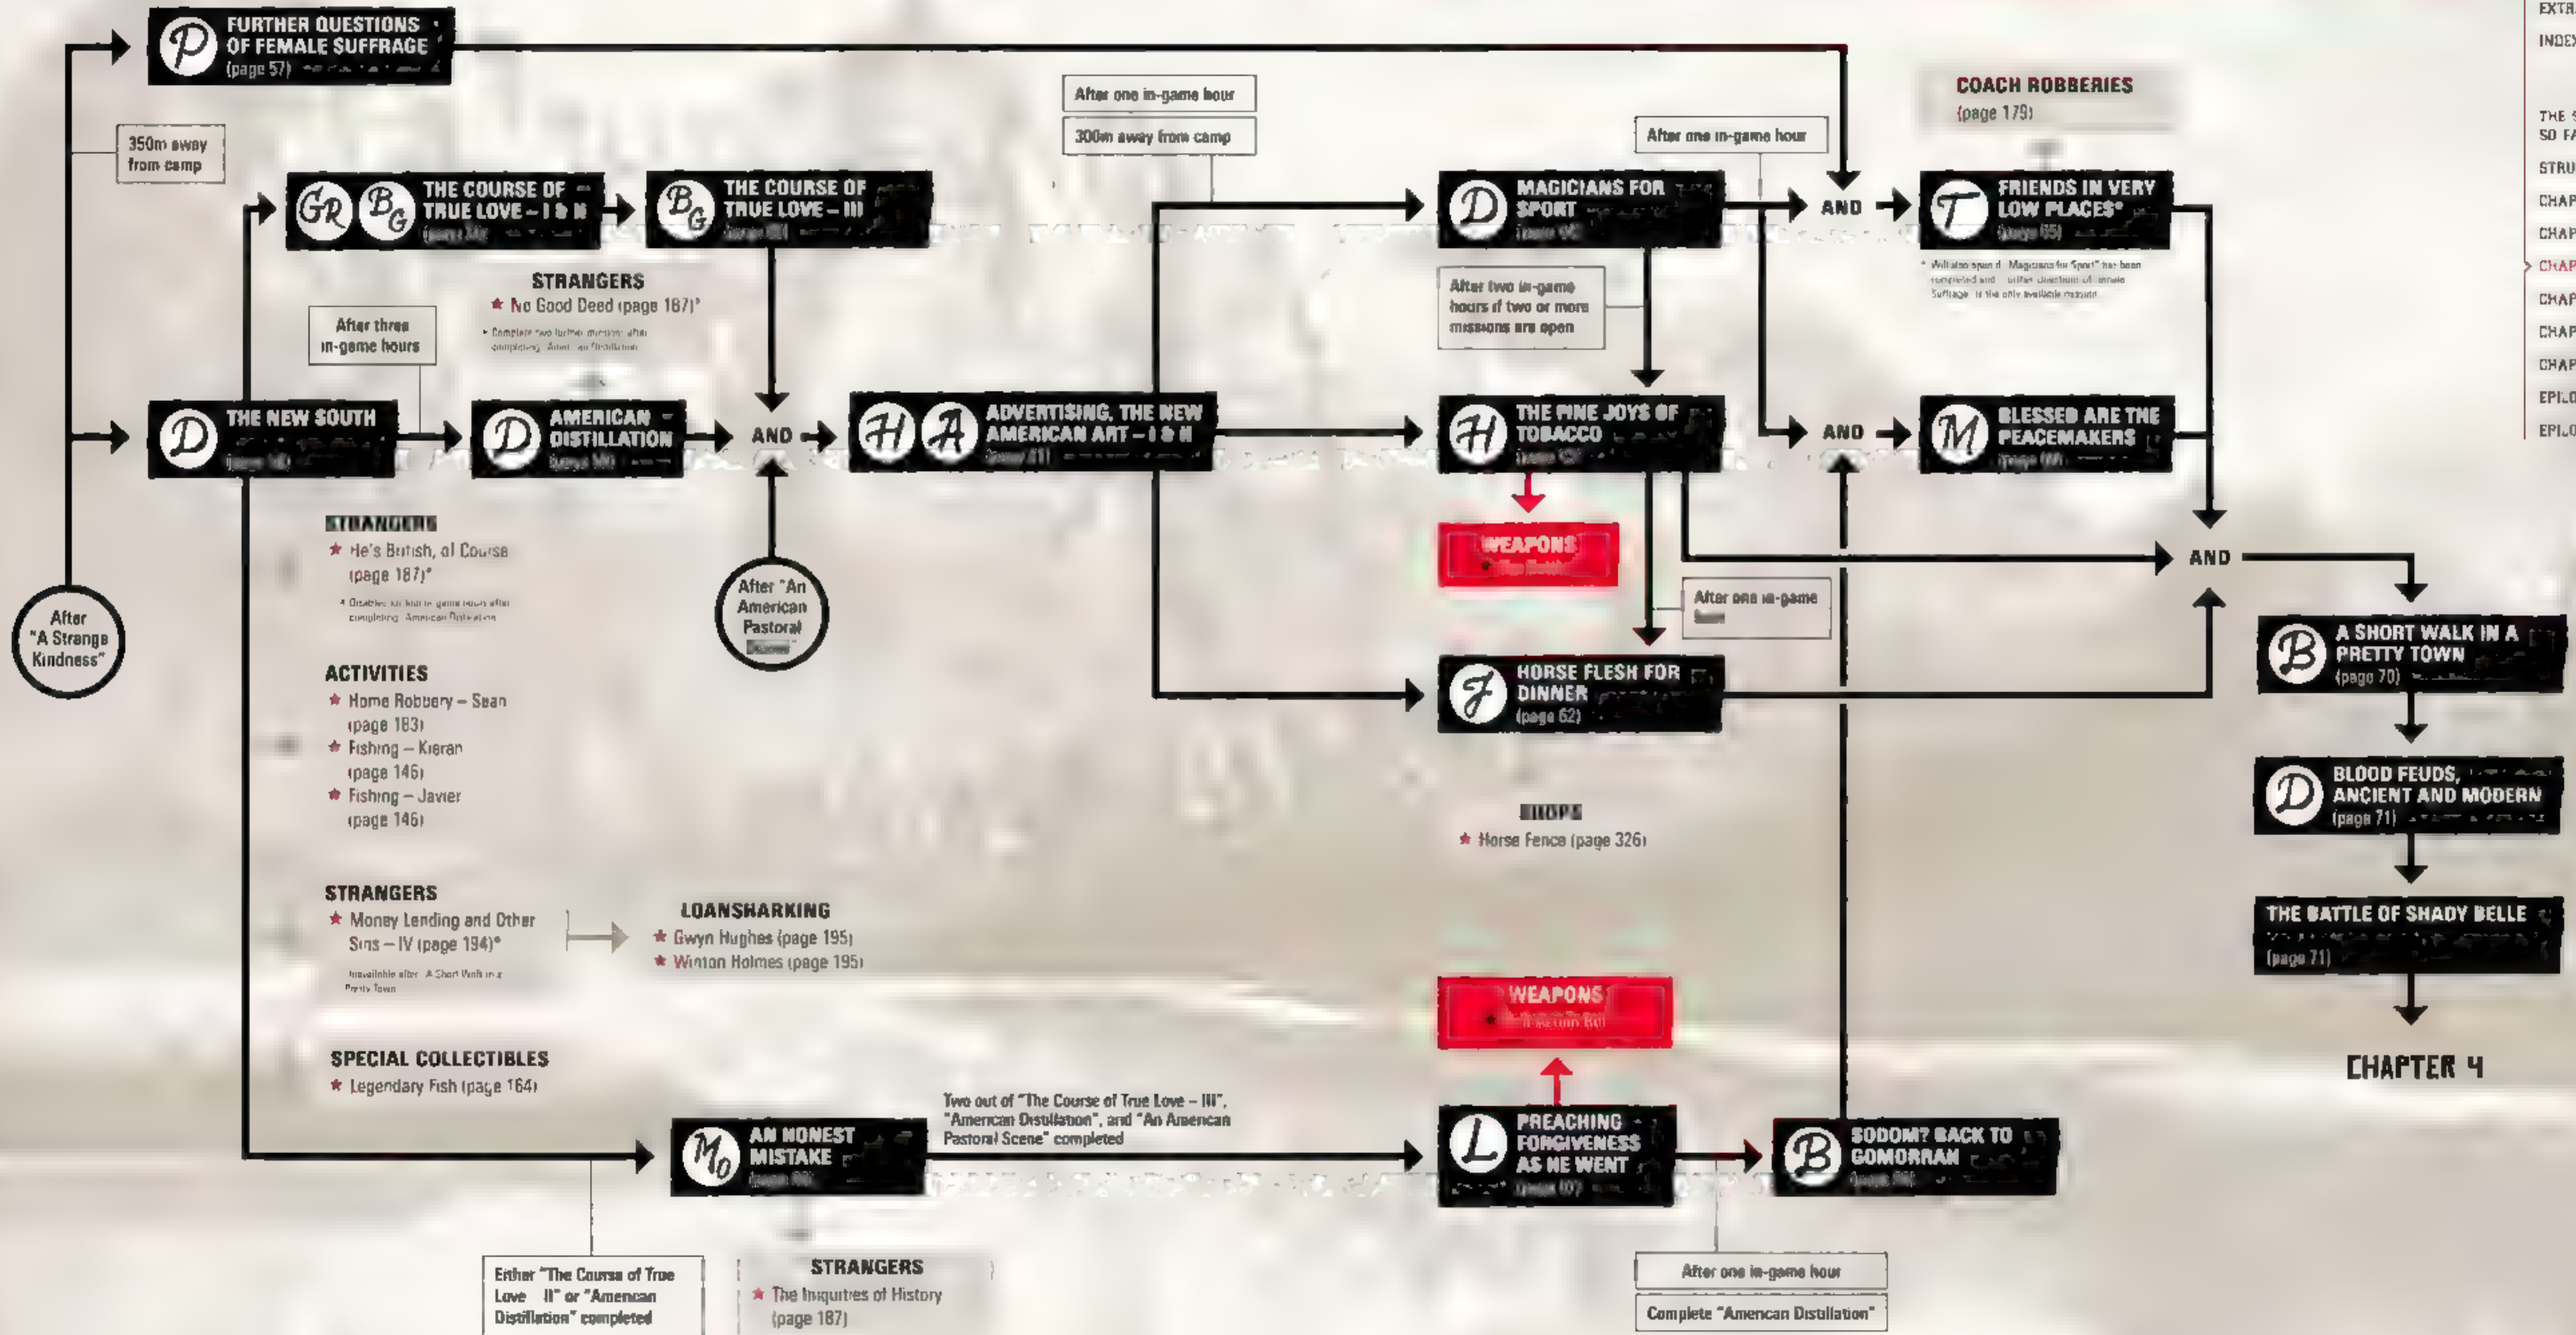

# CHAPTER 3: CLEMENS POINT

## THE STORY SO FAR

The gang got run out of Valentine after an altercation with a railway magnate, Leechman Corbett, who grew tired of having his trains robbed by outlaws. Afraid that the routes westward were being watched by Pinkerton agents, Dutch and gang moved southeast to take up residence at Clemens Point, near the town of Rhodes.

## ★ THE NEW SOUTH ★

- Medal Goals**
- ★ Catch and return Anders Anderson to jail within five minutes 30 seconds
  - ★ Knock out Anders Anderson without taking a hit
  - ★ Catch a fish with Dutch and Hosea

**Notes**

The one objective that can prove challenging here is to avoid being hit by Anders Anderson. Focus on blocking his attacks, then swiftly hit him with a punch or two when an opening presents itself – and repeat.

**1** Walk to Dutch at the shore. Follow him and Hosea until you run into Trelawny.

**2** After the cutscene, gallop toward the train at full speed. You need the Anderson boys alive, so keep your weapons holstered at all times. Speed is also of the essence as you must arrest the fugitives before the train is out of the sheriff's jurisdiction – which leaves you with a bare handful of minutes. Once you catch up, get alongside the carriage with the wooden crates and press **[X]** to jump to it. Repeatedly press **[X]** to break free and get rid of the foe that grapples you.

**3** Chase the fugitives until one of them challenges you to a fist fight on a rooftop. As usual, alternate between blocking and counterattacks to make short work of him. You can then press on and engage the second target in the final train carriage in the same manner. Pick this opponent up when he falls and stow him on your horse, before following Archibald all the way to Rhodes.

**4** Drop Anders Anderson outside the sheriff's office. After a short walk, Hosea asks you if you still wish to go fishing. If you accept the mission continues, if you refuse, it ends here.

**5** If you accepted Hosea's invitation, mount up and follow your friends until you reach a boat. Steer it with **[L]** and press **[X/A]** in time with the oars entering the water to row more quickly.

**6** Once at the fishing spot, equip the fishing rod, open the wheel menu and select the lake lure. Cast the line as if you were using a weapon, then hold **[L]** to grip the reel and slowly rotate **[R]** clockwise to attract fish. If you feel a bite, press **[R2/RT]** to hook the fish. Fight its movements by tilting **[L]** in the opposite direction to where it is swimming, then rotate **[R]** clockwise to reel it in whenever it tires. The trick is to always stop reeling in whenever the fish resumes its struggle.

**7** Put away your fishing rod with a quick tap of **[L1/LB]** when you're ready to head back. Row back to camp to complete the mission.

P

## ★ FURTHER QUESTIONS OF FEMALE SUFFRAGE ★

- Medal Goals**
- ★ Fend off the Lemoyne Raiders in less than one minute
  - ★ Get five headshots
  - ★ Finish with at least 85% accuracy
  - ★ Complete the mission without consuming any health items

**Notes**

All four objectives here depend on your performance during the shootout. If you trigger Dead Eye early with several enemies onscreen, you can pick them off with headshots in one fell swoop. Feel free to sprint toward the remaining targets to expedite the process.

**1** Visit Pearson at camp to initiate this mission.

**2** Your first task is to drive to the general store in Rhodes.

**3** After you separate from Sadie, head to the post office. Talk to the clerk at the marked booth to send your letter, then return to the wagon and hop on board.

Don't allow your attention to waver during the journey. Once Sadie initiates hostilities, eliminate the mounted enemies with quick headshots.

Once Sadie pulls over, get to cover and take out the Lemoyne Raiders one by one. They are spread out across the entire area, so look for red dots on your radar to locate them. Stay close to Sadie and assist her as required to make sure she doesn't die. When the coast is clear, drive back to camp with Sadie to complete the mission.

## ★ AMERICAN DISTILLATION ★

### Medal Goals

- ★ Win the race back to camp
- ★ Get 10 headshots
- ★ Complete the mission without taking any damage
- ★ Finish with at least 70% accuracy

### Notes

To win the final race, make sure you tap **X/A** in a rhythm that matches your mount's gallop to preserve stamina.

**1** This mission begins at the sheriff's office in Rhodes. Get on the wagon right outside.

**2** When you reach a crime scene, jump down and follow Archibald before you climb back up on the wagon. You can now drive to the swamp.

**3** Once at your destination, follow Archibald again. Your objective here is to knock out the moonshiners without being spotted. This means you cannot use any weapons and must rely on stealth. The next step depends on whether you choose to go left (**4A**) or right (**4B**).

**4A** If you chose the left-hand path, use the large trees as cover to conceal yourself as you approach the first moonshiner. Crouch walk to him and take him down while he's busy with the cart. Cross the bridge and proceed in the same fashion to neutralize the second man from behind. Hogtie him, then pick him up and take him to the wagon.

If you chose the right-hand path, crouch walk in the bushes towards the two guards having a conversation. After they split up, sneak over to the one that remains by the tree and stun him from behind. If you want to take care of the second guard yourself, crouch-run behind the two trees covered with vines to take him by surprise as he moves toward the campsite. Hogtie him and carry him to the wagon while Bill takes care of the moonshiner.

**5** Next, select dynamite in the weapon wheel and plant a stick in the marked area with **R2/RT**. Ignite it with **△/Y** to blow up the distillery; don't forget to retreat to a safe distance.

**6** Run to Bill's position and draw your favorite weapon to help him take out the Lemoyne Raiders. This is a massive shootout so make sure you don't rush in. Hide behind cover and eliminate your enemies methodically, one at a time, and preferably with clean headshots. As you push through the camp, be wary of foes hiding inside cabins. If you find yourself in close proximity to one of these, perform a melee takedown or shoot from the hip to save time. Return to Dutch once all enemies have been neutralized.

Your final task, if you accept it, is to race Dutch back to camp. The dynamic path represented on your radar makes navigation simple. To ensure you beat your friend, do your utmost to tap **X/A** at a rhythm that stays in time with your mount's gallop to minimize stamina usage. You should also cut corners at every opportunity, particularly when you notice sharp turns that can be bypassed. Finally, take care not to hit a tree in the final stretch, just before you reach the camp; it will be safer to moderate your pace if you have a sufficient lead.

## ★ THE COURSE OF TRUE LOVE – I & II ★

### Medal Goals

- ★ Reach Penelope without getting spotted
- ★ Finish within three minutes

### Notes

You can complete this set of objectives on a first attempt if you follow our walkthrough.

**1** Head to Caliga Hall, east of Rhodes, and talk to one of the guards at the property's entrance.

**2** Speak to Beau Gray, who is standing outside the wood store.

**3** Now make your way to the southwest of Rhodes until you reach the edge of Brathwaite Manor.

Once you step into the marked area, you will notice a number of guards that appear as red dots on your map and radar. You can easily avoid these by paying them a wide berth, going around the south side of the property. Swim through the small cove to reach the gazebo where Penelope awaits.

To leave the area without being spotted, you can either retrace your steps through the small cove and head straight south, or steal the boat opposite the gazebo stairs and row west until you are well clear of the red zone.

B

## ★ THE COURSE OF TRUE LOVE — III ★

**Medal Goals** ★ Finish within four minutes 15 seconds

**Notes** The fastest way to complete the mission is to ignore the cousins and immediately leave with Beau.

**1** Travel to Beau Gray inside the Caliga Hall stable. After the cutscene, mount up and follow him to Rhodes.

**2** Drive the wagon down Main Street to the bank.

After the cutscene, walk to the side alley to confront Beau's cousins. You can resolve this situation in two ways: defusing means that you avoid any sort of violence, while antagonizing leads to a brawl with the pair. Prioritize defense if you choose the latter option, blocking incoming punches as you await openings to counter.

**4** Once the cousins have been dealt with, get on your horse and follow Beau.

## A H ★ ADVERTISING, THE NEW AMERICAN ART — I & II ★

**Medal Goals** ★ Headshot five Lemoyne Raiders in the saloon  
★ Finish with at least 90% accuracy  
★ Complete the mission without consuming any health items

**Notes** This set of goals requires a very high level of accuracy. Aim carefully before taking each shot, making liberal use of Dead Eye.

**1** Speak to Abigail at camp to trigger the appearance of a new marker to the northeast.

**2** You will find Hosea and John in the highlighted area, at the back of a wagon. Your first task is to drive the wagon to Braithwaite Manor's front door to the south.

**3** From the manor, head back to Rhodes and park the wagon outside the saloon. Once at your destination, pick up moonshine at the back of the wagon and take it behind the bar. Follow the onscreen instructions in the scene that follows until the Lemoyne Raiders barge in.

Your initial position behind the bar gives you a perfect opportunity to perform three or four headshots in a single Dead Eye instance. If your gauge is empty, carefully pick them off in quick succession.

When Hosea calls for help, clear out any remaining foes on the ground floor, vault over the bar, and sprint upstairs. Quickly adjust a clean headshot on the individual threatening Hosea — a brief Dead Eye burst will help here. Eliminate the two men on the balcony, before jumping from there to the wagon below.

During the escape sequence, stay focused on the area behind the wagon and eliminate your opponents as quickly as possible. You have no cover available here so you need to be efficient. If you struggle, make use of Dead Eye and snake oil tonic to replenish it.

EPILOGUE 2

7

## ★ HORSE FLESH FOR DINNER ★

**Medal Goals**

- ★ Kill the stablehand showing you the horses
- ★ Catch the stallion within 10 seconds
- ★ Get five headshots

**Notes**

You can get ready in advance and lasso the stallion right as it escapes to comfortably meet the time requirement

**1** Make your way to the marked area at the entrance to Caliga Hall, then meet John and Javier at the Gray stables. From there, ride with them all the way to the Braithwaite stables.

**2** Once inside, walk behind the stablehand and stealth kill him with **[C]**. Equip your bandana, then calm the white horse (hold **[L2]**/**[L1]** and press **[O]**, **[X]**) until you can lead it outside with **[A]**/**[Y]**.

**3** Your priority throughout the escape sequence is to escort Javier, staying relatively close to him and quickly eliminating as many

enemies as possible. Mastery of the "sharpshooter" technique (see page 47) makes a huge difference here: lock on to a target, very briefly tilt **[6]** to align the reticle for a headshot, then fire for an instant kill

When one of the stallions makes a break for it, gallop off in pursuit and bring it to a halt with your lasso. Be careful not to release **[L2]**/**[L1]** until you have successfully caught it. Ride back to Javier and keep up with him until you reach the rustlers

7

## ★ THE FINE JOYS OF TOBACCO ★

**Medal Goals**

- ★ Silently kill the Gray when Sean distracts him in the wagon store
- ★ Douse the fields within two minutes 20 seconds
- ★ Kill five Grays during the escape
- ★ Complete the mission without consuming any health items

**Notes**

Your priority here is to be effective when you douse the fields: stay on the move at all times, heading straight from one highlighted area to the next until you have cleared them all. During the escape, there is no need to rush. As long as you stay relatively close to Sean, you can easily eliminate five Grays on the way

**1** This mission begins as you enter Braithwaite Manor. After the cutscene, get on the wagon and drive with Sean to Caliga Hall. Press **[O]**/**[X]** when prompted to hide in the wagon

**2** Once inside the wagon store, leave your hiding place and crouch-walk over to Hamish; then quietly kill him from behind

**3** After the cutscene, crouch-walk to the wooden barrels in front of you and stay behind cover until the coast is clear

**4** Your objective is now to douse all of the specified tobacco fields with moonshine. As long as you remain low, you are practically invisible to guards and have little to fear. You can complete the objective by holding **[R2]**/**[R1]** as you walk around the areas marked with a yellow highlight on your radar until the markings disappear. The only tricky parts are when you need to cross guarded paths. Look for

the red dots on your radar and monitor their movements: make a break for it only when patroling sentries are sufficiently distant or are facing away from you. If you're playing with default controller settings, note that pressing **[O]** will cause the radar to zoom out a little. This offers a better overview of where nearby guards are. You can even make this a permanent setting by holding **[O]** and pressing **[O]**, **[X]**.

After all the fields are suitably doused, meet Sean at the barn. Equip your fire bottles and throw one into the building to light it up. Use the same method to set the highlighted fields ablaze

**6** You now have to deal with a large number of guards. Jump from cover to cover as you eliminate them, ideally staying close to Sean. If you have several of them in your line of sight at once, consider triggering Dead Eye

**7** When you reach the wagon, focus on the horses with **[L2]**/**[L1]** and cut them free with **[A]**/**[Y]**. Mount up and quickly escape with Sean to complete the mission

D

## ★ MAGICIANS FOR SPORT ★

### Medal Goals

- ★ Inspect all the clues in Trelawny's caravan
- ★ While tracking, stay within 30 feet of Trelawny's trail
- ★ Kill two bounty hunters in the cornfields within one minute
- ★ Complete the mission without consuming any health items

### Notes

The main challenge here is to kill the first two enemies in the cornfields (I and II) within one minute. Sprint to both positions (see screenshot for step 5), and manually catch them. We suggest that you tackle them with **C**, **B** and finish them off on the ground.

**1** Dutch awaits you in his tent. Speak to him, then to Charles, before riding to Trelawny's marked location.

**2** When you search his caravan, there are three clues to look for: the food on the table, the unmade bed, and the blood stained towel on the bathtub. Activating Eagle Eye will highlight these.

Head back outside, mount up and follow the tracks. Again, you can reveal these by triggering Eagle Eye.

**4** The tracks will lead you to a small camp at the edge of the forest. Be ready to block as soon as the first fight begins, then counterattack immediately. Once both men are down, interrogate the one restrained by Charles until he reveals Trelawny's whereabouts. Kill or releasing him will affect your honor accordingly.

Follow Charles until you reach the cabin. Three bounty hunters run and hide in the nearby cornfields. From your starting position by the cabin, you will find one on your left (I), and a second on your right (II). The third (III), who can only be caught last, is concealed in the more distant field on your right (see picture). Your goal is to locate and kill them. The crops greatly reduce visibility, but you can look and listen for disturbances the men cause, particularly birds flying away. As soon as you notice this happening, sprint to that position and run around until you find one of the fugitives. Take him down however you see fit. If you struggle, Charles will often point you in the right direction; follow his advice by searching the locations in question.

A shootout ensues after the cutscene. Run toward the barn to deal with the two individuals firing at you: the first one stands by the barn's entrance, and the second snipes from the opening just above. Pick them off immediately, ideally with Dead Eye, if you take too long, the enemy upstairs will move inside the barn and you will have to flush him out. Once the fight is over, return to Trelawny at the cabin. Note that the sniper drops the rare rolling block rifle, a unique weapon required to complete the compendium.

T

## ★ FRIENDS IN VERY LOW PLACES ★

### Medal Goals

- ★ Complete the mission without being spotted
- ★ Complete the mission within eight minutes 10 seconds

### Notes

Follow our walkthrough to complete these objectives.

**1** Speak to Trelawny, who is leaning against a tree at the edge of camp. Mount up and ride with him to the post office in Rhodes.

**2** Hitch up and follow Trelawny inside. After paying Alden, get back on your horse and ride with Trelawny to Hill Haven Ranch.

Once the stagecoach arrives, tail it from a safe distance until it comes to a halt. Jump down from your horse, then crouch-walk toward the bushes right by the road sign (and no further!) while Mrs. Damsen exits the stagecoach. When she starts singing, sneak to the back of the stagecoach, break the box's lock, and pilfer its contents. As soon as the deed is done you should retrace your steps, crouch-walking at all times, until you are back behind the same bushes by the road sign. Wait until the stagecoach leaves, then meet up with Trelawny to complete the mission.

M0

## ★ AN HONEST MISTAKE ★

- Medal Goals**
- ★ Save Uncle when he is overpowered
  - ★ Get 20 headshots
  - ★ Finish with at least 80% accuracy
  - ★ Complete the mission without consuming any health items

**Notes** Completing these objectives is purely a matter of execution. Mastery of the "sharpshooter" technique is key here (see page 47 for details)

**1** Speak to Molly at camp, then mount your horse and follow Uncle to the crossroads. Press (L) (L) when prompted to equip your bandana.

**2** Approach the wagon when it arrives and search the crate at the back.

As soon as the escape sequence begins, gallop at full speed with your accomplices. A large group of pursuers will soon catch up with you. If you have a full Dead Eye meter, note that you can actually begin with up to five or six headshots in a single expenditure, as your targets

tend to be very close to each other. Otherwise, firing to the rear while maintaining your course is rather tricky, but you can make this a little easier by waiting until you have a fair amount of clear terrain ahead, then manually rotate the camera to look behind. If you briefly disregard steering and focus purely on aiming whenever you can, you'll find it easier to take enemies down. Repeat this multiple times to thin the ranks of your pursuers.

After the cutscene, a major shootout takes place at the old barn. You are surrounded by numerous enemies, with reinforcements continually joining the fray. You cannot afford to linger in the open here, so pick a target, jump out and take a shot, then immediately return to cover. Once you have cleared most targets on one side of the barn, listen to your companions or take a glance at the red threat indicators on the edge of the radar to find out where you need to be next.

When the party leaves the barn, follow Uncle in the woods. After taking cover with him behind a large rock, wait until the two guards walk past your position, then take them down stealthily from behind. Uncle will need a hand to neutralize his opponent.

**6** You now need to assist Charles and Bill. Take cover behind the trees and eliminate the assailants as they emerge from cover. The mission ends after the final enemy falls.

L

## ★ PREACHING FORGIVENESS AS HE WENT ★

- Medal Goals**
- ★ Kill 10 Lemoyne Raiders with a long scoped rifle
  - ★ Finish within 11 minutes 30 seconds
  - ★ Finish with at least 70% accuracy
  - ★ Complete the mission without consuming any health items

**Notes** From your initial cover position at Shady Belle, you can headshot virtually all enemies with a long scoped rifle, making all four goals rather approachable.

**1** Speak to Lenny at the camp's southern edge, then follow him.

**2** When you reach the abandoned church, tail the wagon from a safe distance. As you reach the Shady Belle mansion, dismount your horse in the highlighted area. Be sure to take your rolling block rifle with you.

Take cover behind the marked wall, just across from Lenny, then use your sniper scope to investigate the area, in particular the red crates filled with dynamite. You now have to decide on your strategy: you can either commence hostilities by shooting the dynamite, or send Lenny to create a distraction and take your enemies by surprise. Your choice has a limited impact on the mission, though sending Lenny helps a little in the sense that he begins right in the middle of the fray, which makes him more effective. Either way, your objective here is to pick off your enemies one by one with your sniper rifle. Feel free to stay at your starting position, behind the wall; this provides the necessary cover while giving you a commanding view. Prioritize targets when they are stationary, as those in motion tend to be much harder to hit.

Two set-piece events will occur during the battle. First, Lenny will wrestle with an opponent at one point – but he will eventually overcome his adversary if you neglect to intervene. Second, one of your foes will man a Gatling gun on the balcony above the manor's front door. You should eliminate him immediately with your scoped rifle by aiming just above the gun barrel.

Once all enemies have fallen, hop inside the back of the wagon in the middle of the highlighted area. You now need to drive it back to camp.

As you leave Shady Belle, you will run into an additional group of three Lemoyne Raiders. Irrespective of whether you antagonize them or try to defuse the situation, a shootout will ensue. The optimal approach, then, is to strike preemptively with a fast weapon – or for greater simplicity, trigger Dead Eye to take the trio down in a single volley. Drive back to camp to complete the mission.

B

## ★ SODOM? BACK TO GOMORRAH ★

### Medal Goals

- ★ Loot all the safes
- ★ Headshot five mounted lawmen during the horseback escape
- ★ Get to the Downes ranch within one minute 55 seconds
- ★ Finish with at least 70% accuracy
- ★ Complete the mission without consuming any health items

### Notes

The hardest condition to meet here is the second one. If you struggle to align clean shots, consider drinking a tonic such as snake oil to enjoy fortified Dead Eye. The slow-motion effect makes it much easier to secure headshots on moving targets.

**1** Bill is in a wagon at the edge of camp. Speak to him, then follow him to Valentine.

**2** As you approach the bank, you are asked how Karen should distract the guards. Both options are functionally identical, so choose whichever one you please. Once inside, open the teller's door and force him to open the vault. You now have another decision to make, but this one is of far greater import: cracking the safes (E1) takes longer but means that you can avoid unnecessary bloodshed immediately afterwards if each is opened within six minutes, whereas blowing them open (E2) is quick but leads to a massive shootout outside the bank.

Hold (A) (Y) to interact with the safes. Each one has three numbers that need to be cracked. You can do so by slowly rotating (L) counterclockwise, then clockwise, then counterclockwise again. As you rotate the dial, note how your controller vibrations intensify when you are close to the correct position; this is your cue to maneuver slowly and incrementally at a time until you hear a click. If you inadvertently move past the correct number, keep turning the dial in the same direction until you are back in the "hot spot". Repeat this method to open all

five safes, collecting the money from each of them. Regroup with the others when you're done. If you struggle to unlock the safes, the correct combinations are, from left to right:

34-69-22  
16-40-55  
37-15-69  
15-7-55  
68-12-38

In this alternative scenario, walk up to each safe and hold (R2/L1) to plant dynamite on it. Make sure that all five safes are primed before you light one of the fuses by holding (A) (Y). Move to the other room to avoid the explosions, then return to retrieve the money. Now that the easy part is over with, brace yourself for the battle that awaits you outside. Make the most of the opening Dead Eye sequence to eliminate up to three lawmen with headshots, then take cover behind the cart on your right. Pick off your enemies one by one, including the target on the balcony, as you progress along the main street. When you reach the end, more foes join the fray – but you can sprint to your horse if you do not wish to fight them all.

Throughout the escape, multiple waves of lawmen will give chase. Ride with your allies and, whenever you have a straight path ahead of you, turn the camera to the rear and try to eliminate the closest targets without interrupting your horse's gallop.

**5** Once the group splits up, ride to Downes Ranch to complete the mission.

M

## ★ BLESSED ARE THE PEACEMAKERS ★

### Medal Goals

- ★ Free yourself and perform self surgery within one minute
- ★ Recover your weapons from the O'Driscoll camp
- ★ Kill the O'Driscoll gang members that beat and shot you
- ★ Escape the O'Driscoll camp without being spotted

### Notes

The two O'Driscolls that beat and shot you are the ones guarding the cabin from which you escape. You can kill them without being detected by using the throwing knives you obtain in the basement. When you leave the room where you were held, immediately turn left at the top of the stairs and kill the man as he examines the wall; you can then backtrack to the stairs and deal with the O'Driscoll close to your weapons.

**1** Initiate the conversation with Micah in Dutch's tent, then follow them on horseback to your observation point.

**2** From your vantage point, watch over Dutch and Micah through your binoculars or the rolling block rifle.

After the cutscene, tilt (L) from side to side; the idea is to swing on your shackles in order to reach the metal file on the nearby table. Grab it with (X) (A) once it's within your grasp. Follow the onscreen instructions to cauterize Arthur's wound, before stealth-killing the O'Driscoll that enters.

**4** Back outside, you can kill all the nearby guards with your throwing knives (thereby completing an optional medal goal),

but the only one that you actually need to eliminate to escape safely is the one examining the crate by the shed. Once you're done, recover your weapons by the shed door (they're represented by a gun icon on the radar), before walking to your horse by the campfire. Mount up and leave via the path to the east.

Your final task is to ride back to camp. This is complicated by the fact that multiple O'Driscolls are patrolling the area. To avoid them, make regular checks of your map and radar. All patrols are represented by red dots, making it relatively easy to navigate between them without raising the alarm.

EPILOGUE 1  
EPILOGUE 2

B

## ★ A SHORT WALK IN A PRETTY TOWN ★

Medal Goals	<ul style="list-style-type: none"> <li>★ Kill three lawmen in Dead Eye while saving Bill</li> <li>★ Get 20 headshots</li> <li>★ Complete the mission using sidearms only</li> <li>★ Finish within four minutes 30 seconds</li> <li>★ Complete the mission without consuming any health items</li> </ul>
	Notes

These requirements are all about execution. Make sure you dual-wield two sidearms to enjoy more ammo and flexibility, and employ the staple "sharpshooter" technique (see page 47) throughout the entire shootout.

**1** Meet up with Bill, Micah, and Sean outside the bank in Rhodes. After the cutscene, stay in your initial cover position and take down one foe at a time. Prioritize the men perched on the rooftop in front of you and on the balcony to your left. After you thin out their ranks sufficiently, enemies will start arriving from the opposite direction. Take cover behind the nearby cart before you engage them.

Once Micah makes his move, head to the back of the gun store marked on your radar, be vigilant as you approach, as an enemy will pop out on your left and attack you. Note that there is a double-barreled shotgun that you can pick up here. Kick the locked door, then immediately aim in advance to kill another foe who appears at the end of the corridor with two more to deal with around the corner. Take cover underneath the window and fire at the gunmen on the street.

**3** Once the coast is clear, follow Micah and eliminate the hostage takers during the automatic Dead Eye sequence.

D

## ★ BLOOD FEUDS, ANCIENT AND MODERN ★

Main Goals	<ul style="list-style-type: none"> <li>★ Headshot Gareth and Gerald Braithwaite</li> <li>★ Get 20 headshots</li> <li>★ Finish with at least 85% accuracy</li> <li>★ Complete the mission without consuming any health items</li> </ul>
	Notes

These goals are fairly standard. The first one is simply a matter of overcoming the urge to riddle the Braithwaites with bullets in the scripted Dead Eye sequence — two headshots will suffice.

**1** This mission begins automatically when you approach Dutch's tent. Ride with him and the gang to Braithwaite Manor.

**2** After the cutscene, snap into cover and open fire on your assailants, prioritizing those on the balconies.

**3** With all foes down, head inside the manor and search for Jack. Be ready to immediately shoot down the aggressor who springs from behind the overturned desk.

Next, head to Dutch upstairs and take cover behind a pillar on the balcony to engage the reinforcements arriving from the front gate. These are in close proximity at first, making them ripe for a lethal Dead Eye volley. A second wave will soon arrive on the east side of the manor and are initially vulnerable to the exact same strategy.

**5** You now need to help John break the nearby door. An automatic Dead Eye sequence is triggered immediately afterwards: "tag" the heads of Gareth and Gerald Braithwaite with (R1) (RB) before firing with (R2) (RT). Leave the manor with Dutch to complete the mission.

## ★ THE BATTLE OF SHADY BELLE ★

Medal Goals	<ul style="list-style-type: none"> <li>★ Kill all the Lemoyne Raiders in Shady Belle</li> <li>★ Clear two bodies from Shady Belle within one minute 40 seconds</li> <li>★ Finish within 11 minutes</li> </ul>
	Notes

All these requirements are about speed and efficiency. Move in a straight line through the plains and forests to get to Shady Belle quickly. Make sure you don't let John "steal" kills when you face the first guards at Shady Belle — activate Dead Eye if you want to take no chances. You then need to swiftly dump two bodies in the swamp.

**1** Ride with John to Shady Belle, where you will be greeted by two enemies. Dispatch them as you see fit, then locate and kill those hidden inside the house: one on the ground floor and three upstairs, each in a different room. Meet John back at the entrance once you're done.

**2** Pick up the indicated body and dump it in the swamp around the jetty. Repeat this a second time to trigger a cutscene.

**3** Finally, follow Dutch to the city of Saint Denis to complete the

## THE STORY SO FAR

*Doing dirty jobs for two rival families in Rhodes, Arthur and the other gang members found themselves entangled in a longstanding feud. Hoping to put their hands on an alleged pile of gold, they realized – too late – that they were being played. Things ended up disastrously with Sean dead, Jack kidnapped, and the Pinkertons back on the gang's tail. Dutch and Arthur decided to move the camp to Shady Belle, near Saint Denis, knowing the key to have been taken there.*

## ★ THE JOYS OF CIVILIZATION ★

Medal	★ Catch the street urchin before he reaches the market
Goals	★ Finish within five minutes 30 seconds
Notes	Catching the elusive boy before he reaches the market is easy when you know where to find him. After he gets off the trolley (see step 1), follow him into the back alley, then sprint straight through the round archway without talking to anyone. Press <b>C</b> <b>B</b> as soon as you see him to perform a tackle.

**1** Head to the westernmost highlighted area to meet up with Dutch outside the Bastille Saloon. Call the bartender until he comes to you.

**2** Go back outside and make your way to the nearby alley. You will find the children you're looking for just past the metal archway, on the east side of the highlighted area. Follow them until a cutscene is triggered, then immediately give chase. Feel free to steal a horse on your way as you try to catch up.

When the kid gets off the trolley, look for him in the highlighted area. Talking to the men chatting near the fountain will reveal his position just beyond the round archway. Give chase.

When you end up in front of a barred door, jump to climb above it (or kick it open if you prefer). Do the same to scale the railing when the boy takes to the rooftops.

Once you get to the market, ask around until the thief is revealed, then give chase one last time.

After the cutscene, return to Dutch near the saloon, where you will find him sitting on a bench outside the park.

D

## ★ ANGELO BRONTE, A MAN OF HONOR ★

**1** Meet Dutch and John on the steps outside Bronte's mansion. After the cutscene, follow John to the cemetery.

Once inside, walk to the far end to find the source of the disturbance in the northeast corner. Investigate the mausoleum to reveal the grave robbers. You now need to hunt them. Seek cover behind a grave whenever you locate one, then take him down, repeat until they are all dead.

Medal  
Goals  
★ Encounter the dog and the drunk  
★ Don't get spotted by the law  
★ Finish within 11 minutes  
★ Get four headshots

Notes  
The only requirement that's easy to miss is the first one, though it's not difficult to fulfill. Before you head to the mausoleum in the northeast corner of the cemetery, make sure that you interact with the dog near the south entrance and the drunk by a grave just north of the central dome.

Return to the east side of the cemetery and examine the mausoleum with a metal fence gate to find the stash.

**4** After the arrival of lawmen, follow John closely to reach the exit without being spotted. Track the position of the guards on your radar at all times to make sure the path is clear.

**5** As soon as you make it back outside, mount up and return to Bronte's manor, then head back to camp.

EPILOGUE 1

EPILOGUE 2

## ★ HELP A BROTHER OUT ★

<b>Medal Goals</b>	<ul style="list-style-type: none"> <li>★ Find the captives without threatening the shop owner</li> <li>★ Finish within two minutes 45 seconds</li> </ul>
<b>Notes</b>	Once you know the location of the bookcase leading to the basement, fulfilling both requirements poses no difficulty

**1** Head to the "stranger" marker on the east side of Saint Denis where you will find Brother Dorkins. He points you to a shop by the market. Note that you can donate money to the poor during the cutscene to gain a little honor

**2** Open the green door in the highlighted area and enter the shop. If the owner is here, you can threaten him until he reveals how to open the bookcase in the room opposite his counter (by pulling a book). However, you can also solve this puzzle by yourself and fulfill the related medal goal by inspecting the scratches on the floor of the room in question; these are highlighted with the usual visual effect if you activate Eagle Eye. Force the bookcase to reveal stairs leading to the basement. Free the two captives, then return to Brother Dorkins

## ★ BROTHERS AND SISTERS, ONE AND ALL ★

<b>Medal Goals</b>	★ Find the kid within 19 seconds
<b>Notes</b>	An easy challenge: sprint directly to the kid to complete this in mere seconds

**1** If you wait one in-game hour after completing "Help a Brother Out" Brother Dorkins can be found on the steps of a church in the north of Saint Denis

**2** Sprint to the highlighted area to the south and talk to the stranger who was just knocked over. This reveals a second highlighted area nearby: run to it and confront the man restraining the kid that you are chasing. Pick up the crucifix on the ground

**3** After the cutscene, sprint to the northwest to escape the law. As soon as you are out of the red circle on your radar, hide in a back alley and wait until the Wanted gauge is completely empty

**4** You now need to find Sister Calderon in the newly highlighted zone without alerting the law. If you arrive via the street to the northeast of the area, you can casually walk behind the guard by the telegraph post to reach her in front of the church's steps.

## ★ FATHERHOOD AND OTHER DREAMS ★

<b>Medal Goals</b>	<ul style="list-style-type: none"> <li>★ Catch the wagon and take it to the secluded spot within one minute 45 seconds</li> <li>★ Take Mary to the theater</li> </ul>
<b>Notes</b>	To catch up with the wagon quickly, press <b>X</b> / <b>A</b> at a rhythm that matches your mount's gallop; this will prevent stamina drain, enabling you to maintain maximum speed

**1** Inspect the letter in Arthur's room to initiate this mission

**2** Now head to the Grand Hotel in Saint Denis, where Mary awaits. This is an optional mission that you are free to refuse – but if you do so, you will not get another chance to complete it

**3** Ride to the stables to the southwest. After the cutscene, follow Mary's father, keeping your distance to avoid being spotted. If you lose sight of him, listen to Mary's comments to stay on the right path

**4** After the cutscene, go after the buyer in the highlighted area. Whistle your horse (or appropriate one from nearby if necessary) and give chase

The wagon is fast and will take you out of Saint Denis, but you will eventually catch up. Move close to either side of it, then press **X** / **A** to jump on board. Make your way to the driver's seat, get rid of the two men there, then take the wagon to the secluded spot marked on your map

**5** Once you arrive at the specified location, press **A** / **Y** to pull the buyer from the wagon. He will offer to sell you Mary's brooch for \$100. You can beat him to make him lower his price, first to \$50, then to \$25; after one further show of force, he will give it to you for free

**6** Return to Mary to complete the mission. If you accept her offer, you will attend a theater show

M2

## ★ NO, NO AND THRICE, NO ★

Medal Goals	<ul style="list-style-type: none"> <li>★ Kill both of the Foreman boys yourself during the chase</li> <li>★ Finish with at least 90% accuracy</li> </ul>
Notes	Ms Grimshaw will open fire when you move sufficiently close to your targets. If you struggle to kill the Foreman boys in advance of this, trigger Dead Eye to align clean headshots from a distance.

**1** Speak to Mary-Beth at camp, then drive northwest to Radley's House with Ms Grimshaw. When you arrive, you can let her deal with the lone guard.

**2** Storm inside the building with all guns blazing. There are two enemies to take down: one in the kitchen and another in the bedroom where Tilly is held captive. Cut her free by holding **○/△**.

When the horse chase begins, gallop at full speed toward the outlaws. Move close enough to align a clean headshot on the first target, then repeat with the second. You need to take the third enemy – Anthony Foreman – alive, so move within lasso range to capture him. Hogtie him, then stow him on your horse and deliver him back to Tilly.

H

## ★ THE GILDED CAGE ★

**1** You will find Hosea at the camp, by the gazebo. The opening section of this mission is entirely straightforward. Follow the onscreen instructions until the fireworks begin. During the sequence where you mingle with party guests, note that the mayor is located by the fountain.

Medal Goals	<ul style="list-style-type: none"> <li>★ While at the party, pour some drinks, compliment a guest's attire, accept a gift and save a life</li> <li>★ Follow the servant without being detected</li> </ul>
Notes	During the sequence where you are required to mingle with the party guests, you need to take part in specific interactions: offer champagne to the group of thirsty ladies near the dome; compliment the lady in front of the dome about her headdress; accept a ticket from the two men talking about theater between the dome and the fountain; and, for the final task, assist Argemon Wasp by the small buffet table near the canopy (lock on to him and help him out as soon as he begins to choke).

**2** At this point, follow the servant from a distance. You need to remain undetected during this entire sequence. In the three instances where the servant has a brief conversation inside the house, stay back and out of his line of sight. You have plenty of time, so walk casually and observe your target from behind walls.

**3** When the servant walks up the stairs and enters an office, wait until he moves into the next room then head straight for the marked desk to retrieve a document in the ledger. With this in hand, you can now return to Dutch at the gala and leave with him.

T

## ★ A FINE NIGHT OF DEBAUCHERY ★

Medal Goals	<ul style="list-style-type: none"> <li>★ Win the game of poker without Strauss's help</li> <li>★ After your cover is blown, escape the boat in under 35 seconds</li> <li>★ Get five headshots</li> <li>★ Complete the mission without consuming any health items</li> </ul>
Notes	During the shootout, take down all enemies with instant headshots and position yourself close to the exit in advance. As soon as the door opens, rush outside and jump into the water. Every second you can shave off to meet the time requirement is a bonus.

**1** Meet Trelawny in the north of Saint Denis. Head inside the tailor's shop and browse the catalogue to buy the designated suit.

**2** Follow Trelawny to the barber's and have your hair styled or trimmed as you see fit.

**3** Enter the carnage, which will take you to the Grand Korrigan. Follow Trelawny aboard the riverboat, then sit at the poker table to play. If you struggle with poker, you can find a guide on page 220. The dealer is actually on your side here, though. Fold at the beginning of the first game, which you would lose no matter what. In the games that follow, on the other hand, feel free to go all in. After your opponent goes bust, follow the pit boss to the safe room. Disarm him, then be ready to shoot in the automatic Dead Eye sequence that occurs when you first attempt to loot the safe; afterwards, finish the theft. You should then follow Javier to the bar.

When the shootout begins, stay in your initial position behind the counter and dispatch the guards with quick headshots. After you thin their ranks, Javier moves to the exit and suggests that you escape. Sprint through the door and the corridor beyond, then jump in the water to complete the mission.

SA

## ★ HORSEMEN, APOCALYPSES ★

Medal Goals	<ul style="list-style-type: none"> <li>★ Shoot the O'Driscolls in the boat before they disembark</li> <li>★ Get 15 headshots</li> <li>★ Finish with at least 70% accuracy</li> <li>★ Complete the mission while exclusively using sidearms</li> <li>★ Complete the mission without consuming any health items</li> </ul>
Notes	<p>This combat-heavy mission requires perfect execution to earn a gold medal. The only time-sensitive requirement is the one where you need to shoot the O'Driscolls in the boat. This can be achieved after you jump through the window to protect Sadie (see step 3). Once you join her, sprint to the wooden crate a few steps beyond the one where Sadie takes cover. You can then dispatch the surrounding enemies, as well as the two that arrive by boat.</p>

You can greet Sadie at camp, right by the house's front door. After the cutscene, pick off as many opponents as you can from your initial position on the balcony; prioritize stationary targets to secure multiple quick headshots. After a short while, Dutch asks you to move to the front door downstairs. Dispatch a few more O'Driscolls there, but be ready to retreat inside the mansion as soon as John makes the suggestion. Turn around and immediately push the cabinet over to barricade the door.

You have more shooting to do as you defend the house's back windows. Arthur will automatically break these when you aim if you are in cover next to one. As soon as Sadie screams, jump through the window with **△/X** and sprint to her at the back of the nearby cabin.

With Sadie now at your side, sprint to the cover position ahead and start eliminating your enemies. Two of them will arrive on a small boat; dispatching them before they touch the shore is required to complete a medal goal. The battle then continues toward the mansion's entrance. Deal with the O'Driscolls joining the fray with quick headshots, making sure you stay close to Sadie at all times in case she needs assistance.

D

## ★ URBAN PLEASURES ★

Medal Goals	<ul style="list-style-type: none"> <li>★ Rob all the customers in the trolley station</li> <li>★ Kill 10 lawmen while on the trolley</li> <li>★ Prevent any lawmen from jumping on the back of the wagon</li> <li>★ Shoot the dynamite thrown by Lenny</li> <li>★ Complete the mission without consuming any health items</li> </ul>
Notes	<p>This is another mission where it's all about the execution. If you struggle with moving targets, particularly the lawmen on horseback, make liberal use of Dead Eye. You can actually trigger it in very short bursts to align single clean headshots, a full meter will enable you to do this multiple times. Don't hesitate to consume Dead Eye tonics if required.</p>

**1** You will find Dutch in a back alley in the southeast of Saint Denis.

**2** As soon as things kick off, hold up each customer in the trolley station and press **△/Y** to rob them, then force the cashier to open the safe.

**3** The moment you are aboard the trolley, look for red dots on your radar and immediately take the corresponding enemies down. Switch sides as required to kill as many as you can.

After the crash, dispatch the guards surrounding you until Lenny and Dutch find an escape route. Immediately sprint after them through the archway, the courtyard, and the street on the other side. Throughout this process, take out any guards in your line of sight with quick headshots, jumping from one cover position to the next, until you reach a wagon.

During the wagon escape sequence, your goal is to eliminate all pursuers. Monitor their movements on your radar, and prioritize those closest to the wagon to ensure they do not jump on the back.

When you reach the bridge, try to land a headshot or two on the lawmen in the distance as you approach the roadblock. Once Lenny throws a stick of dynamite, use the automatic Dead Eye moment to shoot it in midair and clear the way.

D

## ★ REVENGE IS A DISH BEST EATEN ★

### Medal Goals

- ★ Search every room in Bronte's mansion
- ★ Get Bronte to the skiff within one minute 30 seconds
- ★ Get 20 headshots
- ★ Complete the mission without consuming any health items

### Notes

As long as you search the other two highlighted rooms before finding Bronte, and quickly take out all enemies on the way with headshots, you should comfortably fulfil all requirements

**1** Meet up with Dutch in Lagras, on the pier outside Thomas's

Climb into the grounds of Bronte's mansion and follow John until you reach a few guards, take cover behind the fountain and open hostilities with a clean headshot. Gradually push forward to the other side of the fountain, where reinforcements will arrive. Take out all enemies as efficiently as you can, prioritizing those on the balconies – they can hit you even when you are behind cover

There are three highlighted rooms that you need to search, go through all of these to complete the related medal goal. Bronte is in the middle one, right in front of you as you reach the top of the staircase. Pick him up and head back downstairs as the lawmen arrive

**3** The next shootout begins once you break into the mansion. Take cover behind the walls and pick off Bronte's men one by one with headshots. Now go up the stairs, dispatching any remaining foes

**5** You now need to return to the skiff but with one very pressing complication, carrying Bronte means that you cannot take cover. This isn't too much of a problem if you have become an adept sharpshooter. If you struggle, try remaining at the back of your group, allowing the others to thin out enemy ranks for you. The mission ends as soon as you make it back to the skiff

D

## ★ COUNTRY PURSUITS ★

### Medal Goals

- ★ Return Jules to the skiff within one minute 40 seconds
- ★ Shoot the bullgator five times

### Notes

The hardest challenge here is the first one. When you rescue Jules, sprint without pause in a straight line on your way to him, and on the way back. Having a fortified stamina meter can really help here

**1** Meet up with Dutch at camp, on the balcony above the house's front door, then ride with him

Once in Lagras, follow Thomas and help him out with his traps. After the second one, make sure to heed his warning and wait for the three alligators to swim by. When the group splits up, head to the highlighted area straight ahead. Beckon Jules, who is standing on a tree branch. From here, head to the nearby skiff

**3** After the cutscene where the skiff hits a tree stump, jump in the water and run towards Jules. Keep going forward while you search for him in the highlighted zone until you can pick him up. Now sprint back to the skiff as fast as you can using the most direct route

Back on the boat, look for the bullgator in the distance and fire at it. The foam it generates on the surface of the water makes it easy to locate. Even if the creature itself is barely visible, take note of your aiming reticle: if it's red, your bullet will hit its mark. In the next sequence, follow the onscreen instructions to treat Jules's wounds. The bullgator will then attack you one more time: follow our previous advice as you fire to drive it away

## ★ AMERICAN FATHERS I & II ★

**1** Speak to Evelyn Miller in Saint Denis. After two in-game hours, the Eagle Flies marker will become available to the southeast of Valentine. During the opening stage of this mission, you can choose between two ways to sneak into the factory: by hiding in a wagon (2) or by stealthily infiltrating the perimeter (2). The former option is probably the easier of the two.

As soon as the introductory cutscene ends, sprint down the hill and hop inside the wagon by pressing **[X]**. Exit immediately as it reaches its final destination, then climb up the stairs in front of you and go through the nearby door to enter the factory.

If you prefer to infiltrate the factory without using the wagon, one reliable plan is to approach the premises from the southwest corner running alongside the railway. When you reach the platform, wait until the patrolling guard moves away or take him out silently with an arrow. At this point, you can quietly crouch walk to the factory's main room.

### Medal Goals

- ★ Infiltrate the factory by hiding in the wagon
- ★ Reach Danbury's office without being detected
- ★ Kill all the horseback pursuers during the escape
- ★ Finish with at least 80% accuracy

### Notes

If you follow our walkthrough, you should meet all requirements on a first attempt.

You now need to stealthily make your way upstairs. If you arrive from (2), stay in your starting position and wait until the closest guard moves outside through the large opening on your left, then crouch walk along that same side of the room until you reach the stairs in the back. The machines in the middle will offer you the cover you need to avoid the gaze of the guard on the right hand side. If you arrive from (2), go through the opening and take a left to reach the stairs.

Upstairs, you have a single sentry to worry about. He usually stands by the window, looking outside. You can sneak behind him and head straight to the office at the far end, though taking him down quietly is also an option.

**5** Once inside the office, beat Danbury until he gives you the file you came for. Leave the room through the window. Back outside, dispatch the nearby enemies with quick headshots before heading to the site of the explosion. Move from cover to cover, killing all foes on the way until you find Eagle Flies in the middle of the highlighted area. Hop on your horse and follow your companion.

**6** During the horseback escape, a handful of guards will give chase. Without slowing down, turn the camera to the rear and eliminate them.

## ★ BANKING, THE OLD AMERICAN ART ★

### Medal Goals

- ★ Crack the safe without making a mistake
- ★ Complete the mission with sidearms exclusively
- ★ Get 25 headshots
- ★ Complete the mission without consuming any health items

### Notes

These objectives require perfect combat execution. Make sure you put away the rifle that Javier gives you when you go through the hole in the wall and take your time during each shootout: jump out of cover only when you feel it's safe to do so, align a quick headshot, then duck back to safety. If in doubt while cracking the safe, the correct combination is 19 - 72 - 54.

**1** Speak to Dutch inside the camp's mansion, then follow the convoy to Saint Denis. Choose your favorite weapon loadout before you leave your horse.

**2** Once the hold-up begins, force the bank manager to open the vault. As previously, you can crack the safe by slowly rotating (1) counterclockwise, then clockwise, then counterclockwise again, using the intensity of your controller's vibrations to guide you. Maneuver slowly when you are close, one increment at a time, until you hear a click.

**3** When the shootout begins, stay in your initial cover position and take out as many lawmen as you can with headshots. As soon as Dutch calls you, run to him behind the bank's counter. Pick up the dynamite he drops on the floor and place it on the marked wall, then take cover behind the counter and shoot the explosive.

Go through the hole in the wall and climb up the nearby ladder. Keep going until you reach the marked position on the rooftop. From this

vantage point, you can snipe the enemies down below while the gang makes its way up. Pick off as many targets as you can, prioritizing those on the balconies and the Gatling gun as soon as it arrives on a wagon. Aim just above the muzzle flashes to kill the individual who is manning it.

**5** Once everyone is in place, follow your allies across the rooftops until you reach a window.

After the cutscene, follow Dutch to the docks. Inside the train, crouch walk at all times to avoid detection. When a guard with a lantern appears at the end of the carriage, swiftly take cover behind the train seats to your left.

Back outside the train, crouch walk to the highlighted area and whistle to attract the guards. As soon as they start moving, go around the crates and rejoin your group. As long as you lie low and carefully monitor enemy movements on the radar, you have little to fear. After Charles's diversion, run to the boat to complete the mission.

## CHAPTER 5: GUARMA

## THE STORY SO FAR

In Saint Denis the gang met with Angelo Bronte, a local crime boss, who released Jack in exchange for their services. Trying to make money with a few heists, Arthur and his companions soon realized that Bronte had set them up. After Dutch took a near revenge on the Mafia, the gang attempted one final stunt: the robbery of the bank at Saint Denis. This was a disaster, as the Pinkertons were lying in wait. The gang had no other choice than to escape the locked-down city by stowing away on a southbound ship.

## ★ WELCOME TO THE NEW WORLD ★

<b>Medal Goals</b>	<ul style="list-style-type: none"> <li>★ Do not fall behind while walking with the chain gang</li> <li>★ Get 10 headshots</li> </ul>
<b>Notes</b>	Scoring 10 headshots can prove difficult. Prioritize enemies that stand in the open to make the aiming process easier.

When you wake up on the beach, walk until you notice a plume of smoke on your left. Walk over to the campfire.

**2** After the cutscene and further walking, two short shootouts take place. Pick off the targets from behind your initial cover position in both instances.

## ★ SAVAGERY UNLEASHED ★

<b>Medal Goals</b>	<ul style="list-style-type: none"> <li>★ Release all the workers within four seconds</li> <li>★ Get eight headshots</li> <li>★ Finish within five minutes 40 seconds</li> </ul>
<b>Notes</b>	Keep up with Leon, then execute the final steps perfectly: shoot the three ropes that the workers are hanging from in rapid succession, then dispatch Fussar's men without wasting a second.

**1** Head to the "stranger" marker south of the river to initiate this mission. After looking around and trying to free your arms, rock left and right with **L** until you fall. Immediately grapple your captor with **△** **Y**, then beat him up.

Follow Leon through the ruins, staying behind cover at all times to avoid detection.

**3** As you reach the far end of the ruins, take out the lone guard, then shoot the ropes that the workers are hanging from. Immediately turn around and take cover as Fussar's men will now be coming after you. Dispatch them, including the sniper that appears above the far wall, to complete the mission.

## ★ A KIND AND BENEVOLENT DESPOT ★

<b>Medal Goals</b>	<ul style="list-style-type: none"> <li>★ Get Javier to safety within two minutes</li> <li>★ Get 10 headshots</li> </ul>
<b>Notes</b>	As soon as you rescue Javier, do not stop moving until you reach the river. Securing 10 headshots along the way should pose no problem.

**1** You will find Dutch on the southeast side of Aguas Dulces, by the waterfall. Shimmy across the narrow ledges with him, then follow Gloria through the caves. Tilt **L** upward and repeatedly press **△** **A** to lift the door when prompted.

Back outside, crouch-walk with Dutch until you run into a pair of guards: stealth-kill the right-hand one while he deals with the other. Hide the bodies behind the nearby well, then proceed forward.

**3** Repeat this stealth-kill strategy on the next duo inside the sugar refinery (this time hitting the left-hand target), then sabotage the building by examining the three marked interaction points: the valve, the sacks of sugar, and the shutters. Leave the building via the door behind Dutch.

**4** Follow Dutch until you complete the rescue. From this point forward, your goal is to protect Javier as you escape the compound. Take cover and pick off the guards that arrive from all directions. Monitor their movements on your radar, transitioning between cover positions accordingly.

**5** Flee through the sugar fields with Dutch. Whenever you notice red dots approaching from behind on your radar, turn and dispatch them before resuming your escape.

Cross the river and take cover behind one of the rocks. Your goal is now to hold off the remaining guards. They will arrive in large numbers, so try to eliminate them swiftly with the usual technique: jump out from cover and take a shot (preferably to the head by flicking **R**), before immediately returning to cover. Be especially mindful of the snipers that appear on the cliff. These marksmen can hit you even while you are behind cover, so prioritize them above all other targets. They might be hard to spot if they are concealed behind foliage, in which case you may need to manually adjust your shots.

## ★ HELL HATH NO FURY ★

**Medal Goals**

- ★ Prevent four boats from reaching the shore
- ★ Destroy the naval ship without missing a shot
- ★ Finish with at least 70% accuracy

**Notes**

Preventing four boats from reaching the beach is the biggest challenge here. The key is to land headshots, though this is complicated by the disruptive cannon shots and the distance between you and your targets. If you struggle, shots to the chest can work too. As soon as you have stopped the first two boats, move to the other side of the bridge and repeat. At this point, check the progress of the remaining boats on your map and react accordingly.

**1** Regroup with the others on the roof, then pick off Fussa's men on the beach and bridge below. They are at a distance where you only need to make a fractional adjustment on **R** to align headshots every time you lock on. Once you have wiped them all out, help Hercule push the cannon; stand behind it, tilt **L** forward and tap **X**, **A** repeatedly.

**2** Pick up the double-barreled shotgun on the wooden crate at the bottom of the stairs. It works extremely well against nearby targets, such as the hostiles you encounter as you follow Dutch and Hercule down to the beach. Once you get there, we suggest you switch back to your bolt action rifle or carbine repeater, which both offer superior range and ammo capacity.

Once you reach the end of the bridge you will need to issue orders to your allies. We suggest that you send them to the right-hand side where enemy boats tend to arrive first. By focusing your party's fire on them from your vantage point on the bridge, you can take down most enemies quickly, then move to the other side and repeat. Run down the stairs and eliminate the remaining soldiers before regrouping at the waypoint.

Follow Hercule back up to the roof where you can now man the cannon to destroy the ship. Note that you need to aim higher to take the trajectory of the projectiles into account. As a rule, if your reticle is aligned with the top of the ship, you will generally hit it just above the waterline. Fire without pause, reloading whenever you run out of ammo, until the vessel sinks.

## ★ PARADISE MERCIFULLY DEPARTED ★

**Medal Goals**

- ★ Kill the first two sentries without being detected
- ★ Escort the captain to the boat within one minute 45 seconds
- ★ Get 25 headshots
- ★ Complete within six minutes 45 seconds

**Notes**

Your priority here is to be effective during battles. Speed through each encounter by chaining headshot after headshot, and sprint to your destination. You really can't afford to stop at any point.

**1** Run up the hill with your companions. When you reach the two guards, creep behind the first one to perform a stealth kill. Micah will take care of the other. Plant the explosives on the cannon before you move on.

Move through the ruins, gradually eliminating the soldiers you encounter on the way, and paying special attention to those on vantage points. Climb up the stairs at the end to reach the lookout platform where another shootout takes place.

**3** Now head toward the workers compound. Start the battle from the first cover point, then push on to the highlighted house where the captain awaits. During the Mexican standoff, wait until you can look down to kick a gun towards the captain.

**4** Expect more resistance on your way back to the ship. Move aggressively from cover to cover, eliminating as many foes as you can with instant headshots.

Avoid the main alley when you are instructed to get to the cannon, as it is dangerously exposed to shots from the turret at the top of the tower. Instead, advance via the left side of the ruins, jumping above the various walls. Use the cannon to blast the top of the tower and end the mission.

## ★ DEAR UNCLE TACITUS ★

- Medal Goals**
- ★ Leave Shady Belle without being spotted by the Pinkertons
  - ★ Finish within eight minutes
- Notes**
- Technically, you don't need to kill any Pinkertons. Sneak behind the first one and crouch-walk directly to the entrance door to make your escape, then gallop to your destination.

**1** You regain control of Arthur on a pier at the Van Horn Trading Post. Steal the horse at the top of the steps and ride to Shady Belle.

**2** Inside the mansion, pick up the letter on the living room table.

As soon as the cutscene ends, crouch and wait for a first Pinkerton to pass through the nearby doorway, then sneak behind him with your knife in hand and perform a stealth kill. A second is examining the fireplace in the adjacent room: either kill him in the same fashion, or leave through the door. Once outside, mount up and ride to Lakay.

## ★ FLEETING JOY ★

- Medal Goals**
- ★ Kill two Pinkertons during the Dead Eye ambush
  - ★ Get at least 70% accuracy with the Gatling gun
  - ★ Get five headshots with the Gatling gun
  - ★ Complete the mission without consuming any health items

**Notes**

As long as you use the Gatling gun sensibly, more like a semi-automatic rifle fired in short bursts, these objectives are relatively accessible.

**1** Follow Sadie to the other house, climb through the trapdoor, and get in cover by the entrance.

**2** The shootout begins with an automatic Dead Eye moment: don't miss the opportunity to tag a few enemy heads to take them out instantly. Sprint to cover and eliminate the others with standard headshots.

After dispatching more foes, you will be invited to man the Gatling gun. It's marked in yellow on your radar. Sprint to it and take control with **[A]/[Y]**. You can fire by holding **[R2]/[LT]**. Mow down the Pinkertons and the reinforcements that join them, note that you can cause large explosions by shooting the red crates. The mission ends when your opponents start to flee.

(D)

## ★ THAT'S MURFREE COUNTRY ★

- Medal Goals**
- ★ Get 15 headshots
  - ★ Deliver Meredith to her mother within two minutes
  - ★ Finish with at least 85% accuracy
  - ★ Complete the mission without consuming any health items

**Notes**

Melee kills are incompatible with the headshot requirement: use weapons and Dead Eye liberally. When taking Meredith back to her mother, you can cut through the woods during the first part of the journey to save time.

**1** Dutch can be found at the Lakay camp. After your conversation, talk to Charles and ride with him. Note that equipping a powerful close-range weapon, such as a shotgun, will prove useful soon. Charles asks if you wish to make part of the journey by canoe, but we suggest you ride your horse instead: this way, you'll have access to your saddle. When you reach the two Murfrees, take out the one on the left with a silent weapon (such as a throwing knife). Charles will eliminate the other simultaneously. After a short walk, you have another choice to make: you can either sneak into the cave (**[2]**) or flush the Murfrees out with dynamite (**[2]**).

**2A** If you opt for the infiltration scenario, creep behind the sentry at the cave's entrance and slit his throat. Take out the next target silently inside the cave (or ask Charles to do so for you). There are two more Murfrees that you can stealth-kill from behind by dropping down from the ledge to your right. At that point, however, stealth is no longer possible: the next Murfree you eliminate will raise the alarm.

If you chose the dynamite approach, head toward the cave entrance and throw an explosive at the Murfree. The detonation will kill him, but also alert all of his companions. Take cover and be ready to repel a challenging wave of enemies. Push forward into the cave when you're ready.

Once the shootout inside the cave begins, advance very cautiously. Some Murfrees have a nasty habit of charging to your position and attacking with a melee weapon, which can kill you with a single strike, eliminate these as a priority. Keep as much distance as you can from your foes, monitoring their movements on the radar and — where possible — try to bottle them up at chokepoints where you can fire at will. Move deeper into the cave only when the coast is clear. After all targets have been eliminated, head to the cage and rescue the girl.

**4** Take Meredith back to Annesburg on horseback. Note that accepting or refusing the money reward from her mother has no honor consequences.

# CHAPTER 6: BEAVER HOLLOW

## THE STORY SO FAR

Stranded in the Caribbean on the small island of Guernsey, Arthur and his companions were made prisoners by James, a powerful man running the island's sugar plantations. Joining with a local resistance group, the gang managed to escape and return to the mainland. Briefly reunited in a new camp at Lakay, the Van der Linde gang, or rather what was left of it, was quickly attacked by Pinkertons. On the run again, they managed to establish a new base at Beaver Hollow.

Six hour delay if either "Archeology for Beginners" or "Honor Amongst Thieves" is skipped

## A FORK IN THE ROAD

As you approach Sadie's marker in Saint Denis to begin "Icarus and Friends", this mission is triggered automatically. It is primarily a cinematic sequence that is best experienced without any form of guidance. Completing this within three minutes five seconds will reward you with a gold medal.

After this cut-piece event, you might soon notice that your attribute cores deplete a little more rapidly than they used to. This is not just an impression, but a fact — turn to page 166 for details.

## ★ ICARUS AND FRIENDS ★

### Medal Goals

- ★ Keep the balloon at the correct altitude for the entire journey
- ★ Get five headshots from the balloon
- ★ Finish with at least 70% accuracy
- ★ Complete the mission without consuming any health items

### Notes

All of these goals should be rather straightforward. The final shootout can be brutal, so remain behind cover as much as possible and make each shooting opportunity count.

**Note** that this mission can be played either at the end of Chapter 5 or at the beginning of Chapter 6.

**1** Meet up with Sadie in Saint Denis and follow her to the outskirts of the city.

**2** The Ascend prompt in the lower right corner of your screen shows your altitude. As you hold (R2) / (RT) to rise, observe how the gauge fills. If you look closely, you will notice a faded yellow segment in the left half of the circle: this corresponds to the optimal altitude range. Once you reach this, the gauge itself becomes yellow.

Your goal is to stay within that zone by regularly topping up the gauge. This is by no means difficult — you simply need to keep an eye on the current level and hold (R2) / (RT) briefly at regular intervals. Note that the optimal zone will gradually transition towards the bottom of the gauge as you near your destination. This reflects the fact that you need to lower your altitude to observe the penitentiary from up close, so adjust the spacing of your button presses accordingly.

Once in a stationary position above the penitentiary, use the binoculars to search the fields for John. When you locate a group of prisoners, tilt (L) upward to zoom in and ascertain if he is among them. As soon as the guards start firing at you, ascend again to leave the area.

**4** You will soon notice Sadie below with O Driscolls in hot pursuit. Perched in the hot-air balloon, you are in a perfect position to snipe them. Wait until you are within range — your reticle will turn red when aligned on a target — before you open fire.

Once alone in the balloon, you are back in charge of its altitude. As previously, make sure you stay inside the marked zone on the gauge. You will need to gain height to pass above the bridge, then immediately descend for the rope to be within Sadie's grasp. Pull her up by tilting (L) upward and tapping (X) / (A) repeatedly.

**6** The mission ends with a final shootout. Eliminate the O Driscolls that run in your direction from your initial cover position. As you finish the last ones off, reinforcements arrive from behind you: turn around and sprint to a cover position on that side. These foes are numerous and aggressive, so proceed cautiously, taking great care to minimize the time that you spend out of cover to shoot.

## ★ VISITING HOURS ★

### Medal Goals

- ★ Get headshots on both prison guards when sniping from the tower
- ★ Escape to the boat within two minutes 45 seconds
- ★ Finish within nine minutes
- ★ Finish with at least 80% accuracy
- ★ Complete the mission without consuming any health items

### Notes

The primary consideration here is speed, particularly during your escape with John. Only eliminate foes that pose a direct threat, making brief stands at each available cover position. The rest of the time, focus on covering ground as quickly as possible.

**1** You will find Sadie on a pier northwest of Sisika Penitentiary.

**2** After a brief rowing session, you will reach the island's shore. Immediately crouch and stay low as you follow Sadie to the watchtower. Climb up the ladder and stealth-kill the guard at the top.

**3** Pick up the rolling block rifle and use the scope to observe the group to your right, in front of the barn. Take out the two guards with headshots, then run to that location.

**4** After the cutscene, march your hostage to the prison entrance. When the shootout begins, immediately sprint back to the other side of the bridge and take cover behind the wooden crates or barrels. This is a very strong defensive position as the guards can only come after you through a natural bottleneck. It also makes it harder for snipers on the penitentiary's walls to hit you.

As soon as Sadie and John start running through the field, join them and provide protection from all incoming enemies. When you reach a collection of wooden crates and cotton bales at the end of the field, take cover and make a brief stop to dispatch as many guards as you can. This will facilitate Sadie and John's advance towards the boat. Join them as soon as they reach the shallow water.

**6** A final shootout occurs on the boat. You have no cover available here, so make each bullet count with practiced flicks of (B) as you lock on to secure headshots.

**7** Back on the shore, mount up and follow your friends to Beaver Hollow.

M

## ★ JUST A SOCIAL CALL ★

**1** Meet up with Micah between two of the small wooden houses in Annesburg. Follow him and Dutch, then take cover behind the highlighted crate.

**2** When the shootout begins, dispatch the men on the boat from your initial position, then turn around and transition to one of the crates to welcome the Pinkerton reinforcements arriving from the opposite direction.

Keep up with Dutch as he looks for Micah, eliminating all enemies that you run into on the way. If you lose sight of him when you reach the coal mining facility, head up the stairs.

### Medal Goals

- ★ After killing Cornwall, reach the horses within two minutes 45 seconds
- ★ Headshot three mounted enemies
- ★ Complete the mission without consuming any health items

### Notes

To reach the horses within the deadline, you have to move very quickly. You will need a high headshot success rate to progress through each enemy encounter at the required pace.

You will face resistance as you follow Dutch and Micah, but nothing that should prove too taxing. Make sure not to linger on the stairs with the coal conveyor belt, where you will be exposed to shots from all directions. When you reach the top of the stairs, a final wave of guards awaits: you can get rid of at least two of them instantly if you fire at the oil wagon. Once they're all dead, walk to the highlighted area to free the horses.

**5** During the horseback escape, several groups of mounted enemies will attempt to stop you. Steering your horse and aiming simultaneously can prove a bit complicated, so focus on one or the other at a time: as soon as you are within firing range, leave **1** alone for a few seconds (your horse will maintain its gait), and lock on to your targets to align clean headshots. You can then immediately return your attention to the escape. Dutch and Micah will not outdistance you if you're swift.

F

## ★ DO NOT SEEK ABSOLUTION – I & II ★

### Medal Goals (Part I)

- ★ Finish within one minute 20 seconds

Gallop to the mine and alternately block and counterattack to win the first fight quickly.

### Medal Goals (Part II)

- ★ Find Edith Downes within one minute 10 seconds

### Notes

Head straight to the area shown in step **5** without stopping at the bridge to examine anything.

**1** If you have a high honor rating (at least rank 4), you will find Edith Downes by the coal mining facility in Annesburg.

**2** Head to the mine at the top of the hill to find her son, Archie, being bullied by the foreman. Beat him down to free the boy.

**3** Four hours later, you can meet Archie again in a small alley perpendicular to Annesburg's main street, right next to the newspaper seller.

Follow the railway to the highlighted area, northeast of the town. Activate Eagle Eye to reveal a trail on the path that runs below the bridge, towards the northwest.

The trail will lead you to a horse hitched to a tree, and to Edith Downes a few steps beyond. Persuade her to go back to town – whatever tone you use ("ask" or "demand") leads to the same result. Take her back to Archie to complete the mission.

## ★ OF MEN AND ANGELS ★

**1** Greet Sister Caderon outside her church in Saint Denis. She asks you to donate food for the poor. You can complete this immediately by offering any four food items, or 10 dollars, or an equivalent combination of money and foodstuffs.

## ★ THE COURSE OF TRUE LOVE – IV & V ★

**1** Read the letter from Penelope in your tent. Penelope awaits outside the small cabin that faces the gazebo where you first met her. Take her with you on your horse and ride to Rhodes.

**2** Once at the train station, buy tickets for the couple. They will soon be attacked by Beau's cousins. To defeat this pair in the ensuing fist fight, block their initial punches and counter with a couple of blows of your own, then repeat. Get on the train immediately afterwards.

### Medal Goals

- ★ Headshot five of the Braithwaites as they pursue the train
- ★ Finish within seven minutes 30 seconds

### Notes

You can hop aboard the train before the end of the fist fight to save time. If in doubt, use Dead Eye to secure the required headshots while the train is in motion.

Head to the flatbed carriage to the rear when the train is attacked, then take cover and dispatch the mounted thugs with quick headshots. Afterwards, enter the engine car and drive the train to Riggs Station.

## ★ MONEY LENDING AND OTHER SINS – VI & VII ★

**1** Speak to Strauss at camp to receive the details of two new debtors.

John Weathers can be found near Moonstone Pond, to the west. He is trying to repair his broken wagon on the side of the road. When you

confront Weathers, a group of soldiers searching for him launch an attack. Take out as many as you can from your initial cover position, then push forward to the rocks to finish off the last few survivors. Once the dust settles, you have to choose between absolving or recovering the debt. The former option will net you 10 honor points but no additional recompense; the latter will get you the reward (a silver rocket) but make you lose five honor points.

To find Arthur Londonderry, head to the entrance to Annesburg's mine. After questioning the guard, enter the pit and speak to the foreman. Your next destination is the debtor's widow, outside a small cabin at Butcher's Creek – a short ride to the south of your current position. Arthur automatically decides to absolve her, but you are free to give her money too; doing so costs a nominal dollar sum but rewards you with 20 honor points.

**4** You can now return to camp to confront Strauss.

M

## ★ THE DELIGHTS OF VAN HORN ★

**Medal Goals**

- ★ Headshot five soldiers with a long scoped rifle
- ★ Finish with at least 85% accuracy

**Notes**

A sniper rifle customized with a long scope might help you to complete the first challenge. You might find it difficult to land headshots on moving targets. Activating Dead Eye will greatly help you here; feel free to replenish your meter with a tonic if you run out.

**1** Meet Micah at the waypoint just west of the Van Horn Trading Post, then ride with Bill to the ambush location.

Go upstairs in the derelict house and take cover by a window. From here, you are in a perfect position to snipe the wagon guards. Once you have cleared the street, run back downstairs and join Bill on the wagon.

Enemies will soon give chase as you ride back to camp. Your priority here is to prevent them from shooting the wagon too much; their bullets will eventually hit the dynamite, leading to instant death. Take out your favorite weapon and focus on securing headshots, prioritizing the enemies close to the back of the wagon. The movements of your mounted pursuers can be unpredictable, so activate Dead Eye if required. The mission ends when you reach Micah, irrespective of who's driving.

F

## ★ THE BRIDGE TO NOWHERE ★

**Medal Goals**

- ★ Plant the dynamite within one minute 35 seconds
- ★ Escape the oncoming train within 19 seconds

**Notes**

This set of objectives is straightforward, but requires perfect execution. Memorize in advance the exact location of each pillar; every step and every second counts.

**1** You will find John at Bacchus Station. To move the hand car, hold **X/A** when it's Arthur's turn, release when it's John's turn, and repeat in sequence.

Next, pick up the first crate of dynamite and walk a few steps toward John, who waits on the floor level below. To lower the crate to him, you need to alternately hold **L2/L1** and **R2/R1** until he can grab the explosives. Collect the second crate and proceed in the same way to lower it down to John.

After going down the ladder, you now need to plant dynamite on the bridge's pillars. There are three positions in total; for each one of them, you must first pick up dynamite at the foot of the ladder, then head to the corresponding marker.

**4** As soon as the cutscene ends, sprint back to the hand car. Use the same controls as previously (hold **X/A** when it's Arthur's turn to press, release when it's John's) to reach safety before the train crushes you. Finally, use the plunger to blow up the bridge.

## ★ A RAGE UNLEASHED ★

**1** Speak to Reverend Swanson at camp, then follow Dutch and Eagle Eyes all the way to the beach.

**2** Once aboard the canoe, head in the direction of the boat. Steer with **L** and press **X** **A** in time with the paddle entering the water to row more quickly.

On the deck, perform a stealth knockout on the enemy directly in front of you. Repeat this on the foe who walks out from where the horses are stabled while your allies neutralize the others. This leaves three men, who can be found playing cards near the ship's bow. If you want to

<b>Medal</b>	★ Knock out two soldiers on the boat
<b>Goals</b>	★ Round up the horses and reach the shore within one minute 30 seconds
<b>Notes</b>	A very easy set of optional objectives that simply require you to move swiftly

persist with non-lethal force, crouch walk behind the closest one to take him out, then budgeon the other two until they fall – though if you have already satisfied the related medal goal, there's no reason why you can't just draw a weapon and get it over with. When the men have been dealt with, plant dynamite on the nearby anchor.

After the cutscene, swim toward the three horses in front of you and mount any one of them. Now head to the shore; the other two horses will follow your lead.

**5** A final cutscene is triggered when Dutch joins you in the highlighted area. You are given a choice of whether to help Rains Fall or not. If you opt to help, you unlock the "Archeology for Beginners" mission. If not, you will miss that mission altogether, as well as "Honor, Amongst Thieves."

## ★ ARCHEOLOGY FOR BEGINNERS ★

<b>Medal</b>	★ Recover the relics without being detected
<b>Goals</b>	★ Recover the relics within one minute 30 seconds

**Notes** To meet both requirements, you need to be both fast and stealthy. Gallop down the hill and dismount a short distance before you reach the camp. Crouch-walk straight to the relics while the patrolling guard moves away, then quietly return to your horse and gallop at full speed back to Rains Fall.

**1** Look for Rains Fall at the Wapiti Indian Reservation, in the tent by the campfire. Follow him on horseback as he leads you to a sacred site. During the ride, Monroe asks you if you are willing to help him accept and you will unlock a new mission ("Honor, Amongst Thieves"); refuse, and you will lose the opportunity to complete that mission.

**2** Rains Fall will make a couple of stops during the journey to pick up herbs. As you ride to higher elevations, temperatures will start to fall; don't forget to change to a warmer outfit via the horse wheel.

**3** When you reach your destination, activate Eagle Eye and inspect the clues revealed in the highlighted area.

**4** Make your way down toward the army camp at the foot of the mountain. Your objective is to retrieve the Chanupa and the sacred items that lie on the ground, in the middle of the camp, next to the cooking pot. We strongly recommend that you avoid fatalities, as completing this objective without bloodshed leads to a valuable reward. Wait until the guard that patrols around the entire camp moves to the

opposite side, crouch-walk over to take the items (see accompanying screenshot), then retrace your steps and quietly leave the area.

**5** Return to Rains Fall at the top of the mountain. If you didn't kill any of the guards, the elder rewards you with the owl feather trinket, a powerful item that permanently reduces the drain speed of your cores by 15%.

EPILOGUE 2

## ★ HONOR, AMONGST THIEVES ★

- Medal Goals**
- ★ Recover the vaccine without being detected
  - ★ Finish within five minutes

**Notes**

To meet the time requirement, gallop straight to the wagon. Carefully move to either side, staying to the rear of the two drivers. Wait until the onscreen prompt appears, then jump aboard. After you retrieve the vaccine, rush back to Monroe.

- 1** Speak to Monroe at the Wapiti Indian Reservation, then follow him.

Once the wagon arrives, your goal is to retrieve the vaccine it carries. Brute force is a viable option, but it's better to adhere to Monroe's wishes and collect it stealthily, without bloodshed. Hide next to the wagon, matching speed while remaining out of sight behind the two drivers, then jump aboard once you are in position. Search the crates to locate the medicine, then return to Monroe at the reservation. Note that the above strategy is only possible until the wagon reaches Cornwalli Factory Kerosene & Tar; beyond that point, a shootout is unavoidable.

## ★ THE FINE ART OF CONVERSATION ★

- Medal Goals**
- ★ Kill a pursuer's horse during the escape
  - ★ Finish within nine minutes 30 seconds
  - ★ Finish with at least 75% accuracy
  - ★ Complete the mission without consuming any health items

**Notes**

You have no headshot requirement to worry about here. Aim at the torsos of moving targets with a powerful weapon and ammunition type to ensure maximum efficiency.

- 1** Treawny can be found at camp, seated not far from your tent. After your conversation with him, ride with Charles and Rains. Fall into the meeting begins.

- 2** After the meeting, back away in the direction of your horse. Mount up immediately and gallop at full speed with your companions. Enemies will soon give chase; turn the camera to the rear and eliminate them without interrupting your horse's gallop.

Join Monroe when he heads into the forest on foot, taking cover behind the various rocks and trees as you eliminate the many soldiers. This is a rather lengthy shootout, so be patient and perform as many headshots as you can. Once the coast is clear, mount up again and escape with Charles. A handful of mounted adversaries will give chase; dispatch them before you reach the train station.

## ★ GOODBYE, DEAR FRIEND ★

- Medal Goals**
- ★ Find Colm's backup within 45 seconds
  - ★ Get eight headshots with the scoped rifle
  - ★ Finish within six minutes 30 seconds

**Notes**

The fastest route to Colm's backup on the roof is the one going through the arches, as you can run all the way through. If you struggle to secure headshots with the scoped rifle, use brief bursts of Dead Eye to adjust your aim.

- 1** Meet up with Sadie and Dutch in the Saint Denis saloon. Follow them to the gallows.

- 2** After Dutch leaves, there are various ways to reach the roof. Here are the two possibilities:

- ★ Either go through the arches in front of you, proceed up the stairs to the topmost floor, then climb the ladder at the end of the balcony.
- ★ Head up the ladder on your left, immediately take a right inside the house and walk up the stairs to access the roof via a window.

- 3** An O'Driscoll ambushes you on the rooftop. Repeatedly press **○/B** to break free, then take him on in a melee fight. One effective way to deal with him is to grapple him with **△/Y**, then stab him with **R2/R1**.

When the shootout begins, pick off as many enemies as you can, identify them by looking for their distinctive gray hats. Try to land headshots for maximum efficiency, prioritizing those who pose a threat to Dutch and Sadie. If you struggle to locate your foes, observe Dutch; the direction of his shots will indicate the approximate position of an O'Driscoll.

## ★ FAVORED SONS ★

**1** Dutch and Eagle Flies await in Cumberland Forest, atop the cliff at the heart of the highlighted area.

**2** Pick up the spool and attach the wire to the dynamite in all four marked positions, then run back up to the top of the cliff. Detonate the explosives once all the soldiers have passed the first charge.

When the shootout begins, your vantage point gives you a perfect angle on the soldiers down below. Take them out quickly with headshots, then turn your attention to those that run up the hill to your position.

After you loot a few bodies, a further wave of soldiers attacks from the opposite hill, backed up by a cannon. Take cover and eliminate as many as you can with headshots, then make your way up the hill to deal with the individual manning the cannon. If you intend to complete the medal goal here, advance on the left side of the hill to encounter fewer opponents.

**5** With cannon shots from further afield and mounted enemies now threatening you, you must run to your horse and ride away with Dutch. When you reach the canyon, take cover and dispatch the

**Medal Goals**

- ★ Kill the soldier on the cannon within 45 seconds
- ★ Get 35 headshots
- ★ Complete the mission without consuming any health items

**Notes**

Given the amount of headshots required, you need to consistently flick **R** every time you lock on to a target. Once the cannon is introduced, make your way up the left side of the hill, eliminating all foes you run into with instant kills. Remember that enemies spawn endlessly during step **5**, enabling you to reach the required total of headshots.

soldiers on the cliff. Keep following Dutch, making the most of each cover position available every time you run into enemies.

When soldiers attack you from behind as you run down a narrow path, repel the first wave – but be quick to flee as soon as Dutch makes the suggestion. This is a tide of enemies that cannot be stemmed, so it makes no sense to linger. At the end of this path, a cutscene is triggered: surrender with **△**, **Y**, but then tilt **L** downward to slowly walk backward until you can jump from the cliff with **△**, **X**.

As you go down the rapids, swim to the left to grab Dutch's hand.

## ★ THE KING'S SON ★

**Medal Goals**

- ★ While infiltrating Fort Wallace, headshot every soldier blocking your way to Eagle Flies
- ★ Kill 15 enemies while escaping in the canoe
- ★ Finish with at least 80% accuracy

**Notes**

Make sure you take the lead during the stealth section when given the choice, as you need to perform the headshots yourself. When dealing with two guards at a time, activate Dead Eye to prevent Charles from "stealing" a kill. During the canoe escape, constantly monitor enemies on your radar and take them out as soon as you can. Aiming can be difficult, so take these adversaries down by any means necessary. As ever, Dead Eye is the great leveler in times of adversity, especially if you are well stocked with tonics to replenish it.

**1** Speak to Charles at the Wapiti Indian Reservation, then to Rains. Fall in his tent. After the cutscene, ride with Charles to Fort Wallace.

This mission begins with an infiltration sequence during which detection will cause you to fail the mission and return to the previous checkpoint, so be sure to equip silent weapons. The bow is obviously ideal. Start by aligning a clean headshot on either of the guards by the entrance; Charles will take care of the other one. Follow your companion, pressing against the wall to avoid the gaze of the sentry above, then kill either of the next two guards as you did before. Once inside the fort, eliminate the first two lone soldiers with bow headshots. Work in tandem with your partner again to eliminate the next pair, then dispatch one more guard. You can then follow Charles through the door until he steps behind crates.

Climb up the nearby ladder, eliminate the lone sentry, then shoot an arrow at the lantern from your vantage point. As soon as the fire spreads, crouch-walk to the next ladder and head to the cells with Charles. Loot the guard inside to retrieve the keys and free Eagle Flies.

**4** A major shootout begins outside. Proceed as usual, moving from cover to cover and killing all enemies on the way with headshots. Once you reach the blocked door, get to the rear of the nearby cannon; rotate it according to the target, then aim and fire to open the way.

Soldiers will be swift to give chase when you escape on horseback. Gallop constantly by tapping **△**, **△** repeatedly, occasionally rotating the camera without touching **L** to deal with anyone in close pursuit. Your priority is to escape, though, so keep up with Charles at all times. When you make it to the canoe, dispatch the remaining soldiers before you jump in.

During the canoe escape sequence, many more foes will attack from all sides as you go down the river, including from the rope bridge high above. Whenever you notice a red dot on your radar, draw your weapon and fire; resume paddling only when the coast is clear. Once the current becomes weaker, head for the shore to end the mission.

SA

## ★ MRS SADIE ADLER, WIDOW – I & II ★

### Medal Goals

- ★ Headshot the sniper in the barn
- ★ Secure the barn without taking any damage
- ★ Finish within five minutes 30 seconds

### Notes

This is a brief but brutal battle. To meet the deadline, you need to aggressively push forward from cover to cover and eliminate enemies with precision headshots, exposing yourself only very briefly to avoid taking damage. As soon as you clear the outside of the ranch, sprint to the barn. Methodically take out all the O'Driscolls inside without losing a second, including any hiding upstairs, once they have fallen, sprint to Sadie in the cabin.

**1** You will find Sadie at camp, throwing knives at a tree. She asks you to help her. This is an important decision. If you say yes, the mission proceeds; if not, you lose the opportunity to complete it at all. Assuming that you answer in the affirmative, you can then choose to ride with her immediately if you are ready, otherwise, you will need to make it to Hanging Dog Ranch on your own.

Once at the ranch, prepare yourself for a short but intense shootout with enemies pouring in from all directions. Stay in cover at all times and fire in brief bursts with your most trusted weapon. Closely monitor your radar to keep track of your foes, transitioning between cover as required – especially if you have been flanked. After a short while you will notice a sniper posted in the barn, at the window upstairs dispatch him with a headshot as soon as you can.

As soon as you have defeated all foes outside, Sadie asks you to secure the barn. Fighting in the open within such close confines is too risky; instead, take cover behind the wooden post on the left hand side immediately as you enter. This should leave you free to kill your enemies safely, as they should come to you. Once you're done, join Sadie in the cabin.

D

## ★ MY LAST BOY ★

### Medal Goals

- ★ Save Paytah
- ★ Get 30 headshots
- ★ Finish with at least 80% accuracy
- ★ Complete the mission without consuming any health items

### Notes

This set of objectives requires you to be extremely effective during the shootout sequence. Do your utmost to eliminate your enemies swiftly with the usual technique: jump out from cover and align a headshot by flicking **D**, before immediately returning to cover.

Meet Dutch and Micah at camp. Follow the group once everyone departs. The battle begins at the oilfields. As soon as you are on foot, sprint to cover and begin to engage your opponents. Prioritize the snipers on the tower. Afterwards, refer to your radar to ascertain the positions of soldiers and adjust your aim accordingly.

Once on the wooden walkways, sprint toward the nearby building. As soon as a soldier bursts out, poised to kill Eagle Eyes, take him down with an instant headshot.

The next phase of the shootout is even more demanding, with soldiers coming from all directions. Eliminate everyone within range from cover, then sprint to another safe position and repeat. Pay close attention to your radar to quickly deal with any threats that arrive to the side or from behind. When you reach the final stretch with the train in the background, focus on the terrace of the house under construction. You will see a soldier wrestling with one of your allies – dispatch him with a quick headshot. A Gatling gun will soon begin hosing the area with bullets. Sprint to cover, then aim just above the turret's muzzle flash to kill the soldier manning it. With that done, finish off the remaining enemies in the area.

More troops await on the other side of the train. You will soon see Paytah struggling with a soldier to your left; quickly eliminate the latter with a headshot.

You will encounter a final pocket of resistance as you go around the factory and reunite with the rest of the gang. With the numbers now in your favor, finishing the remaining hostiles off should be a formality. After speaking to Dutch, follow him inside the factory and search the office upstairs. A few more enemies will attack you on your way back; you can take them out from your initial position at the bottom of the stairs. Be ready to shoot during the automatic Dead Eye moment that occurs after the cutscene: you do not control aiming here, so all you have to do is press the trigger when the reticle is aligned on your target. Ride back to the Wapiti Indian Reservation to complete the mission.

CHAPTER 6

EPILOGUE 1

EPILOGUE 2

## LAST CHANCE!

Before you embark on "Our Best Selves", be sure you are satisfied with your current progress, and are happy to press on with the final stages of the story. It is a point of no return, of sorts, as this is your last opportunity to complete a handful of time-sensitive optional side-stories – all of which have been covered in our walkthrough for Chapter 6 so far. If you need to check that you haven't missed any of these, refer to the flowchart on page 94.

"Our Best Selves" is played once, in back, over the two missions that follow. You will, of course, regain the ability to ream at your leisure once they have been completed.

## ★ OUR BEST SELVES ★

### Medal Goals

- ★ Get a headshot in Dead Eye after jumping from Dutch's horse
- ★ Finish within 11 minutes
- ★ Fight through the train with at least 80% accuracy
- ★ Complete the mission without consuming any health items

### Notes

The key here is efficiency while fighting enemies on the train, methodically lock on to your targets and flick **[B]** before firing to secure instant headshots. During the Gatling gun sequence no accuracy requirements apply so you can fire relentlessly to mow down mounted pursuers.

**1** Speak to Dutch in his tent, then head out with the rest of the gang. Retrieve the dynamite with John before rejoining the others outside Saint Denis.

As soon as the train passes by without stopping at the station, give chase. You need to board it by catching up and jumping to it.

Once aboard, make your way toward the engine car. You will encounter many enemies on the way, but cover points are abundant. When you reach the dual-wielding foe, stay in cover until he has to reload – then take him out with a headshot.

When the carriage ahead catches fire, move next to John and jump from the train to Dutch's horse. Hop back on the next flatbed carriage once you are level with it. After the cutscene, an automatic Dead Eye moment is triggered: use this to adjust a clean headshot on the soldier.

**5** In the next sequence, you get to man a Gatling gun as mounted pursuers arrive from all directions. Monitor their movements on your radar and feel free to fire with abandon – ammunition is not a concern here.

**6** Once you have repelled the soldiers, leave the turret and move to the armored carriage up ahead. Plant a stick of dynamite on the door, then ignite it with **[A]** **[Y]** and stand back – or, alternatively shoot it from a safe distance. After looting the armored carriage, jump off the train before it falls from the bridge that you blew up earlier in the story.

## ★ RED DEAD REDEMPTION ★

**1** Follow Sadie to reach Van Horn.

Get to the top of the lighthouse via the ladder, the stairs that follow, and a second ladder inside the tower. Your task is now to cover Sadie with your sniper rifle. She moves quickly, so you might lose her on a first attempt. Use the accompanying screenshot as a reference to get a sense of the path she follows from her initial position to the building where Abigail is held captive.

From Sadie's starting location, look a few steps to the right and pick off one of the two men to initiate the shootout. From here onward, you need to clear the way for her. If you struggle to spot the enemies attacking her, pay attention to the direction of Sadie's shots, and look for the telltale sign of gun smoke that might help to identify assailants. You have plenty of ammunition, so don't feel that you need to hold back. Pay special attention to the snipers positioned on balconies, as they can be a little tricky to locate.

**4** Back on the main street, eliminate all the enemies from your starting cover position, then run to the pier. Many more Pinkertons will attack you on the way: whenever you identify the red dots on your radar, rush to cover and kill them with quick headshots.

### Medal Goals

- ★ Get seven headshots while covering Sadie from the lighthouse
- ★ After Sadie is captured, reach Abigail and Sadie within one minute
- ★ Finish with at least 70% accuracy
- ★ Complete the mission without consuming any health items

### Notes

This set of challenges requires a high level of efficiency. Dead Eye makes it far easier to secure headshots while covering Sadie from the lighthouse. When you need to reach Sadie and Abigail within one minute, quick kills are vital; you could even consider sprinting straight to your objective, ignoring foes unless they're directly in your way.

An automatic Dead Eye moment begins when you enter the highlighted building: tag the heads of both targets and fire. Repeatedly tap **[B]** in the scene that follows when the onscreen prompt appears.

**5** Many enemies will come after you during the mounted escape. Try to secure quick manual headshots if you can, but don't skimp on Dead Eye: a full meter, utilized with precision, should be sufficient to deal with all of them. After a brief halt at Butcher's Creek, resume your journey to find Dutch.

**6** After the cutscene at Beaver Hollow, the Pinkertons come for the gang once again. Remain in your starting cover position and fend them off as best as you can. When John invites you to retreat into the cave, immediately go after him. Follow him through the tunnels, then up the assorted ladders, platforms and ledges leading to the exit at the top of the shaft.

**7** During the mounted escape with John, focus on galloping at full speed rather than on fighting. If you're fast, your pursuers shouldn't pose a threat. Once you're back on foot, eliminate the Pinkertons at the top of the hill. You then have a choice to make: going back into the cave for the money **[A]** or helping John get to safety **[B]**, causing you to lose or gain 10 points of honor respectively. This is a very significant branch in the story, with one of two different finales playing out in accordance with your choice.

**8A** If you opt to go back for the money, return to Beaver Hollow. You will have limited equipment at your disposal as you face hordes of Pinkertons. Proceed cautiously to the waypoint, eliminating the targets directly in your path and ignoring the others. Feel free to pick up weapons from your victims if they represent an upgrade. Head back inside the cave and grab the chest in the highlighted area, then retrace your steps back outside.

**8B** If you decide to help John, follow him up the cliffs without worrying about the shots fired from afar. Once you reach high ground, fend off the Pinkertons until Micah arrives.

**9** When Micah assaults you, a melee fight begins. He is, as you might expect, a decidedly vicious opponent. Avoid attacking him first; let him take the initiative, then block and immediately counter with a single blow. Don't push your luck with additional hits, and repeat the strategy until a cutscene is triggered. The cinematic showdown that follows plays out in accordance with the decision you made earlier in the mission.

## THE STORY SO FAR

With the Pinkertons hot on their trail, the Van der Linde gang were desperate to make one last robbery; something big enough that they could retire and live away from the so-called civilized world. To engineer a scheme, Dutch struck up an association with a tribe of local Native Americans, and his machinations brought them thought but death and pain. The gang seized on this distraction to successfully rob a train transporting military payrolls, but the human cost was too much for the likes of Arthur and John.

And then, as the Van der Linde gang tore themselves apart from the inside, the Pinkertons arrived to take them down for good.

## EPILOGUE – PART 1: PRONGHORN RANCH

## ★ THE WHEEL ★

**Medal Goals**

- ★ Reach Pronghorn without dropping any supplies
- ★ Reclaim the wagon within one minute

**Notes**

The hardest challenge here is actually to reach Pronghorn without dropping any supplies. This requires you to drive very cautiously. Moderate your pace at all times, and slow down for every possible hazard.

**1** This mission begins automatically after the conclusion of the last. When it starts, your first task is to drive the wagon to Strawberry.

**2** Pull up just before the bridge and head inside the general store to speak to the shopkeeper. After the conversation ends, go to the doctor's office across the river to meet with Abigail. You can now return to the wagon and drive it to Pronghorn Ranch.

**3** After the cutscene, mount the horse in front of you and chase the wagon stolen by the Laramie Outlaws. You can stop it either by cutting in front of it to block its path, or by jumping to it from horseback. When the dust settles, drive it back to the ranch.

## ★ SIMPLE PLEASURES ★

**Medal Goals**

- ★ While milking, fill a bucket within 10 seconds
- ★ Finish within five minutes 15 seconds

**Notes**

The first goal here involves maintaining a good rhythm while milking the cow, alternately tilting each stick downward in sequence.

**1** Speak to Mr. Geddes, then follow Abe around the ranch until you reach the cow.

**2** Your task here is to milk the cow by alternately tilting **L** and **R** downward.

Next, you need to clean the stable stalls. To do so, pick up the nearby pitchfork by holding **△** **Y**. With this in hand, press **△** **X** to scoop manure. Press the button again when you are near the wheelbarrow to drop it off. Return the pitchfork when you're done, then head back to the house to speak with Abigail.

## ★ FARMING, FOR BEGINNERS ★

**Medal Goals**

- ★ Fix the first section of fence within one minute 30 seconds
- ★ Avoid being hit by the bull

**Notes**

When the bull charges you, make sure that you escape to a safe spot that the animal cannot reach. An attempt to simply outrun it is doomed to failure.

**1** You will find Tom Dickens at the south edge of the ranch. To repair the fence, you first need to pound in the post by pressing **△** **A** multiple times. Position each rail at the appropriate height with **L**, then move it into the notches with **△** **A**.

When you are called, walk to the nearby corral. Run toward the bull and try to lasso it. The bull will resist your initial attempts and charge you — be sure to take refuge at this point — but persevere and you can eventually calm it with **△** **X**. With your lasso in place around its neck as you continue to hold **△** **D**, walk slowly to it, reassuring the animal as often as the onscreen prompt appears.

D6

## ★ FATHERHOOD, FOR BEGINNERS ★

Medal Goals	<ul style="list-style-type: none"> <li>★ Tire out Jeremiah within 45 seconds</li> <li>★ Feed Jeremiah a treat</li> <li>★ Teach Jack to ride without his horse bucking him off</li> <li>★ Win the race back to Pronghorn Ranch</li> </ul>
	<p>The fastest way to tire Jeremiah out is by making him jump repeatedly (Ⓢ/ⓧ). When his stamina meter is empty, gallop at full speed to deplete the attribute core. You can feed the horse a treat after calming him at the stable, but must do so before you enter the corral where Duncan awaits. During the later lesson, make sure that Jack's horse travels at a gait no faster than a canter.</p>

- 1** You will find David Geddes at the back of the farm.
- 2** Abe will show you where to find David's son, Duncan, who needs help with a nervous horse called Jeremiah. Focus the animal by holding ⓐ/ⓑ then press Ⓢ/ⓧ when prompted to calm him.

**3** Once the horse has relaxed, mount him and gallop at full speed in the nearby fields, repeatedly pressing Ⓢ/ⓧ until its stamina meter is fully depleted. Making Jeremiah jump is also very effective. Once the horse is tired out, ride into the corral where Duncan awaits.

**4** When Mrs. Geddes asks for your help to foal a mare, follow her to the nearby stall. You first need to find the foal's legs by rotating ⓐ. Your controller vibrations will intensify when you are close to the correct position. Once you have them, tilt ⓐ and repeatedly tap Ⓢ/ⓧ to pull.

Return to your house to speak with Abigail. Back outside with Jack mount up and teach him how to ride. During the journey, you can tell him to go faster or slower by holding ⓐ/ⓑ and then pressing Ⓢ/ⓧ or Ⓢ/ⓧ respectively. Do not exceed a simple canter though: at full gallop, Jack may fall. Once you reach the stream, a race begins: gallop back to the ranch at full speed if you want to beat Jack to complete the related medal goal.

D6

## ★ JIM MILTON RIDES, AGAIN? ★

Medal Goals	<ul style="list-style-type: none"> <li>★ Get 10 kills while dual-wielding sidearms</li> <li>★ Get 15 headshots</li> <li>★ Complete the mission without consuming any health items</li> </ul>
	<p>To make the most of your dual-wielded sidearms, move to cover positions that are relatively close to your enemies. Brief bursts of Dead Eye can help when aiming at distant or moving targets.</p>

- 1** David Geddes is found with his wife at the stable's entrance. After the cutscene, run to the stalls and beat up the two thugs attacking Tom Dickens. You face two opponents simultaneously in this

brawl, so proceed with caution: block each incoming punch and reply with a brief counter, then repeat. After retrieving your weapons, mount up and ride to Hanging Dog Ranch.

No matter what you say to the Laramies, a massive shootout begins shortly after you arrive. Sprint to get behind something immediately. Once in position, proceed as usual: jump out and take a shot (preferably to the head by flicking Ⓢ), before immediately returning to cover. Repeat this until no more targets remain in sight, then push forward to a new cover spot. Pay special attention to the snipers in elevated positions, most notably the one on the tower and another on the barn's upper floor. After the ranch is clear of all enemies, you have one final foe to face inside the barn. Break free by repeatedly pressing Ⓢ/ⓧ, then defeat him in a fist fight and finish him off. Return to Pronghorn when you're done to complete the mission.

## ★ OLD HABITS ★

Medal Goals	<ul style="list-style-type: none"> <li>★ Defeat the Laramie without taking a hit</li> <li>★ Defeat the Laramie within 25 seconds</li> </ul>
	<p>Notes: Focus on defense then launch withering counters.</p>

This mission launches automatically once the two previous missions have been completed. All you have to do is investigate the disturbance, then defeat the Laramie causing it in a fist fight. For optimal results, let him attack first: block his punches, then counter with blows of your own and repeat.

A

## ★ FATHERHOOD, FOR IDIOTS ★

Medal  
Goals

- ★ Kill all three enemies in Dead Eye
- ★ After the confrontation, return to Pronghorn Ranch within one minute 30 seconds

Notes

Make sure your Dead Eye meter is at least partly full prior to the ambush. This will enable you to kill the targets immediately. Gallop at all times and broadly follow the suggested path to return to the ranch on time, though you should try to cut every corner, especially the hairpin bend at the beginning, to save precious seconds.

1

Head back to your house to meet Abigail, then drive the wagon to Strawberry.

2

Park the wagon near the post office, then head inside to collect your mail. On the way back, you can tell Jack to go faster or slower with **X** or **O** respectively.

3

When you are ambushed by three men, a shootout is unavoidable no matter how hard you try to defuse the situation. Talking enables you to stall a little, though – which will enable you to use a tonic to refill your Dead Eye meter if it is empty. The optimal way to proceed here is to draw your weapon and immediately trigger Dead Eye. Paint all three heads with **(R1) RS** before firing to kill your assailants instantly. After the ambush, drive back to Pronghorn.

## ★ MOTHERHOOD ★

Medal  
Goals

- ★ Finish within one minute 30 seconds

Notes

Run at all times and opt for cow milking.

1

"Motherhood" begins automatically on completion of the previous mission. Follow Abe and greet the clerk to obtain a telegram, then head to the cabin.

2

After the cutscene, you can choose from one of the three types of chores you have been introduced to. Complete whichever you prefer, following the onscreen instructions if required. Head to the Geddes household when you're done.

SA

## ★ GAINFUL EMPLOYMENT ★

Medal  
Goals

- ★ After arriving in Strawberry, locate the bounty within 30 seconds
- ★ After mounting your horse, catch and hogtie the bounty within one minute 15 seconds

Notes

Run straight to the Welcome Center in Strawberry, then cut corners as you exit the ravine during the chase to meet the time requirements.

Note that this mission can be played either at the end of Epilogue – Part 1, or at the beginning of Epilogue – Part 2.

1

Meet Sadie inside the Valentine saloon, then ride with her.

2

Once in Strawberry, question people around town to find out the location of Nathan Kirk. The Welcome Center is where you will get your best tip: the hotel owner will reveal that your target is in room three upstairs. When you go through the door, Kirk escapes via the window. Follow him, drop down to the ground and mount up.

3

As you give chase, remember that you need to capture the man alive, so keep your weapons holstered. Gallop at full speed, tapping **X/A** in a rhythm that matches your mount's gallop to save stamina. The red icon on your radar enables you to keep track of Kirk's movements. Use this to cut corners whenever possible (for example, by turning right as you exit the small ravine) until you catch up with him. You will need to ride around or jump over the sheep along the way after the fugitive fires a shot to panic and disperse a nearby flock. When you catch up, immobilize Kirk with your lasso, hogtie him, then stow him on Sadie's horse to end the mission.

A

## ★ THE LANDOWNING CLASSES & HOME OF THE GENTRY? ★

Medal  
Goals

- ★ Finish within two minutes 30 seconds

Notes

When returning from the bank with Uncle, make a beeline for Beecher's Hope without paying attention to the suggested path.

1

Ansel Atherton awaits inside his office at the Blackwater bank.

2

After the discussion ends, head west to Beecher's Hope to confront the squatters occupying the land. You have two main options here: give them 10 dollars to make them leave (and gain honor), or kill them. Should you opt for the latter, you can easily eliminate them with Dead Eye before they can draw their weapons.

3

After the cutscene at the bank, return to Beecher's Hope with Uncle.

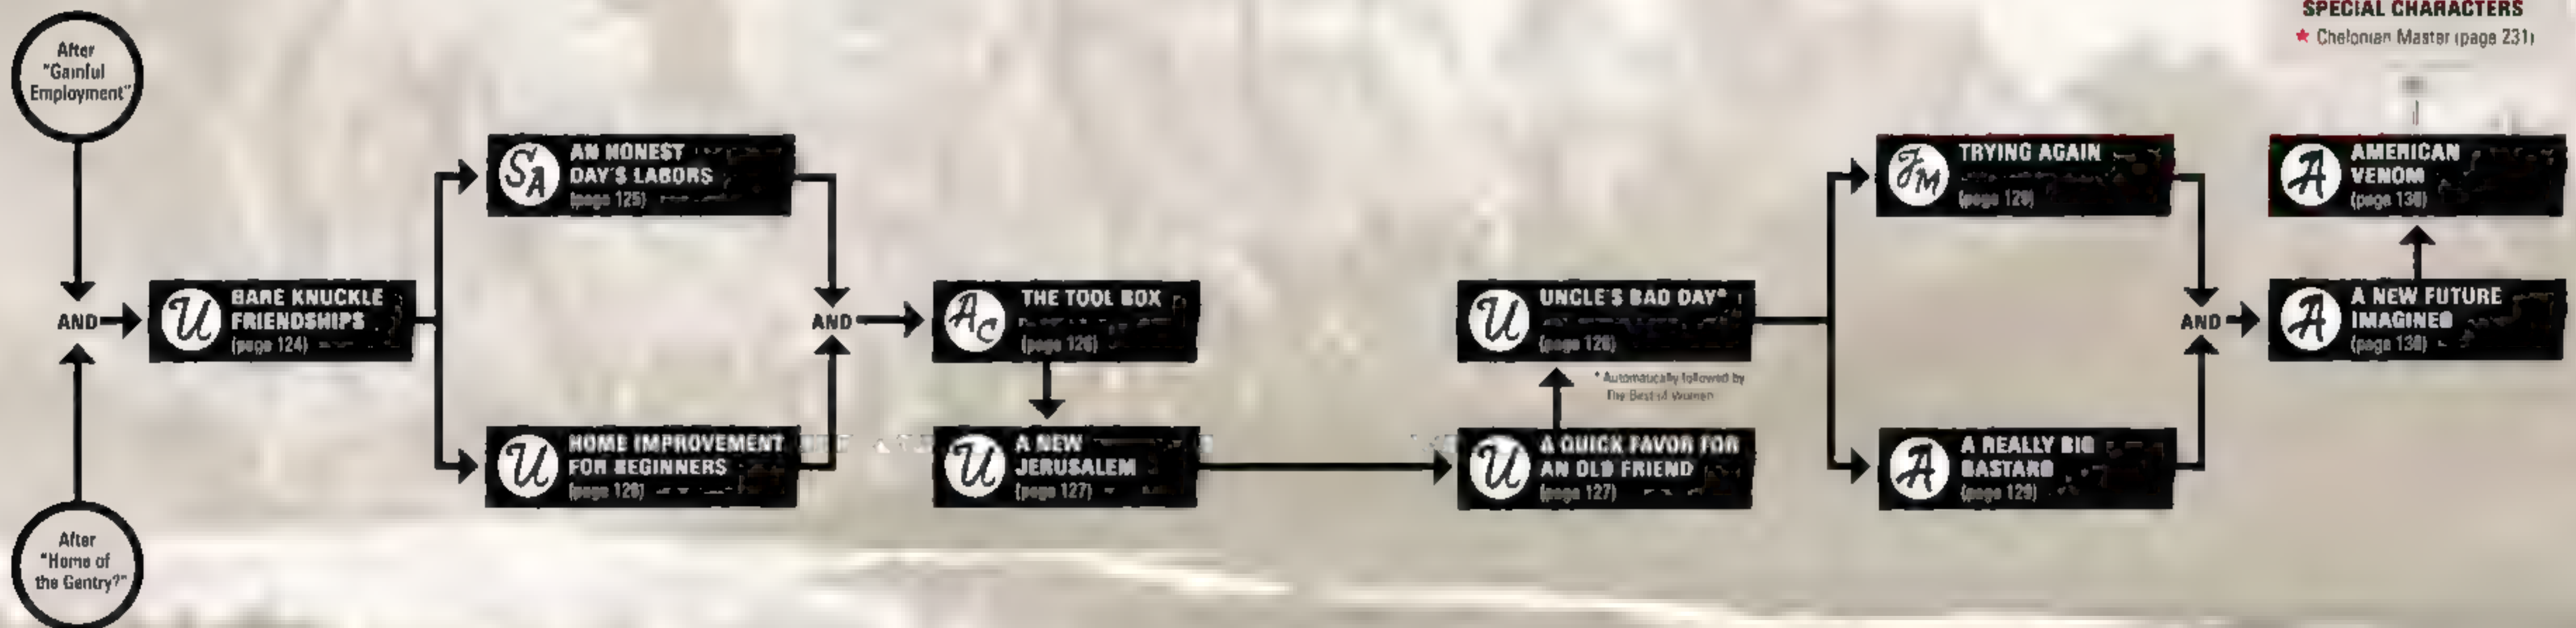

SPECIAL CHARACTERS

★ Chelonian Master (page 231)

# EPILOGUE – PART 2: BEECHER'S HOPE

## THE STORY SO FAR

In an effort to give Abigail the life she always wanted, it seemed no great hardship to take gainful employment at Pronghorn Ranch. But as much as you tried to put the past behind, old failings and familiar faces conspired to drive her away. To convince her to give you another chance, you decided to buy a farm of your own – a small piece of land west of Blackwater called Beecher's Hope.

## ★ BARE KNUCKLE FRIENDSHIPS ★

**1** Speak to Uncle at Beecher's Hope. In Saint Denis, your objective is to find Charles. You will get information on his whereabouts by speaking to the saloon's bartender or the local fence. Both will direct you to Saint Saturnines, a short distance to the north.

**2** Once at Saint Saturnines, bet on Charles to make some easy money. After the fight, follow him.

<b>Medal Goals</b>	<ul style="list-style-type: none"> <li>★ After arriving in Saint Denis, find Charles within one minute 50 seconds</li> <li>★ Kill all of Garzo Martelli's men within 10 seconds</li> </ul>
<b>Notes</b>	Gallop at full speed to the saloon and question the bartender, then immediately ride to Saint Saturnines to make it on time. Killing the four assassins quickly is easy with Dead Eye headshots.

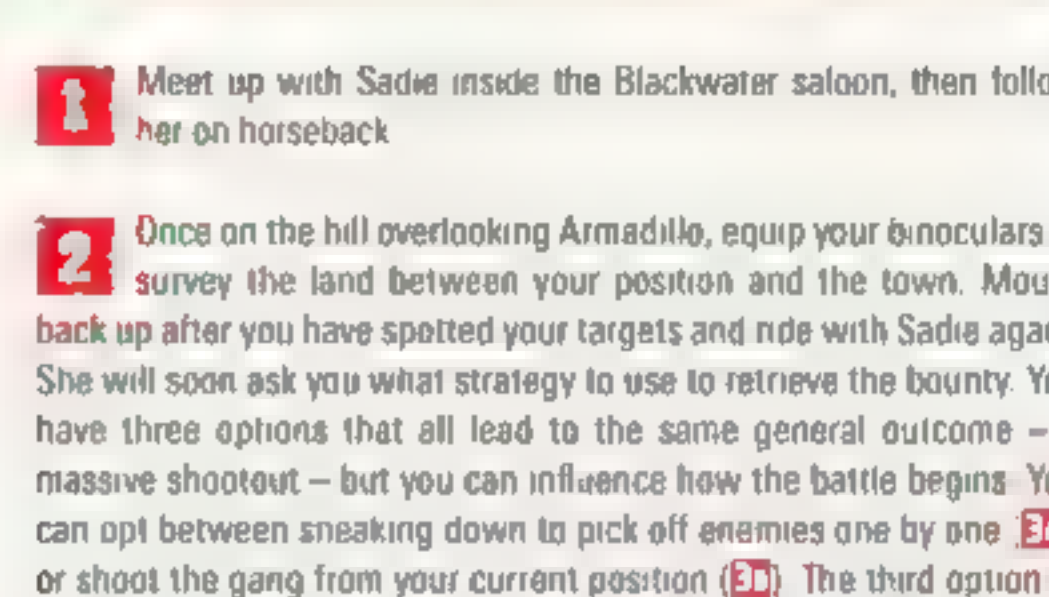

**3** During the ambush at the docks, stay in your initial cover position and take out the four aggressors with headshots, then get on the wagon. Trigger Dead Eye if you want to make short work of your foes to complete the medal goal.

**4** Make sure you don't draw the law's attention as you escape Saint Denis. All you have to do here is to keep a low profile while Charles is driving.

## ★ AN HONEST DAY'S LABORS ★

**1** Meet up with Sadie inside the Blackwater saloon, then follow her on horseback.

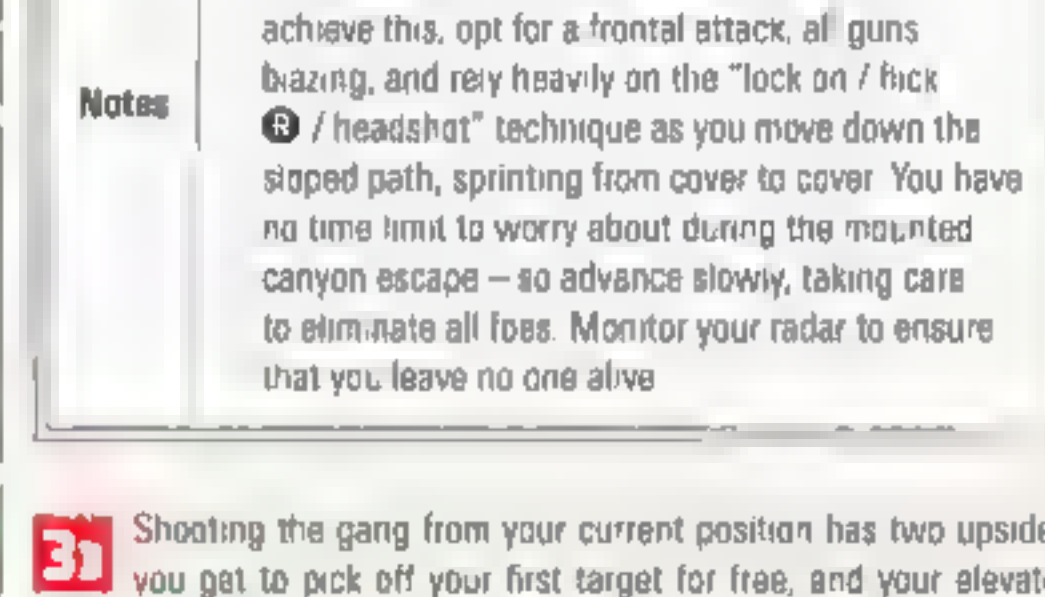

**2** Once on the hill overlooking Armadillo, equip your binoculars to survey the land between your position and the town. Mount back up after you have spotted your targets and ride with Sadie again. She will soon ask you what strategy to use to retrieve the bounty. You have three options that all lead to the same general outcome – a massive shootout – but you can influence how the battle begins. You can opt between sneaking down to pick off enemies one by one (3A) or shoot the gang from your current position (3B). The third option of threatening the gang leads to the same result as opening fire – but completely removes the element of surprise that you might otherwise have enjoyed.

The stealth scenario enables you to kill up to four enemies unnoticed before the actual shootout begins. Follow Sadie down the canyon and coordinate with her to take out the first pair of guards with a throwing knife. Sadie will deal with the next man by the bridge. Now crouch-walk on the bridge until you're within range to dispatch the fourth target with another throwing knife. At this point, the alarm is raised no matter what you do, a fierce battle ensues.

<b>Medal Goals</b>	<ul style="list-style-type: none"> <li>★ After choosing your approach, escape with Shane Finley within five minutes</li> <li>★ Kill all of Langton's men during the horseback escape</li> <li>★ Finish with at least 70% accuracy</li> <li>★ Complete the mission without consuming any health items</li> </ul>
<b>Notes</b>	From the moment you choose a strategy with Sadie at the top of the canyon, the first goal requires you to defeat all enemies in the area and stow the bounty on the horse within five minutes. To achieve this, opt for a frontal attack, all guns blazing, and rely heavily on the "lock on / flick R / headshot" technique as you move down the sloped path, sprinting from cover to cover. You have no time limit to worry about during the mounted canyon escape – so advance slowly, taking care to eliminate all foes. Monitor your radar to ensure that you leave no one alive.

**3B** Shooting the gang from your current position has two upsides: you get to pick off your first target for free, and your elevated position means that you can snipe several others without needing to worry too much about return fire. Once you have cleared all available targets, go down the canyon with Sadie to begin the real shootout.

The shootout in the canyon is a rather dangerous sequence – chiefly because the area offers few cover positions, and your foes are numerous. Advance slowly, methodically eliminating all enemies within range, but prioritize the snipers standing on the ridge: these will pose a grave danger if left unchecked. Avoid lingering in the open at all costs.

**5** As you progress down the canyon and eliminate most foes in the top section, reinforcements will arrive from the bottom: some on horseback. Stay in cover behind a rock, taking care to ensure that no one can get behind your position or flank you. Once most of your adversaries have fallen, press forward and deal with those that remain at the bottom of the canyon.

**6** Pick up the bounty and stow him on a horse. As you attempt to leave the canyon, multiple mounted enemies and snipers will ambush you. Feel free to gallop at full speed to shorten the confrontation. If you aim for a gold medal, though, you will need to do the exact opposite: ride slowly and take them all out methodically. Finally ride back with Sadie to Blackwater and drop the bounty in the cell at the sheriff's office.

## ★ HOME IMPROVEMENT FOR BEGINNERS ★

Medal Goals	★ Finish within 18 seconds
Notes	Pull the reins with due vigor as soon as the introductory cutscene ends to complete this objective

**1** Speak to Uncle, who can be found beside the campfire at Beecher's Hope. After the cutscene, lean back by tilting **L** downward, and simultaneously tap **X/A** repeatedly to pull the reins

## ★ THE TOOL BOX ★

**1** You will find Albert Cakes in Blackwater's lumberyard. After the cutscene, follow Charles to Manzanita Post.

An ambush takes place on your way back to Beecher's Hope. Stay in your initial cover position at first, eliminating all enemies in front of you with headshots. After you thin their ranks, transition to cover behind the nearby wagon on your right. Be especially mindful of the machete wielders that can sprint toward you or your allies. If they get within melee range, they can kill their victim instantly. Try to dispatch them by flicking **R** as you lock on to secure an instant headshot during their approach. If they're too close for that, consider shooting from the hip without aiming. Should one grab you, tap **○/B** rapidly as a last resort.

Medal Goals	★ Headshot all Skinner Brothers hiding up in the trees ★ Find Mr Wayne within two minutes 15 seconds ★ Complete the mission using only sidearms ★ Complete the mission without consuming any health items
Notes	The countdown to find Mr Wayne begins after the tool box is stolen. Given the number of enemies in your way (including the two men hiding in the trees at the clearing) and the accompanying constraint of using sidearms only, you will need a near-perfect mastery of the "lock on / flick <b>R</b> / headshot" technique to succeed. Dual-wielding will also be of great benefit

After you repel the initial wave, more Skinners appear – and one of them will steal your tool box. As you go after them, you will soon reach a clearing where a new shootout takes place. Seek cover behind the uprooted tree and defeat your enemies as usual, paying special attention to the two that are hiding in trees. As before, do not let the assailants wielding machetes get close to you or Charles.

**4** There are many more foes to deal with, including those with machetes. Take cover behind trees and prioritize the latter, then finish off the rest. When the last adversary falls, head to the highlighted area to find the tool box on the ground, next to Mr Wayne's body. After retrieving what you came for, return to the wagon and head back to Beecher's Hope.

## ★ A NEW JERUSALEM ★

Medal Goals	★ Hammer the nails in with at least 80% accuracy ★ Finish within three minutes 35 seconds
-------------	--

**Notes** To succeed with the first challenge, you need to press **X/A** as if you are imitating each hammering motion. After a few "cycles" you should get the hang of it, pressing the button in a rhythm that corresponds with your character's arm movements. Stay alert throughout the sequence ready to comply with button prompts whenever they appear.

**1** This mission, triggered by speaking to Uncle at Beecher's Hope, is best enjoyed without any guidance.

## ★ A QUICK FAVOR FOR AN OLD FRIEND ★

Medal Goals	★ Force Cortez's men to flee from Rhodes within 30 seconds ★ Get four hip fire kills ★ Get five headshots while covering Sadie with a long scoped rifle ★ Complete the mission without consuming any health items
-------------	--

**Notes** You can take care of the first two objectives simultaneously by adopting a very aggressive strategy once the shootout in the sheriff's office begins. Barge through the door and trigger Dead Eye to take down multiple enemies instantly. Follow this up by shooting from the hip with a powerful weapon to kill any four foes that are still alive, then deal with survivors however you see fit. Securing headshots with a long scoped rifle while defending Sadie should then be child's play for capable snipers. If you struggle, brief bursts of Dead Eye can greatly ease the process.

**1** You will find Uncle sleeping at the foot of a tree. Mount up and follow him to Blackwater.

**2** Once at the lumberyard, speak to the owner, Albert Cakes. After the cutscene, ride with Sadie to Painted Sky.

**3** Investigate the barn to initiate a fist fight with Ramón Cortez. As ever, let him attack first, block, then launch a counter.

**4** When you get to Rhodes, pick up the bounty and drop him in the cell at the sheriff's office. After the cutscene, a shootout begins. You can take out several men from your initial cover position by the door, activating Dead Eye works well here, as the thugs are close to each other. Once you run out of targets, step outside and deal with the hostiles in the street. After the cutscene, mount up and ride with Sadie.

Once at Dewberry Creek, cover Sadie using your sniper rifle. At first the enemies will be close to her position, which makes it easy to identify and deal with them. After a while, though, assailants will open fire from further away. If you struggle to locate them, observe Sadie – you can trace incoming shots back to the individuals responsible and deal with them accordingly.

**6** When Sadie calls you, join her at the campfire and take cover by the wooden pillars beneath the railway bridge as you eliminate all the enemies on the other side. You can continue using the sniper rifle here, or switch to another weapon if you would prefer to benefit from the lock-on system. Push forward and kill all foes on the way until you arrive at the beach. Take cover behind the rocks as you clear out the last few opponents.

**7** With all foes dead, you can now aim at Cortez's boat to threaten him and make him turn around. A final wave of enemies will attack you after the cutscene; you can dispatch them all from your initial cover position. When the battle ends, pick up Cortez and stow him on a horse, then deliver him back to the sheriff's office in Rhodes.

U

## ★ UNCLE'S BAD DAY ★

**1** Walk to Uncle outside the new barn at Beecher's Hope. After the cutscene, follow Charles on horseback to Tall Trees.

**2** Leave your horse in the designated area and walk with Charles. When you run into a pair of Skinner lookouts, take one out with your bow; your companion will deal with the second.

Charles will soon scout an incoming patrol of three Skinners. Feel free to kill them if you wish (bow headshots are required to complete a medal goal), though allowing them to pass is a perfectly valid alternative. A little later, quietly follow the wagon that arrives. When its driver stops to attend to the body that was being dragged in its wake, dispatch him with an arrow.

Climb on the highlighted boulder and equip your binoculars to survey the camp. Look toward the campfire to identify Uncle in a precarious position.

**5** After the cutscene, an automatic Dead Eye moment is triggered. You do not control the aiming here; just press (R2) / (RT) when the reticle is aligned with the head of the Skinner attacking Charles.

### Medal Goals

- ★ Get five headshots using the bow
- ★ After freeing Uncle, return to Beecher's Hope within three minutes 10 seconds
- ★ Finish with at least 80% accuracy
- ★ Complete the mission without consuming any health items

### Notes

You can fulfill the first objective by using the bow to kill one of the two lookouts, then the three men patrolling in the forest, and finally the wagon driver. This leaves you free to equip firearms during the main shootout. The remaining objectives demand ruthless efficiency as you eliminate targets, especially during the escape sequence to ensure that Charles has no call to stop walking. Mount up and leave as soon as you reach the horses.

**6** Run down to the camp's entrance and take cover by the closest plant or solid object before you start eliminating the Skinners. Push forward when you run out of targets, using the radar to identify the positions of your foes. Once you have cleared the camp of all hostiles, cut Uncle free.

During your escape, multiple waves of enemies will attack you as Charles carries Uncle. Your objective is to protect those two, so stay a few steps ahead and be swift to kill all threats with headshots, flicking (R3) every time you lock on. Look out for machete wielders in particular. There are many cover points you can use along the way, including crates, barrels, and rocks. As soon as you reach the horses, mount up and flee. After you deal with a handful of additional enemies during the escape, the rest of the journey back to Beecher's Hope should be entirely uneventful.

FM

## ★ TRYING AGAIN ★

### Medal Goals

- ★ Catch a fish
- ★ Finish within five minutes 20 seconds

### Notes

Hold (X) / (A) to walk quickly to the river. This will save precious time and help you to complete the second requirement.

**1** You will find Jack reading a book under a tree outside your house at Beecher's Hope. Walk to the river with him.

**2** At the fishing spot, employ the usual commands (or follow the onscreen instructions) to catch a fish. When Jack starts worrying about Rufus, put your rod away and search for the dog.

Explore the highlighted area, on the east side of the path leading to the fishing spot, then sprint back to Jack when he calls you. Follow the onscreen instructions to suck the venom from the wound.

A

## ★ A REALLY BIG BASTARD ★

### Medal Goals

- ★ Shoot the bear four times as it charges
- ★ Headshot both rival bounty hunters in Dead Eye
- ★ Finish within seven minutes 15 seconds

### Notes

When you reach the small campsite, don't dismount; instead head toward the cabin to save time. The automatic Dead Eye moment makes it easy to shoot the bear four times as it charges. After the animal flees, restore your Dead Eye meter with a tonic to prepare for the confrontation on your way back to Blackwater.

**1** Abigail awaits inside the house at Beecher's Hope. After the cutscene, mount up and follow Sadie into Tall Trees.

After her brief halt at a small campsite, stay with Sadie as you close in on the bounty. When she loses the trail, activate Eagle Eye to reveal the footprints and press (R3) / (R4) to focus on them. Continue until you reach a small cabin.

**3** When the bear charges, fire at it multiple times during the automatic Dead Eye moment, though you should not expect to kill it. During the ensuing struggle, mash (C) / (B) to break free.

You now need to escort Sadie back to the Blackwater sheriff's office. As soon as you run into two riders who talk with Sadie, feel free to open fire in advance — they will attack no matter what. If your meter allows for it, dispatch them with Dead Eye headshots to complete a medal goal. The mission ends when you reach the sheriff's office.

A

## ★ A NEW FUTURE IMAGINED ★

**1** Head to your house at Beecher's Hope where Abigail awaits. Get on the wagon and drive to Blackwater.

**Medal Goals**

- ★ Finish within seven minutes 30 seconds

**Notes**

Use every opportunity to save time by galloping walking, and rowing straight to your next destination, and this should be a very easy gold medal.

- 2** Once you have parked the wagon at the designated spot, go the photo studio and select a backdrop, then have your photo taken.
- 3** Next, take Abigail to the Imperial Theatre across the street.
- 4** Finally, head to the nearby shore and row out onto the lake. Be ready to follow the onscreen prompts when they appear.

A

## ★ AMERICAN VENOM ★

Join Abigail in the living room at Beecher's Hope, then follow Sadie to Strawberry. On arrival, cross the bridge to find Cleet, then chase him as soon as he starts running.

**2** After Sadie catches Cleet, beat him then drag him to the gallows and tie the noose around his neck. Follow the onscreen prompt to threaten Cleet by moving the lever. It is then up to you to decide whether to hang or spare him — though the latter option will reward you with honor. Whatever your choice may be, mount up afterwards and ride with your companions towards Mount Hagen.

**Medal Goals**

- ★ Help Sadie catch Cleet within 35 seconds
- ★ Headshot the sniper who shoots Charles
- ★ Finish with at least 85% accuracy
- ★ Complete the mission without consuming any health items

**Notes**

To catch Cleet within 35 seconds, you need to cross the bridge as soon as you arrive in Strawberry to trigger the chase immediately. Our walkthrough will help you to complete the other objectives, though you will need a high level of shooting expertise to meet the 85% accuracy requirement.

After the cutscene where Charles is shot, sprint behind the rock in front of you. Your objective here is to kill the sniper. To do so, you can either pick him off using a scoped rifle from your starting position or dash from cover to cover until you are within range to shoot back. You'll need to score a headshot if you are trying to secure the related medal goal — activating Dead Eye can really help here. After checking on Charles, run up the hill with Sadie.

As you ascend, multiple thugs will attack, including a few snipers. Deal with the latter quickly. Advance cautiously, sprinting from cover to cover and eliminating all targets in sight before you move on. Don't forget to manage your attribute cores throughout this entire sequence: topping up your health core, in particular, will help you to heal between each confrontation.

After the cutscene at the top of the hill, you immediately face three men that you can eliminate as you please. Keep pushing forward, dispatching all foes that you encounter as quickly as possible. You have very few cover points in this area, so it's critical to employ the "lock on / flick R / headshot" technique to kill opponents rapidly.

After you pass through the narrow rocky section and kill the enemies on the other side, be ready to turn around and take cover against the nearby rock. Multiple foes are just about to attack you from behind. Defeat them one by one, including those positioned on the cliff.

**7** As you run up the next steep hill, three thugs will appear at the top. You have no cover available, so eliminate them rapidly with chained headshots or Dead Eye. You will find a second campsite at the top. Sprint to cover and dispatch the men in the area; they tend to pop out unexpectedly, so stay on your guard. Health management is of paramount importance here, so take the time to replenish your core if required to ensure a maximum recovery rate. A few opponents will attack as you approach each of the four highlighted zones.

You will eventually encounter Micah after searching the final marked area, outside a mountain hut. A vicious duel soon begins, and your foe is formidable: he fires quickly and is prompt to return to cover, leaving you with no real window of opportunity to hit him. A conventional fight is therefore not a realistic option — so use your wits instead. If you look up, above Micah's cover position, you will see a lantern; shoot it to cause a fire. This will force Micah to transition from his hiding place to the nearby wood store shed. Be patient, fire a few shots between his volleys, and he will soon move behind the outhouse — at which point, victory is yours.

The events that follow are best experienced without any form of guidance.

## POST-STORY PLAY

The story has been told, but the game is far from over. After the closing credits, play resumes at Beecher's Hope. You can now turn your attention to the incredible variety of activities that still remain, including stranger missions, bounty hunting, robberies, challenges, and so much more.

If you need any assistance as you explore such opportunities, or are striving to reach total completion, our guidance continues in the Exploration chapter that lies just over the page.

# EXPLORATION

This chapter offers a comprehensive presentation of optimal endeavors, activities, and assorted diversions that you can encounter in your travels through the world of *Red Dead Redemption 2*.

# INTRODUCTION

*Red Dead Redemption 2* will never leave you at a loose end with nothing to do. This is a game where you could happily spend hours upon hours simply moving from one place to another just to marvel at vistas, or peer at fine details – but when you can tear yourself away from the sights, sounds and sheer atmosphere, there are countless activities to get involved with.

This chapter is first and foremost a guide to all pursuits, additional stories and miscellaneous activities that you might want to experience,

but it also offers a more in-depth look at core systems (such as attributes and underlying mechanics) that will help you to better understand and enjoy the game. It is also, by necessity, rather extensive. If you would like to jump straight to a particular section of interest, be sure to use the Index Tab on the right hand side of each double-page spread to quickly flick through to the information that you seek.

# HORSES

Horses are the most convenient way to travel through the vast expanses of *Red Dead Redemption 2*'s world, but they also serve as mobile inventories, and a means to convey heavy objects (such as captives, animal carcasses, and so forth) to destinations in a timely fashion.

The three main ways to acquire a new mount are as follows.

- ★ **In the wild:** You will regularly run into wild horses that you can tame.
- ★ **Ambient:** You will also regularly find horses that have been hitched by their owners, particularly in towns. You are free to steal them, though you should be wary of witnesses. Along the same lines, you can cut horses free from wagons to make them yours.
- ★ **Stables:** Finally, you can buy new mounts at stables.

A horse will only truly become your main mount if you put your saddle on it – a feature unlocked after you complete the "Exit Pursued by a

Bruised Ego" story mission (see page 46). To do so, approach your intended mount with a saddle in hand and hold **[C]**. You can only have one saddle, and therefore one main horse, at a time. To remove your saddle from your current horse, focus on it (hold **[L2]**/**[LT]**) then hold **[C]**.

## ★ WILD HORSES ★

Capturing and taming wild horses is a free method of acquiring new mounts. Many breeds are available in the wilderness – as revealed on the map above. Keep in mind that this shows general habitats: you may need to look around a little to find the species you're after in each territory.

To break a horse, you first need to approach it while locked on. Lasso it, or walk as slowly as you can and take every opportunity to calm it with **[C]**/**[X]**. Once in close proximity, you can mount it by

holding **[C]**/**[Y]** to initiate a rodeo sequence. Your goal here is to stay on the horse's back by tilting **[C]** in the opposite direction to where it pulls. If you manage to stop it from bucking you off, ride it for a while and pat it by pressing **[C]**/**[T]**. It will soon be tamed and become a "temporary horse". To claim it as your primary horse, you'll then need to equip it with your saddle.

There are three extremely rare types of wild horses in the game:

- ★ Two of these are shown on the map: the **white Arabian** and the **tiger-striped bay Mustang**.
- ★ The third one is a **splashed white American Paint**. This specimen does not have a set location. Instead, it randomly spawns at ambient campfires around the world, where hostile campers await.

## ★ HORSE ATTRIBUTES ★

All mounts have four primary attributes: stamina, health, speed, and acceleration. The first two stats regularly pop up during general play while the speed and acceleration stats can be seen in the "info" window when you study or focus on each animal. When you open the horse wheel, or when you visit stables,

**Stamina:** The level of physical exertion your horse can endure, such as when galloping at full speed, swimming, or jumping.

**Health:** The amount of damage that your horse can sustain.

**Speed:** Determines the top speed of a horse.

**Acceleration:** Governs the rate at which a horse will accelerate from a stationary position to top speed.

Each of these attributes starts at a default value. For example, a horse of the Morgan breed has initial parameters of 2, 3, 3, and 2 respectively – all of which translate into segments (referred to as "tanks") in the corresponding meters. Horse attributes can be improved, and the respective meters extended, via the following methods:

- ★ **Horse Equipment:** Certain pieces of equipment can improve your horse's stats. Saddle and stirrup effects, for instance, add a hidden bonus that can be seen in the pause menu (Player ► Horse ► Tack), such as reducing the drain rate of cores and increasing the recovery rate of meters.
- ★ **Bonding:** Your horse will receive one additional stamina tank and health tank when your bond with it levels up (see page 140).

There are a few extra features worth mentioning here:

- ★ Horse attributes can be upgraded to a maximum of ten tanks per category.
- ★ If a horse's stamina core is fully depleted, its top speed will be reduced by a third. A similar penalty is applied when its health core is dangerously low.
- ★ When a horse carries an additional human or a large animal, its top speed will be decreased; the stamina meter will also drain at an accelerated rate while riding up slopes.
- ★ Both horse cores are fully restored when you sleep. Hitching a horse to posts and leading a horse will refill cores to 55% and 45% respectively.
- ★ A horse will become agitated if you push it to gallop at full speed when its stamina meter is fully depleted. If you persist, it could buck you off. It may also become alarmed and dislodge you when a predator is nearby.

## ★ HORSE CATEGORIES ★

Horses belong to at least one of seven categories, each associated with a handling archetype. The base attributes of a horse depend on the category it belongs to. As a rule, riding horses have the lowest attributes, and superior horses the highest – though there are some variations.

- ★ **Riding:** These horses are the most common in the world and make up most of the ambient and wild population. They tend to have low attributes.
- ★ **Draft:** Common horses that are generally seen pulling wagons and coaches. They are big and slow but have slightly higher stats than riding horses.
- ★ **Race:** These horses have higher speed and acceleration, but lower stamina and health.
- ★ **War:** These horses have higher health and stamina, but lower speed and acceleration.
- ★ **Work:** These horses have higher stamina, average health and speed, but lower acceleration.
- ★ **Multi-Class:** These are a combination of two classes. They tend to be rarer and more expensive, but offer above-average attributes.
- ★ **Superior:** Though rare and expensive, these horses can possess exceptional attributes.

## ★ ADDITIONAL ATTRIBUTES ★

### HANDLING

Handling is an attribute that determines the "feel" of a horse and how it reacts to your commands. A horse's handling archetype depends on the category it belongs to, as shown in the following table. Generally speaking, the further you go down this list, the more reactive and agile your horse will be:

### HANDLING ARCHETYPES

ARCHETYPE	HORSE CATEGORY
Heavy	Draft horses
Standard	Riding, war, work, and multi-class horses
Race	Race horses
Elite	Superior horses

### HORSE WEIGHT

The weight of your horse is determined by how often you feed it. This parameter has a range of 0 (corresponding to an emaciated condition) to 100 (relative obesity). By default, your horse can be deemed to be fully "fit" when its weight rests at 50. Calories that it gains when you feed it increase the weight value; extended periods without sustenance will cause it to decrease. Calorie values are listed in our Items chapter – see page 310.

An overweight or malnourished horse will experience a small reduction in top speed, so take care not to neglect or over-indulge your mount.

### CLEANLINESS

As you ride your horse during your travels, it will gradually become dirty. Excessive grime, indicated by a red brush appearing in the health core icon, increases the meter drain speed by 25%.

To clean your horse you will need to brush it. An alternative method is to ride it through a suitable body of water.

## ★ BONDING ★

Bonding represents the level of trust and understanding between you and your horse.

There are four bonding levels beyond the initial state of unfamiliarity. These can be reached by accumulating bonding XP. Whenever you reach the next milestone, your bond with that horse will level up. The bonding XP required to reach the next level depends on the combined value of a horse's primary attributes: stamina, health, speed and acceleration.

## BONDING MILESTONES PER GROUP

BOND LEVEL	GROUP 1 (STATS: 1-12)	GROUP 2 (STATS: 13-18)	GROUP 3 (STATS: 19-21)	GROUP 4 (STATS: 22-30)
0	0 XP	0 XP	0 XP	0 XP
1	50 XP	50 XP	50 XP	50 XP
2	200 XP	250 XP	300 XP	350 XP
3	300 XP	450 XP	600 XP	750 XP
4	400 XP	700 XP	1,000 XP	1,300 XP
Total Required	1,050 XP	1,450 XP	1,950 XP	2,450 XP

All purchased horses begin at bond level 1. Wild and stolen horses, on the other hand, begin at level 0. You need to earn their trust by performing any of the XP-inducing actions listed in the table below until your bond with them reaches level 1; at this point, they become your temporary horse and will respond to your commands.

## BONDING, XP-INDUCING ACTIONS

CATEGORY	ACTION	XP	NOTES
Wild or Stolen Horse	Breaking Wild Horse	25	When you tame a wild horse
	Trust Earned	15	Earned after riding for a while
	Equipping Saddle	Brings XP to 50	No extra XP given beyond 50
Reassuring	Patting	5	When the horse is calm, cooldown of 45 seconds
	Calming	15	When the horse is agitated
Grooming	Applying Ointment	5	
	When Dirty	15	Dirt level between 10 and 100
	When Clean	1	Dirt level between 0 and 9
Feeding	Feeding Treat	5	Any time
	Feeding highly nutritious food	15 / 5 / 1	Benefit of food is 50 core points or higher; 15, 5, or 1 XP awarded depending on the condition of the relevant cores - 0-75, 76-85, or 86-100 respectively
	Feeding nutritious food	5 / 1	Benefit of food is 25-49 core points; 5 or 1 XP awarded depending on the condition of the relevant cores - 0-75 or 76-100 respectively
Movement	Walking/Trusting	2 every 5 secs	If burdened: 1 every 5 secs
	Gallop/Full Gallop	1 every 5 secs	Even when carrying a large load
	Leading	2 every 5 secs	Even when carrying a large load
Travelling	Hitching	15 / 1	Only once per area and per 12 in-game hours; subsequent hitchings before the conditions are reset give 1 XP
	Unloading	15 / 1	The horse must have carried the load for at least two and a half in-game hours; below this, only 1 XP is awarded

As your bonding level with a horse grows, you unlock various **bonding perks** and rewards that develop the animal's potential.

## BONDING PERKS PER LEVEL

BONDING	STAMINA METER	HEALTH METER	REVIVE TIME	COMMAND UNLOCKED	WHISTLE RANGE	WHISTLE RESPONSE BAR
Level 1	-	-	12 mins	-	185-205m	4 segments
Level 2	+1 tank	+1 tank	25 mins	Rearing (RT) + (L) + (X) when stationary	225-260m	6 segments
Level 3	+1 tank	+1 tank	30 mins	Skid Turns (RT) + (L) + (X) when moving Skid Stops (RT) + (L) + (X) when moving	280-330m	8 segments
Level 4	+1 tank	+1 tank	60 mins	Piaffing (Hold (L) + (X) when stationary) Drifting (Hold (L) + (X) when moving)	350m	8 segments

## ★ RESPONSE ★

The **whistle range** determines the distance in meters at which your horse will respond to your calls. By default, your whistle range starts at 185 meters. For every 10 bonding XP that you obtain, the range is extended by one meter, up to a maximum of 205 meters at level 1. When you reach level 2 you receive a bonus of 20 meters, taking the starting range for level 2 up to 225 meters. The same increments apply until you reach the optimal whistle range of 350 meters at level 4.

There is an additional (a bit hidden) system that determines your horse's reactivity to your whistles: the **response bar**. The higher your bonding level, the more the response bar is extended (four segments at level 1, six segments at level 2, and eight segments at levels 3 and 4). Every time you tap or hold (L) to whistle, the bar fills incrementally. Broadly, each tap fills half of a segment at level 1, one segment at levels 2 and 3, and two segments at level 4. The more you fill the response bar, the faster your horse's gait will be when it moves toward you.

In short, you can press (L) repeatedly to make your horse come to you more rapidly, and this works even better at higher bonding levels.

## HORSE RESPONSE

	1	2-3	4-5	6-7	8
Cantering to ..	50m	50m	40m	30m	20m
Trots to ..	30m	25m	20m	15m	10m
Walks to ..	10m	10m	10m	10m	

## ★ HORSE DEATH ★

When your saddled horse loses all of its health, it enters a near death state where you have a small window of opportunity to save it with a horse reviver. The time available for your intervention is increased at higher bonding levels. Horse revivers can be crafted, looted, or purchased at any stable for a moderate price, so we encourage you to always keep one in your satchel for emergency situations.

If your saddled horse dies, your saddle will remain on its body and will be marked on your radar (S). It will stay there until you collect it - unless you enter a stable or start a mission, in which case the saddle is retrieved automatically. Note that horses exclusive to the pre-order, Special and Ultimate editions of the game are unique in that they respawn at the Valentine stable when they die.

## TEMPORARY HORSES

You can have up to two active horses at any given time: a main horse (S) and a temporary horse (S).

Your main horse is the one currently wearing your saddle.

A temporary horse is one with which you

have reached bonding level 1 but has never worn your saddle. A main horse can also become a temporary horse if you transfer your saddle to a new mount.

Horses that you do not reach bonding level 1 with are not represented in your radar, and will not respond to your commands.

## ★ HORSE ITEMS ★

Many items can be used to restore a horse's stamina and health meters, or to replenish depleted cores.

## HORSE ITEMS

# TRANSPORTATION

The ability to abbreviate certain journeys can be a welcome feature when you are engaged in travel-intensive activities, such as treasure hunting or resource gathering. There are three methods that enable you to move directly to a specific destination: fast travel, trains, and stagecoaches.

★★★★★

## FAST TRAVEL

After you upgrade your lodging at the Van der Linde camp via the ledger (see page 143), a map appears on the side of Arthur's wagon (or inside his room at Shady Belle). If you examine it by holding **△** **Y**, this opens a Fast Travel menu in which you can choose to jump to key locations (see accompanying list) on the proviso that you have visited them at least once before. When you select an entry, you will automatically arrive at the destination in question after a brief cutscene.

### Possible Destinations:

- ★ Annesburg
- ★ Emerald Ranch
- ★ Lagras
- ★ Rhodes
- ★ Saint Denis
- ★ Strawberry
- ★ Valentine
- ★ Van Horn Trading Post
- ★ Blackwater\*

## TRAINS

Trains are the most convenient way to travel quickly between towns. All you need to do is buy a ticket from a station, and you will reach your destination in a few seconds.

### Served Stations:

- ★ Annesburg
- ★ Benedict Point
- ★ Emerald Ranch
- ★ Rhodes
- ★ Riggs Station
- ★ Saint Denis
- ★ Valentine
- ★ Wallace Station

## STAGECOACH TAXIS

Much like trains, stagecoaches offer you a fast and convenient way to travel between towns. Interact with a stop sign or coach driver (**△** **Y**), buy a ticket to the destination of your choice and you will be transported there after a brief cutscene.

### Served Stations:

- ★ Annesburg
- ★ Armadillo\*
- ★ Blackwater
- ★ Emerald Station
- ★ MacFarlane's Ranch\*
- ★ Rhodes
- ★ Saint Denis
- ★ Strawberry
- ★ Tumbleweed\*
- ★ Valentine
- ★ Van Horn Trading Post

\* From Epilogue 1 onward

## SAINT DENIS TROLLEY

While in Saint Denis, you can always feel free to hop aboard trolleys as they move around the town. While this is a nice way to take in the sights, it's not really practical as a means of getting from A to B — you will be faster on foot.

# CAMP

Through most of the adventure you will have access to a camp where the Van der Linde gang is based. This location is a starting point for various missions, as well as assorted services, amenities and optional events.

★★★★★

## CAMP & GANG MORALE

You can improve gang morale via the following methods:

- ★ Donating money and items at the titling box, next to the ledger as well as by hunting and delivering game to Pearson to help keep everyone sufficiently fed.
- ★ Partaking in chores. These are simple activities that you can complete as and when you see fit. The work available depends on your current camp.
  - Chopping wood
  - Taking hay bales to feeding points for horses
  - Taking grain sacks to Pearson's wagon
  - Emptying/filling water buckets
- ★ Purchasing the lodging upgrades via the ledger interface, particularly Dutch's lodging (tier 2) and everyone else's tent (tier 4).
- ★ Completing item requests to help fellow gang members.

Contributing in these ways helps to keep the camp well supplied and happy, which in turn results in a number of benefits. Most notably, you will find more items that you can periodically pick up for free at the three supply stations: provisions at **Pearson's wagon**, ammunition and arms at **Arthur's wagon**, and health supplies at **Strauss's wagon**. You will also notice a better overall mood in the camp, with fellow gang members complaining less — and donating more to its upkeep.

## CAMP UPGRADES

After completing an early mission for Leopold Strauss, you will be able to upgrade various features of the camp itself via the ledger outside Dutch's tent. These upgrades require fairly substantial financial investments, but they lead to significant benefits — such as unlocking the Fast Travel feature, or improving the range and quality of the free supplies that you can claim when you visit. To increase the camp funds required to purchase such upgrades, you can contribute directly by making donations via the titling box close to the ledger.

This section reveals all possible upgrades and their attendant costs.

### LEDGER: SUPPLY UPGRADES

TIER	HEALTH SUPPLIES	COST	RESTOCK	PROVISIONS	COST	RESTOCK	AMMUNITION AND ARMS	COST	RESTOCK
1	Gut, Butters, Health Cure		\$15	Bread Roll, Crackers, Cheese, Assorted Biscuits		\$15	Pistol Cartridges Regular Revolver Cartridges — Regular		\$8
2	Snake Oil, Stimulants, Potent Bitters	\$30	\$25	Canned Vegetable, Pears, Apples, Assorted Salted Oil	\$30	\$25	Repeater Cartridges — Regular Arrowheads	\$60	\$10
3	Kentucky Bourbon, Miracle Tonic, Guano Rum	\$50	\$45	Canned Salmon, Canned Fruit, Chewing Tobacco	\$45	\$40	Throwing Knives, Shotgun Shells — Regular, Rifle Cartridges — Regular	\$90	\$15
4	Potent Miracle Tonic, Potent Health Cure	\$75	\$75	Cocaine Gum, Candy	\$55	\$50	Fire Bottles, High Velocity Repeater Cartridges	\$110	\$20

## CAMP UPGRADES (CONTINUED)

## LEDGER, STRUCTURAL UPGRADES

NAME	NOTES	COST
Lodging Tier 1 (Bare-Bone Shelter)	Available by default	
Lodging Tier 2 (First Things First)	Encourages other gang members to donate more	\$220
Lodging Tier 3 (Next in Line)	Unlocks fast travel (via the map at Arthur's lodging), and adds cigarettes and hair pomade	\$325
Lodging Tier 4 (For Everyone!)	Improves the mood of other gang members, reduces the rate at which they consume supplies, and encourages them to donate even more	\$300
Horse Station	Adds hitching posts and enables you to retrieve horses from the stables or recall your main horse to camp	\$300
Chicken Coop	Adds eggs to the camp stews cooked by Pearson, which makes them more nutritious	\$175
Leather Working Tools	Unlocks additional crafting options for Pearson	\$225
Camp Boat	<i>Clemens Point and Shady Belle camps only.</i> Provides access to a boat to cross bodies of water and reach fishing spots	\$450

## PEARSON, SATCHEL CRAFTING UPGRADES\*

UPGRADE	REQUIREMENTS	INGREDIENTS
Tonics Satchel	Tier-3 medicine/health supplies ledger upgrade	Perfect Deer Pelt, Perfect Buck Pelt, Perfect Elk Pelt
Ingredients Satchel	Donate five animal carcasses to Pearson	Perfect Deer Pelt, Perfect Badger Pelt, Perfect Squirrel Pelt
Kit Satchel	Donate three valuables at the titling box, next to the ledger	Perfect Deer Pelt, Perfect Elk Pelt, Perfect Panther Pelt
Provisions Satchel	Tier-3 provision ledger upgrade	Perfect Deer Pelt, Perfect Bison Pelt, Perfect Raccoon Pelt
Materials Satchel	Craft three recipes at a campfire	Perfect Deer Pelt, Perfect Boar Pelt, Perfect Iguana Skin
Valuables Satchel	Donate \$50 at the titling box, next to the ledger	Perfect Deer Pelt, Perfect Beaver Pelt, Perfect Rabbit Pelt
Legend of the East Satchel	Complete all other satchel upgrades	Perfect Deer Pelt, Perfect Cougar Pelt, Perfect Wolf Pelt

\* All satchel upgrades require the leather working tools ledger upgrade

## PEARSON, OTHER CRAFTING UPGRADES

CATEGORY	UPGRADE	INGREDIENTS
Camp Entrance	Buck Skull	Perfect Buck Carcass
	Fur Horse Blankets	Perfect Coyote Pelt x2, Perfect Bison Pelt
	Alligator Skull	Perfect Alligator Skin
Arthur's Lodging	Big Horn Ram Skull	Perfect Ram Carcass
	Cougar Pelt Covered Chest	Perfect Cougar Pelt x2
	Boar Skin Table Cover	Perfect Boar Pelt
John's Lodging	Ox Hide Rug	Perfect Ox Hide x2
	Boar Skin Rug	Perfect Boar Pelt x4
Camp Tables	Pronghorn Leather Table Tops	Perfect Pronghorn Hide x2
Chuckwagon	Pronghorn Skull	Perfect Pronghorn Carcass
	Moose Antlers	Moose Antler
	Wolf Skull	Perfect Wolf Carcass
Main Campfire	Snake Skin Banjo Head	Perfect Snake Skin x2
	Campfire Seat Cover	Perfect Beaver Pelt, Perfect Muskrat Pelt, Perfect Fox Pelt
	Campfire Log Seat Cover	Perfect Wolf Pelt x2
Scout Campfire	Scout Fire Ground Cover	Perfect Goat Hide x2
	Elk Antlers	Elk Antlers
	Hanging Bones	Buck Antlers

## COMPANIONS

As you walk around in camp, you will regularly get to experience all sorts of interactions with your fellow gang members. These can range from colorful discussions and anecdotes shared, to information regarding an upcoming or ongoing mission.

Your companions will also occasionally make specific requests, or invite you to partake in an activity with them.

## ITEM REQUESTS

Throughout the adventure, fellow gang members will sometimes ask you to bring them an object they need. Completing these mini-assignments will enable you to learn more about these characters. You will also obtain assorted rewards, either immediately or at your lodging on a subsequent visit to camp.

AVAILABILITY	TIME OF DAY	COMPANION	REQUEST	ITEM LOCATION	REWARD
Chapter 2	8am-8pm	ABIGAIL	\$5	Your savings	Honor
Chapters 2, 3, 4	8am-8pm	BILL	Hair Pomade	Common collectible; sold in general stores	Repeater Cartridges
Chapters 2, 3, 4	8am-8pm	CHARLES	Moonshine	Common collectible; sold in fence shops	Fire Arrows
Chapters 2, 3, 4	8am-8pm	CHARLES	Oleander	Common collectible	Poison Arrows
Epilogue 2	8am-8pm	CHARLES	Eagle Feather	Hunting	Horse Reviver
Chapters 2, 3, 4	8am-8pm	DUTCH	Pipe	On a desk inside the Vetter's Echo shack (west of Wallace Station, near the west edge of the world map)	Spurs
Chapters 2, 3, 4 (pick up <i>The Deceitful German</i> near Hosea)	8am-8pm (if Hosea sees you reading)	HOSEA	<i>Shrew in the Fog</i> (book)	On a coffee table inside a house in the Bayou (northwest of Saint Denis)	Predator Bait
Chapter 3	8am-8pm	HOSEA	American Ginseng x2	Common collectible	Potent Medicine
Chapter 2	8am-8pm	JACK	Abigail's Thumbie	Looted from characters once the item request is active	Drawing from Jack
Chapter 2 (complete "A Fisher of Men")	8am-8pm	JACK	Penny Dreadful Comic Book	Five possible locations: • Osman Grove, on a nightstand in the shack east of Emerald Ranch • Clawson's Rest, on a nightstand in the shack (northwest of Valentine) • Pleasanton, on a table in the abandoned schoolhouse (northeast of Eric Field) • Downes Ranch, on a nightstand in the house east of Wallace Station • Lake Don Julio, on a nightstand in the shack (southeast of Armadillo)	Chocolate Bar
Chapter 2	8am-8pm	JAVIER	Oleander	Common collectible	Poisoned Throwing Knives
Chapter 3	12pm-6pm	KIERAN	Burdock Root x2	Common collectible	Horse Medicine
Chapters 2, 3, 4	8pm-3am	LENNY	Pocket Watch	Vetter's Echo, on a desk in the shack (west of Wallace Station, near the west edge of the world map)	Dynamic
Chapter 2	8am-8pm	MARY BETH	Fountain Pen	Osman Grove, inside a drawer in the cabin (east of Emerald Ranch)	Ring
Chapter 3	8am-8pm	MOLLY	Pocket Mirror	Martha's Swain, on a nightstand in the cabin (east of Three Sisters)	Cigar
Chapters 2, 3, 4	8am-12pm	PEARSON	Rabbit	Hunting	Nutritious Stew
Chapter 2 (when playing poker)	8am-2pm	PEARSON	Naval Compass	Braithwaite Manor, in the boathouse	Rum
Chapters 3 & 4 (complete "Further Questions of Female Suffrage")	8am-8pm	SADIE	Harmonica	Grangers Hoggery, on a cupboard inside a shack east of Flatrock Station	Gun Oil
Chapters 2, 3	12pm-6pm	SEAN	Kentucky Bourbon	Common collectible; sold in general stores	Fire Bottle
Chapters 2, 3, 4	8am-8pm	SUSAN	Opagano x2	Common collectible	Potent Miracle Tonic
Chapter 2 (when playing dominoes)	8am-8pm	TILLY	Necklace	Looted from various lock boxes	Medicine x2
Epilogue 2	8am-8pm	UNCLE	Medicinal Cream	Crafting (Mulleweed, Kentucky Bourbon, Peppermint, Pomade, Stringy Meat, all common collectibles)	Clothes

## COMPANION ACTIVITIES

Fellow gang members will regularly invite you to join them in all sorts of activities, from table games to robberies. These activities are contextual and time-sensitive: you can only complete them at specific moments in the storyline. The following table lists them in chronological order. Note that these activities do not always trigger immediately, or they may only be available at certain hours. Returning to camp frequently and interacting with your companions is the best way to ensure you won't miss any.

### COMPANION ACTIVITY LIST

AVAILABILITY	COMPANION	ACTIVITY	NOTES
Chapter 2: Horseshoe Overlook Camp	VARIES	Dominoes, Poker	For more information on table games, see page 220
	LENNY	Five Finger Fillet	For more information on table games, see page 222
	JAVIER	Home Robbery	Walkthrough on page 182
	CHARLES	Hunting	Free opportunity to skin a bison, then to loot a camp where the poison throwing knife pamphlet is found; also available during Chapter 3
Chapter 3: Clemens Point Camp	SEAN	Coach Robbery	Walkthrough on page 183
	BILL	Coach Robbery	Walkthrough on page 183
	TILLY	Dominoes	For more information on table games, see page 222
	JAVIER	Fishing	Discovery of a legendary fish spot
	KIERAN	Fishing	Discovery of a legendary fish spot
	MICAH	Five Finger Fillet	For more information on table games, see page 222
Chapter 4: Shady Belle Camp	JAVIER	Home Robbery	Walkthrough on page 182
	CHARLES	Bank Robbery	Walkthrough on page 183 (exclusive to the Special/Ultimate Editions of the game)
	MICAH	Coach Robbery	Walkthrough on page 183
	LENNY	Coach Robbery	Walkthrough on page 183
	PEARSON	Hunting	Introduction to crayfish holes and gator eggs
	UNCLE	Rustling	Fun assignment where you team up with Uncle to steal a herd of cows

## HUNTING

As you explore the world of *Red Dead Redemption 2* you will encounter animals that can be hunted for their meat, hides, and other useful materials. An engrossing activity in and of itself, hunting is also required to complete many other objectives.

- ★ You can cook and eat many types of meat when you rest at a campfire. Consuming food is one of the most convenient ways to maintain your attribute cores (see page 166 for details).
- ★ You can donate animal parts and carcasses to Pearson to feed the camp and to unlock various upgrades.
- ★ Many animal parts can be sold at butchers, general stores, trapper shops, and donated to the camp.

★ Some body parts, such as teeth and claws from legendary animals, have mysterious powers when crafted into talismans and trinkets – see page 313.

★ Skinning animals will help you to unlock ranks in the Master Hunter set of challenges (see page 173).

You can find an introduction to the basics of hunting in our Primer chapter (see page 22). This section here offers a more in-depth analysis of the system.

## ★ ANIMAL QUALITY & KILL QUALITY ★

The animal parts you obtain when hunting game depend on two factors that might not be immediately apparent.

Every animal in the game has a “quality” that broadly reflects its physical condition. For example, you would naturally expect a healthy deer in the prime of its life to have a better pelt than a skinny, ailing specimen – and this is exactly what happens in the game.

Secondly, the manner in which you kill an animal also influences your hunting spoils. The pelt of a wolf mangled with axes by a shotgun blast, for instance, will yield less meat and have a lower dollar value than one where you dispatch the creature with a clean headshot.

These two concepts – *animal quality* and *kill quality* – determine the nature of the parts you retrieve when skinning a creature.

### ANIMAL QUALITY

You can discover the quality of each animal by focusing on it (hold **L2** / **LB**) while in close proximity, or through a scope or binoculars at

range. Hold **R1** / **RB** to study it; once the circular gauge is full, you can press the button again to show the animal's information.

An animal's quality is revealed both in the “info” window and by the number of stars next to the creature's name when you study it or focus on it while in close proximity (1★ = Poor, 2★ = Good, 3★ = Pristine).

## KILL QUALITY

The quality of a kill is determined by two factors: what body part you hit, and which weapon you use.

★ **Body Parts** – The damage you deal depends on the body part that you hit. You are probably accustomed to the gaming concept whereby headshots always cause an instant kill. The same broadly applies in *Red Dead Redemption 2*, though the overall system is rather more nuanced.

- ★ **Fatal damage** is inflicted when you hit vital organs. If an arrow or bullet strikes one of these regions, the target dies instantly – no matter how much health it has. For most animals, these body parts are the brain and the heart. They tend to be small, so your aiming skills will need to be flawless to hit them. Once your Dead Eye ability reaches rank 4 (which happens during “Fleeting Joy” in Chapter 5), organs susceptible to fatal damage appear in red when your reticle is close to them. This is precious information whenever you are hunting strong or resilient beasts as it enables you to perform one-shot kills. However, you also need to take one additional factor in consideration: penetration. If you aim at the brain of a bison from the front, for example, your arrow or bullet can only reach the organ if it can penetrate the skull. This is where specialized weapons (such as scoped rifles) and ammunition (such as high-velocity cartridges) can make a

difference. Aiming from different angles can also greatly help to avoid large bones or other body parts in the way.

- ★ **Critical damage** is inflicted when you hit critical organs such as the lungs or the stomach. Once your Dead Eye ability reaches rank 5 (which happens during “Goodbye, Dear Friend” in Chapter 6), critical body parts appear in red when your reticle is close to them. Dealing critical damage is not necessarily lethal, but will cause the wound in question to bleed, greatly weakening the target. A critically-wounded animal might run away, but will often limp and eventually collapse. Both fatal and critical strikes consistently lead to clean, perfect kills when performed with the right weapon type.

- ★ **Normal damage** is caused when you hit any other body parts.

★ **Optimal Weapons** – Depending on the size of the prey, there are certain types of weapon and ammunition that are better suited than others for a clean kill. We cover this topic in the next section.

### SUMMARY

A high animal quality and clean kill leads to better hunting loot, both quantitatively (more items) and qualitatively (superior condition). The opposite, naturally, is also true.

If you are looking for a perfect-grade animal part, you will need to hunt an animal in pristine condition, and to dispatch it with a clean, perfect kill with a suitable weapon and ammunition.

ANIMAL PARTS AWARD PROCESS		KILL QUALITY		
ANIMAL QUALITY	WEAPON	POOR	GOOD	PERFECT
		Poor	Poor	Poor
		Poor	Good	Good
		Poor	Good	Perfect

You can find a list of all animals and the parts they yield once skinned, along with details on their habitats, over the pages that follow.

## ★ ANIMAL SIZE & OPTIMAL WEAPONS ★

Depending on the size of your current prey, you need to choose the weapon you use wisely if you wish to secure a perfect kill. There is at least one for each size category. The table below details those categories; the table that follows overleaf documents weapon suitability.

### ANIMAL SIZE GROUPS

SIZE CATEGORY	ANIMALS
Small	Reptiles: Bullfrog, Toad, Snake Birds: Blue Jay, Cardinal, Waxwing, Crow, Oriole, Pigeon, Robin, Songbird, Sparrow, Woodpecker, Carolina Parakeet, Chicken, Duck, Loon, Parrot, Pheasant, Quail, Raven, Booby, Rooster, Gull Mammals: Bat, Squirrel, Rat, Chipmunk
Moderate	Birds: Eagle, Crane, Cormorant, Egret, Hawk, Heron, Owl, Pelican, Spoonbill, Turkey, Vulture, Condor, Goose Reptiles: Iguana, Gila Monster Mammals: Rabbit, Armadillo, Badger, Muskrat, Possum, Raccoon, Skunk
Medium	Mammals: Coyote, Fox, Pig, Beaver
Large	Mammals: Boar, Buck, Cougar, Panther, Big Horn Ram, Wolf, Deer, Pronghorn, Goat, Sheep, Peccary Reptiles: Alligator (Small), Turtle
Massive	Mammals: Bear, Bison, Bull, Elk, Moose, Ox, Cow Reptiles: Alligator

The carcasses of moderate, medium, and large animals can be skinned, picked up, dropped, and stowed or removed from horseback. Massive animals can only be skinned; their carcasses cannot be transported.

You can load your horse up with pelts and carcasses that you collect, as long as you remain within the following limits:

★ The carcass of one medium or large animal, or the pelt of one massive animal, across the back of your horse.

★ The carcasses of two moderate animals hooked on either side of your horse.

★ Multiple pelts of large, medium and moderate animals draped over the back of your horse.

★ Note that all small animal parts are stored directly in your satchel.

## ★ ANIMAL PARTS & HABITAT ★

Each animal species can be found in specific habitats. When searching for a particular type of animal, visiting the appropriate territories will give you the best chance to encounter the creatures you seek. Once you are in the correct location, remember that there are two items that you can craft, find, or purchase to help in the process of hunting. Bat will attract wild animals, and cover scents make it harder for animals to detect your presence through smell.

Note that the sell prices that we reveal over the following pages are base values. These can be affected by certain modifiers:

- ★ Parts from animals that are rare in a region (for example, alligator parts in Valentine) can be sold for **25% more** than in a region where they're common.
- ★ Carcasses of skinned animals are worth **50% less** than when the animals are unskinned.
- ★ Owners of the Special/Ultimate Edition of the game can sell animal parts for **10% more**.

## ★ LEGENDARY ANIMALS ★

In addition to all the standard creatures that populate the world of *Red Dead Redemption 2*, there are also a number of unique specimens called **legendary animals**. These are hard to find and, in most cases, extremely dangerous. Hunting them is therefore very challenging, but leads to unique rewards that can be used to craft valuable items or upgrades.

You will run across a few legendary animals by completing certain missions (we cover these in the Walkthrough chapter), but most of them are encountered in the wild.

When you enter a legendary animal's territory, the game notifies you of this fact and your map is updated accordingly. Explore the area in Eagle Eye mode and you will soon reveal a first clue (shown on your radar with a small question mark icon). This uncovers a trail (again, visible with Eagle Eye) leading to another clue. After you find your third clue, the trail will lead you straight to the beast in question.

If you are planning to face a legendary animal, make sure you are equipped with powerful weapons and ammunition (rifles, sniper rifles, or the bow with poison arrows), and that you are in perfect shape for the encounter that lies ahead. Kill quality is not an essential factor when you take down these unique creatures; the items that they yield are unaffected by the means of their death, so you can take them out with your most lethal firearms. These battles tend to be fierce and the most resilient animals can tank a lot of damage.

Where possible, we strongly encourage you to have a full Dead Eye meter, especially if you have reached at least the fourth rank of that ability. This will enable you to identify your target's fatal regions (the brain and heart, in most cases). If you manage to hit one of these, you will secure an instant kill (see page 146 for details). Dead Eye can also help to save your life—if a ferocious beast should notice you and charge, a quick barrage of headshots could stop the animal in its tracks.

## LEGENDARY ANIMAL OVERVIEW

NAME	HABITAT/AVAILABILITY
Legendary Bulligator	Bayou Nwa just west of Lakey, featured in the Country Pursuits story mission (see page 82)
Legendary Cougar	Gaptooth Ridge, straight west from Tumbleweed
Legendary Wolf	Cottona Springs, west of Bacchus Bridge
Legendary Boar	Bluewater Marsh, north of Lagras
Legendary Bharati Grizzly Bear	Grizzlies East, just north of O'Drigh's Run (after completing "Exit Pursued By A Bruised Ego")
Legendary Garguaro Panther	Canyon, west of Shady Belle (after completing the Master Hunter challenge, rank 9)
Legendary Moose	Roanoke Ridge, at the northeast tip of the map
Legendary Pronghorn	Red Del Lobo Rock, west of Fort Mercer
Legendary Bighorn Ram	Cattail Pond, west of Valentine
Legendary Tatanka Bison	Hennigan's Stead, just southeast of Manzanilla's Burial
Legendary White Bison	Lake Isabelle, at the west end of the Grizzlies
Legendary Beaver	Just southwest of Butcher Creek
Legendary Buck	Northwest of Strawberry
Legendary Coyote	Scarlet Meadows, to the northwest of Rhodes
Legendary Elk	Just east of Bacchus Station
Legendary Fox	Just north of the fence in Rhodes

Note that legendary animals are one of a kind: once you kill them, they will not appear again. Be sure to skin them and take care not to leave any loot behind. If you do, note that replaceable parts required to create related talismans/trinkets are automatically sent to the trapper.

## FISHING

Fishing is an engrossing activity with multiple layers of complexity where you will need to pay close attention to the equipment you use and know where each species can potentially be caught. You can find an introduction to this activity in our Primer chapter (see page 23), where you will learn all the basics, including fishing commands and the difference between baits and lures. In this section we provide the information you'll need to catch all fish species, including the legendary specimens. Note that you can also use your weapons to kill fish, though technically this is more akin to hunting than fishing.

## ★ BAIT AND LURES ★

The first step to catching fish is to obtain the best possible incentives for their attention. You can purchase most bait and lure options at the Bait and Tackle shop, on the west shore of Lagras. We recommend that you buy the three special lures as soon as you can (which requires you to trigger "A Fisher of Fish", available early in Chapter 3), as these essentially give you the best chance to catch many fish types for a very affordable price.

## LURE &amp; BAIT OVERVIEW

NAME	GENERALLY WELL-SUITED FOR...	AVAILABILITY/PRICE
Cheese Bait	Smaller fish in lakes	Found
Bread Bait	Smaller fish in rivers	Found
Corn Bait	Smaller fish in swamps	Found
Live Worms	Medium-sized lake fish	\$0.50
Live Crickets	Medium-sized river fish	\$0.50
Crayfish	Medium-sized swamp fish	\$0.25
Lake Lure	Medium/large-sized lake fish	\$2.50
River Lure	Medium/large-sized river fish	\$2.50
Swamp Lure	Medium/large-sized swamp fish	\$2.50
Special Lake Lure	Medium/large-sized lake fish and legendary fish	\$20*
Special River Lure	Medium/large-sized river fish and legendary fish	\$20
Special Swamp Lure	Medium/large-sized swamp fish and legendary fish	\$20
Special Spinner	All large fish and legendary fish	Reward**

\* Can also be obtained for free in a stranger mission "The Veteran" (see page 90).  
\*\* Reward for completing "A Fisher of Fish" (see page 164).

## ★ FISH SPECIES &amp; FISHING SPOTS ★

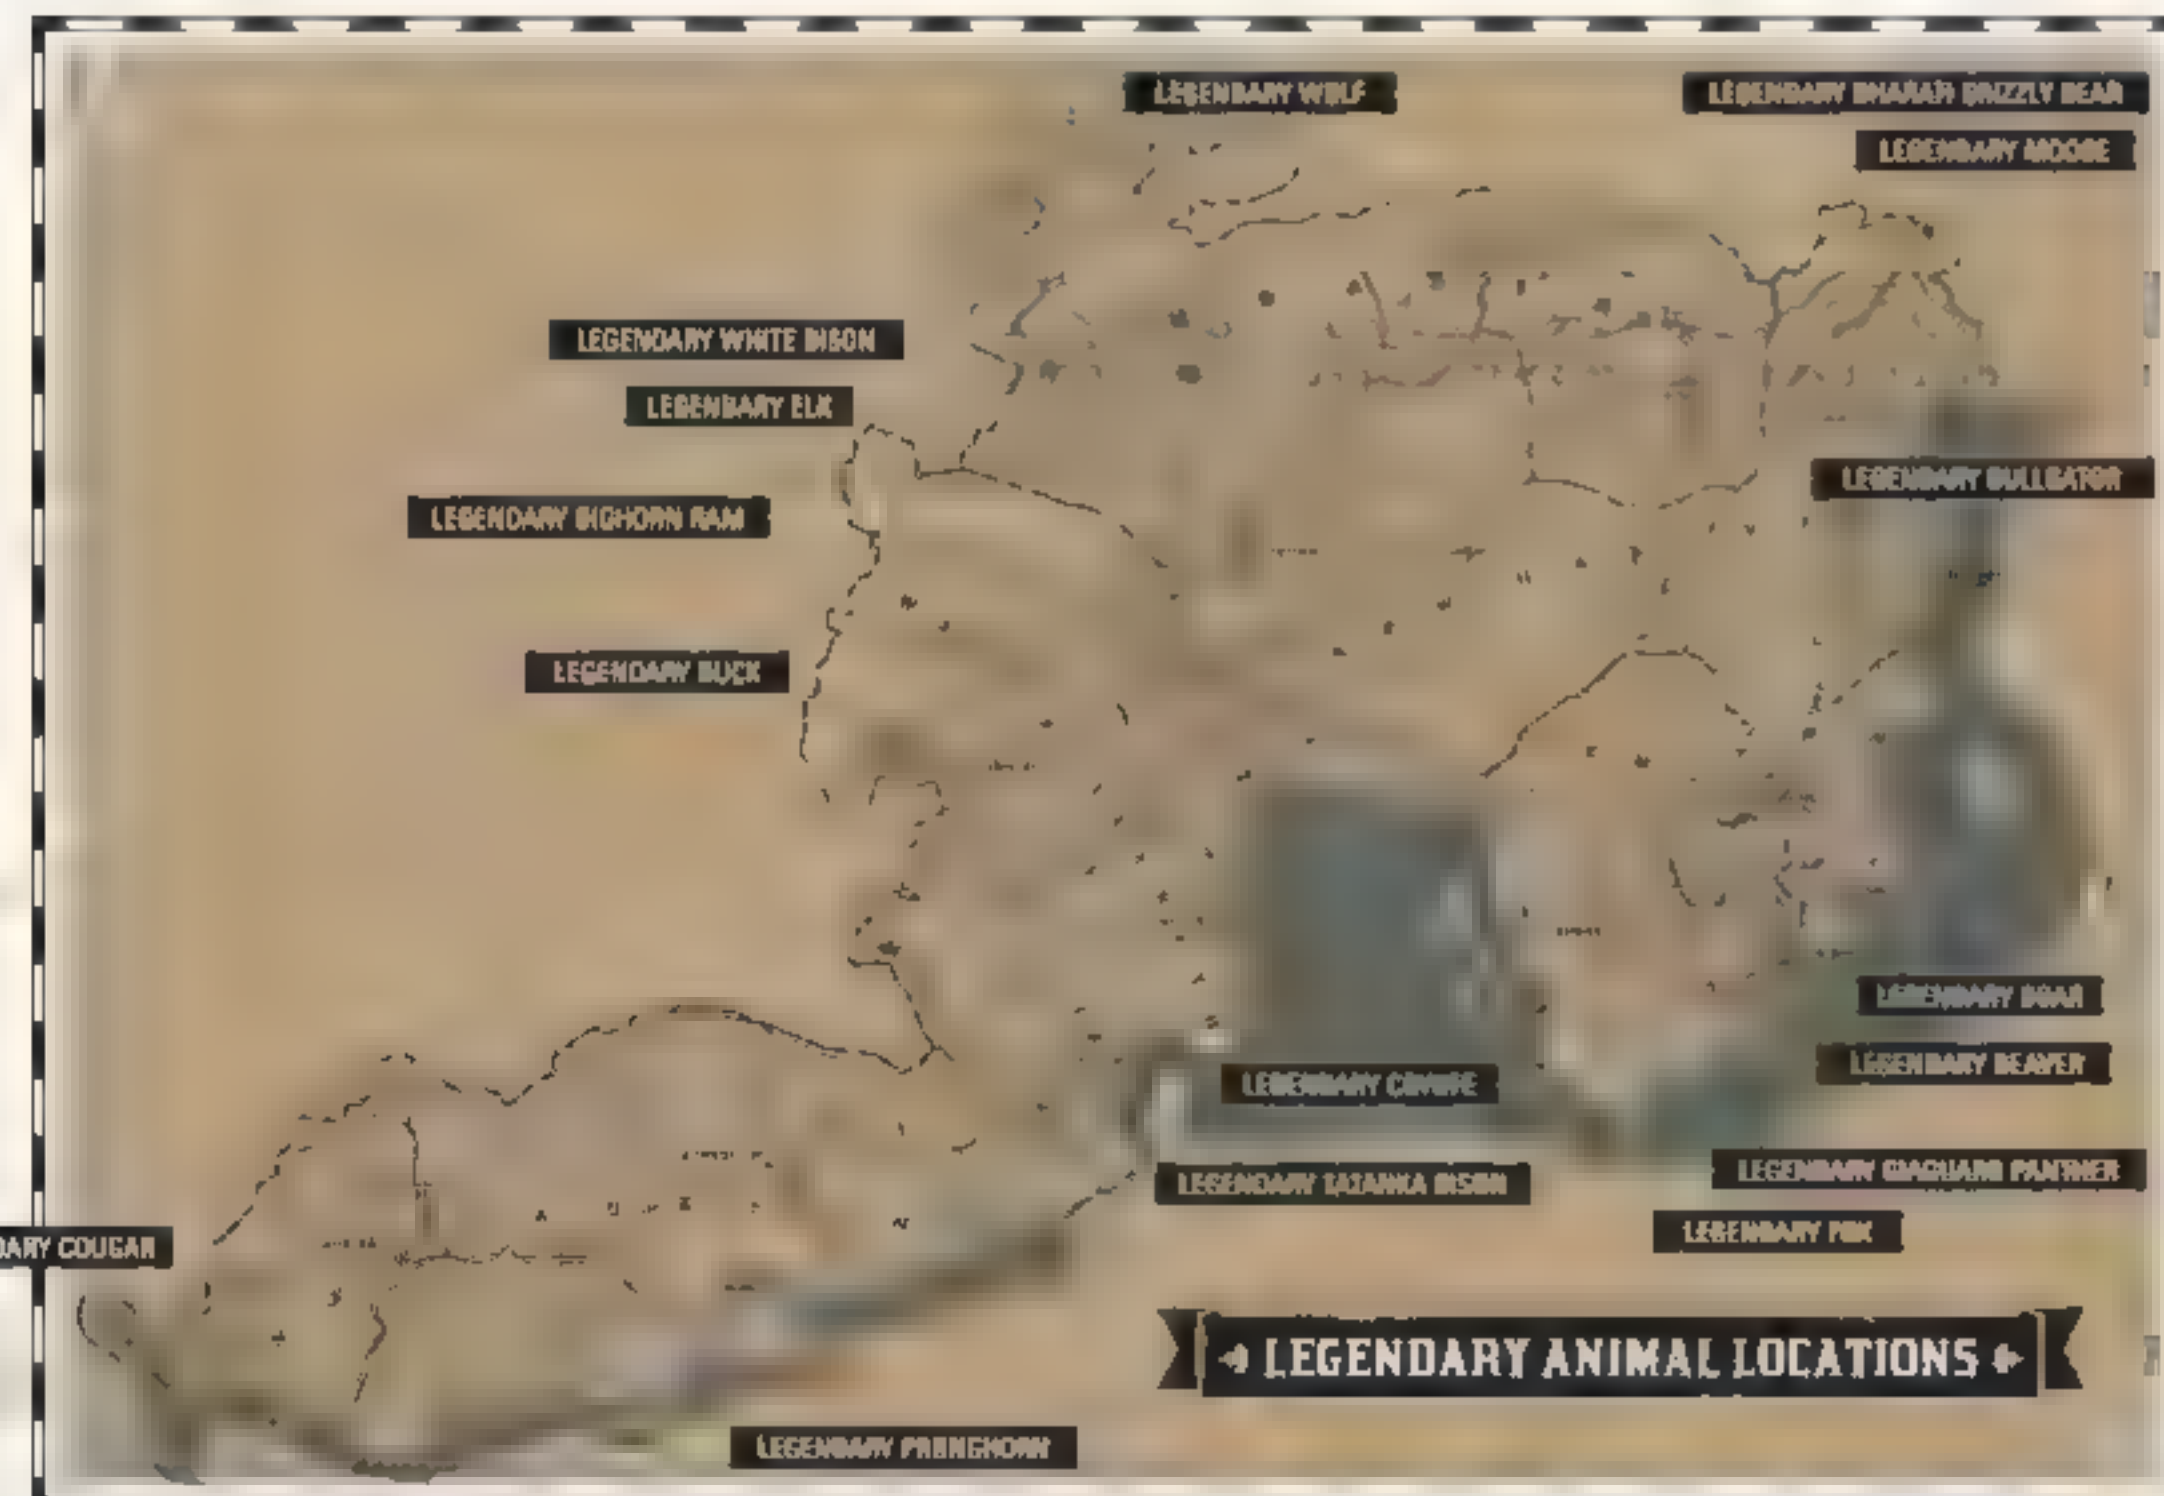

Small fish are of overall low value, are available in practically any body of water, and are attracted principally (though not exclusively) by food-based bait. These include: redfin pickerel, perch, bullhead catfish, chain pickerel, rock bass, and bluegill. Bigger fish are harder to catch, requiring you to not only set up in specific habitats, but also to use particular lures and take weather conditions into account.

The following table presents all of the important parameters you will need to consider while fishing, which you can refer to whenever you are preparing to look for a very particular catch. This includes an effectiveness rating for each bait/lure per species, from A (most effective) to F (least effective).

## FISH OVERVIEW

SPECIES	HABITAT				FAVORITE LURE/BAIT	BAIT/LURE EFFECTIVENESS RATING												WEIGHT	
	North Region	South Region	Swamp Region	Isolated Wetland		Cheese	Bread	Corn	Worms	Crickets	Crayfish	Lake Lure	Swamp Lure	Special Lake Lure	Special River Lure	Special Swamp Lure	Special Spinner	Normal Weight (lbs)	Legendary Weight (lbs)

FISHING SPOTS & HABITATS

## ★ LEGENDARY FISH ★

Each fish species has a single legendary specimen, the largest and most difficult to catch of its kind. You will need a special lure to attract a legendary fish.

Your search for legendary fish officially begins when you initiate the mission called "A Fisher of Fish". speak to Jeremy Gill, the man fishing on the pier on the northeast shore of Flat Iron Lake. He will give you a map showing the location of 13 legendary fish, and ask you to send them to him by mail once you have caught them.

You can use any of the special lures to catch legendary fish, but equipping the model adapted to the body of water where you are currently fishing will lure fewer standard fish, making it easier to specifically catch the specimen you're after. The controls are the same as usual. turn to page 23 if you need a refresher.

Unlike standard fish, legendary fish are often so big that they do not fit in the satchel. you must store them on the back of your horse, then head to a post office and mail them to Jeremy Gill.

Once you catch and mail all 13 species, Gill will invite you to his shack and then on a trip to Rio Bravo to catch the legendary channel catfish, though you'll need to reach Epilogue 1 before the latter trip is available.

### REWARDS

FEAT	REWARD
Mail one legendary fish	Lake Lure
Mail 10 legendary fish	\$45.00 and succulent fish meat (x5)
Mail 13 legendary fish and accompany Jeremy Gill	Special Spinner

### LEGENDARY FISH OVERVIEW

NAME	OPTIMAL LURE	HABITAT/USUAL SPOT
Channel Catfish	Special River Lure	Sisika Island, just west of the penitentiary
Chain Pickerel	Special River Lure	Dakota River, northwest of Flatneck Station
Lake Sturgeon	Special River Lure	Southern railroad bridge leading to Saint Denis (stand on the edge of the bridge to avoid trains)
Largemouth Bass	Special River Lure	San Luis River, just southeast of Lake Don Julio
Longnose Gar	Special Swamp Lure	Lagras, at the northwest tip of the Lakay peninsula
Muskie	Special River Lure	Van Horn Trading Post, at the foot of the lighthouse
Perch	Special Lake Lure	Elysian Pool, to the southwest of Annesburg
Redfin Pickerel	Special Lake Lure	Stillwater Creek, in the largest basin, to the east of MacFarlane's Ranch
Rock Bass	Special Lake Lure	Aurora Basin's pier, to the west of Blackwater
Smallmouth Bass	Special Lake Lure	Owamunga Lake, just west of Strawberry
Sockeye Salmon	Special Lake Lure	Lake Isabelle, at the west edge of the Grizzlies
Steelhead Trout	Special River Lure	Willard's Rest, by the waterfall at the northeast edge of the world map, directly north of Annesburg
Bluegill	Special Lake Lure	Flat Iron Lake, between the shore and the island to the south of Clemens Point

## ADVANCED REELING-IN TECHNIQUE

As a rule, legendary fish are much harder to catch than standard fish. Expect long battles where your target struggles so much that

your spool will run out of line and threaten to snap. With the biggest and fiercest specimens, these fishing duels can turn into wars of attrition where you lose every inch of ground you have made up each time the animal struggles.

There is, however, a technique that will greatly help you to win these contests. Every time the fish is tired out, don't simply reel in as normal: instead, tilt the rod downward to pull your rod up, and then quickly reel in; after a second or two, do this again, pulling up and reeling in. Repeat this as often as you can until the fish resumes struggling and a new cycle begins. You will soon notice that this repeated upward movement gives you a significant edge, and will enable you to get the better of even the most redoubtable legendary fish.

# ATTRIBUTES

You have three main attributes in the game:

- Health:** The amount of damage that you can sustain.
- Stamina:** The level of physical exertion you can endure, such as when sprinting, swimming, or jumping.
- Dead Eye:** The duration of time you can spend in Dead Eye mode.

These attributes are represented by dynamic meters that appear in the lower-left corner of the screen. Each meter actually consists of two separate gauges: a main attribute meter, and an attribute core.

**Main Attribute Meters:** These are represented by a circular gauge. They are depleted when you take damage for health, when you perform strenuous activities such as sprinting for stamina, and when you trigger

Dead Eye's signature slow-motion state. Main attribute meters can be replenished in three ways: by sleeping, by using tonics, or automatically over time through the restorative effect of attribute cores (and at an enhanced speed if you rest on the spot by holding /). Your character's attribute meters start at a low level but can be improved—a topic we will come back to shortly.

**Attribute Cores:** Cores are the icons that appear inside each attribute meter. They have two functions. Firstly, they serve as a last-resort extension of the corresponding attribute: if a meter is fully depleted, additional usage or damage will begin to deplete the core. Secondly, they determine the recovery rate of the related attribute meter. When full, you enjoy the maximum possible replenishment speed; if depleted, you will need to wait longer. Cores drain slowly over time, and therefore require regular "maintenance". Cores can be restored by sleeping, bathing, or by eating appropriate food.

## CORE DRAIN

CONDITION	THINGS AFFECTED	INITIAL TIME UNTIL THE EMPTY	NOTES
Normal	All	90 minutes	Default condition
Sick	All	85 minutes	After "Paradise Mercifully Departed" (Chapter 5)
Very Sick	All	75 minutes	After "A Fork in the Road" (Chapter 5)
Hot/Cold	Health	10 minutes	When exposed to high or low temperatures
Poisoned	Health	10 minutes	When bitten by a snake
Mounted	All	25% slower	While mounted on any horse
At Camp	All	—	No drain

## DEAD EYE SPECIAL FEATURES

Unlike health and stamina, the Dead Eye meter is not restored automatically over time (though it is replenished partly when you sleep).

- The Dead Eye meter refills with each kill you perform, at a rate determined by how full your Dead Eye core is.
- During Dead Eye mode, the meter's drain speed increases by a further 5% for each "tagged" target—up to a maximum of 40%.
- Your Dead Eye ability improves as you advance in the main storyline, offering new functions that make you even more effective during shootouts.

RANK	UNLOCKED	EFFECT
1	During "Old Friends" (Chapter 1)	Improved reflexes and perception, which translates into a slow-motion effect during which your targets are automatically "tagged" when you mean the aim of your rifle over them.
2	During "Fooling around on" (Chapter 2)	Ability to manually tag multiple targets with / allowing for improved marksmanship.
3	During "Marking the US" (Chapter 4)	Ability to aim in Dead Eye when you aim your weapon if you haven't tagged a target.
4	During "Dead Eye, Dead Eye" (Chapter 5)	Fatal areas are highlighted while you are in Dead Eye.
5	During "Dead Eye, Dead Eye" (Chapter 5)	Critical areas are highlighted while you are in Dead Eye.

## ★ ATTRIBUTE GROWTH ★

Your main meters consist of segments, known as "tanks". When the game begins, your allocation is as follows:

- ★ **Health Meter:** 3 tanks (level 3)
- ★ **Stamina Meter:** 2 tanks (level 2)
- ★ **Dead Eye Meter:** 2 tanks (level 2)

You can permanently increase your meters by completing certain actions that generate attribute experience (XP). You can track your progression via the onscreen display: a segmented bar surrounding the affected attribute will gradually fill clockwise as you perform appropriate actions. This process is illustrated in the following diagram, showing the XP progression of the Dead Eye attribute from level 4 to level 5.

### VISUAL XP PROGRESSION (DEAD EYE)

Every time you reach specific XP thresholds, the attribute in question levels up and the corresponding meter is extended by a new tank.

The natural growth of all three attributes is capped at level 8. However, you can obtain two extra tanks (and therefore reach level 10) by completing Challenges, see page 172.

### ATTRIBUTE METER GROWTH

The accompanying tables detail all actions that earn attribute XP.

### ATTRIBUTE LEVEL MILESTONES

ATTRIBUTE LEVEL	TOTAL XP REQUIRED
1	0
2	50
3	100
4	200
5	350
6	550
7	800
8	1,100

### HEALTH: XP GAIN ACTIONS

ACTION	REPEATABLE	XP VALUE
Drink a ginseng elixir	Item available in limited quantities	25% of the XP needed to reach the next level
Complete a related challenge (see page 172)	Each challenge can be completed only once	30
Row a boat over 100 meters	Yes	20
Bow or thrown weapon kill	Yes	20
Melee knockout/kill	Yes	10
Catch a fish	Yes	10-30 based on size
Jump 50 times	Yes	5
Stealth kill/knockout	Yes	5
Bow or thrown weapon hit	Yes	5
Get a clean kill when hunting	Yes	3

### STAMINA: XP GAIN ACTIONS

ACTION	REPEATABLE	VALUE
Drink aged pirate rum	Item available in limited quantities	25% of the XP needed to reach the next level
Complete a related challenge (see page 172)	Each challenge can be completed only once	30
Survive combat with less than 25 health	Yes	20
Sprint over 100 meters	Yes	20
Swim for 15 seconds	Yes	20

### DEAD EYE: XP GAIN ACTIONS

ACTION	REPEATABLE	VALUE
Drink a valenian root	Item available in limited quantities	25% of the XP needed to reach the next level
Complete a related challenge (see page 172)	Each challenge can be completed only once	30
Craft an item	Yes	1
Cook a meal	Yes	1
Complete camp chores	Yes	5
Find a special collectible (see page 199)	Yes	5
Free aim kill	Yes	1
Skin an animal	Yes	1-10 based on animal
Land a headshot from over 50 meters	Yes	1-5 based on distance

## ★ STATUS EFFECTS ★

You can be affected by special status effects that have a bearing on your attributes; their influence can be positive, negative, or both at once. When a given condition is active, an icon flashes in the relevant core.

**Fortified Attributes:** Consuming certain items will fortify one or more of your attributes. This has the effect of artificially extending the attributes in question to level 10 (which causes your cores to drain 15% slower) for a set amount of time.

**Gold Cores:** High-quality consumables and services can grant special gold-colored cores. When a gold core is active, you do not need to maintain that core for a set period of time. When the effect wears off, the underlying core will be full and the standard usage conditions are reinstated.

**Weight:** This parameter has a range of 0 (skinny) to 20 (overweight). Your character is deemed to be in peak condition when his weight is 10. You naturally lose one point of weight every 24 in-game minutes. However, you can compensate for this loss by consuming food, with each type having its own caloric value. By eating too much or not enough, your character can gradually become overweight or underweight, though you should note that there is a limit of one adjustment per in-game hour and per screen fade. The bonuses or penalties for your current weight will scale in one point increments between 9-0 (average to skinny) and 11-20 (average to overweight).

Being **overweight** will drain your cores at an accelerated rate (up to 25%) and your stamina meter faster (0.75% faster per increment, up to a maximum of 7.5%) but will provide you with improved damage resistance (0.75% less damage per increment, up to a maximum of 7.5%).

Being **underweight** will drain your cores faster (up to 25%) and increase the damage that you sustain (0.75% more damage per increment, up to a maximum of 7.5%), but provides the perk of slower stamina loss (0.75% slower per increment, up to a maximum of 7.5%).

**Harsh Weather:** When you are exposed to hot (☀️) or cold (❄️) weather without wearing suitably light or warm clothes, your health core drains from full to empty in 10 minutes—as opposed to 90 minutes in normal conditions.

**Poison (☠️):** When poisoned by a snake, your health core drains from full to empty in 10 minutes. You can cure this with various herbs (ginseng, English mace, milkweed, vanilla flower, or yarrow), or by sleeping, returning to camp, or starting a mission.

**Drunk:** Each liquor type has a specific alcohol value. These are cumulative when you consume multiple drinks in succession.

DRINK	ALCOHOL VALUE
Saloon Beer	0.10
Saloon Whiskey	0.10
Opened Guarni Rum	0.10
Opened Fine Brandy	0.10
Opened Gin	0.10
Opened Kentucky Bourbon	0.13
Guarni Rum	0.17
Brandy	0.17
Gin	0.17
Kentucky Bourbon	0.25
Moonshine	0.30
Whiskey Bottle	0.40
Aged Pirate Rum	0.50

There are four states of inebriation, on a scale from 0 to 1:

- ★ Sober — 0 to 0.49
- ★ Wasted — 0.75 to 0.99
- ★ Drunk — 0.50 to 0.74
- ★ Blackout — 1

The different stages of drunkenness are accompanied by visual effects that distort your perception of your surroundings—and these make it hard to move around, let alone accomplish anything of note. The effects of inebriation remain active for a minimum of 90 seconds. Your total alcohol level decays by 0.25 every 24 seconds, but cannot fall below 0.5 or 0.75 until the initial 90-second period has elapsed.

## SUMMARY

The following table documents the ways in which attributes and their associated meters can be affected.

### ATTRIBUTE MECHANICS OVERVIEW

ATTRIBUTE	MAIN ATTRIBUTE XP GAIN	DRAIN ATTRIBUTE METER	REFILL ATTRIBUTE METER	UNRAID CORE	REFILL CORE	RELATED STATUS EFFECTS

## ★ HAIR GROWTH ★

Unlocked at the beginning of Chapter 2, natural hair growth is more than a matter of simple aesthetics. If you have a pressing need to avoid identification, radically changing your facial appearance will make it harder for interested parties to recognize you.

There are multiple growth stages for both head hair and facial hair.

- ★ Consuming hair tonics doubles the growth rate for up to two stages; the effect stacks if you consume two or three hair tonics, leading to a x4 and x8 growth rate respectively.
- ★ Your beard will stop growing on its own at stage 6. The only way to go beyond is to consume tonics.
- ★ Pomade applied by a barber lasts five in-game days (only two days when you do it yourself).
- ★ You can only grow hair by one increment at a time. The next growth stage will begin only after a screen fade (for instance after sleeping, respawning, any fast travel, chapter introductions, cutscenes, and so forth).

### GROWTH STAGES

STAGE (HAIR)	STAGES (BEARD)	IN-GAME TIME	REAL TIME
0	0*		
1	1	2 days	1.6 hours
2	2	2 days	1.6 hours
3	3	4 days	3.2 hours
4	4	8 days	6.4 hours
5	5	12 days	9.6 hours
6	6	20 days	16 hours
7	7	20 days	16 hours
-	8	16 days	12.8 hours
-	9	16 days	12.8 hours
-	10	26 days	20.8 hours

\* Can only be obtained by purchasing the Extra Clean Shaven style from a barber.

## HONOR

The honor system measures how your actions are perceived in terms of morality by in-game characters. As a general rule of thumb, actions that are considered as honorable (such as rescuing townsfolk from danger or

turning in criminals to the law) will add to your honor score; conversely, activities that are considered dishonorable (such as harassing or killing innocents) will lead to reductions.

## ★ HONOR RANKS & REWARDS ★

Every time you reach certain honor milestones you achieve a specific rank. Some of these confer unique benefits.

RANK	-8	-7	-6	-5	-4	-3	-2	-1	0	1	2	3	4	5	6	7	8
POINTS	-320	-280	-240	-200	-160	-120	-80	-40	0	+40	+80	+120	+160	+200	+240	+280	+320

### HONOR RANK EFFECTS

RANK	HONOR POINTS	EFFECTS
8	320	
7	280	50% discount in all shops
6	240	New outfits available in certain shops: the Scraper, the Farmer, the Gambler, the Deauville, the Faulkton, the Drifter, the Dewberry Creek, and the Drover
5	200	25% discount in all shops
4	160	
3	120	New outfits available in certain shops: the Bulldogger, the McLaughlin, the Chevalier, the Corson, the Cumberland, the Cowpuncher, the Valentine, and the Roscoe
2	80	10% discount in all shops
1	40	When you loot bodies, the drop rate of potent tonics, restorative items, jewelry and food items is increased
0	0	When you loot bodies, you primarily obtain standard tonics, cheap jewelry, basic horse consumables, and used alcohol and tobacco
-1	-40	When you loot bodies, the drop rate of Dead Eye tonics, thrown weapons, alcohol, and tobacco is increased; you also receive more money and jewelry from lawmen
-2	-80	
-3	-120	
-4	-160	
-5	-200	
-6	-240	
-7	-280	
-8	-320	

## ★ HONOR EVENTS ★

There are many events and actions that lead to honor gains or reductions, as detailed in the accompanying tables. Note that a x1.5 multiplier is applied to all values during Chapter 6. Many chance encounters can also lead to honor adjustments. These are covered in a dedicated section – see page 223.

## MISSION EVENTS: HONOR VALUES

CHAPTER	MISSION	EVENT	HONOR
1	Who the Hell Is Leviticus Cornwall?	Kill the train staff	-5
		Do not save Lenny	-20
		Rescue the escaped horse	+10
		Return the escaped horse by calming and leading it	+10
		Return the escaped horse by dragging it with the lasso	+5
2	Police Society, Valentine Style	Antagonize the man after returning the escaped horse	-10
		Pull the witness up from the cliff	+10
		Do not pull the witness up from the cliff	-5
		Spare the witness after pulling him up from the cliff	+10
		Kill the witness after pulling him up from the cliff	-10
		Keep the stolen horse after the mission	-5
		Return the stolen horse after the mission	+10
		Agree to rescue Jamie	+10
		We Loved Once and True – II	
		The Course of True Love – I	
3	Sodom? Back to Gomorrah	Sell the gift rather than delivering it to Penelope	-5
		Choose to crack the safes	+5
		Choose to open the safes using dynamite	-5
4	Fatherhood and Other Dreams	Help Mary recover the family heirloom from her father	+10
		Pay the buyer for the brooch	+5
		Return Sister Calderon's crucifix	+20
6	Brothers and Sisters, One and All	Agree to help Rains Fall	+10
		Refuse to help Rains Fall	-10
		Agree to help Monroe	+20
	Archaeology for Beginners	Refuse to help Monroe	-20
		Kill soldiers while retrieving the sacred items	-5
		Agree to help Sadie	+20
	Mrs Sadie Adler Widow	Refuse to help Sadie	-20
		Help Archie	+10
		Rescue Edith	+10
	Do Not Seek Absolution – I	Make a donation	+20
		Escort Basu and Penelope on the train	+10
		Refuse Penelope's payment	+10
	Do Not Seek Absolution – II	Kill the wagon drivers	-5
		Protect John rather than going after the money	Gain a rank
		Go after the money rather than helping John	Lose a rank
	The Course of True Love – IV	Protect John rather than going after the money	Gain a rank
		Go after the money rather than helping John	Lose a rank
		Honor, Amongst Thieves	
	Red Dead Redemption	Protect John rather than going after the money	Gain a rank
		Go after the money rather than helping John	Lose a rank
		Honor, Amongst Thieves	
Epilogue 1	Home of the Gentry?	Pay off the squatters	+5
Epilogue 2	American Venom	Choose not to hang Cleat	+5
	Bounty Hunting – All missions	Return a target dead or alive	+5
		Ackow the bounty to say his goodbyes	+1
	Bounty Hunting – Mark Johnson	Kill Angie's son	-5
		Absolve the debt	+10
	Leansharking – Algie Davison	Recover the debt	-5
		Give additional money to the family	+20
	Leansharking – J. John Weathers	Show the widow how to hunt, then how to shoot	+20 then +10
		Give the medicine to the convicts	+10
	Leansharking – Arthur Londonderry		
	Home Robbery – Willard's Rest		
	Stronger Mission – The Ties That Bind Us		

## AMBIENT EVENTS: HONOR VALUES

EVENT	HONOR
Donate to gang via the tithing box	+10
Disarm a dueling opponent	+10
Peacefully surrender to a lawman and serve your time in jail	+5
Kill rats in town or complete camp chores	+5
Pay off your debts from committing crimes	+5
Watch an animal bleed to death	-1
Shoot near a civilian, scaring them	-1
Steal a horse hitched to a post	-1
Knock out civilians and loot them	-1
Tremples an innocent with your horse	-1
Intimidate or beat someone up during a robbery	-5
Kill domesticated town animals, such as dogs, cows and pigs	-5
Desecrate the dead (shoot at or use explosives on specific graves or dead bodies)	-10
Hold up a shopkeeper and steal from registers or safes	-20
Randomly antagonize or intimidate someone	Growing decrease*
Watch your horse while it is writhing in pain without helping it	Growing decrease*
Kill an animal and leave without skinning it or stowing it on your horse	Growing decrease*
Kill a civilian or lawman (doesn't apply when wanted or during missions)	Growing decrease*

\* There are honor penalties of growing severity if you perform these actions repeatedly

## CHALLENGES

Challenges are gameplay feats that you can complete in sequence to unlock rewards.

There are nine categories in total, each featuring ten challenges. Completing all ten within a category gives you access to various rewards: attribute increases, dollar payments and – perhaps more importantly – reinforced equipment that can be obtained at any trapper shop once unlocked.

## REINFORCED EQUIPMENT

By completing all ten challenges in a category, you will gradually unlock reinforced pieces of equipment in accordance with the related theme – for example, the Bandit equipment for the Bandit challenges. These are then available for purchase at the trapper. They each form sets of four pieces: a bandolier, a gun belt, a holster, and an off-hand holster – each with their own perks. These perks are superior to the ones granted by gunsmith equipment, as shown in the table to the right.

★★★

## SET BONUSES

By obtaining complete upgraded sets, you can add two permanent bonus tanks to your main attribute bars. Each attribute is associated with three sets. You are awarded a first extra tank when you obtain all four pieces in one of the related sets, and a second when you complete all three – as shown in the following table.

★★★

## LEGEND OF THE EAST OUTFIT

After you complete all challenges in every category, you receive the Legend of the East Outfit. Acquiring this provides a number of significant bonuses.

- ★ **Cores:** Decreases the speed at which all attribute cores (including horse cores) drain by 10%.
- ★ **Damage:** Decreases melee damage sustained by 10%.
- ★ **Dead Eye:** Decreases the speed at which the Dead Eye meter drains by 10% for three seconds (also applies to Eagle Eye, but permanently).
- ★ **Attribute Experience:** Increases the experience (XP) you obtain for all three attributes by 10%.
- ★ **Horseback:** Decreases the damage you receive while on horseback by 10%.
- ★ **Loot:** Increases money acquired by looting by 10%.
- ★ **Weapons:** Slows the degradation of all weapons by 10%.

## EQUIPMENT PERKS

EQUIPMENT TYPE	UPGRADED SETS (GUNSMITH)	REINFORCED PERK (TRAPPER)
Bandolier	Ammo capacity for longarm weapons: +50%	Ammo capacity for longarm weapons: +100%
Gun Belt	Ammo capacity for sidearm weapons: +50%	Ammo capacity for sidearm weapons: +100%
Holster	Weapon degradation rate: -10%	Weapon degradation rate: -20% (stacks)
Off-Hand Holster	–	Weapon degradation rate: 10% (stacks)

## ATTRIBUTE BONUSES FROM SETS

ATTRIBUTE	RELATED REINFORCED SETS	1 <sup>ST</sup> BONUS TANK	2 <sup>ND</sup> BONUS TANK
Health	• Hoxsoman • Sharpshooter • Weapons Expert	Obtain all four pieces in one of these sets	Obtain all four pieces in all three of these sets
Stamina	• Bandit • Gambler • Master Hunter	Obtain all four pieces in one of these sets	Obtain all four pieces in all three of these sets
Dead Eye	• Explorer • Frontiersman • Survivalist	Obtain all four pieces in one of these sets	Obtain all four pieces in all three of these sets

## ★ LIST OF ALL CHALLENGES ★

### BANDIT CHALLENGES

RANK	ICON	DESCRIPTION	UNLOCK/REWARD
1		Hold up five townsfolk	Bandit Bandolier
2		Rob two coaches along the road or complete any two coach robbery missions	25 Dead Eye XP \$5
3		Rob the cash register in any four shops in one day	Bandit Holster
4		Rob three coaches in a day	50 Dead Eye XP \$10
5		Amass a \$250 bounty in one State	50 Dead Eye XP \$10
6		Steal five horses and sell them to the horse fence at Clemens Cove	100 Dead Eye XP \$15
7		Rob \$50 worth of cash and valuables from townsfolk and travelers	Bandit Off-Hand Holster
8		Steal seven wagons and sell them to the fence at Emerald Ranch	100 Dead Eye XP \$15
9		Hogtie someone and leave them on the railroad three times	150 Dead Eye XP \$20
10		Complete five train robberies without dying or being caught	Bandit Gun Belt

### EXPLORER CHALLENGES\*

RANK	ICON	DESCRIPTION	UNLOCK/REWARD
1		Find a treasure map	Explorer Holster
2		Find a treasure	25 Stamina XP \$5
3		Find a treasure	Explorer Bandolier
4		Find a treasure	50 Stamina XP \$10
5		Find a treasure	50 Stamina XP \$10
6		Find a treasure	100 Stamina XP \$15
7		Find a treasure	Explorer Gun Belt
8		Find a treasure	100 Stamina XP \$15
9		Find a treasure	150 Stamina XP \$20
10		Find a treasure	Explorer Off-Hand Holster

\*See page 126 for details on treasure hunting.

### GAMBLER CHALLENGES\*

RANK	ICON	DESCRIPTION	UNLOCK/REWARD
1		Win five hands of poker	Gambler Holster
2		Win blackjack double down and win the hand five times	25 Dead Eye XP \$5
3		Win three games of five finger fillet	Gambler Bandolier
4		Bust one poker opponent out in each location (Flatneck Station, Saint Denis, Valentine)	50 Dead Eye XP \$10
5		Win three rounds of dot games with not drawing any five cards at two of fewer opponents	50 Dead Eye XP \$10
6		Beat the blackjack dealer in two locations: Rhodes and Van Horn	100 Dead Eye XP \$15
7		Beat the five finger fillet player in every location: Strawberry, Valentine, Van Horn	Gambler Gun Belt
8		Win three hands of blackjack with three fives or more	100 Dead Eye XP \$15
9		Win three games of dominoes in a row	150 Dead Eye XP \$20
10		Win three hands of poker in a row	Gambler Off-Hand Holster

\*See page 220 for details on card games.

### HERBALIST CHALLENGES\*

RANK	ICON	DESCRIPTION	UNLOCK/REWARD
1		Pick six yarrow	Herbalist Off-Hand Holster
2		Pick and eat four species of berry	25 Health XP \$5
3		Craft seven tonics using sage as an ingredient	Herbalist Gun Belt
4		Pick five mushrooms and feed them to your horse	50 Health XP \$10
5		Craft nine tonics using Indian tobacco as an ingredient	50 Health XP \$10
6		Pick 15 different species of herb	100 Health XP \$15
7		Craft and use five special miracle tonics	Herbalist Holster
8		Use almanac to craft six poison weapons	100 Health XP \$15
9		Pick one of each species of herb	150 Health XP \$20
10		Season and cook all 11 types of meat	Herbalist Bandolier

\*See page 220 for details on herb collection.

### HORSEMAN CHALLENGES

RANK	ICON	DESCRIPTION	UNLOCK/REWARD
1		Kill five rabbits from horseback	Horseman Gun Belt
2		Jump over three obstacles in 15 seconds	25 Stamina XP \$5
3		Ride from Valentine to Rhodes in less than five minutes	Horseman Holster
4		While mounted, drag a victim for 3300 feet using your lasso	50 Stamina XP \$10
5		Trample five animals while on horseback	50 Stamina XP \$10
6		Ride from Strawberry to Saint Denis in less than nine minutes without touching any water	100 Stamina XP \$15
7		Kill seven enemies from horseback without dismounting	Horseman Bandolier
8		Kill nine predators from horseback	100 Stamina XP \$15
9		Ride from Van Horn to Blackwater in less than 17 minutes without touching any water	150 Stamina XP \$20
10		Break every wild horse breed (see page 134)	Horseman Off-Hand Holster

### MASTER HUNTER CHALLENGES\*

RANK	ICON	DESCRIPTION	UNLOCK/REWARD
1		Skin three deer	Master Hunter Off-Hand Holster
2		Get three perfect-quality rabbit pelts	25 Health XP \$5
3		Track 10 different animal species using your binoculars	Master Hunter Bandolier
4		Get a clean kill after caring to an animal five times	50 Health XP \$10 Dollars
5		Skin three black or grizzly bears	50 Health XP \$10
6		Kill five cougars with your bow, then skin them	100 Health XP \$15
7		Use bait to lure and kill both a herbivore and predator	Master Hunter Gun Belt
8		Catch three fish without using a fishing rod	100 Health XP \$15
9		Catch an opossum playing possum	150 Health XP \$20
10		Find and kill the legendary panther: Garguero	Master Hunter Holster

\*See page 146 and 163 for details on hunting and fishing.

### SHARPSHOOTER CHALLENGES

RANK	ICON	DESCRIPTION	UNLOCK/REWARD
1		Kill three flying birds	Sharpshooter Bandolier
2		Kill two different animal species in the same Dead Eye use	25 Dead Eye XP \$5
3		Kill five flying birds while in a moving train	Sharpshooter Holster
4		Kill an enemy at least 80 feet away with a brown tomahawk	50 Dead Eye XP \$10
5		Kill six animals without switching or reloading your weapon	50 Dead Eye XP \$10
6		Kill someone at least 660 feet away with a long scoped rifle	100 Dead Eye XP \$15
7		Get seven headshots in a row	Sharpshooter Off-Hand Holster
8		Disarm three enemies without reloading or switching your weapon	100 Dead Eye XP \$15
9		Shoot three people's hats off in the same Dead Eye use	150 Dead Eye XP \$20
10		Kill three flying birds with three consecutive long scoped rifle shots	Sharpshooter Gun Belt

### SURVIVALIST CHALLENGES\*

RANK	ICON	DESCRIPTION	UNLOCK/REWARD
1		Catch three bluegill fish	Survivalist Gun Belt
2		Hand five animals in to camp or the trapper	25 Stamina XP \$5
3		Kill five animals using a Varmint rifle	Survivalist Off-Hand Holster
4		Craft all of the following arrow types: dynamite, fire, improved, poison, and small game	50 Stamina XP \$10
5		Catch a fish in the Bayou from a riverboat and while standing on railroad tracks	50 Stamina XP \$10
6		Kill a scavenging animal while it is feeding a corpse five times	100 Stamina XP \$15
7		Kill eight small game animals with consecutive shots using small game arrows	Survivalist Bandolier
8		Craft a flaming tomahawk, improved tomahawk, volatile dynamite, and volatile fire bottle	100 Stamina XP \$15
9		Catch a fish that weighs at least 19 lbs	150 Stamina XP \$20
10		Catch one of each type of fish thriving out the world	Survivalist Holster

\*See page 46 and 63 for details on hunting and fishing.

### WEAPONS EXPERT CHALLENGES

RANK	ICON	DESCRIPTION	UNLOCK/REWARD
1		Kill three enemies with a knife	Weapons Expert Holster
2		Kill three enemies in 10 seconds using only throwing knives	25 Health XP \$5
3		Kill three birds of prey using only a tomahawk	Weapons Expert Gun Belt
4		Kill 10 enemies with a shotgun using crafted ammo	50 Health XP \$10
5		Kill five mounted enemies, using one throwing knife per kill	50 Health XP \$10
6		Kill four enemies at the same time with a single stick of dynamite	100 Health XP \$15
7		Kill four consecutive enemies by throwing and retrieving the same tomahawk	Weapons Expert Off-Hand Holster
8		Kill 15 enemies using a long-barreled sidearm	100 Health XP \$15
9		Kill nine unaware enemies from behind, using the bow	150 Health XP \$20
10		Kill a grizzly bear without taking damage, using only throwing knives	Weapons Expert Bandolier

# LAW ENFORCEMENT

Your association with the Van der Linde gang will often necessitate your involvement in criminal activities. Every time the law is aware of one of your crimes, you become wanted and a bounty is placed on your head. In this section we offer a detailed breakdown of the various stages of this process, illustrating the consequences of your potential decisions.

## THE WANTED SYSTEM

Whenever you commit a crime, a chain of events will begin with many possible branching paths depending on how you decide to behave.

As a general rule, encounters with the law are extremely dangerous, and may very well lead you to become completely overwhelmed in just a few minutes if you opt to resist. Worse, each of your additional crimes (in this case, killing lawmen), will add to the bounty placed on your head. This can soon become very costly, making it preferable to flee in practically all situations.

Note that the maximum bounty you can reach is limited to \$300 during Chapter 2, \$500 during Chapter 3, and then \$1,500 after "Sodom? Back to Gomorrah" towards the end of the same chapter.

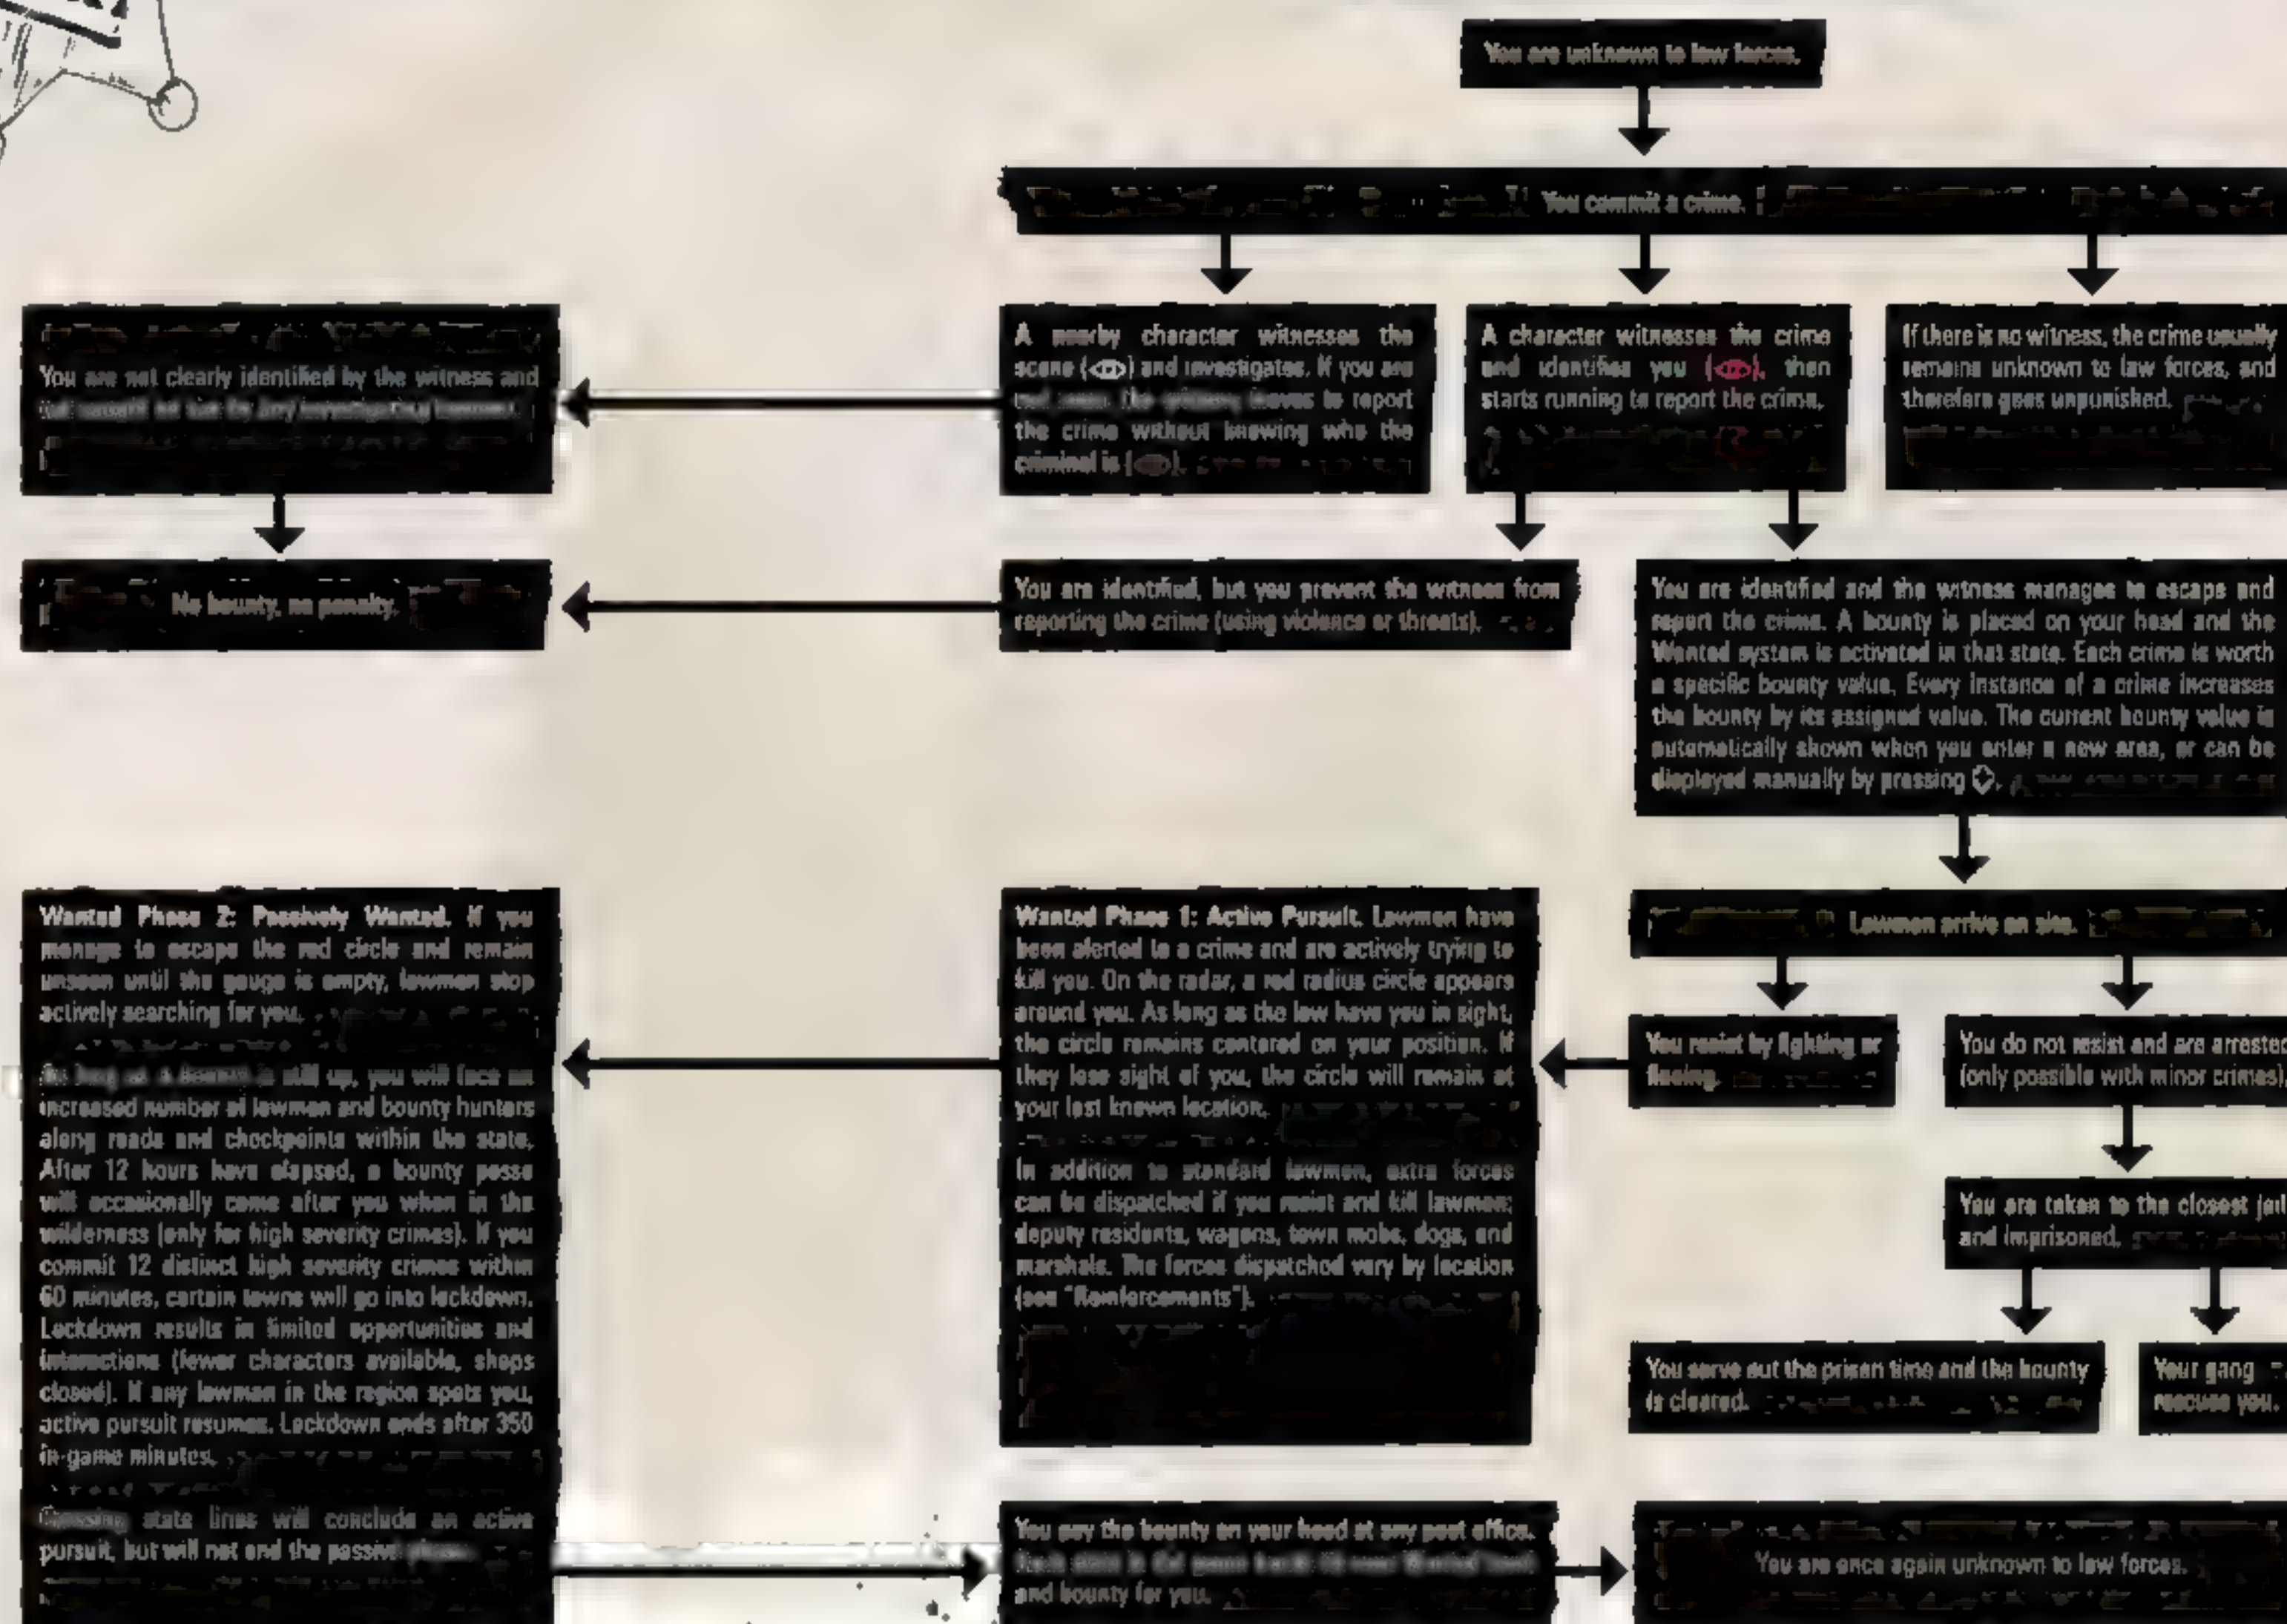

## REINFORCEMENTS

If you resist the lawmen sent after you, and start killing them, reinforcements will soon be dispatched. Should you persist, the bounty on your head will increase, and the forces sent to deal with you will become much more fierce.

- ★ **Rhodes:** Deputized citizens and town mobs appear periodically throughout all major shootouts between you and the law.
- ★ **Strawberry:** Deputized citizens and town mobs appear periodically throughout all major shootouts between you and the law.
- ★ **Valentine:** Deputized citizens and town mobs appear periodically throughout all major shootouts between you and the law.
- ★ **Cumberland Forest:** Dogs are dispatched at varying numbers per crime severity.
- ★ **Scarlett Meadows:** Dogs are dispatched at varying numbers per crime severity.
- ★ **Annesburg:** Marshals arrive on horseback after you accumulate a large bounty.
- ★ **Blackwater:** Marshals arrive on horseback after you accumulate a large bounty.
- ★ **Saint Denis:** Marshals arrive on horseback after you accumulate a large bounty.
- ★ **Tumbleweed:** Marshals arrive on horseback after you accumulate a large bounty.

## ADDITIONAL SYSTEMS

The following systems are not documented in the game by onscreen notifications, but nevertheless play an essential role

★ **Wanted Score:** This parameter increases in the same way as a bounty, but resets as soon as active pursuit ends. It represents the total crimes committed during a single continuous spree, and is used to scale the severity of the law's response

★ **Wanted Level:** There are five hidden levels of law response, each triggered when your bounty reaches a specific threshold

### WANTED LEVEL THRESHOLDS

LEVEL	BOUNTY THRESHOLD
1	\$0
2	\$50
3	\$150
4	\$250
5	\$1 000

### WANTED LEVEL & LOCKDOWN

Whenever your wanted level increases, the local population and law enforcement forces react accordingly. At the higher levels – which you are likely to reach quickly if you go on a killing spree, or should you commit 12 distinct high severity crimes within 60 minutes – the area you are currently in will go into lockdown. This turns the area map red and prevents use of local shops and restricts access to events until sufficient time has elapsed (350 in-game minutes), or you die, or your bounty is paid. During lockdown, local lawmen will also fortify the area by posting additional guards. You will immediately become wanted if seen by the law, making it very hard for you to do anything worthwhile in the vicinity

At wanted level 1 a red outline appears around the town where you were seen committing a crime, both on the main map and the radar. A red outline is also displayed around the corresponding state. You will face more dangerous reinforcements (and in greater numbers) as you progress through levels 2 and 3.

At wanted level 4 the local district enters lockdown and is shaded red if the law have positively identified you as the culprit. During lockdown, lawmen have increased detection ranges, and extra guards patrol in town.

Note that there are certain areas that are under perpetual lockdown: Fort Wallace and Sisika Penitentiary on a permanent basis, and Blackwater until you reach the epilogue. There are also situations where a lockdown will last longer than usual or cover a larger territory after you complete certain story missions (such as "The Sheep and the Goats", "Sedim? Back to Gomorrah", "Blessed are the Meek?", and "A Short Walk in Pretty Town")

## CRIME SEVERITY

Crimes are sorted into three categories – low, medium and high severity. The more severe a crime is, the higher the value added to your bounty. With low severity crimes you have the possibility to try to defuse the situation when lawmen confront you. You will then be given a chance to move along without further consequences; if you do not leave as permitted, or choose to antagonize during the interaction, the severity of the crime will be increased – and an arrest or combat will follow.

## DEATH

Whenever you die, you may have to pay a percentage of your current personal savings. Though death can happen in all sorts of ways, the most common cause is conflict with enemies – particularly the law.

If you die within an hour of the last time you were killed the percentage of money that you lose increases. This can become very costly, which is why it's important to generally avoid conflicts that you cannot win.

The one major exception to this rule is that there are no financial penalties applied when you die during missions. These costs only apply while you are roaming the world freely. Should you plan to cause any measure of chaos during your travels, it's usually wise to invest your money in purchases or upgrades before you begin.

### DEATH: FINANCIAL PENALTY

DEATH WITHIN 1 HOUR	SAVINGS LOST
1 <sup>st</sup>	5%
2 <sup>nd</sup>	7%
3 <sup>rd</sup>	10%
4 <sup>th</sup>	13%
5 <sup>th</sup>	15%
6 <sup>th</sup> and beyond	20%

Here are some examples illustrating how the percentage increase is applied only if you are killed within an hour of your previous death:

- ★ You die at minute 1, and lose 5% of your cash.
- ★ You die at minute 30 and lose 7% of your cash.
- ★ You die at minute 45 and lose 10% of your cash.
- ★ You die at minute 110 and lose 5% of your cash, as more than an hour (60 minutes) has elapsed since you were last killed.

The maximum amount of money that can be debited from your funds is capped by the following systems:

- ★ You cannot lose more than 20% of your funds, or \$150 – whichever is lower.
- ★ You pay nothing if you have \$10 or less.
- ★ Again, you pay nothing if you die during a mission.

### CRIME BOUNTY VALUES

CRIME	SEVERITY	BOUNTY
Animal Cruelty	Low (Medium for kills)	\$5
Arson	Low (in the wilderness) / Medium (in towns)	\$5
Assault	High	\$5
Bank Robbery	High	\$25
Cheating	Low	\$5
Disturbing the Peace	Low	\$5-\$10
Intimidation	Medium	\$5
Jail Break	High	\$25
Kidnapping	High	\$10 (\$15 for lawmen)
Looting	Low	\$5
Murder	High	\$15 (\$20 for lawmen)
Robbery	Medium	\$5-\$10
Rustling	Low	\$5
Theft	Low / Medium for horse theft	\$5 (\$10 for horse theft)
Train Robbery	High	\$50
Trespassing	Low	\$5
Vandalism	Low	\$5
Unarmed Assault	Low (in towns) / Medium (in the wilderness)	\$5

## SURRENDERING & FLEEING

Given how quickly conflicts with the law can escalate and lead to steep bounties (particularly in towns where reinforcements are functionally infinite), it often makes sense to avoid confrontations altogether.

One possibility after you commit a minor crime is to holster your weapon immediately and remain peaceful. Choose the "defuse" conversation option if a lawman investigates; you may just be asked to move along, which ends the incident if you comply. If your action was serious enough that lawmen point their gun at you, you will be offered the chance to surrender with . Doing so means that you will be incarcerated, but it does enable you to prevent the situation from escalating.

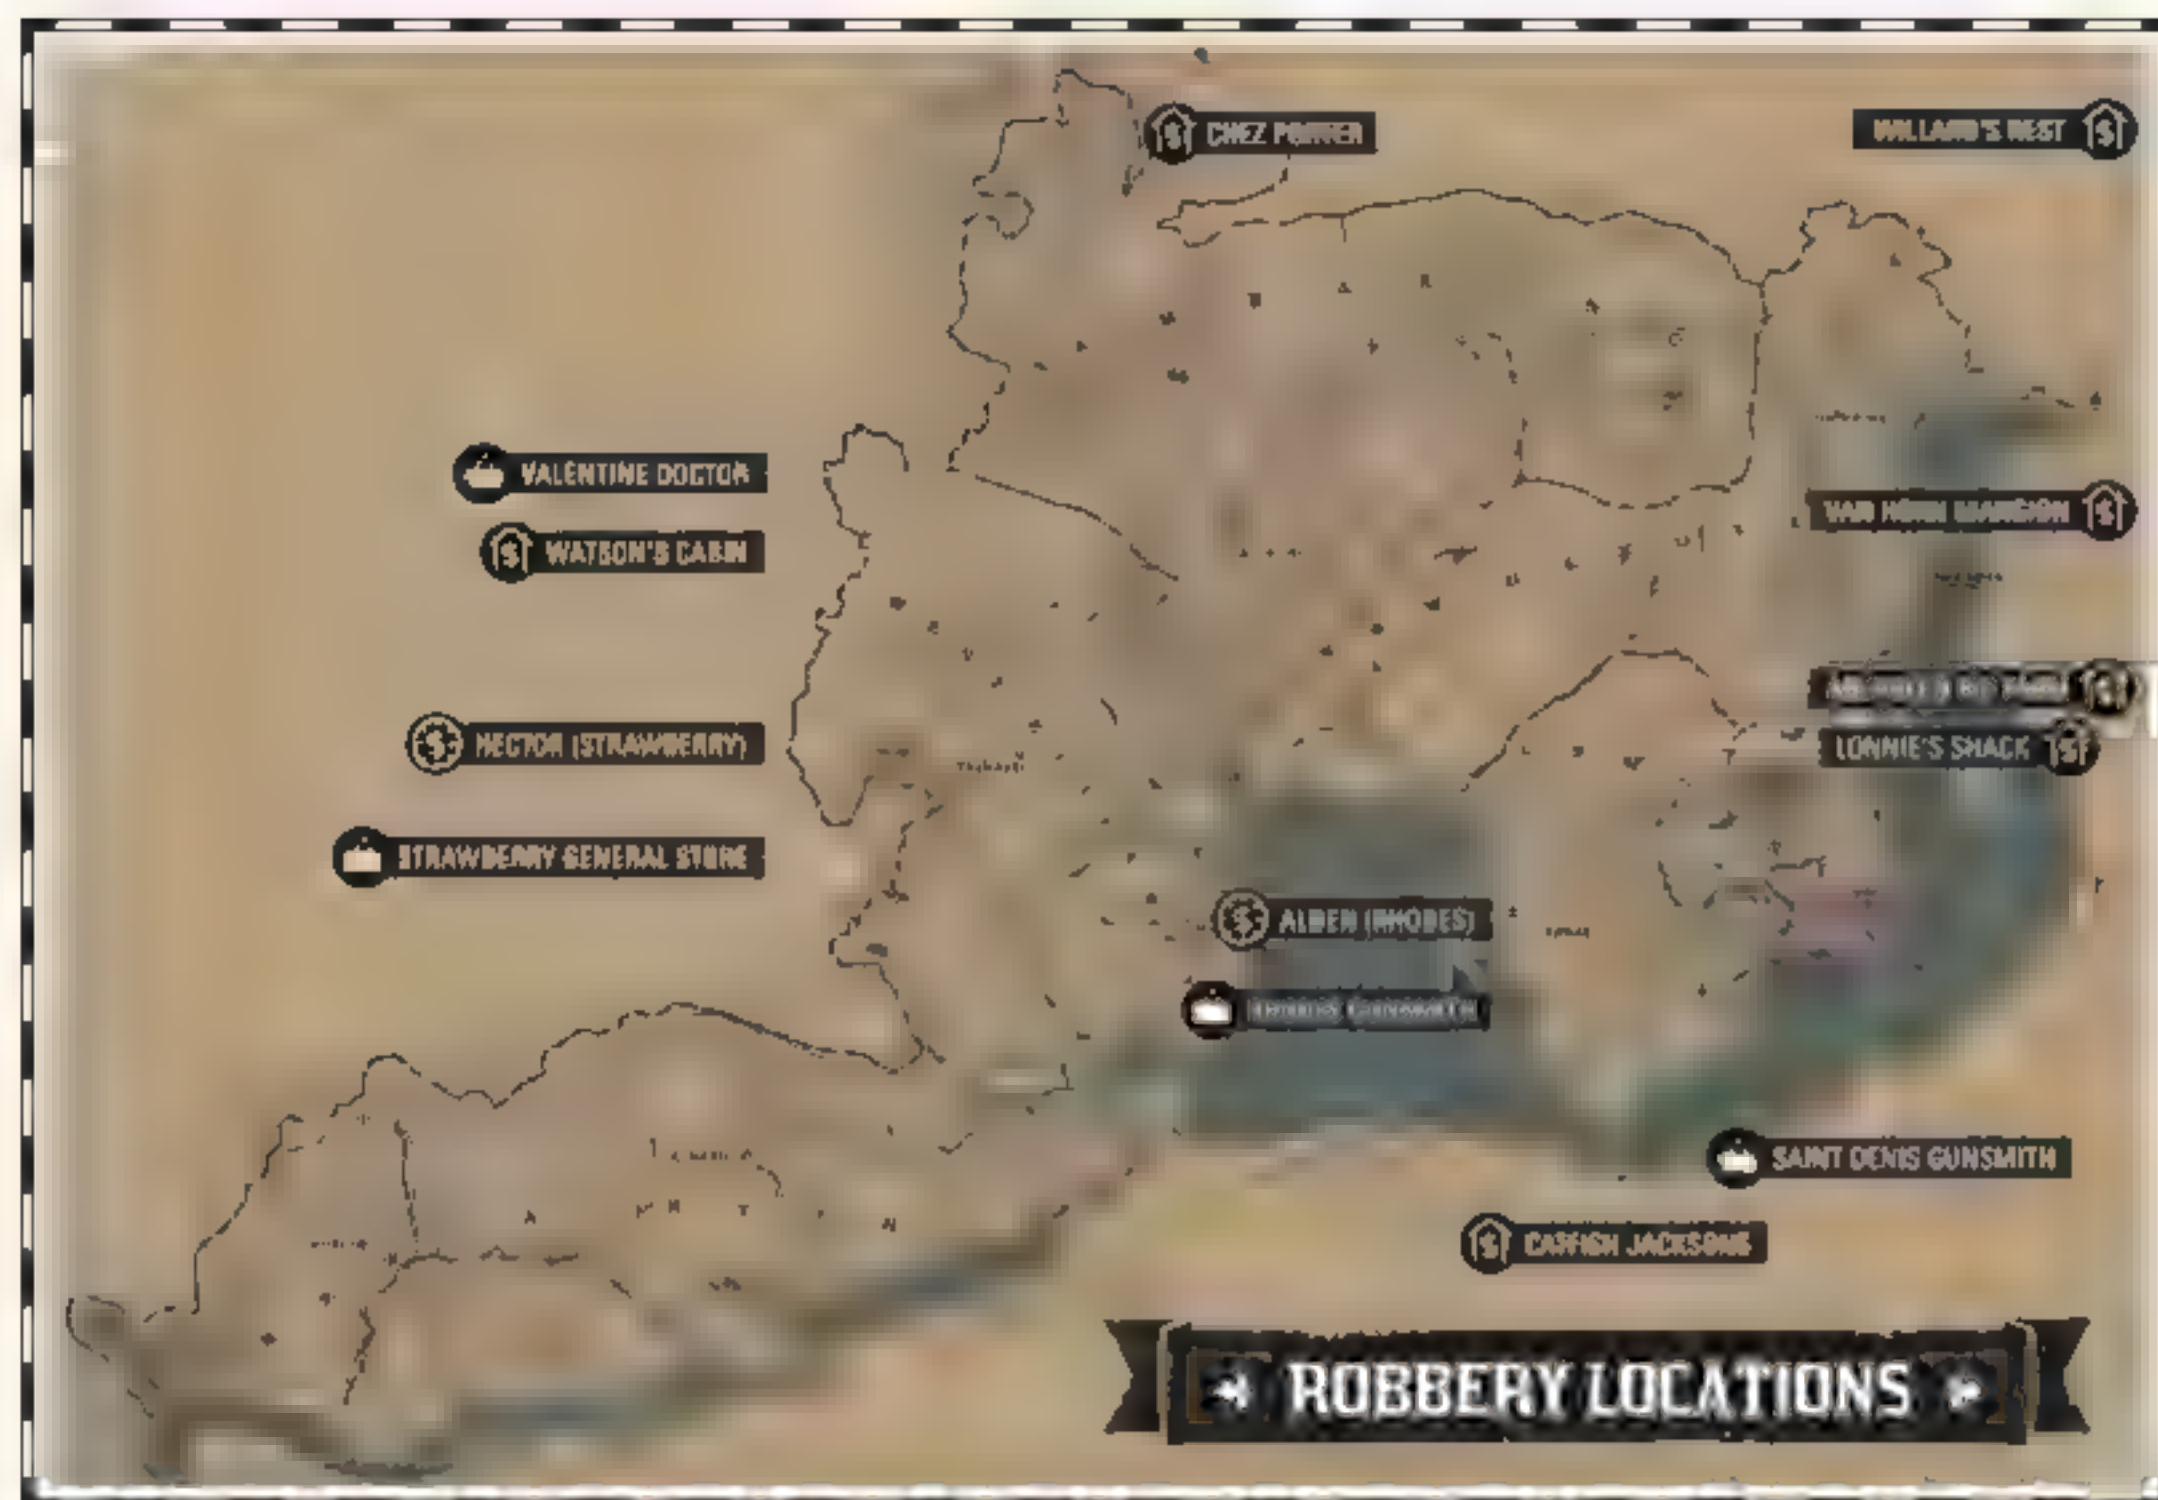

If you can't afford to be arrested, evasion is an excellent alternative. The following tips should be of some help:

- ★ Active pursuit will only last so long as your pursuers can see you. At this point, the red circle on your radar will be centered on your last known position – in other words, no longer directly on you – and lawmen will start searching that general vicinity. This makes it essential to break line of sight when you are being chased. Solid obstacles such as walls and houses are the most obvious options, but when you are in the wilderness or in areas with few buildings, you can alternatively duck into bushes to avoid detection: if you are adequately concealed, lawmen will often run straight past your hiding spot.
- ★ When you manage to leave the search area (represented by the red circle on your map), the wanted gauge on your screen will begin to drain. Once it's empty, your pursuers will give up – thereby ending the incident. If you are seen before the gauge has fully drained, on the other hand, active pursuit will resume immediately.
- ★ If the law send bloodhounds after you, these will almost always find you eventually. If you see or hear dogs tracking you, your best bet is to escape on horseback – or to kill your pursuers.
- ★ Riding through trees or underbrush, jumping fences, and crossing water are all good ways to shake mounted pursuers. Lawmen slow down when required to navigate dangerous terrain on horseback.

# ROBBERIES

## ★ COACH ROBBERIES ★

You can rob any coach you run into during your travels, though you shouldn't expect any significant profit from this at first. After you complete "The Spines of America" in Chapter 2, it can become more lucrative: from that point forward, you can take any stolen coach to the wagon fence at Emerald Ranch. Once you complete "Friends in Very Low Places" in Chapter 3, you additionally unlock six coach robbery missions.

These always consist of two steps

- ★ First, you have to obtain a tip from a post office clerk willing to sell you the information. There are two such "discouraged" workers, each leading to three different missions, for a total of six.
- ★ Second, open your satchel and read the corresponding note; this will reveal the mission details and the coach's location on your map.

**HECTOR #1 (STRAWBERRY)** After buying the tip from Hector inside the Strawberry post office, head to the ambush location to the northwest of Blackwater. Wait in the highlighted area until the stagecoach arrives. You will need to kill the four men in the vehicle itself, but you can get the two mounted guards to leave by misleading the driver: greet him while unarmed and choose the corresponding dialog option. Once they're gone, eliminate the four individuals that remain, then loot the chest at the back of the stagecoach—either with a lock breaker or by shooting the lock.

**HECTOR #2 (STRAWBERRY)**— This time, Hector points you to a railway bridge to the northeast of Strawberry. There are many ways to steal the money from the lock box at the back of the coach. An effective solution is to call out to the driver while unarmed so that he stops the vehicle, then take all the guards by surprise—starting with the driver.

**HECTOR #3 (STRAWBERRY)**— Hector now gives you a tip about an armored banking coach heading to Strawberry. You will need dynamite to complete this mission. Ride to the ambush location to the west. The driver will not stop even if you call him out. You can kill him (and all the other guards), or instead opt for a more creative approach and place a stick of dynamite on the road (E2) (A), then shoot it when the coach rolls over it. Dispatch all targets and, once the coast is clear, blow open the coach's doors.

**ALDEN #1 (RHODES)**— Speak to Alden inside the Rhodes post office and buy the tip from him. Inspect the note that appears in your satchel to reveal the ambush location, to the north of Rhodes. Wait in the highlighted area until the stagecoach arrives. It is lightly guarded, with a pair of drivers and two additional guards. To make things easier, greet the driver and mislead him; the coach will stop and a guard will inspect one of the vehicle's wheels. If you stand behind the convoy, you can now take out all four enemies with little fuss—even instantly with Dead Eye if you wish. Once they're all down, drive (carefully given your cargo) to the wagon fence at Emerald Ranch. If you happen to run into the law, be sure to leave the coach during the fight to avoid damaging it.

**ALDEN #2 (RHODES)**— Alden's tip leads you a short distance to the south of Rhodes. This coach has a single driver and one passenger. Stop it however you please. Tackle the passenger when he flees and convince him to tell you where the money is. Once he reveals that the lock box is hidden under the coach, retrieve its contents before leaving the area.

**ALDEN #3 (RHODES)** Alden's final tip takes you to a railway bridge to the north of the town. This is a convoy of two coaches with multiple guards. To stop the convoy, kill the drivers of the front vehicle, then take out the others one by one. An effective strategy here is to take up position on the bridge and equip a scoped rifle, then carefully snipe the drivers from a safe distance. This will make the battle more manageable: the mounted guards will come after you first, and you can then deal with the remaining guards when you're ready. Loot both coaches before leaving.

## ★ HOME ROBBERIES ★

All home robberies (with one exception) are available from the beginning of Chapter 2. Your primary objective is to recover a stash and then make your escape, but some of these assignments will also give you the opportunity to revisit the building on multiple occasions to continue their side stories – and potentially claim additional loot.

**ABERDEEN PIG FARM** – This house is located to the southeast of Emerald Ranch. The key prize to loot here is a collection of money clips in an unguarded but hidden lock box that you can quietly pilfer without incident (see accompanying screenshot). If you decide to ransack the entire house, though, you will need to meet its two occupants. Brute force is an option, of course – but we suggest that you allow the scenario to play out naturally. On your first visit, the couple will invite you for a meal and offer you a very strong drink. If you decline and come back at another time, the woman will ask you to taste a dish, which you can again refuse if you wish. Should you accept either offer, be sure to return to the house after the cutscene, and search behind the portrait opposite the front door before you turn your attention elsewhere.

**CATFISH JACKSONS** – This house, located directly south of Braithwaite Manor, is also visited during a loansharking mission, leading to further scenarios (see page 194). It has two occupants: a father and his son. The more valuable collectibles are found in the son's bedroom and in a chest hidden in the house's crawl space. You can also take a double-barreled shotgun from above the fireplace, and threaten the son to learn about the stash location. The events that occur here change over time. Early on, you will hear an argument from outside. If you come back at a later point, the father will be passed out on the porch while the son reads in his room. Later still, the father will be alone and aggressive. In the last instance, you can visit to witness the son following in his father's (figurative) footsteps.

**CHEZ PORTER** – This property lies to the north of Valentine, across the Dakota River. You can rob it on your own, but note that you will not be able to access its hidden stash; this is only possible if you come here with Javier as part of a companion activity (see page 182). The family living here will shoot you on sight. However, it is possible to sneak to the back of the area, particularly at night. You can then quietly take out the two individuals – one outside the barn and one inside. Afterwards, collect the valuables hidden in a chest on the barn's upper platform (accessed via a ladder). You can also find a pump-action shotgun in the main house by climbing a ladder in the master bedroom.

**LONNIE'S SHACK** – This shack is located in a clearing to the south of Emerald Station. You can visit it on your own, or with Soan as part of a companion activity during Chapter 3 (see page 183). As you move close, you will hear four men engaged in a heated discussion. If you want to avoid bloodshed, wait until they all pass out. You can then enter quietly and crouch-walk around the sleeping men. If you kill all but one of them, you can interrogate him to make him reveal a stash location where a money reward awaits. The shack additionally features various collectibles and a weapon – a double-action revolver hidden under one of the two bunk beds.

**VAN HORN MANSION** – You will find this mansion a short distance to the south of Van Horn. If you visit it at night, its two occupants will be sleeping on the lower floor. You can err on the side of caution and dispose of them first, but it's perfectly possible to loot the building quietly. There are several collectibles to pick up, as well as cash on the wooden table.

**WATSON'S CABIN** – This cabin is located to the northwest of Wallace Station. Initially, its only occupant is an elderly woman who mistakes you for someone else and allows you to enter the back rooms without complaint. Climb down the ladder to reach the cellar, where a weapon awaits. Lie down with a shotgun. On a subsequent visit you will hear the woman and her four sons arguing inside the cabin – or the sons only if she did not survive your earlier encounter. If you try to enter, they will attack you immediately. Eliminate them and you will be able to loot the entire house, including the lock box on the kitchen table. If you never kill the woman, you will find her decaying corpse in the bed during the Epilogue.

**WILLARD'S REST (CHAPTER 6)** – This house is situated near the northeast edge of the world map. You can interact with the lone occupant after you complete the "A Fork in the Road" story mission during Chapter 6. First you will need to show her how to hunt. If you come back at least two days later, you will give her a shooting lesson and get an opportunity to loot a jewelry box. On a subsequent visit at least four days later, Charlotte will invite you to help yourself to any of the collectibles available in her house. You will have a chance to do this again during the game's epilogue.

## ★ SHOP ROBBERIES ★

While you can rob shops whenever you wish, some have small stories to tell – and additional rewards for you to claim. In each instance, you first need to investigate certain clues. Once you have enough information (as revealed by an onscreen notification), you can hold up the shop owner and reveal their secret.

**RHODES GUNSMITH** – Interact with the young man through the basement window (see screenshot). After he tells you what happened to him, enter the shop and press as you hold the gunsmith up to order him to take you to the basement. Shoot the young man's chains if you wish, then loot the room. The box contains a weapon, the Lancaster repeater.

**SAINT DENIS GUNSMITH** – Inside the gunsmith store, walk to the far side of the room and knock on the security door. Return to the shop owner and press as you hold him up to make him open the door. Quietly dispose of the guard on the other side (a melee attack with a firearm will offer a quick takedown), then climb to the top floor. Open the second door to uncover an illegal poker room. Quickly coldcock the guard to make sure that no shots will be fired during the robbery, therefore preventing an unnecessary tangle with the law. There's money for you to retrieve on the table, but you can get much more by threatening the players until they reveal a safe on the nearby wall. Help yourself to the other collectibles before taking your leave.

**STRAWBERRY GENERAL STORE** – Peek through the general store's basement window to discover a secret moonshine cellar. Head upstairs and press as you hold up the shop owner to make him open the trapdoor leading to the basement. You will then need to threaten him to make him reveal the existence of a loose brick in the nearby wall by the still. Inspect it to complete the robbery – and feel free to loot the rest of the cellar on your way out.

**VALENTINE DOCTOR** – There are two different security doors that you can interact with here: one in the doctor's surgery room, and one outside at the back of the building. Knock on either door, then head back to the doctor and press as you hold him up to make him open the back room. Be ready to face a handful of enemies inside (Dead Eye can really help here), but note that this shootout will lead to an inevitable brush with the law. Before you escape, quickly take the money and the Schofield revolver in the foot box on the table. We suggest you sprint outside and flee on horseback to avoid ending up with a large bounty on your head.

## TRAIN ROBBERIES

As with coaches, you are free to rob trains that you run into during your travels — a feature unlocked after you complete the "Pouring Forth Oil" story mission during Chapter 2.

The following notes should prove useful:

You can board a train that you intend to rob in two ways. The first option is to jump on the train as you ride alongside it: press **△/X** when the corresponding prompt appears on your screen. You can then loot the train while it's still moving, but it usually makes sense to stop it first to avoid any chances of running into the law. To do so, head to the engine car and threaten or incapacitate the driver.

You can also climb aboard a train when it stops at a station — but the drawback is that this will expose you to witnesses and make it hard to remain unnoticed.

Trains are typically guarded by a handful of men that you will need to dispose of. If you throw one of these from the moving train and he doesn't die, be aware that he will likely report your

Forcing a train to stop away from populated areas is always best, as it decreases the law response should a witness report the robbery.

With a freight train, you will find a few collectibles and generally a single chest. Passenger trains tend to be more interesting, as they feature more chests, in addition to passengers that you can hold up. Threaten or beat them as required to relieve them of their valuables.

## ★ TIME-SENSITIVE ROBBERIES ★

Certain fellow gang members will offer you companion activities during the story, many of which involve robberies. Note that these are time-sensitive missions that can only be completed while the gang is based at a specific camp — in other words, during a particular game chapter. Check the accompanying table to ensure that you do not miss any of these opportunities.

### ROBBERIES OVERVIEW

AVAILABILITY	ICON	COMMISSION	ACTIVITY
Chapter 2 Horseshoe Overlook Camp		Javier	Home Robbery*
Chapter 3: Clemens Point Camp		Sean	Coach Robbery
		Bill	Coach Robbery
		Sean	Home Robbery
		Charles	Bank Robbery**
Chapter 4: Shady Belle Camp		Micah	Coach Robbery
		Lenny	Coach Robbery

\* Also available during Chapter 3

\*\* Exclusive to owners of the Special/Ultimate Edition of the game

**HOME ROBBERY: JAVIER (CHAPTER 2 OR 3)** — Talk to Javier at camp and follow him to the Chez Porter property north of Valentine. Observe the barn through your binoculars, then walk with Javier behind the shed before taking cover behind the designated rock. Once he starts a fire, shoot the men who come to investigate, then deal with the rest of the family entrenched in the cabin and in the barn. You will find your reward in the barn, in a stash hidden under a storage crate; help Javier to push the latter obstruction aside with **△/X**. Javier will leave at this point, but there are more valuables nearby. In the barn, climb the nearby ladder to find a chest full of money on the upper platform. You can then scour the cabin and main house for assorted collectibles.

**COACH ROBBERY: SEAN (CHAPTER 3)** — Speak to Sean at camp, then mount up and follow him toward Valentine. At the ambush site, equip your favorite weapon and take cover behind the designated log. When the coach is stopped by Mary-Beth, you can either wait for Sean to take the first shot, or do so yourself! Once the fight begins, eliminate all guards. The final one will try to take Mary-Beth hostage; activate Dead Eye and take him out with a headshot. Loot the coach with **△/X** then leave the area quickly.

**COACH ROBBERY: BILL (CHAPTER 3)** — Speak to Bill at camp, then ride with him to the northwest of Dowberry Creek. Things don't go according to plan when the coach arrives, leaving you with no other option than to chase it and kill the guards while on horseback. At full gallop, adjusting headshots can prove a little awkward; feel free to aim for body shots or activate Dead Eye. Alternatively, you can get a head start while Bill and Tilly are arguing, before the coach arrives, and intercept the convoy a short distance ahead to intercept the convoy. From this position, a Dead Eye burst can be enough to take down all guards at once. Once they have been dealt with, let Bill plant a stick of dynamite, then shoot it from a safe distance. Loot the coach and leave to ensure that you are not spotted close to the crime scene.

**HOME ROBBERY: SEAN (CHAPTER 3)** — Talk to Sean at camp and follow him to Lonnie's Shack, located between Rhodes and Emerald Station. Take cover behind the logs while Sean speaks to the thug at the shack's entrance; this puts you in a perfect position to eliminate all foes once the shootout begins. Make sure you leave one outlaw alive; interrogate him to learn about the stash's location, then examine the plank in the southwest corner of the house to complete the mission. Don't miss the opportunity to search both rooms before you leave; there are various collectibles to acquire, including a double-action revolver hidden under one of the bunk beds.

**BANK ROBBERY: CHARLES (CHAPTER 4)\*** — Follow Charles to the Rhodes bank. Take out the one guard silently from behind (with a bow shot, for example), then walk to Charles and unspool the wire to the marked position. After you push the plunger to trigger the detonation, climb through the opening in the wall inside the bank, force the three safes open by pressing **△/X** repeatedly. When the law arrives, sprint to your horse and flee. By riding straight to the south, you can escape the search area relatively quickly. Once the coast is clear, ride back to camp to complete the assignment.

\* Exclusive to owners of the Special/Ultimate Edition of the game

**COACH ROBBERY: MICAH (CHAPTER 4)** — Speak to Micah at camp, then ride with him until he asks you to take cover behind a tree. Wait until the coach arrives, aligning your reticle on the dynamite that Micah planted in advance. As soon as the coach rolls over the explosives, shoot them to stop the vehicle. Kill the survivors with quick headshots, then loot the coach and leave the area.

**COACH ROBBERY: LENNY (CHAPTER 4)** — You will find Lenny inside the Shady Belle mansion. Follow him to the ambush location and take up position with him behind the designated rock. A few seconds after he starts robbing the coach, several lawmen will emerge from the vehicle; feel free to start shooting as soon as you see one. A well-timed Dead Eye volley should make it easy to take them all down. Once the ill-fated robbery is over, be swift to make your escape.

# BOUNTY HUNTING

The first bounty hunter assignments are unlocked after you complete "Good, Honest, Snake Oil" — a time-sensitive mission that is available from Chapter 2 to the end of Chapter 5 ("That's Murfree Country"). These all have the same broad structure.

- ★ First you need to inspect the poster of a bounty on a notice board in a sheriff station or post office
- ★ The general location of the individual in question is then marked on your map. Head to the specified area, locate your target, and deliver him or her back to the law — dead or alive depending on the mission's

requirements. Taking them in alive is always preferable: it's a little more work (as you have to stun or lasso the outlaw, then hogtie them), but you will get to enjoy a conversation with the prisoner on the return journey.

- ★ After you turn in a bounty, don't forget to collect your reward at the desk of the lawman in charge.

Note that bounty hunter missions are temporarily unavailable when you reach Chapter 6 in the main storyline. You can resume them once you complete "Gainful Employment" toward the end of Epilogue 1.

## LINDSEY WOFFORD (DEAD OR ALIVE)

**Availability:** Complete "Good, Honest, Snake Oil" (Chapter 2)

**Walkthrough:** This poster is found inside the Saint Denis police station. Head to the highlighted area to the east of Emerald Station. Your target is located in a well-guarded fort. A major shootout begins when you approach the structure's only entrance on the north side. We suggest you take cover behind either wall by the entrance to avoid being flanked. Prioritize the Lemoyne Rider manning the turret, then dispatch all the others. Once only Wofford is left, sprint to his position in the southwest tower and coldcock him with a weapon in hand before you hogtie him and head back.

## ELLIE ANNE SWAN (ALIVE)

**Availability:** Complete "Good, Honest, Snake Oil" (Chapter 2)

**Walkthrough:** This poster is available in Valentine's sheriff station building. Head to the marked area a short distance to the east of Wallace Station. Ellie is in the middle of a discussion with her boyfriend under a rock overhang by the river. Your goal here is to capture her alive; the boyfriend is mostly irrelevant. Run straight to her with a firearm in hand and knock her out with a melee attack; you can then incapacitate her companion. Note that she will attack you with a knife if you deal with the boyfriend first, making her far more dangerous.

## JOSHUA BROWN (ALIVE)

**Availability:** Complete "Blessed are the Meek" (Chapter 2) and wait until Strawberry is no longer under lockdown.

**Walkthrough:** This poster is found in the Strawberry jail. Ride to the abandoned mine northwest of town and inspect the campfire at the entrance. After the cutscene, an automatic Dead Eye moment is triggered: hold (RT) (L2) lightly when prompted to fill up your meter, then fully to initiate the actual slow-motion effect. You can then align your reticle on Brown's right hand and fire before he can even grab his gun. Chase him as he runs away and stop him with either a tackle (RT) (L2) or your lasso.

## MARK JOHNSON (ALIVE)

**Availability:** Complete "The Joys of Civilization" (Chapter 4)

**Walkthrough:** You will find this poster in the Rhodes train station. Your bounty has set up camp in the designated area to the northeast. He will surrender immediately and ask if he can say his farewells to his family. If you accept, you will gain a nominal honor increase, but will be ambushed on the way back; if you refuse, the return journey will be less eventful. Either way, equip your lasso and hogtie him, then ride back to Rhodes. After you pass under the railway bridge, Johnson will cut himself free: capture him with your lasso and once again slow him on your horse. If you allowed him to speak with his son earlier, this is when the ambush will occur. A handful of men will attack you, feel free to either shoot or outpace them.

## ROBBIE LAIDLAW (ALIVE)

**Availability:** Complete the "Mark Johnson" bounty hunting mission and loot the Old Harry Fox shack (see page 339)

**Walkthrough:** This poster is displayed on a wall of the Rhodes train station. Head to the cabin by the road just southeast of Braithwaite Manor. You will be assaulted when you enter, allowing the bounty to escape. Equip a weapon to quickly knock out your assailant with a melee hit, then whistle your horse and ride to the highlighted area to the northwest. The bounty is hidden in a cotton field — more precisely, at the northwest edge of the highlighted zone. He will throw a fire bottle when you approach. Keep your eyes on him from this point forward, though he will also be marked on the radar until you can lasso and hogtie him, then take him back to Rhodes.

## ANTHONY FOREMAN (ALIVE)

**Availability:** Complete "Gainful Employment" (Epilogue — Part 1); only accessible if you did not kill Anthony Foreman at the end of "No, No and Thrice No" during Chapter 4

**Walkthrough:** You'll find this poster inside the Saint Denis police station. Make your way to Doyle's Tavern, a short distance to the northeast, and question the bartender. Foreman will make a break for it during the conversation: give chase immediately, first on foot and then on horseback. Once you catch up, stop him with your lasso and hogtie him as usual before taking him in.

## OTIS SKINNER (DEAD OR ALIVE)

**Availability:** Complete "Gainful Employment" (Epilogue — Part 1)

**Walkthrough:** Pick up this poster in the Blackwater police station and ride to the highlighted area, to the southwest of Manzanita Post. Make your approach from the east; this will enable you to fight the group of Skinners from the top of the large rock right by their camp. From your position, pick off your foes with headshots, making sure you don't hit the bounty if you want him alive — note that he is the only one wearing a tall hat. Be ready to deal with dogs and enemies wielding machetes should they approach you. Once it's safe to do so, sprint to your bounty. Equip a firearm, coldcock him with (RT) (L2) at close range, then hogtie him. More Skinners will arrive as backup: kill them if you have to, otherwise slow the bounty on your horse and gallop back to the Blackwater police station.

## ELIAS GREEN (DEAD OR ALIVE)

**Availability:** Complete "Gainful Employment" (Epilogue — Part 1)

**Walkthrough:** You will find this poster in the Blackwater police station. Head to the designated area just west of Beecher's Hope. Investigate the smelter camp in Eggle Eye mode to reveal tracks, locking them with (RT) (L2) reveals a new highlighted area deeper into Skinner territory to the southwest. Several Skinners are gathered there with your bounty. Approach quietly and you can secure a free kill. To open hostilities, either Elias himself (he wears a bearskin hat) if you want him dead, or one of his accomplices. If you intend to capture him alive, dispatch the Skinners with quick headshots (optimally via Dead Eye). Elias will immediately sprint to his horse in an attempt to escape. If you are efficient in dealing with the others, you can rush over and knock him out before he can mount up.

## JOAQUIN ARROYO (ALIVE)

**Availability:** After completing "Gainful Employment" (Epilogue 1) and witnessing the "Del Lobo Execution" chance encounter in Tumbleweed (see page 226)

**Walkthrough:** This poster is found in the Tumbleweed jail. Head to the barn directly southwest of Benedict Point. As you get close, you can eavesdrop on a conversation where two Del Lobos discuss if they should murder a terrified young man. Kill them and question their would-be victim to learn about an imminent train robbery. Gallop to the waypoint to the west, where you will find another three Del Lobos by the railroad. Joaquin Arroyo is the one wearing a red shirt, so do not shoot him if you plan on keeping him alive. Instead, stay on horseback and dispatch the other two with quick headshots, then chase and capture Arroyo as he flees.

## ESTEBAN CORTEZ (DEAD OR ALIVE)

**Availability:** After completing "Gainful Employment" (Epilogue 1) and witnessing the "Del Lobo Execution" chance encounter in Tumbleweed (see page 226)

**Walkthrough:** This poster is found in the Tumbleweed jail. It leads you to a mine southwest of Tumbleweed, where you will find members of the Del Lobo gang snatching sticks of dynamite in midair. Use the commotion to take them by surprise. Once the coast is clear, enter the mine and dispatch the guards. Your target awaits at the end of the tunnel. Sprint to him and punch him with a firearm in hand to knock him out instantly. You can then hogtie him. As you exit the mine, three Del Lobos will attack you from above; turn around and take them out with quick headshots with your best sidearm before you take Cortez back to Tumbleweed.

# STRANGER MISSIONS

This section details unlock conditions and offers walkthroughs for stranger missions - optional assignments that involve colorful characters. All of these individuals are initially identified as "strangers" and marked with (?) when you first approach their locations - it's only after you interact with them that their names are revealed.

Note that certain time-sensitive stranger missions are covered in the chapter of this guide dedicated to story missions. These are:

- ★ "We Loved Once and True" (see page 48)
- ★ "Brothers and Sisters, One and All" (see page 76)

- ★ "Help a Brother Out" (see page 76)
- ★ "Fatherhood and Other Dreams" (see page 77)
- ★ "Do Not Seek Absolution" (see page 99)
- ★ "Of Men and Angels" (see page 100)
- ★ "The Course of True Love" (see page 100)

Some endeavors that technically qualify as (or begin with) stranger missions are so substantial that they are covered in their own dedicated sections later in this chapter.

**ARCADIA FOR AMATEURS - I TO V**

**Availability:** Chapter 2 onward

**Walkthrough:** You can meet this stranger, Albert Mason, by the river just southeast of Strawberry (I). After your first conversation, head to the highlighted area. The coyote that stole Mason's bag will run to the west, between two shrubs. Hit it with any weapon, then retrieve the bag and deliver it back to the photographer. Two in-game days later, Mason can be found to the northwest of Wallace Station (II). When the wolves attack, take them out in any manner you see fit. Brief bursts of Dead Eye can be useful here. Your next encounter occurs a short distance to the north of Emerald Ranch, after at least 48 in-game hours have elapsed (III). After your conversation, mount up, ride to the wild horses to the northwest, and herd them back toward the waypoint. Albert Mason appears for the fourth time on the east side of the Lagras swamps, again at least 48 in-game hours later (IV). Once in the boat, your goal is to row to the three highlighted areas in turn. At the westernmost highlighted area, Mason will ask you to jump off the boat and lure the alligator. For the final, cutscene-only encounter, Mason is found at a beautiful viewpoint just north of Horseshoe Overlook (V) a minimum of two in-game days after the previous stage.

**THE SMELL OF THE GREASE PAINT - I & II**

**Availability:** Chapter 2 onward

**Walkthrough:** Miss Marjorie, the stranger who will give you this mission, is engaged in an argument with her friend Bertram inside the Van Horn saloon (I). When the opening cutscene ends, defeat Bertram in a fist fight. Block each of his attacks and follow up with extended counters to make short work of him. Afterwards, head to the highlighted area to the southwest of Van Horn to find Magnifico camping in the woods (II). As soon as he escapes, chase after him until you reach the river. If you lose sight of him due to the smoke, consult your radar. Cross the river and search the three colored smoke clouds then resume the chase. When he disappears again, look for him in the nearby tree. Run after him one last time, following the blips on your radar, until a cutscene is triggered. If you head to the Saint Denis theatre after this, you will have a chance to watch a live performance of Miss Marjorie and her troupe. After the show, speak to the ticket taker to receive a letter from Miss Marjorie and the cut of the proceeds you were promised.

**OH, BROTHER - I TO III**

**Availability:** Chapter 4 onward

**Walkthrough:** Approach the two brothers arguing outside Valentine's general store (I). After the cutscene, shoot the bottles above their heads, triggering Dead Eye to ensure that you don't accidentally kill them. On a subsequent visit to Valentine at least 24 in-game hours later, you can meet Proetus and Acrisius again in the backyard of the saloon (II). This time they will ask you to punch them. A further 24 in-game hours later, at your earliest convenience thereafter, the twins take on their ultimate challenge at Cumberland Falls, to the west of Valentine (III). Push the barrels, then get on your horse and ride with Helen to the highlighted area downstream.

**FUNDRAISER**

**Availability:** From the beginning of Chapter 2 to the end of Chapter 6

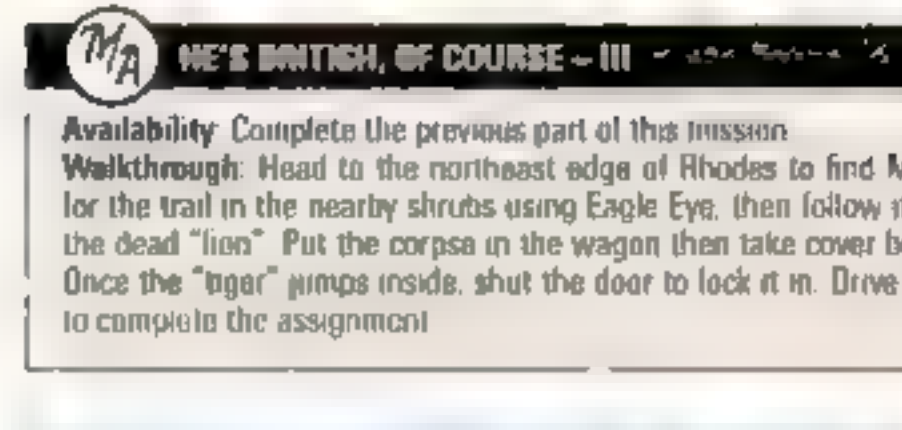

**Walkthrough:** Head to the northwest part of Saint Denis, close to the tailor, to find a lady raising money for the construction of a building for veterans and their families. Donating the \$20 she asks for leads to a small honor gain. If you choose to loot the lock box instead, you will receive a few dollars - but lose a large amount of honor and be chased by the law. Either way, the proposed structure will actually be built by the time you begin the game's epilogue.

**HE'S BRITISH, OF COURSE - I & II**

**Availability:** Complete "The New South" (Chapter 3)

**Walkthrough:** This stranger is encountered between Emerald Station and Rhodes, sitting on an overturned circus caravan. After your conversation, head to the highlighted area to the southwest of Emerald Station, where you will find the "zebra." Walk to it and aim it or capture him with your lasso, before riding back to Margaret.

**HE'S BRITISH, OF COURSE - III**

**Availability:** Complete the previous part of this mission

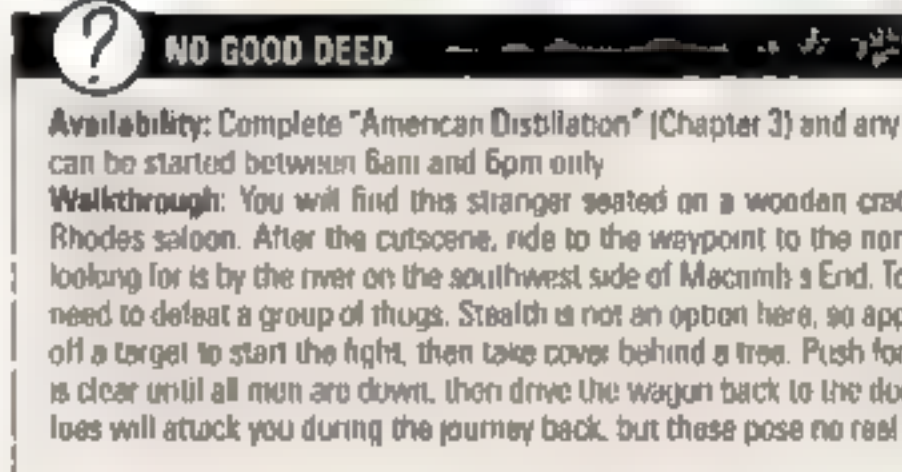

**Walkthrough:** Head to the northeast edge of Rhodes to find Margaret's assistant. Look for the trail in the nearby shrubs using Eagle Eye, then follow it northward until you find the dead "lion." Put the corpse in the wagon then take cover behind the designated log. Once the "tiger" jumps inside, shut the door to lock it in. Drive back to Margaret's camp to complete the assignment.

**HE'S BRITISH, OF COURSE - IV & V**

**Availability:** Complete the previous part of this mission

**Walkthrough:** Margaret's final missing animal is located at Emerald Ranch, inside the barn. Follow its trail, then head back outside and run to the stalls just north of the barn. Tag the beast's head multiple times during the automatic Dead Eye moment, then fire to take it out. Don't forget to collect your trophy (a lion's paw) before you return to Margaret's camp to end the mission and receive an emerald.

**NO GOOD DEED**

**Availability:** Complete "American Distillation" (Chapter 3) and any two other story missions can be started between 6am and 6pm only

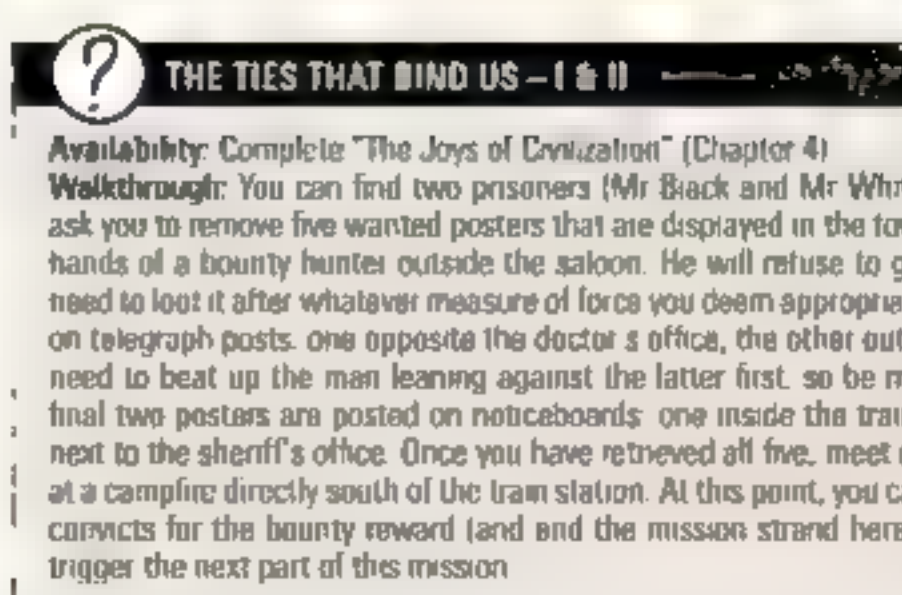

**Walkthrough:** You will find this stranger seated on a wooden crate to the northeast of the Rhodes saloon. After the cutscene, ride to the waypoint to the northeast. The wagon you're looking for is by the river on the southwest side of Macam's End. To reach it, though, you will need to defeat a group of thugs. Stealth is not an option here, so approach from the front, pick off a target to start the fight, then take cover behind a tree. Push forward whenever the coast is clear until all men are down, then drive the wagon back to the doctor. A couple of mounted lues will attack you during the journey back, but these pose no real danger.

**THE INIQUITIES OF HISTORY**

**Availability:** Complete "An Honest Mistake" (Chapter 3)

**Walkthrough:** This stranger, Jeremiah Compson, lies on a bench outside the train station in Rhodes. After speaking to him, make your way to his old house to the north. Enter it via the back door and start looking for Compson's belongings. The first one, the antique pocket watch, rests on the fireplace in the living room. There are also four letters that you can collect to learn a little more about Jeremiah. Next, head to the second fireplace: when you examine the photo on it, two thugs armed with knives will appear. You can fight fair and square, alternating between blocks and counters, or draw a weapon to take them down with instant headshots. After the fight, pick up Compson's broken pistol and walk to the trap door in the parquet floor. Open it and head downstairs to find a secret basement, where the ledger awaits (along with a diary). Once you have all three items, speak to Jeremiah at the waypoint. Note that you will gain honor if you kill him after confronting him.

**THE TIES THAT BIND US - I & II**

**Availability:** Complete "The Joys of Civilization" (Chapter 4)

**Walkthrough:** You can find two prisoners (Mr. Black and Mr. White) outside Rhodes. They ask you to remove five wanted posters that are displayed in the town. One of them is in the hands of a bounty hunter outside the saloon. He will refuse to give it to you, so you will need to loot it after whatever measure of force you deem appropriate. Two posters are found on telegraph posts, one opposite the doctor's office, the other outside the gunsmith. You'll need to beat up the man leaning against the latter first, so be mindful of witnesses. The final two posters are posted on noticeboards: one inside the train station, the other right next to the sheriff's office. Once you have retrieved all five, meet up with the two fugitives at a campfire directly south of the train station. At this point, you can either capture the two convicts for the bounty reward (and end the mission strand here), or burn the posters to trigger the next part of this mission.

## THE TIES THAT BIND US - III TO V

**Availability:** Complete the previous part of this mission, choosing to burn the posters, and wait at least 24 in-game hours.

**Walkthrough:** The two fugitives have now set up camp by Dewberry Creek, to the north of Rhodes. They are both sick and ask for a health cure. If you decide to help, feel free to give them the item immediately, if you don't have one to hand, it can be crafted or purchased from any doctor. Doing so unlocks a final potential encounter with Mr Black and Mr White at least one in-game day later. This occurs in the wilderness, to the northwest of Strawberry. Head toward the raised wooden cabin to witness their bickering one last time.

## THE ARTIST'S WAY - I TO IV

**Availability:** Complete "The Joys of Civilization" (Chapter 4).

**Walkthrough:** The stranger behind this mission strand is found at Doyle's Tavern in Saint Denis. One in-game day after this first encounter, you can meet Charles Châtenay again - this time in a precarious situation in a back alley at the heart of the city. Deal with the man pointing a gun at Châtenay to save him. Another 24 in-game hours later, pay him a visit at the nearby art gallery between 6am and 6pm. Assist him during the brawl, then wait with him. Finally, 48 in-game hours later, you will find him disguised as a woman close to the goshenith, where he will need you to escort him to the docks. Just as you reach his ship, a few men will attack. Punch them with a firearm equipped to knock them out instantly. After two in-game days, you will receive a letter from Charles; he informs you that the drawing he gave you during the opening cutscene is now worth much more. Feel free to sell it at a fence if you need money.

## A BRIGHT BOUNCING BOY - I

**Availability:** Complete "The Joys of Civilization" (Chapter 4); between 6am and 6pm only.

**Walkthrough:** This stranger, Marko Dragic, is found in the park in the southwest of Saint Denis during the day. After the cutscene, you gain control of a boat on the lake. Using broadly the same commands as when riding a horse, your goal is to destroy stationary warships while avoiding or blowing up the mines on the way. The latter hazards will home in on you if you get close, so maintain a safe distance at all times. Return the boat to the dock when you're done, then repeat the same task - this time on moving sailboats. Wait in your starting position to stay clear of the mines and let the sailboats come to you, taking their speed into account when you fire.

## A BRIGHT BOUNCING BOY - II

**Availability:** 24 in-game hours after you complete the previous part of this mission, only available if there is an active thunderstorm.

**Walkthrough:** Visit Marko Dragic at Doverhill between 10pm and 5am, in the far northeast corner of the world map. He needs you to place lightning conductors in electrostatic fields. To find them, you have a detector that you can aim by holding. The coil flashes more rapidly as you approach an appropriate position. Head to the highlighted area right in front of your starting point and use the device to locate the first field. Press to place a conductor. Repeat this with the next two: the second is up the hill directly northwest of where you placed the first detector, and the third then lies to the east. Return to the lab once all three conductors are in position. Next, you need to climb the tower opposite the lab entrance using the long ladder by the central pillar. Inspect the switching array and operate the switches as follows: first the two side switches in either order, and then the middle switch. Return to the lab when you're done. On a subsequent visit to the lab, at least 48 in-game hours later, you will have a chance to acquire the electric lantern and find out what happened to Marko in the meantime. This leads to the appearance of a special character that we cover on page 234.

## THE MERCIES OF KNOWLEDGE - I TO IV

**Availability:** Complete "The Joys of Civilization" (Chapter 4).

**Walkthrough:** This stranger is a professor located in the Saint Denis slums in the northeast of the city. After the cutscene, head to the Rhodes train station between 6am and 6pm and ask Alden, the clerk, about the moonshine. Read the note in your satchel, then make your way to the ambush site at the three-way junction in Bluewater Marsh, north of Saint Denis. This is a fairly routine coach robbery: call out to the driver to make him stop the wagon, then move to a position where you have a good angle on the guards and take them all out in rapid succession. As you drive the wagon back to Professor Bell, be mindful that your cargo is fragile: you need to move slowly and carefully to avoid bumps. After the cutscene, ride to the police station and talk to the chief behind the counter. In exchange for the permit required by the professor, he demands a payment of \$100. If you negotiate, you can haggle this down to \$50 (asking aggressively has the opposite effect, bumping up the price to \$150). Pay him, then return to Bell.

## THE MERCIES OF KNOWLEDGE - V TO VII

**Availability:** Complete the previous part of this mission.

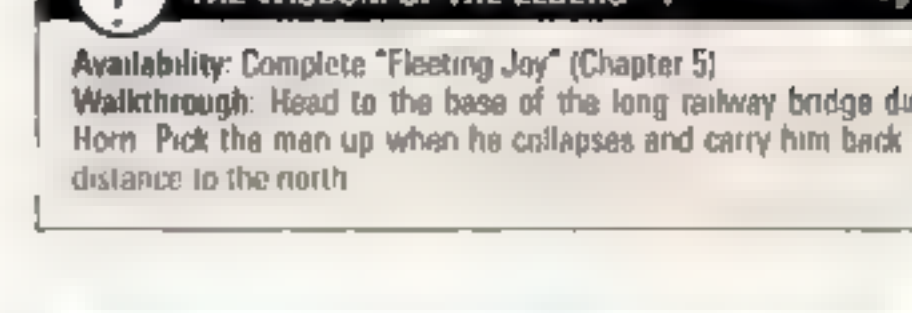

**Walkthrough:** The professor, still in the Saint Denis slums, now asks you to capture a subject for his experiment - a bounty by the name of McDaniels. Read the poster in your satchel to reveal the whereabouts of your target, who is found to the northwest of Emerald Station. The man has set up camp with multiple companions just north of the railway. Stealth is not an option here, and the bounty will attempt to escape soon after you are detected. It therefore makes sense for you to remain on your horse the whole time. Dispatch a few enemies, then chase your target as soon as he flows. You must capture him alive, so lasso and hogtie him, then take him back to the professor in Saint Denis, being ready for a potential ambush on the way. The finale of this mission takes place in front of the gallows in the center of Saint Denis, at least 24 in-game hours after the previous step. Loot the body of the professor before you leave to obtain the electric chair blueprint.

## THE WISDOM OF THE ELDERS - I

**Availability:** Complete "Fleeting Joy" (Chapter 5).

**Walkthrough:** Head to the base of the long railway bridge directly to the west of Van Horn. Pick the man up when he collapses and carry him back to Butcher Creek, a short distance to the north.

## THE WISDOM OF THE ELDERS - II

**Availability:** 24 in-game hours after you complete the previous part of this mission, between 12am and 7am only.

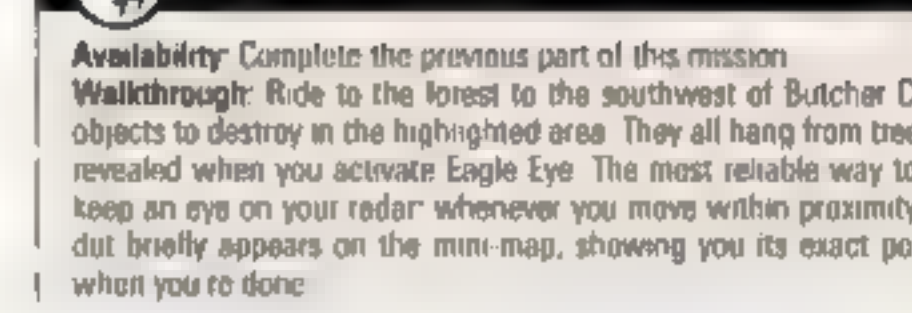

**Walkthrough:** Head to the highlighted area behind the house and kill the mangy dogs that attack you. Note that melee attacks followed by hip shots work well to repel them if they get too close. A second highlighted zone now appears by the bridge: run there and save the villager, then assist a second individual that runs across the bridge. Afterwards, escort them both back to their building.

## THE WISDOM OF THE ELDERS - III

**Availability:** Complete the previous part of this mission.

**Walkthrough:** Ride to the forest to the southwest of Butcher Creek. You have 13 cursed objects to destroy in the highlighted area. They all hang from trees, with their wind chimes revealed when you activate Eagle Eye. The most reliable way to spot them, though, is to keep an eye on your radar: whenever you move within proximity of a cursed object, a red dot briefly appears on the mini-map, showing you its exact position. Return to Obediah when you're done.

## THE WISDOM OF THE ELDERS - IV

**Availability:** Complete the previous part of this mission.

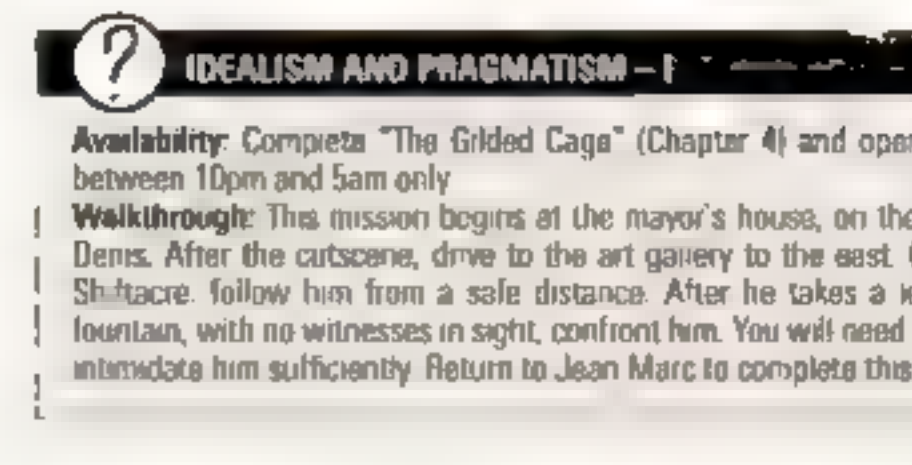

**Walkthrough:** Ride to the mine to the northwest of Butcher Creek. Tap repeatedly to remove a plank from the entrance, then walk inside. After the explosion, head through the opening on your left. You will soon notice that the tunnels take a gradual toll on your health meter. This serves as a time constraint, but you should still stop and loot the bodies on the way - some of them are holding valuables. Keep advancing through the network of tunnels until you reach the exit. A cutscene is triggered as you return to Butcher Creek. When it ends, collect the bill stacks and the letter on the nearby table before you leave.

## IDEALISM AND PRAGMATISM - I

**Availability:** Complete "The Gilded Cage" (Chapter 4) and open Mayor Lemieux's letter between 10pm and 5am only.

**Walkthrough:** This mission begins at the mayor's house, on the northwest edge of Saint Denis. After the cutscene, drive to the art gallery to the east. Once you reach Professor Shiltacre, follow him from a safe distance. After he takes a left and walks toward the fountain, with no witnesses in sight, confront him. You will need to beat him a few times to intimidate him sufficiently. Return to Jean Marc to complete this assignment.

## IDEALISM AND PRAGMATISM - II

**Availability:** Complete the previous part of this mission and open Mayor Lemieux's second letter, available between 10pm and 5am only.

**Walkthrough:** After visiting the mayor's house, head to the highlighted area to the north of Saint Denis. When the red coach arrives, trot alongside it and press **△/X** to jump on board. Follow the onscreen prompts to intimidate Hector fellows.

## IDEALISM AND PRAGMATISM - III

**Availability:** Complete the previous part of this mission, visit the mayor's house between 10pm and 5am.

**Walkthrough:** Your target this time is Jean Marc, the man that accompanied you during your earlier "meeting" with Professor Shiftacre. Head to Rue de Zacharie, a couple of blocks to the south, and confront Jean Marc as he's about to enter his house. You now need to carry him back to the mayor's house without being detected. To do so, walk through the park right in front of you, use the exit on the northeast side, then head west followed by north to reach your destination. After following Lemieux to the back of his property, you have a choice to make between killing Jean Marc (in which case you'll need to drop his body in the water) or letting him go (which leads to an honor gain). If you opt to kill Jean Marc, you will lose a title honor but enjoy a permanent 10% discount in all shops in Saint Denis.

## THE VETERAN - I

**Availability:** Chapter 5 onward.

**Walkthrough:** You will find this stranger seated against a rock by O'Creagh's Run, to the west of Annesburg. After your conversation, run toward the highlighted area to the east. You will soon see the man's horse, Buell, by the lake. Walk to him while holding **△/X** and press **△/X** as prompted to calm and pat him. Once he has accepted you, lead him back to the woman - who then introduces himself as Hamish Sinclair.

## THE VETERAN - II

**Availability:** 24 in-game hours after you complete the previous part of this mission between 6am and 6pm only.

**Walkthrough:** Visit Hamish Sinclair at his cabin. Once inside the boat, row to the highlighted area, then equip your rod with the special lake lure and start fishing. When your companion falls in the water, press **△/X** to grab the oars and row to him. Row to the fishing spot and set up again. This time the legendary northern pike will bite - and give you a serious challenge. To succeed, we strongly suggest that you employ our advanced reeling technique. In short, the idea is to boost the efficiency of your reeling sessions by regularly tiding **L** downward to pull the rod up - see page 165 for details.

## THE VETERAN - III

**Availability:** 24 in-game hours after you complete the previous part of this mission between 6am and 6pm only.

**Walkthrough:** If you pay Hamish Sinclair another visit at his cabin, you will soon find yourself on the trail of a wolf. When Hamish asks you if you want to track the animal yourself, feel free to accept his offer. Eagle Eye enables you to follow the trail at your own pace. When you approach a wolf at the end of the path, be ready for an ambush in which an entire pack will attack you. They move fast and can reach you within a split second should one manage to hit you, unleash a swift melee blow followed by a volley of hip shots. Be ready for an automatic Dead Eye moment when the leader of the pack rushes toward you.

## THE VETERAN - IV

**Availability:** 24 in-game hours after you complete the previous part of this mission, between 6am and 6pm only.

**Walkthrough:** You can visit Hamish Sinclair one last time at his cabin. After the cutscene go after the legendary bear until its trail leads you back to Hamish. Mount up and inspect the marked dead wolf at the top of the nearby hill. When you hear gunshots, gallop to the highlighted area until you find Hamish again. During the automatic Dead Eye moment, tag the bear's head multiple times to take it out instantly. Don't forget to hold **△/X** when close to it to take a trophy from the animal. You can also claim Hamish's horse at this point if you wish, or at least take him to a stable to keep him safe.

## THE AMERICAN INFERNO, BURNT OUT - I TO V

**Availability:** Complete "The Landowning Classes" (Episode 1).

**Walkthrough:** This stranger can be found atop a rocky promontory to the southwest of Strawberry (1) between 6am and 6pm. Evelyn Miller invites you to visit him 24 in-game hours later. His cabin is located at Tanner's Reach, straight west from Manzanita Post (1). Follow him on horseback, freeing the trapped animal on the way. When you reach the hunter camp, be ready for a short battle. You can either knock your opponents out with a weapon in hand, or kill them outright. On a subsequent visit at least 24 in-game hours later (2), you will find Miller so busy that he doesn't even take the time to eat. Leave him food at his door if you have any, buy, hunt or cook some otherwise. You will need to repeat this on a return visit another day later (3). Return one last time, at least 48 in-game hours afterwards, to bring this story to a close (4). Pick up the platinum pocket watch on his desk before you set the curtain on fire in accordance with Miller's instructions.

## AMERICAN DREAMS

**Availability:** Complete all three "Murder Scene" chance encounters (see page 223), between 10pm and 5am only.

**Walkthrough:** Once you've assembled the pieced-together map by completing the three "Murder Scene" chance encounters, you can open the basement doors shown in this picture - found at Lucky's Cabin, a short distance to the southwest of Valentine. Inside, you will find a couple of collectibles and, more importantly, a knife to inspect. After the cutscene, press **△/X** to briefly stun your assailant, then knock him out with a barrage of punches. Hogtie him and take him to the waypoint in Valentine. When the murderer assaults the sheriff, activate Dead Eye and shoot the criminal in the head. You will be thanked for this with a bill fold. Should you fail to intervene in a meaningful fashion, the sheriff will eventually overpower and kill his assailant - but you will not receive a reward.

## A FINE NIGHT FOR IT

**Availability:** Complete one of the "Torch Procession", "Stalking Shadows", "Spooked Horse", or "Voice" chance encounters (see page 223); mission available between 10pm and 5am only.

**Walkthrough:** After completing any of the chance encounters listed above, head to this stranger at night time - he has set up camp in the Bayou, just northwest of Lagras. Listen to his story and agree to help him. Follow him until you reach his property. A handful of Folk occupy the area: take the first one by surprise, then pick off the others as they sprint in your direction with instant headshots. After you enter the house, reinforcements arrive. Take cover behind the railing and dispatch them one by one, prioritizing those who wield machetes - these can potentially kill you with a single blow.

# GUNSLINGERS

This mission strand can be started from Chapter 2 onward by talking to Theodore Levin, the "stranger" sitting at the bar in Keane's Saloon, on the east side of Valentine. He gives you four photos, as well as a camera. This triggers the multi-step assignment called "The Noblest of Men, and a Woman".

## THE NOBLEST OF MEN, AND A WOMAN – I & II

The first four assignments each follow the same structure:

- ★ First, open your satchel and examine one of the photos that Levin gave you. Press **X** / **A** as you hold it to flip it and read the text on the back. This officially triggers the related gunslinger mission.
- ★ Head to the waypoint that appears on your map and complete the required steps, as described in our walkthroughs in this section.
- ★ Every time you are done with a gunslinger, be sure to collect their weapon from the ground (with one exception, as detailed in the appropriate walkthrough). These firearms have unique stylings – and this is your first and only chance to obtain them. If you leave and come back later, they will be gone.
- ★ Before you leave, take a picture of each gunslinger. You need a close-up view of the entire body for the shot to qualify.

### EMMET GRANGER

After reading the text on the back of Emmet Granger's photo, head to the small homestead in the highlighted area, directly east of Flatneck Station, and speak to the man. When asked to clear the hog pen, pick up the pitchfork. Press **Y** / **X** near manure to scoop it, then drop it off in the wheelbarrow. After the cutscene, place dynamite on the machine store by holding **R2** / **LB**. The events that follow lead to an inevitable duel, and you have no other choice than to kill Emmet. Disarming him is not an option, and he is extremely aggressive. As soon as the duel begins, hold **R2** / **LB** lightly when prompted to fill up your meter, then press fully to trigger the actual slow-motion effect; this leaves you ample time to adjust a clean headshot. Once Emmet is down, collect his weapon. You can then equip your camera from the item wheel and take a picture of his body.

### BILLY MIDNIGHT

Visit the Rhodes train station and speak to the clerk at the ticket booth: hold **R2** / **LB** and press **X** / **A** to inquire about Billy Midnight. Hop aboard the train that pulls into the station, then head to the bar car to find the gunslinger. After you speak to him, give chase until you both end up atop a carriage. A duel ensues and soon again you need to fill your meter first (hold **R2** / **LB** lightly) then trigger Dead Eye (press firmly) and fire. Midnight will crouch as he prepares to aim low. His death is unavoidable; even if you disarm him, he will take his own life with another gun, or die to a second shot to his hand. Take a picture of his body and claim his pistol before you leave.

## THE NOBLEST OF MEN, AND A WOMAN – III TO IV

Once you have the pictures of all four gunslingers and complete the Chapter 4 story mission called "A Fine Night of Debauchery", this next step is unlocked. Return to the old saloon in Valentine and ask the bartender about Calloway. He tells you where to find Levin and Calloway: on the Grand Korrigan riverboat in Saint Denis. Speak to the guard at the entrance on arrival to trigger a cutscene where you learn about your next target: Black Belle.

### FLACO HERNANDEZ

Flaco Hernandez is hiding out near Flat Iron, a small homestead to the southeast of Cattle (where your camp is based during Chapter 1). His camp is guarded by a few men. Thwart them, and they will let you through, or dispatch them if you prefer. Flaco himself is inside the shack: call him out with your weapons holstered to make him step outside. A duel ensues: fill your meter by holding **R2** / **LB** lightly, then fully to trigger Dead Eye. You should ideally aim to kill the gunslinger with a headshot; if you disarm him, he will pull out a second weapon and attack again. Grab the revolver and take a suitable picture of his corpse before you depart.

### BLACK BELLE

Black Belle is found in a small cabin at Bluewater Marsh, directly north of Saint Denis. After your meet with her, bounty hunters arrive. Press **Y** / **X** to detonate the explosives when given (warning you to, then firing her to eliminate the various waves of reinforcements. As soon as the wagon-mounted Gatling gun enters the fray, be quick to pick off the individual manning it. More foes will continue to pour in from all directions. Take them all out, prioritizing anyone who attempts to head for the turret. Once the dust settles, photograph Black Belle. There is no weapon to collect on this occasion.

### SLIM GRANT

Make your way to the sheriff's office in Annesburg and speak to the lawman inside. After your conversation, head to the outlaws' camp highlighted as your target, to the west of Annesburg, on the north side of the river. Your goal here is to capture Slim Grant, who is tied to a tree. There are only a handful of thugs to eliminate, so these should pose no problem. Once they're all dead, cut Grant free then stow him on your horse and take him to the designated drop-off point to the northeast, by Brandywine Drop. When the duel begins after the cutscene, proceed as usual: hold **R2** / **LB** lightly when prompted to fill up your meter, then press fully to trigger the actual slow-motion effect and shoot your target. You can then claim his gun.

# LOANSHARKING

You receive all loansharking missions from Strauss, one of the Van der Linde gang members. Most of his assignments are intertwined with the main storyline – and therefore covered in the Missions chapter of this guide – while a few of them are entirely optional. For ease of reference, we document them all here. In this entire “Money Lending and Other Sins” storyline, your goal is to retrieve money from debtors.

These missions are time-sensitive, and must be completed before you reach a critical point in the main story during Chapter 6. If necessary, consult the flowchart on page 94 of the Missions chapter for details.

## MR. WROBEL

**Availability:** Money Lending and Other Sins – I & II (Chapter 2)  
**Walkthrough:** Wrobel lives in a small house found in the middle of a marked area, just west of camp. Confront him, then loot his house to settle the debt. Note that you can also take his horse from the stable outside.

## CHUCK MATTHEWS

**Availability:** Money Lending and Other Sins – I & II (Chapter 2)  
**Walkthrough:** You will find Chuck Matthews under a wooden canopy, in the marked area to the west of Emerald Ranch. To identify him, you first need to talk to the man sitting on a nearby uprooted tree. Matthews uses this opportunity to get away on horseback. Immediately gallop after him, as soon as you catch up, stop him with the lasso. You can also kill him, though this leads to an honor loss. Either way, you will then obtain a treasure map, which you can examine by selecting it in your satchel. After viewing the treasure map, head to the waypoint and examine the hole in the tree.

## LILLY MILLET

**Availability:** Money Lending and Other Sins – I & II (Chapter 2)  
**Walkthrough:** Lilly Millet sits on a bench by a house at the northern edge of Emerald Ranch. Confront her to trigger a fist fight with Cooper. Focus on defensive tactics and counterattacks to knock him out, then loot him to retrieve the money. If a witness saw your crimes, be swift to stop them before they report you to the law.

## THOMAS DOWNES

**Availability:** Money Lending and Other Sins – III (Chapter 2)  
**Walkthrough:** Search for Thomas Downes in the marked area, just southwest of Valentine. You will find him a short walk from the east side of the house. Try to convince him to pay his debts in whichever manner you deem appropriate. After the cutscene, return to Strauss back at camp to complete the mission.

## GWYN HUGHES

**Availability:** Money Lending and Other Sins (part IV in Chapter 3, or part V in Chapter 4)  
**Walkthrough:** Gwyn Hughes is found in Rhodes, outside the house neighboring the gunsmith. After you confront him, follow him to the churchyard, clear out the townsfolk in the area, then return to him. While he exhumes a body, stand guard at the entrance and stop anyone from entering. When two men try to go through regardless, you can either beat them up or scare them off by pointing your gun at them. Take the diamond brooch from Gwyn to complete the assignment.

## WINTON HOLMES

**Availability:** Money Lending and Other Sins (part IV in Chapter 3, or part V in Chapter 4)  
**Walkthrough:** Winton Holmes has set up camp on the heights just north of Strawberry. Follow him to the cougar's den, but make sure you are well prepared before you enter. This is probably the most difficult of all loansharking missions. The predator you're about to face is agile and extremely dangerous, with the lack of light in the cave further complicating matters. After you split up at the fork, you will soon hear that Winton is under attack. When you find his body, stay there as his lantern offers a precious source of light. Equip a powerful, fast-firing weapon and look out for a red dot on your radar, as soon as it appears, face the corresponding direction and immediately trigger Dead Eye to eliminate the cougar. Once it's dead, skin it and sell the pelt to Strawberry's butcher.

## ALBIE DAVISON

**Availability:** Money Lending and Other Sins – V (Chapter 4)  
**Walkthrough:** Albie Davison is drinking by the riverbank just south of Brailwaide Manor. He asks you to follow him to his house. When he hands you a box or his son pours you a drink, take it to trigger a battle. Knock him out, then search his house to recover the debt. There's a double-barreled shotgun on the living room fireplace and various collectibles here and there, but the real prize is hidden in a chest in the son's bedroom.

## J. JOHN WEATHERS

**Availability:** Money Lending and Other Sins – VI & VII (Chapter 6)  
**Walkthrough:** This individual can be found near Moonstone Pond. When you confront Weathers, a group of soldiers looking for him launch a surprise attack. Eliminate the interlopers, then choose between absolving or recovering the debt.

## ARTHUR LONDONDERRY

**Availability:** Money Lending and Other Sins – VI & VII (Chapter 6)  
**Walkthrough:** To find Arthur Londonderry, head to the entrance to Annesburg's mine. After questioning the guard, enter the pit and speak to the foreman. Your next destination is the debtor's widow, outside a small cabin at Butcher Creek – a short ride to the south of your current position. After a conversation Arthur decides to absolve her, but you can also choose to give her money (and gain honor for doing so). Return to Strauss at camp to complete this mission strand.

# TREASURE HUNTING

Available from the beginning of Chapter 2, treasure hunting missions are lucrative activities that you can complete every time you find a treasure map. Open your satchel to view the document, which will feature illustrations and clues. Your goal is to make sense of these in order to identify the area in question. Head to that location and you will find another map, with more clues to decipher. After you solve the puzzles of the first three maps, you obtain a fourth and final map that leads to the actual treasure.

These challenges are best enjoyed without any form of assistance, though solving them may be rather difficult until you are suitably well-traveled. If you get completely stuck, the following maps and walkthroughs detail the locations of all hiding places.

## ★ JACK HALL GANG TREASURE ★

### JACK HALL GANG MAP 1

**Availability:** Complete this mission's previous step.  
**Walkthrough:** If you open your satchel and consult Jack Hall Gang Map 1, you might recognize Caravan's Seat, just north of Horseshoe Overlook. From the top of the cliff you can traverse narrow ledges to reach a crack in the wall, inside which the second map awaits.

### JACK HALL GANG MAP 3

**Availability:** Complete this mission's previous step.  
**Walkthrough:** The third map shows a location called O'Creagh's Run, far to the north of Emerald Station, in the Grizzlies East. Swim to the small island in the middle of the lake and inspect the bushes to find the Jack Hall Gang treasure hidden under a rock and obtain two gold bars in the process.

### JACK HALL GANG MAP 1

**Availability:** Chapter 2 onward.  
**Walkthrough:** To begin this assignment you first need to speak to Maximo, a stranger looking through binoculars found a short distance to the west of Flatneck Station. He will offer to sell you a treasure map for \$10. If you decline he will lower his price to \$5. You can always rob him instead if you prefer, though this will cost you a little honor. If you fail to retrieve the map from Maximo (for example by killing him and not looting his body), you will be able to purchase it from a fence.

### JACK HALL GANG MAP 3

**Availability:** Complete this mission's previous step.  
**Walkthrough:** The second Jack Hall Gang map leads you to Cotorra Springs, directly west of Bacchus Bridge. The map is hidden in one of the piles of rocks close to the geysers.

## ★ HIGH STAKES TREASURE ★

### HIGH STAKES TREASURE MAP 1

**Availability:** Complete "The New South" (Chapter 3).  
**Walkthrough:** To obtain the first map, you need to complete the Treasure Hunter chance encounter, which can occur randomly at multiple locations (see map above). When you run into a man looking through binoculars, sprint to him and immediately knock him down or hogtie him to loot the map from him. If you take too long he will escape on horseback, forcing you to chase him. Note that if you fail to recover the map on three different occasions, it will become available for purchase at fences.

### HIGH STAKES TREASURE MAP 2

**Availability:** Complete this mission's previous step.  
**Walkthrough:** The first map leads you to Cumberland Falls, a short distance east of Wallace Station. Walk behind the waterfall and climb to the ledge above to find a small rock. The second map is hidden behind a rock.

### HIGH STAKES TREASURE MAP 3

**Availability:** Complete this mission's previous step.  
**Walkthrough:** Your next goal requires you to travel up the snowy mountains to Barrow Lagoon, a frozen lake found deep in the West Grizzlies, to the northwest of Valentine. Make your way up to the log bridge connecting the mainland to the small island in the center; the map is hidden in a small hole on the log bridge.

### HIGH STAKES TREASURE

**Availability:** Complete this mission's previous step.  
**Walkthrough:** The location hinted at by the third map is a winding and treacherous path along a cliff edge located to the southwest of Bacchus Station. Carefully make your way down the ledges until you reach a small rock overhang that requires you to crouch to pass through. Look to the far side of the overhang to find three gold bars hidden in a small crevice in the cliff face.

# SPECIAL COLLECTIBLES

The world of *Red Dead Redemption 2* is filled with unique items that you can collect to complete optional missions – and you'll gain some meaningful rewards for your troubles.

## CIGARETTE CARDS

There are 144 cigarette cards available in the world – 12 sets of 12 cards. Every individual card can be picked up at a specific location. However, note that one card from each set will not appear until you trigger the "Smoking and Other Hobbies" mission.

This assignment becomes available after you complete "Who is Not Without Sin", one of the first story missions in Chapter 2. To initiate it, speak to the stranger sitting on a bench outside Flatneck Station. He invites you to mail him every full set of 12 cards that you gather, and offers payment in exchange. This is a long-term task where you will gradually accumulate cards during your travels – but some of them may prove much harder to find.

Cards can be obtained in two ways:

- ★ By picking them up in the world, as each card has a specific place where it can be obtained. We show these 144 locations on the map on page 204.
- ★ By purchasing, collecting, or looting premium cigarette packs, which each yield a random card when opened. Cards acquired in this manner can be literally any type; they can even be duplicates of cards you already own. Duplicates can be sold to fences.

## CIGARETTE CARD SET REWARDS

Set	Reward
First set (any)	Vintage Civil War Handcuffs
Famous Gunslingers	Special Snake Oil \$50
Artists, Writers, & Poets	Ginseng Elixir, \$100
Visages of America	Gold Nugget, \$100
Genes of Beauty	Platinum Chain Necklace, \$100
Flora of America	Special Miracle Tonic \$50
Stars of the Stage	Small Jewelry Bag, \$50
Fauna of America	Perfect Rabbit Pelt, \$50
Marvels of Travel	Aged Pirate Rum, \$50
World Champions	Valerian Root \$50
Amazing Inventions	Volatile Dynamite, \$100
Horses	Special Horse Medicine \$50
Prominent Americans	Eagle Feather x3, \$50
All sets	\$200

## CIGARETTE CARD LIST

FAMOUS GUNSLINGERS		
001 Frank Heck On a gravestone	002 One Miller Boy In the back of the blue wagon	003 Jack Hal-Gang On a windowsill inside the shack
004 Butcher Brothers On a barrel on the shack's porch	005 Eluco Hernández On the edge of the bank's rooftop ladder in the back	006 Slim Grant On a barrel by the derelict shack's entrance
007 London Replett On a barrel behind the house that faces the (underpass)	008 Black Belle On a barrel at the end of the pier	009 Billy Midnight On the windmill tower's platform
010 Emmet Grainger On a table under a train to opposite two white tents inside Fort Wallace (only available during Chapter 6 from "The King's Son" until you begin "Our Best Selves" also found on a barrel on the small farmhouse's porch just south of Valentine)	011 Jim "Boy" Calloway Inside the mausoleum with a stained glass window to the west of the central dome	012 Bart Love Next to the couch inside the house

\* Can only be picked up after you activate the "Smoking and Other Hobbies" mission

## ★ LE TRESOR DES MORTS ★

### LE TRESOR DES MORTS MAP 1

**Availability:** Complete this mission's previous step.  
**Walkthrough:** The next map is found at the Saint Denis docks. It is hidden in an underground passage that connects the Cornwall Freight Station's yard and the harbor. You can obtain the document by examining the wall next to the only wooden crate in the passage.

### LE TRESOR DES MORTS MAP 1

**Availability:** This is a bonus mission exclusive to players who pre-ordered the digital version or own the Special/Ultimate Edition of *Red Dead Redemption 2*.  
**Walkthrough:** Visit the burned settlement just southwest of Horseshoe Overlook. The only building that is still standing is a stone jailhouse. Enter it and pick up the map next to one of the two corpses inside.

### LE TRESOR DES MORTS TREASURE

**Availability:** Complete this mission's previous step.  
**Walkthrough:** Deciphering the second map leads you to the Saint Denis cemetery – more specifically, to the mausoleum with a stained-glass window to the west of the central dome, just north of the main walkway. Inspect the wall on your left to uncover a hole and obtain five gold bars.

# ARTISTS, WRITERS, & POETS

 <b>013</b> Edith Corinne Under the table next to the clothesline	 <b>014</b> Elsie Rose* On the table at the top of the hotel's stairway	 <b>015</b> W. G. Hoyt On a table inside the derelict cabin
 <b>016</b> Aldous Bramley On a table on the porch between two armchairs	 <b>017</b> Preston T. Stephenson On a desk in the office	 <b>018</b> Evelyn Müller On a table next to the clothesline
 <b>019</b> Stick Hutton On a crate on the northeast side of the balcony	 <b>020</b> Lawrence Carson In a back alley on a table behind a wooden wall	 <b>021</b> Miss Maud Delaney On a table on the houseboat
 <b>022</b> Charles Châteaufort On a table on the front porch	 <b>023</b> George Dixie On a bed inside the easternmost room of the house	 <b>024</b> Richard McCullough On the table in the southwest of the gazebo

# VISTAS OF AMERICA

 <b>025</b> New York On a table on the porch	 <b>026</b> Saint Denis On the cart	 <b>027</b> Blackwater On a chimney on the theatre's rooftop, ladders in the back
 <b>028</b> Armadillo On a barrel inside a pig pen	 <b>029</b> Rio Bravo On the windmill tower's platform	 <b>030</b> The Gazette* On the table inside the shack
 <b>031</b> San Francisco On a windowsill of the abandoned fort's southwest tower	 <b>032</b> Tall Spear On a barrel on the south side of the train station	 <b>033</b> Valentine On a table inside the train station
 <b>034</b> Chicago On the windmill tower's platform	 <b>035</b> Rhodes On a gravestone	 <b>036</b> Annesburg On a barrel on the minecart tracks

# GEMS OF BEAUTY

 <b>037</b> Leticia Stetson On the windowsill next to the fireplace downstairs	 <b>038</b> Isabelle Carlow On a wall shelf inside the abandoned riding post	 <b>039</b> Nattie Langtry On the end table inside the hut
 <b>040</b> Isabelle Standish Inside the mine on a table in the large chamber to the left of the entrance	 <b>041</b> Maud Engel On a table on the north side of the shack	 <b>042</b> Sadie Russell On a barrel inside the chicken coop
 <b>043</b> Gerardine Emerson On a crate on the barn's upper floor	 <b>044</b> Agnès Guyon On a crate inside the shack	 <b>045</b> Jeanne Willets On a barrel in the yard opposite the post office
 <b>046</b> Iga Ulmer* On an old desk in the alley	 <b>047</b> Fay Dolan At the base of the window on the barn's upper floor	 <b>048</b> Pauline Henderson On a crate at the north end of the train station

\* Can only be picked up after you activate the "Smoking and Other Hobbies" mission.

# FLORA OF AMERICA

 <b>049</b> Golden Currant On a shelf inside the northeast shack	 <b>050</b> Hummingbird Sage On a small table on the west side of the shack	 <b>051</b> Oleander Sage On a trellis railing hidden by vines
 <b>052</b> Yarrow On the south windowsill inside the cabin	 <b>053</b> Indian Tobacco On a crate directly west of the cabin	 <b>054</b> Black Mangrove Under a bench at the train station
 <b>055</b> Longleaf Pine In the shaft at the southwest end of the mine on a crate at the top of the first ladder	 <b>056</b> Desert Fan Palm On a table on the house's front porch	 <b>057</b> Coastal Redwood* On a table on the back porch of the house in the far southeast of Strawberry
 <b>058</b> Horse Cactus On a workbench beneath the shark's lean-to	 <b>059</b> Baking Star On the railing right in front of the cabin's door	 <b>060</b> Carolina Lupine On the sheriff's station's rooftop behind the sign

# STARS OF THE STAGE

 <b>061</b> Laurence Dunn Inside the farmhouse on the mantelpiece	 <b>062</b> Louis Durand On a crate on the abandoned house's west porch	 <b>063</b> Joseph Raymond Inside the burned-out house on the windowsill by the mantelpiece
 <b>064</b> Augusta Trowlow In the theatre's west corridor on the side table by the fireplace	 <b>065</b> Mabel Pastor In the theatre's west corridor on the side table by the fireplace	 <b>066</b> Robin Koninsky On a table on the side of the theatre's stage. Only accessible after watching all live performances (see over two nights) at the Theatre Majeur in Saint Denis. The final performance only unlocks after "Fatherhood and Other Dreams".
 <b>067</b> Isidore Reid In the back of one of the two adjacent wagons	 <b>068</b> Irene Grubb On a bench on the train platform	 <b>069</b> Nattie Palmer Inside the show tent on a crate right under the superstrut's platform
 <b>070</b> Jim Cobb On a bench on the front porch of the abandoned house	 <b>071</b> Minnie Constock On a barrel in front of the house's door	 <b>072</b> Robert Elliot Patchen* On a crate next to the yellow hut

# FAUNA OF AMERICA

 <b>073</b> Black Widow Spider On a desk inside the cabin	 <b>074</b> Bloodhound In the fireplace of the house ruins	 <b>075</b> Bluebird On the tree platform accessible via a ladder	 <b>076</b> Catfish On a barrel on the west side of the docks	 <b>077</b> Coral Snake On a narrow table inside Jakey's largest house	 <b>078</b> Cougar* On a barrel in the back of the wooden fishing boat
 <b>079</b> Large Mouth Bass Under the sofa inside the Gill-landing fishing cabin	 <b>080</b> Panther On a crate inside the hut in the derelict fort	 <b>081</b> Parrot On a crate on the river	 <b>082</b> Pheasant On the tree platform accessible via a ladder	 <b>083</b> Snapping Turtle Inside the house on a small crate under a dresser	 <b>084</b> Turkey On the mantelpiece upstairs inside the burned-out sheriff's office

\* Can only be picked up after you activate the "Smoking and Other Hobbies" mission.

## MARVELS OF TRAVEL

 085	 086	 087	 088	 089	 090
On a crate on the pier	Under the hammock tied at the top of the fishing boat	On the table close to the clothesline	At the top of the steps leading to the backdoor of the Trackers Hotel building	On a workbench in the westernmost part of the saloon	On a shelf in the back of the saloon
 091	 092	 093	 094	 095	 096
On a workbench inside the bathroom	On a table on the east side of the pier	On the windowsill of the blue booth at the end of the docks	On a bench at the train platform	On the south wall of the ruins	On a table on the house's west porch

## WORLD CHAMPIONS

 097	 098	 099
On the wall outside the shack	On a windowsill inside the shack	On a shelf on the porch
 100	 101	 102
On a crate under the shack	On a table just left of the shack's porch	On a shelf in the basement, accessible via the hatch in the middle of the derelict cabin
 103	 104	 105
On a railing on the shack's back porch	On a table on the north side of the shack	On the floor at the top of the coal mining facility tower
 106	 107	 108
On a table inside the cabin	On a windowsill inside the shack	In the courtyard at the back of the Bastille saloon, on a crate at the foot of a wrought-iron fence

## AMAZING INVENTIONS

 109	 110	 111	 112	 113	 114
1814 - George Stephenson	1814 - Joseph Nicéphore Niépce	1838 - H.P. Brown & Kennedy	1829 - W. A. Burt	1836 - Daniel Buss	1837 - Samuel Morse
In a bird nest on the abandoned church's upper landing. Sprint and jump over to the small platform	On a table on the balcony of the building just south of the photo studio	Inside the house under a bunk bed upstairs	On a barrel right next to the warehouse's door	On a table on the terrace at the back of the gunsmith	On a bench on the abandoned train platform
 115	 116	 117	 118	 119	 120
1853 - Charles Kinnear	1866 - Alfred Nobel	1877 - Thomas Edison	1823 - Edward Levaux	1878 - Thomas Edison	1884 - Lewis Waterman
On a workbench in the middle of the barn	On the back porch of Study Belle	Inside the saloon, on a windowsill facing the street	On the piano	On crates right next to the building's back door	On a desk inside the derelict schoolhouse

\* Can only be picked up after you activate the "Smoking and Other Hobbies" mission.

## HORSES

 121	 122	 123	 124	 125	 126
On a crate underneath the cotton mill	On a barrel at the south end of the docks	On a shelf inside the stable	On a table inside the boy's bedroom	On a workbench inside the stable	On the train platform's middle shelf
 127	 128	 129	 130	 131	 132
On a crate at the base of Fort Wallace's northwest tower, available during Chapter 6 from "The King's Son" until you begin "Our Best Selves" also found on a workbench at the back of the veteran's cabin near O'Creagh's Run	On the floor through a hole in the blacksmith's front door	On a hay bale on the upper floor of the barn	In the back of the wagon next to the cotton bales	On a table inside the boy's bedroom	

## FAVORITE AMERICANS

 133	 134	 135
On a barrel at the top of the loading ramp of the Jensen Mills building	On the railing in the northeast corner of the shack's jolly opposite two broken wagon wheels	On a crate behind bushes on the northeast side of the shack
 136	 137	 138
On a windowsill in the top of the south tower, only available during Chapter 6 from "The King's Son" until you begin "Our Best Selves" also found on a table inside Laidlaw's Manor in Blackwater Marsh	On the table in the gazebo	On a crate on the docks
 139	 140	 141
On a workbench inside the freight hall	On a table on the porch of the house	At the base of the oil well tower
 142	 143	 144
On a table inside the saloon	Inside the cabin on the bedroom's mantelpiece	Inside the fisherman's cabin on a windowsill facing southeast

\* Can only be picked up after you activate the "Smoking and Other Hobbies" mission.

## EXOTICS

Exotics are rare items that can be collected as part of the "Duchesses and Other Animals" mission. This is triggered by speaking to a colorful stranger called Algernon Wasp. He can be found inside a wrought-iron greenhouse in the backyard of a large blue house just north of Saint Denis after you complete "The Gilded Cage", a story mission during Chapter 4.

After the cutscene where Algernon introduces himself (which is considered as stage I of this mission), there are five additional stages (II, III, IV, V, VI) available in sequence. For each of these Algernon gives you a list of exotic items he would like you to retrieve for him. Once you have everything tucked off, take them back to the collector and he will reward you handsomely – as documented in the "Requested Items" tab below.

★ **Plumes** are dropped by rare birds that you can hunt in the Bayou swamps, particularly on and around the Lagras islands.

★ **Nests of gator eggs** are found in the same area, on and around the Lagras islands. They are often guarded by alligators.

★ **Rare orchids** can be picked a single time per stage at each spawn point. Note that there are additional, ambient specimens to find in the world other than those that Algernon asks for. Any extra orchids that you obtain can be mailed to a mysterious buyer who leaves notices on post office walls. Some of the mission-specific orchids grow in the ground, but many are actually epiphytes and grow on tree trunks. This applies to the following species: Rat Tail, Acuna's Star, Cigar, Clamshell, Ghost, Lady of the Night, Spider, and Night Scented.

### REQUESTED ITEMS

STAGE	ITEMS	REWARD
II	<ul style="list-style-type: none"> <li>5 Little Egret Plumes</li> <li>5 Reddish Egret Plumes</li> <li>5 Snowy Egret Plumes</li> <li>15 Lady of the Night Orchids</li> </ul>	\$110
III	<ul style="list-style-type: none"> <li>20 Heron Plumes</li> <li>7 Lady Slipper Orchids</li> <li>10 Moccasin Flower Orchids</li> </ul>	\$125
IV	<ul style="list-style-type: none"> <li>25 Gator Eggs</li> <li>3 Acuna's Star Orchids</li> <li>7 Cigar Orchids</li> <li>5 Ghost Orchids</li> </ul>	\$150
V	<ul style="list-style-type: none"> <li>30 Spoonbill Plumes</li> <li>5 Night Sparrow Orchids</li> <li>10 Rat Tail Orchids</li> <li>5 Spider's Orchids</li> </ul>	\$175
VI	<ul style="list-style-type: none"> <li>5 Clamshell Orchids</li> <li>5 Dragon's Mouth Orchids</li> <li>5 Queen's Orchids</li> <li>10 Sparrow's Egg Orchids</li> </ul>	<ul style="list-style-type: none"> <li>\$200</li> <li>Exotic Hat</li> <li>Algernon's Revolver</li> </ul>

\* Only available from Epilogue 1 onward

PICTURE	NAMES	STAGE
	Lady of the Night Orchid	901
	Lady Slipper Orchid	902
	Moccasin Flower Orchid	903
	Acuna's Star Orchid	904
	Cigar Orchid	905
	Ghost Orchid	906
	Night Scented Orchid	907
	Rat Tail Orchid	908
	Spider's Orchid	909
	Clamshell Orchid	910
	Dragon's Mouth Orchid	911
	Queen's Orchid	912
	Sparrow's Egg Orchid	913
	Rare bird plumes and gator egg territory

## DINOSAUR BONES

Dinosaur bones are special collectibles required to complete a side mission called "A Test of Faith". This can be triggered from the beginning of Chapter 2 by speaking to a stranger excavating fossils just southeast of Horseshoe Overlook.

### DINOSAUR BONE LIST

ICON	NAME	NOTES
401	Heartlands Oil Field Bone Location	At the bottom of the well underneath the oil derrick
402	Heartlands Dawberry Creek Bone Location	Just west of Dawberry Creek, in the open
403	Scarlett Meadows Dawberry Creek Bone Location	Just south of Dawberry Creek, in the open
404	Heartlands Grassy Hill Bone Location	On a grassy hill, in the open
405	Big Valley Rocky Slope Bone Location	On a rocky hill, in the open
406	Grizzlies Rock Wall Bone Location	At the base of the rock cliff
407	Heartlands Cliff Face Bone Location	At the base of the rock cliff
408	Heartlands Abandoned Sheek Bone Location	On the ground, just south of the cabin
409	Cholla Springs High Desert Bone Location	Inside a small rock wall at the base of the hill
410	Cholla Springs Jorge's Gap Bone Location	On a small hill southwest of Jorge's Gap, partly hidden by bushes
411	Hennigan's Stead Pike's Basin Bone Location	On the slightly elevated plateau at the west end of the canyon
412	Hennigan's Stead San Luis River Bone Location	Just above the river shore, to the north of the small islet
413	Cumberland Forest Six Point Overlook Bone Location	At the top of the cliff, just at the edge
414	Grizzlies Cowmet Ravine Bone Location	Caught in the red rocky outcrop, near the top of the hill
415	Grizzlies Dakota River Ledge Bone Location	On a small ledge just below the top of the cliff
416	Grizzlies Northern Boundary Bone Location	On a grassy hill, in the open
417	Grizzlies O'Creagh's Run Overlook Bone Location	On the ridgeline, directly west of O'Creagh's Run
418	Roanoke Ridge Overlook Bone Location	On a small rocky plateau south of the railway bridge
419	Cumberland Forest Bacchus Station Bone Location	Next to a stone spike at the top of the rock cliff southwest of Bacchus Station
420	Roanoke Ridge Valley Overlook Bone Location	On the cliff that overlooks the path heading down toward the Brandywine Drop waterfall
421	Roanoke Ridge Kamassa River Bone Location	On the intermediate level of Kamassa River, on the west side of Kamassa River
422	Roanoke Ridge Van Horn Bone Location	A thick bone on the ground, at the edge of a clearing
423	Heartlands Northern Boundary Bone Location	At the top of the cliff close to the edge
424	Big Valley Beryl's Dream Overlook Bone Location	On rocky terrain, about halfway up Mount Shanah, where the path winds in an approximate "S" shape
425	Heartlands Southern Gorge Bone Location	Follow the bed of the dried-up river adjacent to the oil derrick, the bone is near the top of the hill
426	Big Valley Northern Cave Bone Location	Inside a cave at the bottom of Mount Hagen
427	Rio Bravo Del Lobo Rock Bone Location	On the small slope near the eastern tip of Rio Del Lobo Rock
428	Rio Bravo San Luis River Bone Location	On the big rock plateau overlooking Fort Mercer
429	Gaptooth Ridge North Tumbleweed Bone Location	At the top of the cliff overlooking the canyon, on the east side
430	Gaptooth Ridge South Tumbleweed Bone Location	At the southeast edge of the plateau overlooking Tumbleweed

The paleontologist, Deborah MacGuiness, asks you to find 30 dinosaur bones throughout the country and to mail their coordinates to her from any post office. As you reach certain milestones in this activity, Deborah will provide rewards. When you complete the assignment, she will send you a letter. Collect it at a post office and read it to obtain an invitation to her ranch at Firwood Rise in Cumberland Forest. Travel there and enter the barn to meet her and receive your final reward, the jawbone knife.

## ROCK CARVINGS

Rock carvings are large designs engraved into stone that you need to find throughout the world to complete "Geology for Beginners". This mission begins when you speak to Francis Sinclair, a stranger seated outside his cabin to the northwest of Strawberry.

He asks you to locate 10 of these carvings and to send him their coordinates by post. After mailing the tenth set, you can complete the assignment by reading his invitation and visiting him again at his cabin where you can pick up the **old brass compass** — an ingredient required to craft the ravenclaw tuxman at a fence.

### ROCK CARVING REWARDS

CARVINGS MAILED	REWARD
1	Kentucky Bourbon, \$10
5	Rock Statue
10	Francis Sinclair's Invitation Letter

**501** At the top of Mount Hagen, in the Grizzlies West

**502** On a rock ledge a few steps to the north of a wooden bridge that runs across Whimyard Strait, just north of Window Rock

**503** On a rock ledge near the top of the tall cliff overlooking Dakota River

**504** On a ledge just beneath the cliff edge almost directly above a rope bridge spanning the Dakota river

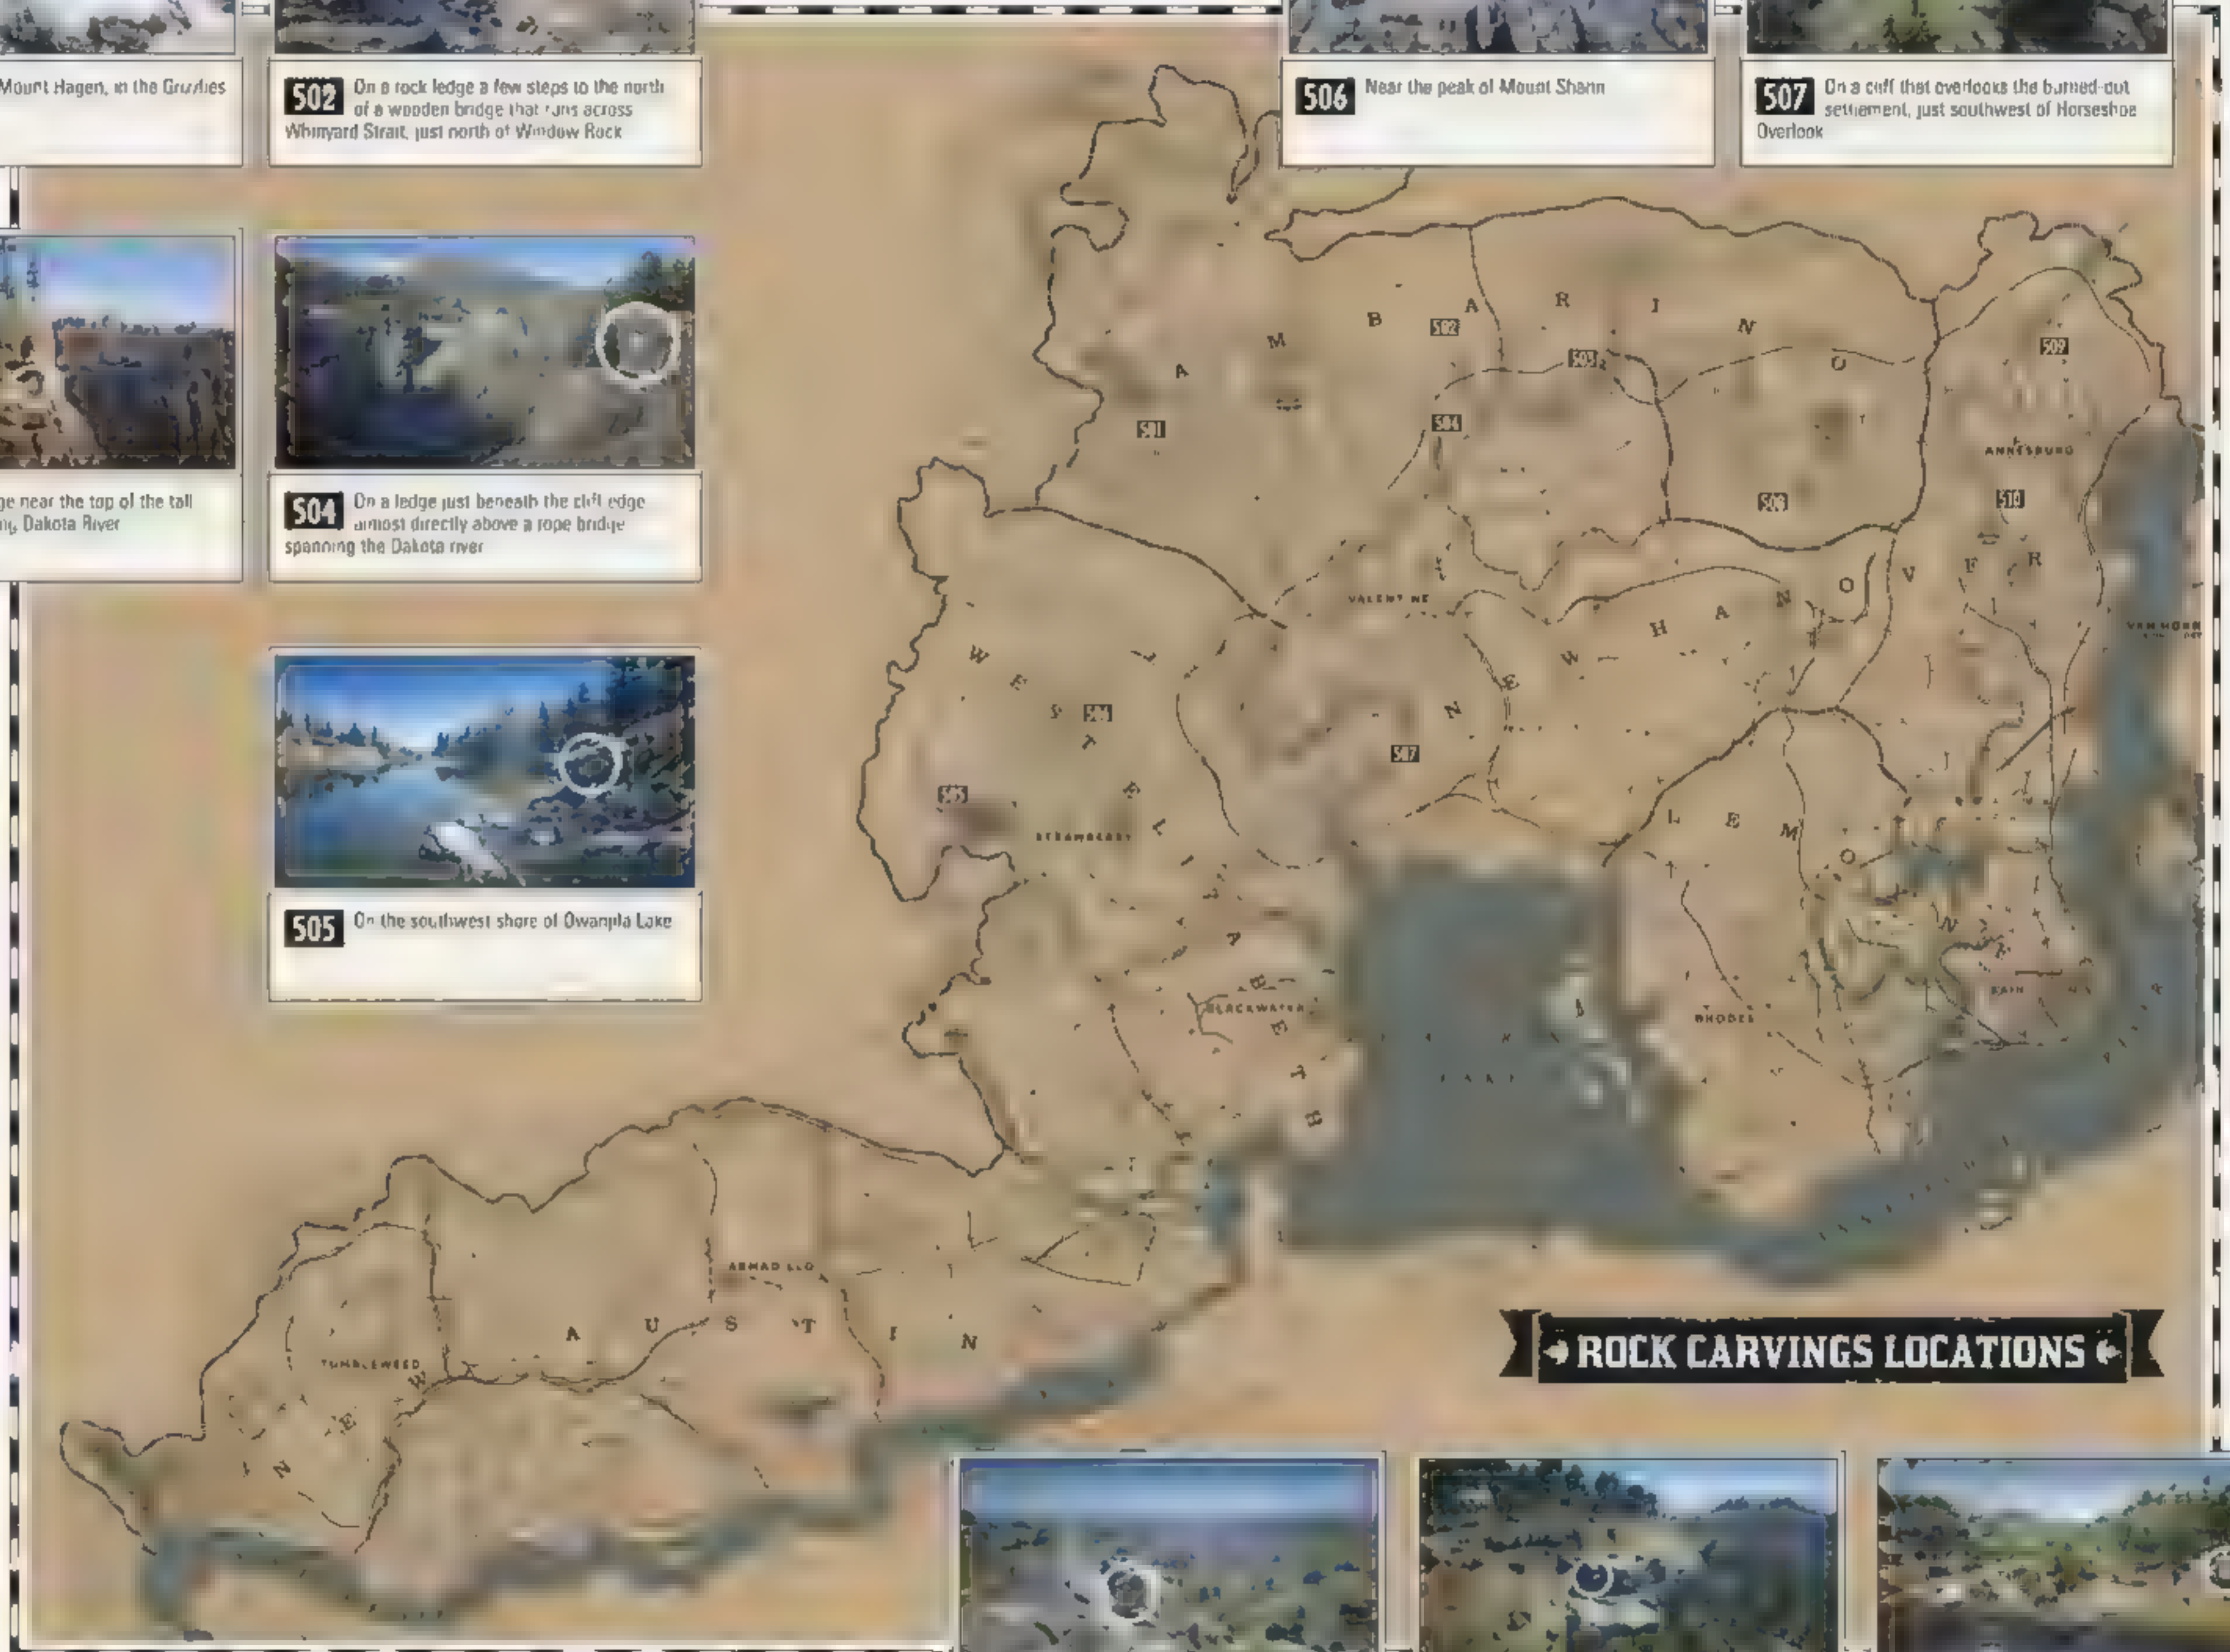

**505** On the southwest shore of Owanpla Lake

**506** Near the peak of Mount Shann

**507** On a cliff that overlooks the burned-out settlement, just southwest of Horseshoe Overlook

## ROCK CARVINGS LOCATIONS

**508** At the edge of the plateau that overlooks Heartland Overflow. Head south from Moonstone Pond

**509** On a rock ledge close to the top of Roanoke Ridge, directly east from the Deer Cottage

**510** Near the east shore of Elysian Pool

431

## HUNTING REQUESTS

During your travels, you will notice hunting requests (similar to bounty posters) displayed at the post office or train station in six different towns.

- ★ Valentine
- ★ Rhodes
- ★ Strawberry
- ★ Saint Denis
- ★ Van Horn
- ★ Armadillo

There are five notices in total in this mission, but you can only collect one at a time; the stage that you trigger is the same irrespective of where you acquire it. Each notice features a list of animal carcasses requested by Ms Hobbs. If you obtain these and mail them to her, you will receive a reward and unlock the next notice.

After you fulfill all five orders (which can be achieved during Epilogue 1 at the earliest), you will receive a letter of invitation to the cottage of Ms Hobbs, which is found just northeast of Strawberry. When you visit her (which concludes the "A Better World, A New Friend" mission), she will give you a final reward: a squirrel statue that you can put on display at Beecher's Hope.

Note that you need to secure carcasses that are in perfect condition. This means that you must track animals of pristine quality and take them down with perfect kills. For further advice on hunting, see page 146.

### HUNTING REQUESTS

REQUEST	ITEMS REQUIRED	REWARD
#1	<ul style="list-style-type: none"> <li>1 Perfect Rabbit Carcass</li> <li>1 Perfect Squirrel Carcass</li> </ul>	\$50
#2	<ul style="list-style-type: none"> <li>1 Perfect Cardinal Carcass</li> <li>1 Perfect Rat Carcass</li> <li>1 Perfect Woodpecker Carcass</li> </ul>	\$70
#3	<ul style="list-style-type: none"> <li>1 Perfect Chipmunk Carcass</li> <li>1 Perfect Opossum Carcass</li> <li>1 Perfect Oriole Carcass</li> <li>1 Perfect Robin Carcass</li> </ul>	\$100
#4	<ul style="list-style-type: none"> <li>1 Perfect Songbird Carcass</li> <li>1 Perfect Sparrow Carcass</li> <li>1 Perfect Toad Carcass</li> <li>1 Perfect Skunk Carcass</li> <li>1 Perfect Bullfrog Carcass</li> </ul>	\$120
#5 (available from Epilogue 1)	<ul style="list-style-type: none"> <li>1 Perfect Cedar Waxwing Carcass</li> <li>1 Perfect Bat Carcass</li> <li>1 Perfect Blue Jay Carcass</li> <li>1 Perfect Crow Carcass</li> <li>1 Perfect Beaver Carcass</li> </ul>	\$150, Ms Hobbs' Letter

## DREAMCATCHERS

There are a total of 20 dreamcatchers that you can discover throughout the world, all found hanging from trees. To interact with them, walk beneath their position and inspect them with **A**/**Y** when the corresponding prompt appears on your screen.

## REWARD

Once you have inspected all 20 dreamcatcher locations, a reward becomes available inside the cave hidden behind the Elysian Pool waterfall in Roanoke Ridge. Head to the main chamber and climb up the steep slope until you reach an alcove with cave paintings on your right. Examine the painting of the large buffalo with a hole in its eye to obtain an ancient arrowhead. This is a special item that makes your stamina meter last twice as long when you draw your bow.

ICON	NOTES
701	At the foot of the dead tree in which a wrecked boat is stuck in a chest on an elevated rock ledge behind the Brandywine Drop
702	On a windowsill inside the burned down shack at Mercer Station
703	On a shelf in the cabin's basement inside Fort Brennan
704	On the small wrecked blue boat on the south shore of Clemens Point
705	On a shelf in the basement of the dilapidated cabin
706	On the bushes on the small rock path at the foot of the Van Horn lighthouse
707	To the right of the fireplace inside the Gill landing fishing cabin (only available after completing "A Fisher of Fish")
708	At the top of the windmill tower southwest of Blackwater
709	On a wall on the abandoned church's upper landing
710	On a barrel on the small pier at the back of the fishing cabin
711	By a lonely rock on the ridge line just northwest of the peak of Mount Shann
712	In a chest on the northwest side of the Catfish Jackson's house, in the crawl space
713	On the piano in the room where the Saint Denis gunsmith robbery takes place (see page 181)
714	Hidden inside the chimney at Mani's Bachel
715	In a lock box inside the shipwreck in Flaming Lake's largest island
716	In the lock box atop the north side of the Twin Stack Pass
717	In the lock box at the foot of the small shack southeast of the Shady Belle mansion
718	On a table inside the small fishing cabin
719	In a hard-to-reach crashed train carriage (see screenshot below)
720	In a chest under the bed inside the blacksmith's workshop at MacFarlane's Ranch
721	On cotton bales, on the west side of the upper deck of the Maria Sabella cargo ship
722	On a crate in the abandoned campsite right by the Dr. Derrick
723	At the top of the lookout tower
724	On a shelf inside the Harriet Woman shack
725	In a chest underneath an abandoned wagon between the two side-way crossroads
726	On the mantelpiece inside the abandoned schoolhouse in the south of Pleasanton
727	On the abandoned white wagon, one of five wagons forming a circle to the northwest of Mercer Station
728	On a table next to hung animals at Manzanita Post
729	On the water tower between two tiny railway bridges
730	On a barrel on the east side of the ranch
731	At the foot of a tree near the cliff's edge
732	On a crate at the top of the fire lookout tower
733	On the mantelpiece in Watson's Cabin
734	Inside a lock box in a mail coach by the road
735	In a wardrobe upstairs in Carmody Dell's house
736	In a lock box on the kitchen sink inside Six Point Cabin
737	In the bushes at the foot of the dead tree on the islet in the middle of Dakota River
738	Inside a small crate in the easternmost shack of Milesani Claim, right by the mine's entrance
739	Between a log and a rock, a short walk to the west of Owanilla Dam
740	On the lone tree with many hanging bottles
741	Next to the train tracks at the west end of the railway tunnel
742	On the ground, hidden between rocks, directly west of the Strawberry/Pronghorn Dead End
743	On the mantelpiece inside the Lamed Sod house
744	On a barrel upstairs in the barn
745	At the foot of the altar at the pagan ritual site, halfway up the hill
746	On one of the crates close to the railway bridge leading to the Shady Belle mansion
747	On the mantelpiece inside the cabin
748	In a partly destroyed crate inside the wooden structure close to the railroad bridge
749	On a windowsill upstairs in the burned down saloon
750	On a crate right outside the dilapidated shack just east of the water tower
751	On a small windowsill accessible from the rooftop of the Old Greenbank Mill
752	On a rooftop crate in the northwest section of Fort Mercer
753	By a large rock on the Dakota River islet

ICON	NOTES
754	At the foot of a large tree atop the small cliff overlooking Beecher's Hope
755	At the top of Emerald Ranch's windmill tower
756	On a log inside the mountain hut, between the bunk beds and the ladder
757	On the railing at the top of the coal mining facility tower
758	On a shelf in the general store's basement, accessible only during the corresponding shop robbery (see page 181)
759	On a windowsill, on the upper platform in the west corner of the abandoned factory close to the train tracks (you can jump to the platform directly from the ground)
760	Inside the Beaver Hollow cave, in a chest in the westernmost chamber
761	In a lock box at an abandoned campsite in the middle of cactuses
762	At the top of one of four wagons near the three-way crossroads
763	In a hard-to-reach crashed train carriage (see screenshot below)
764	In the abandoned camp at the top of Caliban's Seat
765	In a wardrobe in the basement of the dilapidated house
766	Aged Pirate Rum, Bil Fold, Corn Sack in a lock box on a small ledge just beneath the peak
767	In a lock box upstairs in the mountain hut

## SPECIAL TONICS

Special tonics are unique consumables that enable you to acquire large attribute XP boosts – more precisely, 25% of the XP required to reach the next level. This makes them extremely valuable if you are keen to extend your attribute meters as soon as you possibly can.

Most special tonics are found as collectibles throughout the world, as revealed on this map. A few of them, however, can only be obtained by completing a specific task, as shown in the table in the bottom-right corner.

**720** Follow the path shown here to reach the crashed carriage. Note that there are two instances where you will need to sprint in order to leap the required distance measure these jumps carefully before you commit to them.

**764**

## SPECIAL TONICS LOCATIONS

TYPE	AVAILABILITY	PAGE
<b>Aged Pirate Rum</b> (Starkness XP)	Can be looted from a Lemoyne Raider gang campfire in the wilderness	218
	Reward for giving money to the man during a "Beggar" chance encounter in Saint Denis	226
	Can be looted during a "Moonshine Camp" chance encounter	225
	Reward for mailing the Marvels of Travel set of cigarette cards	202
<b>Ginseng Elixir</b> (Masa XP)	Can be looted from a Skinner gang campfire in the wilderness	218
	Reward for mailing the Artists, Writers, & Priests set of cigarette cards	200
<b>Valerian Root</b> (Dead Eye XP)	Can be looted from an O'Driscoll gang campfire in the wilderness	218
	Loot one during a "Crashed Wagon" chance encounter	224
	Reward for mailing the World Champions set of cigarette cards	207

## CHEST CONTENTS &amp; NOTES

ICON	CONTENTS	NOTES
300	Money	Underneath the southern end of the log bridge on the east shore of Elysian Pool
300	Chewing Tobacco	Under a derelict wagon southwest of Butcher Creek
300	Large Jewelry Bag, Money	Under a log just west of the abandoned wagon
300	Health Cure, Money, Repeater Cartridges, Regular, Special Horse Medicine Pamphlet	In the southeast corner of the abandoned fort
300	Bitters, Large Jewelry Bag, Silver Pocket Watch	By the big log near the river shore
300	Fine Brandy, Money	On the ground, just west of the train tracks
300	Apple, Miracle Tonic, Snake Oil	Next to the crates on the northeast side of the stables
300	Bitters, Money	Under the large bridge on the west shore of Kanassa River
300	Money	In a room accessible from the south side of Aberdeen Pig Farm. You must interact with the inhabitants once on the front porch for the door to be open
300	Miracle Tonic, Money	In a hollow tree stump on the south shore of Barrow Lagoon
300	Large Jewelry Bag, Money	In the small mausoleum east of Shady Belle
300	Cobalt Potsherd Wood, Money	On the cart under the rock overhang northwest of Lake Isabella
300	Guarma Rum	Under a small shelter made of branches in the southwest of Elysian Pool
300	Large Jewelry Bag, Money	In the yellow train carriage that has derailed and fallen from the bridge
300	Large Jewelry Bag, Miracle Tonic, Money, Premium Cigarettes	Look for a pile of abandoned furniture, the chest is under the table
300	Large Jewelry Bag	Underneath the collapsed wall inside the abandoned church
300	Hair Tonic, Kentucky Bourbon	Inside Vytches Carriage, a snack hidden among closely grown trees
300	Gold Nugget x3	By the wagon wreck on the river shore
300	Money, Small Jewelry Bag	Use the farm entrance, under a broken table
300	Canned Vegetable, Guarma Rum	On the abandoned wagon, but in the open
300	Poison Throwing Knife Pamphlet	Hidden beneath a floorboard in the oblong shack
300	Aged Pirate Rum	Inside the shipwreck on Flat Lake's largest island
300	Chewing Tobacco, Money, Special Bitters Pamphlet	Among the crates scattered across the ground just south of Owanjila Dam
300	Money	At the bottom of the old well outside the northernmost dilapidated forest cabin
300	Large Jewelry Bag, Potent Miracle Tonic, Repeater Cartridges - Regular	At the foot of a dead tree with fish strang up on the southeasternmost isle
300	Large Jewelry Bag, Rifle Cartridges	In the shed at Lone Mile Stead, southwest of Bard's Crossing
300	Large Jewelry Bag, Small Jewelry Bag x2	At the foot of a small dead tree atop a rock out
300	Guarma Rum, Rifle Cartridges, Express	Between two wagon wheels, just east of Boiger Blade
300	Jewelry	In the burned-out remains of Asier Ranch
300	Gold Bar, Special Horse Stimulant Pamphlet	Under the desk in the southernmost building of the burned-out settlement
300	Aged Pirate Rum, Money	Atop the northern cliff of Twin Stack Pass
300	Canned Vegetable, Fine Brandy, Potent Bitters, Potent Miracle Tonic	At the foot of the Fire Lookout Tower
300	Gold Bar	A few steps to the east of Cathryn's Brandywine's body (from Chapter 4 onward)
300	Female Fortuity Statue	Beneath the chair on the porch of the Roadside Brothel
300	Aged Pirate Rum, Chewing Tobacco, Money	On the northwest side of Catfish Jackson's in the house's crawl space
300	Jewelry, Money, Valerian Root	Inside the Beaver Hollow cave in the westernmost chamber
300	Money	Upstairs in the Hanging Dog Ranch house, close to the two bunk beds
300	Aged Pirate Rum, Money	At the foot of the small shack southeast of the Shady Belle mansion
300	Ginseng Elixir, Letter to Henrietta Douglas, Letter to Judge Finley, Letter to Minam Wegner, Letter to the Saint Denis Times Tribune, Letter to William Errington	In a mail coach by the road
300	Kentucky Bourbon, Money, Opened Revolver Cartridges	Next to the crashed wagon beneath the bridge
300	Hair Tonic	Inside a tree stump at the back of the north house in Butcher Creek

ICON	CONTENTS	NOTES
300	Money	At the foot of a small stone wall, a short distance north of the graveyard at Ringneck Creek
300	Chewing Tobacco, Cigar x2, Money	At the foot of the ladder on the abandoned wagon
300	Chewing Tobacco, Money	Beneath the wooden floor inside the easternmost shack at Macomb's End
300	Apple, Guarma Rum, Jewelry, Special Health Cure Pamphlet	On the face in Cliff's scaffolding, north of Moonstone Pond
300	Guarma Rum, Money, Volatile Dynamite Pamphlet	At Ham's Bether, beneath a broken wagon just north of the small pond
300	Canned Vegetable, Money, Special Horse Reviver Pamphlet	Inside a tree stump east of Matlock Pond, halfway up to the Haven Ranch
300	Gold Nugget, Small Jewelry Bag	Inside the one chimney south of Elysian Pool
300	Predator Bait, Rifle Cartridges - High Velocity, Special Tonic Pamphlet	By a bloodstained tent on the rocky plateau close to the ridge
300	Dynamite Arrow Pamphlet, Guarma Rum, Large Jewelry Bag	At the base of a small wooden bridge at the south end of the Vagabond Station
300	Chewing Tobacco, Poison Arrow Pamphlet	Just outside the Mysterious Hill Home, northeast of Baucus Station
300	Gold Nugget, Ground Coffee, Miracle Tonic, Volatile Fire Bottle Pamphlet	In an abandoned campsite in the burned forest, northwest of Horseshoe Overlook
300	Guarma Rum, Miracle Tonic, Revolver Cartridges - Regular	Underneath the garden shelves on the west side of the Painted Sky house
300	Kentucky Bourbon, Money, Repeater Cartridges - Regular	Under the bed in a small shack just east of the railway
300	Chewing Tobacco, Ginseng Elixir, Jewelry, Kentucky Bourbon	Beneath the abandoned wagon, between the two three-way crossroads
300	Homing Tomahawk Pamphlet	Inside Fastened Cabin, south of Moonstone Pond
300	Incendiary Buckshot Pamphlet	Beneath a floorboard inside the dilapidated cabin at Copperhead Landing
300	Canned Fruit, Canned Vegetable	Under an abandoned wagon, southeast of Judge's Gap
300	Herbivore Bait, Valerian Root	In an abandoned campsite surrounded by cactuses
300	Pistol Cartridges - High Velocity, Repeater Cartridges - High Velocity, Rifle Cartridges - High Velocity	At the foot of the abandoned wagon north of Lake Jon Judo
300	Ginseng Elixir, Pistol Cartridges - High Velocity, Repeater Cartridges - High Velocity	On the abandoned white wagon, one of five wagons forming a circle to the northwest of Mercer Station
300	Repeater Cartridges - High Velocity, Rifle Cartridges - High Velocity, Explosive Sack Pamphlet	Right outside the burned-down house of an alchemist, not far from the train tracks
300	Gold Nugget, Valerian Root	At the foot of one of four wagons near the three-way crossroads
300	Pistol Cartridges - Express, Repeater Cartridges - High Velocity	Inside the Abandoned Mission north of Fairview
300	Aged Pirate Rum, Gold Nugget, Potent Miracle Tonic	Under the bed, inside the blacksmith's workshop at MacFarlane's Ranch
300	Money, Opened Miracle Tonic, Wedding Ring	Under the bed, inside the Rio Del Lobo House, northeast of Rio Del Lobo Rock
300	Crackers	Under the bunk bed inside Benedict Point's southernmost cabin

## CHESTS &amp; LOCK BOXES

Many chests and lock boxes are scattered across the world map, and some have been concealed with great care and imagination. They tend to contain valuable items including jewelry, recipe pamphlets, cash, and consumables that boost your attribute XP.

## CHEST CONTENTS &amp; NOTES (CONTINUED)

ICON	CONTENTS	NOTES
300	Potent Miracle Tonic, Rifle Cartridges - High Velocity	Under the bed, inside the Silent Stead shack, not far from the train tracks
300	Large Jewelry Bag	In the cave behind the Elysian Pool waterfall, equip your lantern and go down the path on your right in the first chamber, crouch-walk through the little tunnel at the bottom of the crevasse, then take a right twice to reach a small abandoned campsite
300	Special Snake Oil Pamphlet	Beneath a floorboard in the small shack right by the train tracks
300	Aged Pirate Rum	On an elevated rock ledge hidden behind the Brandywine Drop waterfall
300	Gold Nugget, Platinum Pocket Watch, Jewelry	On the crates inside Fairvale Shanty
300	Coin Sack, Aged Pirate Rum	Upstairs in the mountain hut
300	Aged Pirate Rum, Bill Fold, Coin Sack	On a small ledge just beneath the peak

# GANGS

As you explore the world and progress in the main storyline, you will run into enemy gangs more and more frequently. The most significant types of encounters are listed here.

★ **Ambushes:** Ambushes are set-piece events that occur randomly (but within a set of predefined possible locations) during your travels. In these scenes, an enemy gang blocks the road or attacks you, by surprise, making conflict unavoidable. You can of course flee, though this is rarely practical if you are heading to a specific destination. As a rule, fighting from horseback is highly inadvisable, not only is it impossible to take cover while riding, but a stray bullet could also wound or kill your mount. The best course of action is to dismount and sprint to the closest cover position before engaging your enemies. Feel free to loot your victims after each shootout, if only to replenish your stocks of ammo, but be swift to depart afterwards to avoid sightings by potential witnesses or lawmen.

★ **Chance Encounters:** There are also many chance encounters that involve enemy gangs. Like ambushes, they are triggered randomly as you travel but with one key difference: here, you are not the target of the enemy gangs. You will find them robbing a coach or an innocent citizen, for instance, and it is up to you to decide if you wish to get involved. We cover all chance encounters in a dedicated section later in this chapter (see page 223).

★ **Hideout Captures:** Hideouts are strongholds occupied by enemy gangs that you can capture by eliminating all foes within the designated area to obtain valuable items.

• Main story missions have you conquer four hideouts: **Six Point Cabin** (Chapter 2, "Paying a Social Call"); **Shady Belle** (Chapter 3, "The Battle of Shady Belle"); **Beaver Hollow** (Chapter 5, "That's Murfree Country"); and **Hanging Dog Ranch** (Chapter 6, "Mrs. Sadie Adler, Widow"). If you head to these hideouts before the corresponding point in the plot, you actually can clear them of all gang members to score a capture. Note that Beaver Hollow is retaken by the Murfrees during the Epilogue.

• There are two additional hideouts, both in the State of New Austin that you can capture after you complete Chapter 6: **Thieves Landing** and **Fort Mercer**. A bonus hideout, **Twin Rocks**, is available only for owners of the Special/Limited Edition of the game.

As a rule, capturing a hideout is no simple task. Enemies in these strongholds are plentiful, enjoy all sorts of cover positions, and can flank you if you press forward too quickly. They may also have access to powerful weapons. It is therefore in your best interests to make careful preparations before you launch an assault. Your best guns, large stocks of ammunition and tonics, and a full Dead Eye meter are

all warmly recommended. Always fight from a solid cover position and take out your opponents with quick headshots by flicking **R** every time you lock on. Once you clear an area, push forward to the next cover position in line and repeat. Note that you need to capture all six hideouts if you are striving towards total completion.

★ **Campfires:** You will also regularly encounter small enemy gang camps in the wilderness. These are essentially simplified versions of the hideout captures. It's usually a good idea to make a quiet approach to reach a convenient cover spot, then open hostilities with a surprise headshot. These skirmishes are usually worth the risk, as they give you a chance to loot supplies and, in most instances, a small chest containing valuables.

The map on this double-page spread shows the territories of each gang (with icons pinpointing the locations where ambushes, chance encounters, and campfires can randomly occur), as well as the positions of hideouts that can be captured.

## OTHER AMBUSHES

In addition to the main gangs, you will occasionally be ambushed by generic outlaws and, during Chapter 6, by Pinkertons. These encounters work exactly in the same manner as those involving gangs. You are free to escape if you do not wish to fight.

Note that the O'Driscoll spawn points become generic outlaw ambush locations from Epilogue 1 onward.

ICON	GANG EVENT POSSIBLE SPAWN POINTS
	O'Driscolls
	Murfree Brotherhood
	Lemayne Raiders
	Skinner Brothers
	Laramie
	Night Folk

# TABLE GAMES

You can play table games in many towns and settlements. See our map on the right-hand page for an overview of all locations.

## POKER

The aim of poker is to win the pot. This can be achieved by having the best card combinations, or by hoodwinking your opponents with your betting strategy.

Each player is initially dealt two cards. These are known as **hole cards** and are kept secret from the other players.

As you progress through each round, shared cards are dealt to the center of the table. These can be seen by everybody and are known as **community cards**.

A player's hand rank comes from the strongest five-card combination of any of their hole cards and any community cards – see "Hand Ranks (Strongest to Weakest)".

To start, the two players to the left of the dealer must put in a mandatory bet each, called the **small blind** and the **big blind**. The dealer then deals two hole cards to all players, and the first betting round starts.

During a betting round players take turns, moving clockwise around the table. The following actions are possible:

- ★ **Check:** A check is equivalent to betting zero. This is only possible when no one has bet or raised in the current betting round. A player who checks remains in the game and reserves the right to call or raise later. If all players check during a round of betting, the round is considered complete.
- ★ **Bet:** If a player bets, subsequent players must at least match this amount to remain in the hand.
- ★ **Call:** If a player calls, he or she matches the current bet made by opponent(s).
- ★ **Raise:** A raise means the player is increasing the amount of the current bet. A raise must be at least double the value of any previous raise (or of the big blind if no bet has been made in a round). Subsequent players must at least match this amount to remain in the hand.
- ★ **Fold:** A player who folds forfeits all interest in the pot and drops out.
- ★ **All In:** A player places all of their chips in the pot and cannot take any further action until the end of the hand. If an all-in player doesn't have enough chips to call the current bet, they are only eligible for a portion of the pot.
- ★ **Auto Bet:** When waiting for your turn, hold to preset the action you would like to take. This can be cancelled using the same command.

The game progresses as follows:

- ★ **Preflop:** After the blinds have been posted and the hole cards dealt, the first betting round starts.
- ★ **Flop:** Three community cards are dealt, and another betting round takes place.
- ★ **Turn:** A fourth community card is dealt, followed by a betting round.
- ★ **River:** A fifth community card is dealt, followed by a betting round.
- ★ **Showdown:** On reaching the end of the final betting round, the players reveal their cards. The player with the best hand ranking wins the pot. If multiple players share the same hand rank, the remaining "kicker" cards are taken into account. If some players still share the best hand even after taking kickers into account, the pot is split between them.

## HAND RANKS (STRONGEST TO WEAKEST)

	<b>ROYAL FLUSH</b>
An ace, king, queen, jack and 10 – all of the same suit.	
	<b>STRAIGHT FLUSH</b>
Five cards in sequence, all of the same suit.	
	<b>FOUR OF A KIND</b>
Four cards of the same rank, and one side card or "kicker"	
	<b>FULL HOUSE</b>
Three cards of the same rank, and two cards of a different, matching rank.	
	<b>FLUSH</b>
Five cards all of the same suit.	
	<b>STRAIGHT</b>
Five cards in sequence of different suits.	
	<b>THREE OF A KIND</b>
Three cards of the same rank, and two unrelated side cards.	
	<b>TWO PAIR</b>
Two cards of matching rank, another two cards of a different matching rank, and one side card.	
	<b>ONE PAIR</b>
Two cards of the same rank, and three unrelated side cards.	
	<b>HIGH CARD</b>
Any hand that doesn't qualify under a category listed above.	

## BLACKJACK

Your goal in blackjack is for the total value of your hand of cards to attain a score as close as possible to 21 without going over ("busting").

At the start of each round, each player chooses how much they want to bet on their hand. The players and dealers are dealt two cards each. Player cards are dealt face up, but one of the dealer's cards is initially hidden.

Each player has one turn during which they have up to four options:

- ★ **Hit:** The dealer adds another card to your hand.
- ★ **Stand:** Ends your turn without taking another card.
- ★ **Double Down:** Only possible if you have two cards in hand, this doubles the value of your current bet and gives you one – and only one – additional card.
- ★ **Split:** Only possible if your first two cards have the same value, this separates your cards into two hands played independently, each with a bet value equal to your initial bet.

Once all player turns are finished, the dealer will reveal their hidden card. If their score is less than 17, the dealer will hit; if it's 17 or more, the dealer will stand. Players will win if their score is closer to 21 than the dealer's score or if the dealer busts. If a player and a dealer have the same score, the hand is a "push" and the player retrieves their chips.

## CARD VALUES

CARD	VALUE
Number card 2 to 10	Face value (2 to 10)
King, Queen, Jack	10
Ace	1 or 11 (whichever puts the hand's score closest to 21 without busting)

If the first two cards of a player's hand are an ace and any ten-value card, that player has a blackjack (a score of 21). A blackjack is an automatic win unless the dealer also has blackjack, in which case the hand is a push. A blackjack win pays 3:2 instead of the usual 1:1 payment for a winning hand. Note that a split hand is not considered a blackjack even if it has an ace and a ten-value card.

If the dealer's face-up card is an ace, you will be given the option of buying insurance for up to half of your current bet. If the dealer does have a blackjack, you win 2:1 on your insurance bet but lose your initial bet and the round is over. If the dealer does not have blackjack, all insurance bets are lost and the round continues as normal.

If you have a blackjack when insurance betting starts, you have the option of taking even money. This immediately pays out 1:1 on your initial bet. Otherwise, the standard rules apply.

## DOMINOES

A standard game of dominoes is called Draw, where your aim is to be the first player to down all of your dominoes. There are 28 unique tiles in a set. Each player begins with seven, drawn at random, and any remaining dominoes are placed into the **boneyard**.

Dominoes are placed face down or in a rack facing the player so that all players can see how many tiles their opponents have remaining but can only see the **piPs** (the dots on each tile) for their own allocation.

The player who has drawn the highest double begins the game by placing it face up in the middle of the table. If no player has a highest double, the player with the highest-value tile will go first. This creates a **line of play** and the other players, in turns, extend it by selecting tiles from their hand with a matching number of pips on one side and place them at the ends.

If a player can't place any of their tiles on their turn, they must draw a new one from the boneyard until they get a playable tile. Once the boneyard is empty, they pass. Play goes on like this until one player wins the round by downing their last tile.

If no player can make a move, the round is blocked and the winner is the player with the lowest pip count on the remaining tiles.

A canny player will be able to guess what their opponents are holding by surveying the tiles already downed and noting when other players have to draw or pass. This allows for strategic moves to block other players, or save more valuable tiles for later.

The winner's score is the total pip count of all the dominoes the losing players have in their hands. Games continue with new rounds until a player reaches the target score of 60.

There are a few variants that follow the same core of rules with a twist, as described here:

- ★ **Block:** There is no boneyard, so players cannot draw new tiles.
- ★ **All Threes:** Points can be earned at the end of every turn by totaling the number of pips at each open end of the line of play. If this "edge" value is a multiple of three, then the player scores that number of points. The winner of a round receives the total of their opponents

piPs, rounded up or down to the nearest three. Games continue until a player reaches the target score of 90.

- ★ **All Fives:** Same rules as All Threes, but players score points when the edge score is a multiple of five. The winner of a round receives the total of their opponents' pips, rounded up or down to the nearest five. Games continue until a player reaches the target score of 100.

- ★ **Spinners:** Doubles are played as "spinners", at a right angle to other tiles, so that players can place tiles on any of the four sides, causing the line of play to branch out.

## FIVE FINGER FILLET

Five Finger Fillet is a test of courage and coordination. Each player places one hand, outstretched, palm down, on a table and then stabs a knife back and forth between the fingers, aiming to move quickly and without causing injury.

A sequence of buttons (one "lap") will be displayed onscreen. Press the buttons when prompted as fast as you can, pressing the wrong button or hesitating for too long will cause you to stab your hand. Each time you complete one full lap, you have an opportunity to press **L1** / **L2** to show off and perform a trick.

At the beginning of each game, you must place a bet. If you win the game, you take the pot. New opponents will raise the betting stakes and the difficulty.

There are three variations: Classic, Guts, and Burnout. Finish first in two rounds to win a game.

- ★ **Classic:** Complete a set number of laps in a faster time than your opponent. You get five attempts; if you fail an attempt, the timer is reset and you restart from the beginning.

- ★ **Guts:** Complete the most laps in a 20-second time limit.

- ★ **Burnout:** Complete the most laps in 30 seconds with no mistakes and in a single attempt.

Note that you can learn the sequence of buttons by watching as your opponent plays: hold **R2** / **RT** during their turn.

# CHANCE ENCOUNTERS

Chance encounters are short scenes or gameplay sequences that you will stumble across during your travels, both in the wilderness and in towns. Many of them can be completed in a variety of ways, with each option leading to a different outcome – particularly in terms of how your honor is affected.

All chance encounter opportunities appear on your radar as temporary gray blips. Whenever you notice one of these, move closer if you want to get involved or to witness the scene, or move away if you do not.

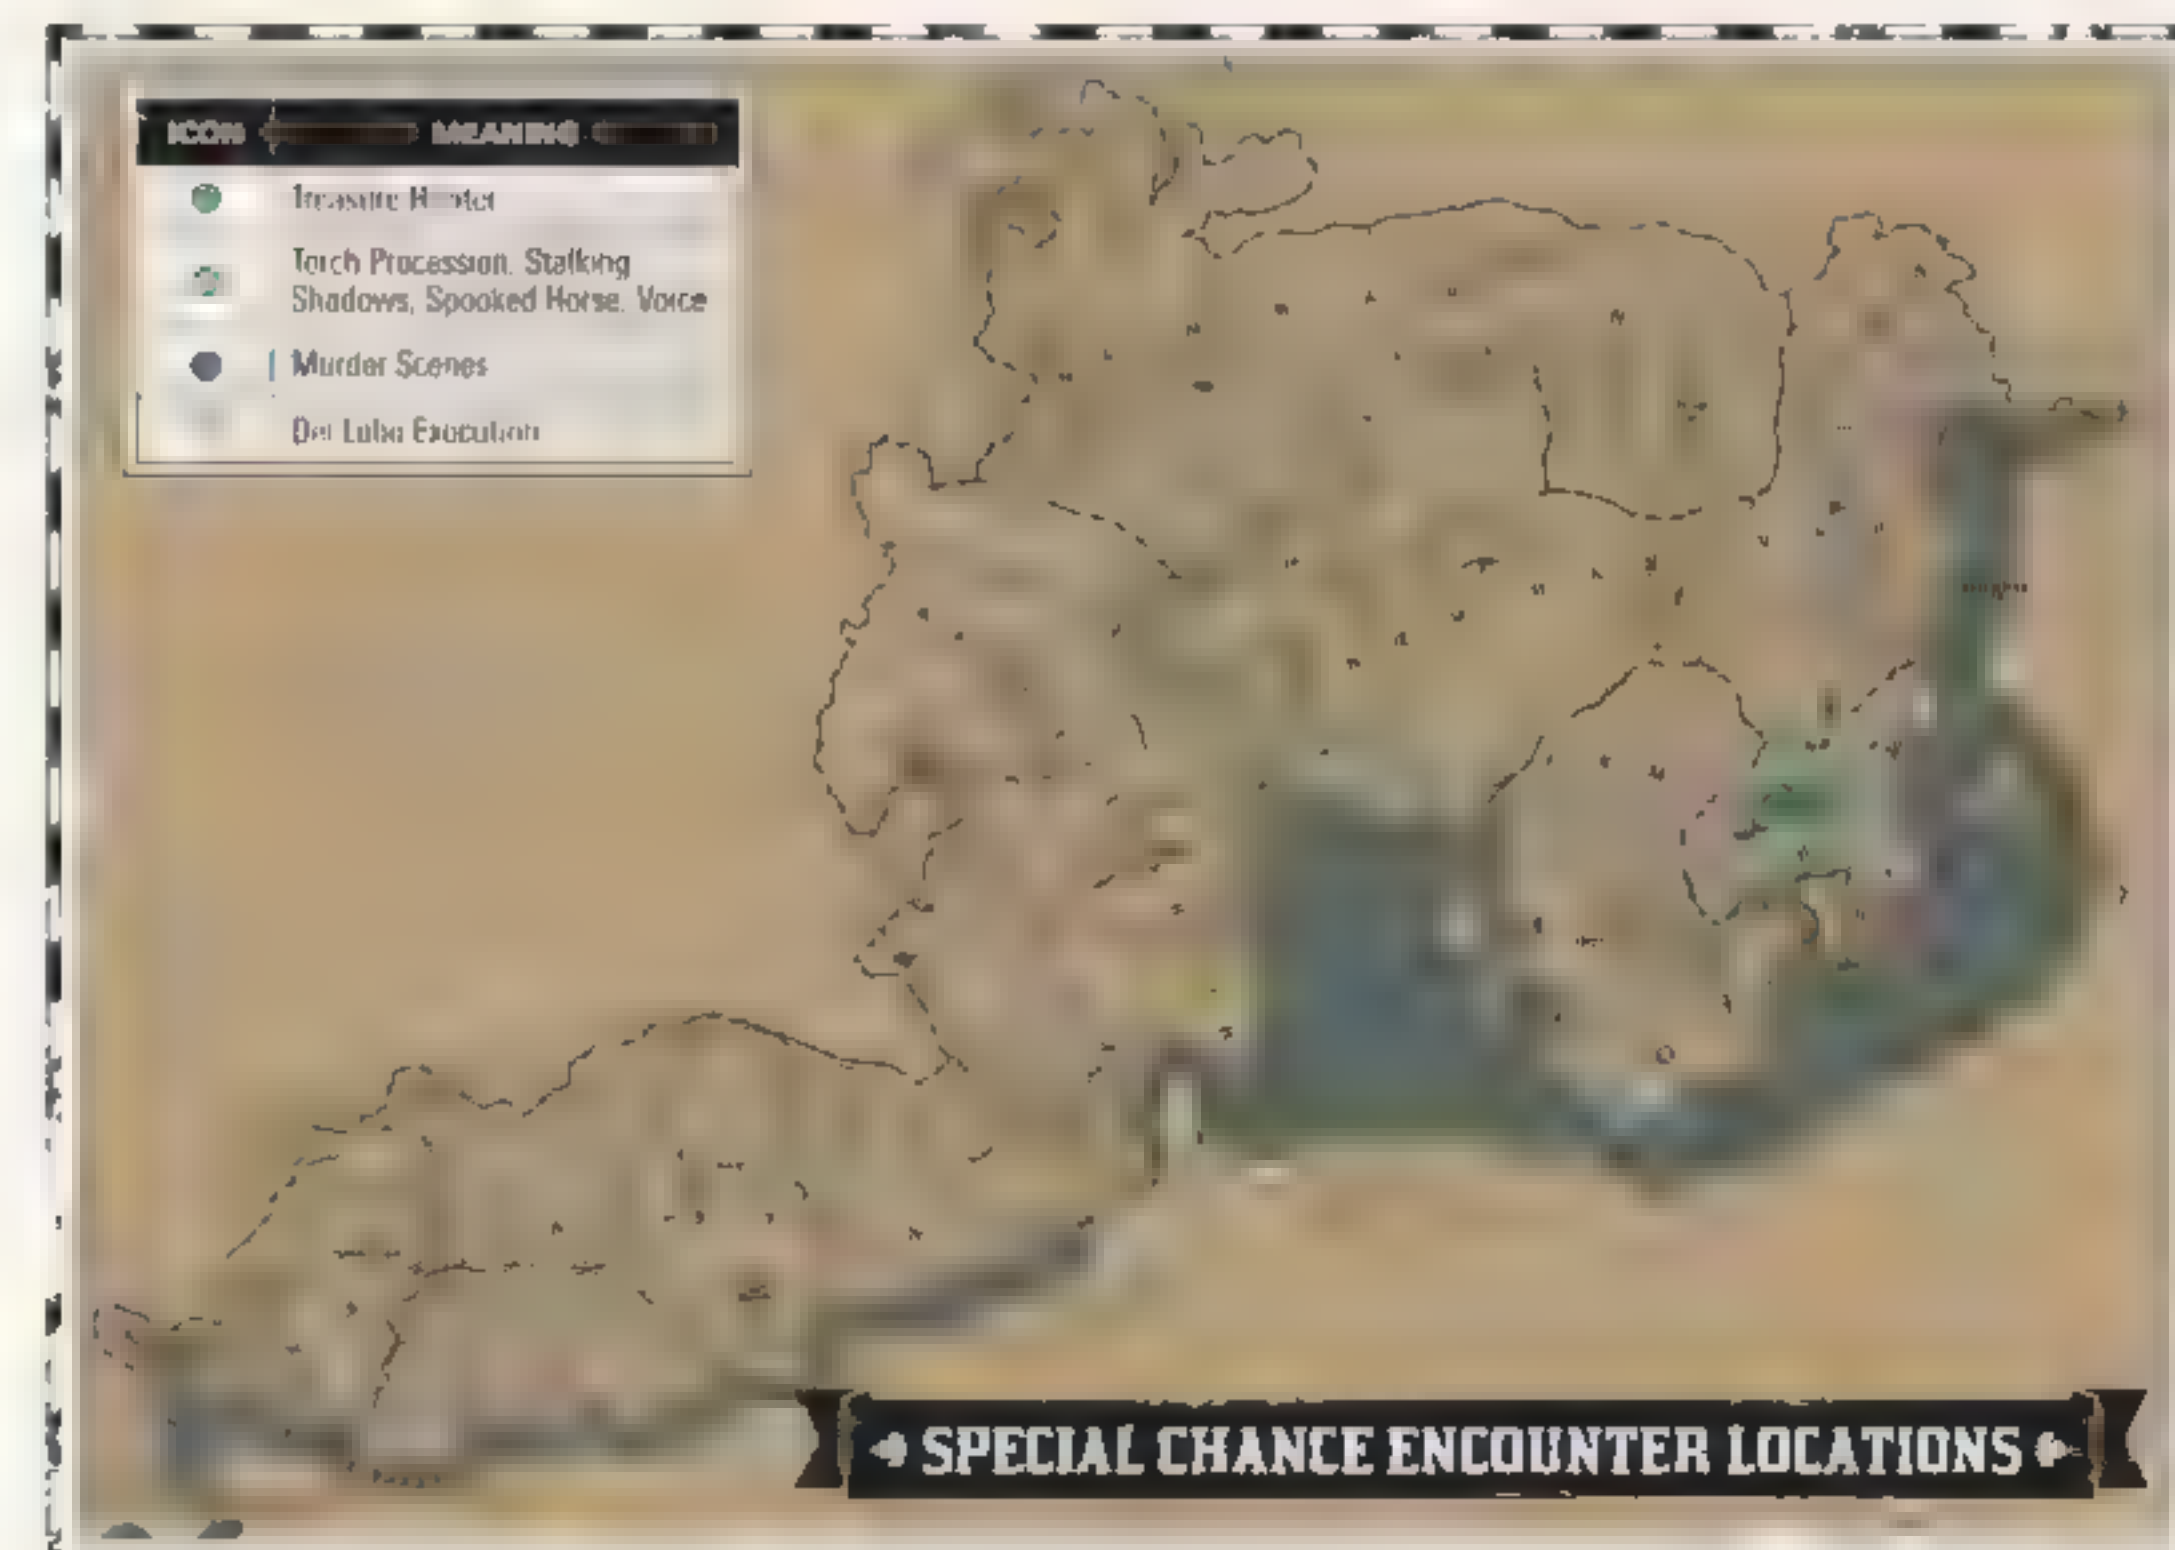

## SPECIAL CHANCE ENCOUNTERS

A few chance encounters are unique in that they will unlock extra missions upon completion. The map on this page reveals the locations where these take place.

### SPECIAL CHANCE ENCOUNTERS

NAME	DESCRIPTION	MISSION UNLOCKED
Treasure Hunter	A man is looking at a map and using binoculars. You need to loot the map from him.	"High Stakes Treasure" (treasure hunt) – see page 197
Any one of: Torch Procession, Stalking Shadows, Spooked Horses, Spooked	These chance encounters all involve minor confrontations with the Night Folk gang in the Bayou region.	"A Fine Night for It" (stranger mission) – see page 191
Murder Scenes	Three different murder scenes to find, with each one, a map can be retrieved from the victim's head.	"American Dreaming" (stranger mission) – see page 191
Del Lobo Execution	A deputy turns in a Del Lobo in Tumbleweed, and the sheriff executes the outlaw. This is available from Epilogue II onward.	"Vaquero Arroyo" & "Esteban Cortez" (two bounty hunter missions) – see page 185

## WILDERNESS CHANCE ENCOUNTERS

NAME	DESCRIPTION	NOTES
<b>Animal Attack</b>	A person is surrounded by predators	<ul style="list-style-type: none"> <li>+10 honor if you save them</li> <li>-10 honor if you watch them get killed</li> <li>5 honor if you leave</li> <li>20 honor if you save and then murder them</li> </ul>
<b>Animal Mauling</b>	A man is being mauled by a predator	<ul style="list-style-type: none"> <li>+2 honor if you scare off the predator</li> <li>+2 honor if you give the man medicine</li> <li>+2 honor if you give the man whiskey</li> <li>+2 honor for killing him if he asks you to end his suffering</li> <li>-5 honor if you watch him get killed</li> <li>-5 honor if you leave</li> </ul>
<b>Approach</b>	A man asks for help, but then attempts to steal your horse.	+2 honor if you offer your help
<b>Arms Deal</b>	Outlaws are buying a wagon full of weapons.	You can collect ammunition from the chest in the wagon
<b>Bear Trap</b>	A man has his foot stuck in a bear trap.	<ul style="list-style-type: none"> <li>+10 honor if you save him, and +5 if you give him some whiskey</li> <li>20 honor if you watch him bleed out</li> <li>-5 honor if you leave</li> <li>-2 honor if you steal from him before helping</li> <li>-20 honor if you save and then murder him (-1 if you steal his horse)</li> </ul>
<b>Boat Attack</b>	Murfreys are dumping a dead body in a lake.	There is no reward for attacking them, other than what you might loot from their bodies
<b>Booby Trap</b>	You fall in a hidden hole in the ground and are attacked by ambushers	Jump to climb out of the hole
<b>Bounty Transport</b>	Two bounty hunters transport a wanted man	<ul style="list-style-type: none"> <li>+5 honor for turning in the bounty yourself</li> <li>No honor consequences for killing the bounty hunters or freeing the wanted man, though the latter might reward you with a tip on a nearby robbery opportunity</li> <li>-2 honor for killing the bounty while he's tied up</li> </ul>
<b>Burning Bodies*</b>	A man at Coots Chapel who has too many bodies to bury has taken to burning them instead	-15 honor if you kill the man
<b>Camp Attack</b>	Murfreys or Skinners take you by surprise while you camp in their territory	There are two possible variations: either they give you a warning, or they attack
<b>Camp Stranger</b>	A strange woman approaches while you camp in the wilderness and asks to join you	<ul style="list-style-type: none"> <li>+5 honor for allowing her to sit by the fire</li> <li>-2 honor for making her run off</li> <li>10 honor for killing her</li> <li>-5 honor for antagonizing her after allowing her to stay</li> </ul>
<b>Campfire Ambush</b>	Murfreys ambush you as you investigate a campfire	Dead Eye can be useful to take them down when they hold you up.
<b>Chain Gang</b>	A group of prisoners using pickaxes to strike rocks kill the guards watching over them and escape	-8 honor for killing each lawman
<b>Checkpoint</b>	Lemoyne Raiders are checking a wagon on the road looking for federal supplies to steal	<ul style="list-style-type: none"> <li>+5 honor for intervening</li> <li>10 honor for killing the driver</li> <li>-1 honor for stealing the wagon</li> </ul>
<b>Coach Robbery</b>	A gang is robbing a coach	<ul style="list-style-type: none"> <li>+10 honor if you intervene and save the victims</li> <li>+2 honor if you intervene but the occupants still die</li> <li>10 honor if you allow the passengers to be murdered</li> <li>-5 honor if you leave</li> <li>You can find a few random collectibles in the lock box at the back of the coach</li> </ul>
<b>Corpse Cart</b>	Murfreys are transporting dead bodies, but one of the victims is still alive and calls out	<ul style="list-style-type: none"> <li>+10 honor for saving the victim</li> <li>5 honor for not saving the victim</li> </ul>
<b>Crashed Wagon</b>	A drunk has crashed his wagon and asks you to watch his stuff while he walks back to town	<ul style="list-style-type: none"> <li>+2 honor for agreeing to watch his wagon</li> <li>2 honor for stealing from his wagon if you don't agree to help</li> <li>5 honor for stealing from his wagon if you do agree to help</li> <li>You can steal a veteran root from the lock box close to the wagon (only possible once)</li> <li>In a variation of this event, two outlaws argue over whose fault the accident is</li> </ul>
<b>Del Lobo Posse</b>	You run into Del Lobo riders	Only available from Epilogue 1 onward
<b>Drunk Camp</b>	A drunk asks you to sit at his camp and asks for whiskey	If you give him whiskey, the man will tell you about Fort Riggs
<b>Escort</b>	A woman is stranded in the wilderness after the death of her horse, and asks you to take her home	<ul style="list-style-type: none"> <li>+10 honor for helping her</li> <li>-2 honor if you ignore her or decline to help</li> <li>-20 honor for killing her</li> <li>-5 honor for terrorizing her</li> </ul>
<b>Executions</b>	Lemoyne Raiders are poised to execute federal employees	<ul style="list-style-type: none"> <li>+10 honor for successfully saving the victims</li> <li>+2 honor for intervening</li> <li>-5 honor if you watch the victims get killed</li> </ul>
<b>Fleeing Trespasser</b>	A trespasser from the Gray or Brathwaite family is being chased by the opposing family	You can assist the pursuers by stopping the trespasser
<b>Friendly Outdoorsman</b>	A man inspecting a plant	If you approach, he'll share his knowledge of the plant with you
<b>Frozen to Death</b>	Settlers that didn't survive the cold weather	You can loot a document from the small camp
<b>Fussar Chase</b>	Two islanders making a run for it with Fussar's men in pursuit	<ul style="list-style-type: none"> <li>+5 honor for saving the islanders from Fussar's men</li> <li>Only available during Chapter 5</li> </ul>
<b>Gold Panner</b>	A lone man is panning for gold near a river	<ul style="list-style-type: none"> <li>If you wait long enough, the man might find a gold nugget</li> <li>-2 honor if you steal the gold nugget</li> </ul>
<b>Horse Race</b>	A rider challenges you to a race to the nearest landmark	<ul style="list-style-type: none"> <li>-2 honor for kicking or attacking your rival during the race</li> <li>-10 honor for killing your rival after agreeing to the race</li> </ul>
<b>Hostage Rescue</b>	Someone on the side of the road asks you to rescue their spouse from thugs in a nearby shack	<ul style="list-style-type: none"> <li>+10 honor for saving the victim</li> <li>10 honor for killing the person asking for help</li> <li>10 honor for watching the victim get killed</li> <li>10 honor for killing the victim when they are tied up</li> <li>20 honor for killing the victim after saving them</li> </ul>
<b>Hunter</b>	A hunter is tracking an animal	<ul style="list-style-type: none"> <li>Bear version only: +5 honor for saving the man's life when the bear charges him</li> <li>-20 honor for killing him after helping; -1 honor for looting him</li> <li>You can skin the bear after killing it</li> </ul>

\* Only available from Epilogue 1 onward

## WILDERNESS CHANCE ENCOUNTERS (CONTINUED)

NAME	DESCRIPTION	NOTES
<b>Inbred Kidnap</b>	Two Murfreys are kidnapping a woman	<ul style="list-style-type: none"> <li>+10 honor for saving the victim</li> <li>+5 honor for giving the victim a ride home</li> <li>5 honor for failing to take her home after agreeing to do so</li> <li>5 honor for saving her and not freeing her right away</li> <li>10 honor for watching without helping</li> <li>20 honor for saving then murdering her</li> </ul>
<b>Injured Rider</b>	A dying man falls off his horse and needs to be taken to the doctor	<ul style="list-style-type: none"> <li>+10 honor for taking the man to the doctor if he's still alive; this might later trigger a Public Hanging chance encounter</li> <li>-5 honor for killing the man</li> </ul>
<b>Kidnapped Victim</b>	A man is riding by, a tied-up victim on the back of his horse screams for help	<ul style="list-style-type: none"> <li>+10 honor for saving the victim</li> <li>5 honor for saving her but not freeing her right away</li> <li>20 honor for saving her then killing her</li> <li>5 honor for not helping</li> </ul>
<b>Laramie Gang Rustling*</b>	The Laramie gang is harassing ranchers and killing their cattle	<ul style="list-style-type: none"> <li>+2 honor for intervening</li> <li>+10 honor for killing the Laramie and saving the victims</li> <li>20 honor for killing the victims after saving them</li> <li>-5 honor for watching and not helping</li> </ul>
<b>Locked Safe</b>	Two outlaws are trying to break a safe open	Wait until they open the safe to claim its contents, or blow it up yourself with dynamite if you prefer
<b>Lone Prisoner</b>	A lone prisoner asks you to free him from his shackles	<ul style="list-style-type: none"> <li>+5 honor for shooting the chains</li> <li>You can hogtie him and turn him in at any sheriff's station to receive a bounty payment</li> </ul>
<b>Lost Friend</b>	A man is searching for his lost friend	<ul style="list-style-type: none"> <li>Use Eagle Eye to find the friend, frozen, in the high-walled area</li> <li>+5 honor for informing the man that his friend is dead</li> <li>-2 honor for refusing to help</li> </ul>
<b>Lost Man</b>	A man is lost and asks you to lead him to the closest town	<ul style="list-style-type: none"> <li>He will tell you a story on the way</li> <li>+5 honor for helping him</li> <li>-2 honor for refusing to help him from Chapter 6 onward</li> </ul>
<b>Moonsilver Camp</b>	Two moonshiners offer payment in exchange for collecting plants	<ul style="list-style-type: none"> <li>Use Eagle Eye to find the plants</li> <li>-2 honor for helping them, along with a cheat reward: aged pirate rum the first time</li> <li>There are three different murder scenes to find. In each one there is a map hidden in the victim's head</li> <li>Finding all three clues unlocks the "American Dreams" stranger mission (see page 191)</li> </ul>
<b>Murder Scene</b>	You run across a murder scene	
<b>Naked Swimmer</b>	A naked swimmer arrives as you fish	If you greet him, he will point you to a fishing spot with large specimens to catch
<b>Outlaw Looter</b>	A man is looting a dead body	No special considerations, act as you please
<b>Outlaw Transport</b>	Outlaws open fire on a prisoner wagon and free one of their own who is locked inside	No special considerations, act as you please
<b>Poisoned</b>	A man is vomiting after eating something poisonous and asks for medicine	<ul style="list-style-type: none"> <li>+5 honor for saving him</li> <li>-5 honor for watching him die</li> <li>-5 honor for ignoring him</li> <li>-20 honor for killing him after helping</li> <li>You can find the herb he ate nearby</li> </ul>
<b>Posse Breakout</b>	Bill has been captured by bounty hunters	<ul style="list-style-type: none"> <li>+5 honor for freeing Bill</li> <li>-2 honor if you don't agree to go help Bill</li> <li>There are items and valuables to loot in the camp</li> </ul>
<b>Prison Wagon</b>	A prisoner being transported in a wagon asks for help	<ul style="list-style-type: none"> <li>+10 honor for freeing the prisoner</li> <li>-5 honor for killing each lawman</li> <li>If you help the prisoner(s), they might reward you with a tip on a nearby robbery opportunity</li> </ul>
<b>Rally Ceremony</b>	A new member is being accepted into the order	+2 honor for breaking up the rally
<b>Rally Dispute</b>	A handful of hooded rally members argue over a meeky turnout	+2 honor for breaking up the rally
<b>Rally Setup</b>	Hooded rally members struggle to put up a cross	+2 honor for breaking up the rally
<b>Target Practice</b>	Lemoyne Raiders are taking target practice	No special considerations, act as you please
<b>Road Ambush</b>	Enemy gang members ambush you as you ride on a road at night	No special considerations, act as you please
<b>Savage Aftermath*</b>	The horrific aftermath of an attack on a campsite perpetrated by Skinners	<ul style="list-style-type: none"> <li>There are two possible variations. In the version with a scalped man bleeding out, +5 honor for putting him out of his misery</li> <li>In the version where the only survivor is a dog next to his dead owner, -5 honor for killing the dog</li> </ul>
<b>Savage Fight*</b>	Skinners are attacking a campsite	<ul style="list-style-type: none"> <li>+2 honor for intervening</li> <li>+5 honor for successfully saving the victims</li> <li>-5 honor for watching the victims get killed</li> <li>There are a few items to collect in the camp</li> </ul>
<b>Savage Wagon*</b>	You run into a wagon whose driver and passenger have been killed by Skinners.	No special considerations, act as you please
<b>Sharpshooter</b>	A man engaged in target practice offers you a friendly wager on who is the better marksman.	<ul style="list-style-type: none"> <li>-2 honor if you cheat</li> <li>5 honor if you try to rob him</li> <li>-5 honor if you kill him or run away without paying after losing</li> <li>Use Dead Eye if you struggle</li> <li>If you win, the man will want to raise the stakes when you meet him again. Walking away without taking the winnings will reward you with honor</li> </ul>
<b>Shipping Stones</b>	A miserable boy is shipping stones	<ul style="list-style-type: none"> <li>You can listen to his story if you greet him</li> <li>This event can happen again years later, during or after the Epilogue</li> </ul>
<b>Snake Bite</b>	A man has been bit by a snake and asks for help	<ul style="list-style-type: none"> <li>+20 honor if you save his life. This might later trigger the Consequence chance encounter in the nearest town</li> <li>-5 honor if you watch him die</li> <li>5 honor if you ignore him</li> <li>20 honor for killing him after helping.</li> </ul>
<b>Spooked Horse</b>	Your horse is spooked by the body of a dead horse left by Night Folk.	This is one of the chance encounters required to trigger the "A Fine Night For It" stranger mission (see page 191).
<b>Stalking Shadows</b>	A man spooks your horse and crosses the road.	<ul style="list-style-type: none"> <li>If you follow the man, your horse will buck you off and Night Folk members will ambush you</li> <li>This is one of the chance encounters required to trigger the "A Fine Night For It" stranger mission (see page 191).</li> </ul>

\* Only available from Epilogue 1 onward

## WILDERNESS CHANCE ENCOUNTERS (CONTINUED)

NAME	DESCRIPTION	NOTES
Stranded Rider	A man is trying to remove something from his horse's hoof.	<ul style="list-style-type: none"><li>There are two variations of this event. In one, the horse kicks the man, who dies. In the other, the horse runs off and you can help by returning it to the man.</li><li>+5 honor for bringing back his horse</li><li>-2 honor for refusing to help him</li><li>-10 honor for killing him after agreeing to help him</li></ul>
Torch Procession	Two Night Folk are dumping a dead body in the swamps.	<ul style="list-style-type: none"><li>This is one of the chance encounters required to trigger the "A Fine Night For It" stranger mission (see page 151).</li></ul>
Torturing Captive	Two Murfrees are torturing an innocent tied to a tree.	<ul style="list-style-type: none"><li>+2 honor for intervening</li><li>+10 honor for cutting him free</li><li>-5 honor for watching the victim get killed</li><li>-5 honor for ignoring the victim</li></ul>
Train Holdup	Enemy gang members are robbing a train with their victims lined up.	<ul style="list-style-type: none"><li>+2 honor for intervening</li><li>-5 honor for watching the victims get killed</li></ul>
Trapped Woman	A woman is trapped under her horse and asks for help.	<ul style="list-style-type: none"><li>There are two variations: either the woman really does need help, or she's the bait in an impending ambush.</li><li>+5 honor if you help her</li><li>+5 honor if you take her home</li><li>-5 honor if you refuse to help</li><li>-5 honor for failing to take her home after agreeing to do so</li><li>-10 honor if you kill her while she's trapped</li><li>-20 honor if you save and then murder her</li><li>Trap variant only: -5 honor for killing the woman before knowing it's a trap</li></ul>
Treasure Hunter	A man is looking at a map and using binoculars.	<ul style="list-style-type: none"><li>You need to steal his map to initiate the High Stakes Treasure Hunt.</li><li>-5 honor for stealing the map</li></ul>
Voice	While traveling through the swamp at night, you hear someone crying for help.	<ul style="list-style-type: none"><li>Follow the voice to find the person in distress. When you try to help with <b>A</b> or <b>V</b>, you are ambushed by the Night Folk.</li><li>This is one of the chance encounters required to trigger the "A Fine Night For It" stranger mission (see page 151).</li></ul>
Wagon Threat*	The Laramie gang are robbing a wagon and threatening its owners.	<ul style="list-style-type: none"><li>+10 honor for saving the victims</li><li>-10 honor for watching the victims get killed</li><li>-5 honor for riding off</li><li>-20 honor for saving then killing them</li></ul>
Washed Ashore	You encounter a small wrecked boat.	<ul style="list-style-type: none"><li>There are multiple valuables to collect around the boat, as well as a letter to Bonnie MacFarlane.</li></ul>
Wild Men	You run into a naked and crazed man who grew up in the wild with wolves in Roanoke Ridge.	<ul style="list-style-type: none"><li>After two encounters, you can follow him back to his den where you can pick up a few minor collectibles.</li><li>-2 honor for killing the man</li><li>-2 honor for going into his den and killing the wolves</li></ul>
Wounded Hanging	You run across a hanged man.	<ul style="list-style-type: none"><li>Either nothing happens, or you are ambushed by the local gang.</li></ul>

\* Only available from Epilogue 1 onward

## TOWN CHANCE ENCOUNTERS

NAME	DESCRIPTION	NOTES
Beggar	A beggar asks for money.	<ul style="list-style-type: none"><li>+5 honor if you give him money; -5 honor if you steal his money</li><li>-10 honor if you kill him; -5 honor if you beat him up</li><li>In one variant with a con man, you can relieve any donation made without losing honor</li><li>In another variant with a desperate man, you can obtain special snake oil and lose more honor for harming him</li></ul>
Bronte's Goons	A couple of Bronte's goons are chatting in Saint Denis.	<ul style="list-style-type: none"><li>If you look for a fight, beware of potential witnesses</li></ul>
Bronte Patrol	A few of Bronte's men are patrolling around Saint Denis looking for members of Dutch's gang.	<ul style="list-style-type: none"><li>This event happens close to town, so a shootout is likely to be noticed by witnesses</li></ul>
Consequence	A townspeople that you previously saved from a trap or a snake bite wants to offer you a reward.	<ul style="list-style-type: none"><li>Your reward is to pick one item from a specific store for free. Use this opportunity to buy something expensive</li><li>-20 honor for killing the townspeople or the friend they're talking to</li><li>+5 honor when the person thanks you</li></ul>
Dark Alley Ambush	A man in Saint Denis asks you to follow him into an alleyway and then ambushes you.	<ul style="list-style-type: none"><li>You will regain consciousness either in the cemetery or by the river</li></ul>
Dark Alley Stabbing	A man is being robbed at knifepoint in an alleyway.	<ul style="list-style-type: none"><li>+10 honor for saving the man</li><li>-5 honor if you watch them get killed</li><li>-5 honor if you leave</li><li>-20 honor if you save and then murder him</li></ul>
Dead Bodies	A man is filling a wagon with dead bodies in Armadillo.	<ul style="list-style-type: none"><li>-10 honor for killing the man who warns you about cholera</li></ul>
De Lobo Breakout*	A few De Lobos are busting a gang member out of jail.	<ul style="list-style-type: none"><li>-5 honor if you stand by as they murder the lawman</li></ul>
De Lobo Execution*	A deputy turns in a De Lobo in Tumbleweed.	<ul style="list-style-type: none"><li>-2 honor if you free the De Lobo</li></ul>
Domestic Dispute	A couple is having a fight.	<ul style="list-style-type: none"><li>+2 honor for offering words of encouragement to either party after the argument</li><li>-10 honor for killing one of them</li><li>-2 honor for interrupting their argument with an antagonizing comment</li></ul>
Drowning Murder	A man is trying to drown a woman by forcing her head into a water trough.	<ul style="list-style-type: none"><li>+10 honor for saving the woman. This can trigger a Public Hanging chance encounter if you knock out the man instead of killing him</li><li>-20 honor if she is killed as you watch</li><li>-5 honor if you ignore the victim</li><li>-5 honor if you watch and she gets away</li></ul>
Drunk Dueler	A drunk man in a saloon challenges you to a duel.	<ul style="list-style-type: none"><li>+5 honor for turning down the duel and ignoring the insults</li><li>+2 honor for disarming him and letting him live</li><li>-2 honor for killing him after Chapter 5</li><li>In an occasional variation of this event, the man collapses before the duel begins</li></ul>

\* Only available from Epilogue 1 onward

## TOWN CHANCE ENCOUNTERS (CONTINUED)

NAME	DESCRIPTION	NOTES
Duel Winner	A man at the Rhodes saloon brags about his marksmanship, and challenges you to a duel.	<ul style="list-style-type: none"><li>+2 honor for disarming him and letting him live</li><li>-2 honor for killing him</li></ul>
Fleeing Family	A family is loading up the rest of their belongings in a wagon and hurrying to escape Armadillo.	<ul style="list-style-type: none"><li>+2 honor for disarming him and letting him live</li><li>-2 honor for killing him</li></ul>
Foot Robbery	Two O'Driscolls or Lemoyne Raiders are roughing up a victim.	<ul style="list-style-type: none"><li>Only available from Epilogue 1 onward</li><li>-10 honor for killing either of them</li><li>-5 honor for terrorizing them</li></ul>
Gang Encounter	You run across a few rival gang members. They may simply continue their conversation, or instead opt to antagonize you.	<ul style="list-style-type: none"><li>+5 honor for intervening</li><li>-5 honor for watching the victim get beat up</li></ul>
Intimidation Tactics	A few Lemoyne Raiders throw a fire bottle at a federal building in Saint Denis.	<ul style="list-style-type: none"><li>Beware of witnesses if you resort to violence.</li></ul>
Lost Dog	A boy asks for help finding his lost dog, which you will hear barking if you search the highlighted area.	<ul style="list-style-type: none"><li>+10 honor for taking the dog back to the boy</li><li>-20 honor for killing the boy or the dog</li><li>If the boy is cruel to the dog: -2 honor for killing the boy; +2 honor for beating him up</li></ul>
Lost Drunk	A drunk man asks you for directions.	<ul style="list-style-type: none"><li>+2 honor for assisting him</li><li>-2 honor for misleading him</li><li>-10 honor for misleading him and watching the consequences of that lie</li><li>-20 honor for killing him while he is passed out</li></ul>
On the Run	An angry man in Strawberry is searching for a swindler who sold him a bogus cure for impotence.	<ul style="list-style-type: none"><li>The swindler hides in the terrace across the river. Once you've found him, you can assist or mislead the angry man</li><li>+2 honor for misleading the angry man and returning to the swindler</li><li>-5 honor for assisting the angry man and watching the swindler get killed</li></ul>
Peeping Tom	Two Lemoyne Raiders come into the Rhodes saloon looking for trouble.	<ul style="list-style-type: none"><li>If you don't leave, conflict is unavoidable.</li></ul>
Public Hanging	A criminal is being hanged.	<ul style="list-style-type: none"><li>There are three possible scenarios: a woman getting undressed, a couple smoking opium and a cowboy being spanked</li><li>+2 honor for scolding the two voyeurs</li><li>-2 honor for looking through the window</li><li>-10 honor for continuing to watch</li></ul>
Rowdy Drunks	A few drunks exit the local saloon and cause trouble as they stumble to their horses.	<ul style="list-style-type: none"><li>You'll need to chase him if you want your money back</li></ul>
Self Defense	A prostitute in Valentine claims that she killed a man who was threatening her and asks you to dispose of the body. This can occur twice.	<ul style="list-style-type: none"><li>No special considerations; act as you please</li></ul>
Show Off	A man shows off his new gun but accidentally shoots himself or his friend.	<ul style="list-style-type: none"><li>No special considerations; act as you please</li></ul>
Slum Ambush	A woman in the Saint Denis slum saloon leads you into an ambush in a back alley.	<ul style="list-style-type: none"><li>-5 honor if you kill her before you know it's a trap</li><li>-5 honor for following her from Epilogue 1 onward</li></ul>
Street Fight	Two men burst from the local saloon engaged in a fist fight.	<ul style="list-style-type: none"><li>No special considerations; act as you please</li></ul>
Taunting	A few young men make fun of you and flee when you approach them.	<ul style="list-style-type: none"><li>If you chase them, you will fall into an ambush</li></ul>
Town Burial	An outlaw is being buried.	<ul style="list-style-type: none"><li>-2 honor if you jump inside the grave</li><li>-10 honor if you kill the reverend or anyone in attendance</li></ul>
Town Confrontation	A man confronts you for one of the crimes you have committed.	<ul style="list-style-type: none"><li>-5 honor for talking him</li></ul>
Town Robbery	A man in Valentine calls you over and offers a robbery in exchange for a cut of the proceeds.	<ul style="list-style-type: none"><li>The money is in the top drawer of the dresser in room 1B. A fist fight occurs when you find it</li><li>If you lie and say you couldn't find the money, -5 honor. On a subsequent encounter with the man, he will confront and attack you</li></ul>
Town Terror*	Three De Lobos ride through Armadillo, talking out the subject of their ire, and shooting up a building.	<ul style="list-style-type: none"><li>+2 honor for intervening</li></ul>
Town Widow	A woman confronts you for killing her husband.	<ul style="list-style-type: none"><li>+5 honor for offering her money</li><li>-10 honor loss for killing her</li><li>-2 honor for antagonizing her</li></ul>
Unpaid Debt	A thug is threatening violence if a debtor doesn't pay up what he owes.	<ul style="list-style-type: none"><li>+5 honor for helping the debtor</li><li>-5 honor for watching the debtor get shot (only in certain variants)</li></ul>
Wealthy Couple	A wealthy couple are mugged. Either the woman gets killed, or she beats up the thugs.	<ul style="list-style-type: none"><li>+10 honor for saving them</li><li>-5 honor for watching and not helping</li><li>-10 honor for watching the woman get killed</li><li>-20 honor for saving them just to kill them</li></ul>

\* Only available from Epilogue 1 onward

# SPECIAL CHARACTERS

As you travel the world of *Red Dead Redemption 2* and advance the story, you will regularly run into special characters that offer unique dialogues. Many of them can be encountered multiple times, with the way you behave early on affecting later stages. For example, intimidating a special character may cause him or her to flee the next time they see you.

The map on this double-page spread shows the locations of all special characters. You can find details about when or how they can be encountered over the pages that follow. To avoid unnecessary spoilers, our descriptions are sufficiently detailed to enable you to recognize the opportunity or event, but suitably vague to preserve each story for you to experience first-hand.

SPECIAL CHARACTERS

# AGNES DOWD

**Availability:** Chapter 2 onward, between 9pm and 3am.  
**Notes:** The ghost of Agnes Dowd can be found in the Bayou swamp. There are six possible stages, each taking place at a specific spot (as shown on our map). Each stage consists of one or more possible sub-stages with unique lines of dialogue. Agnes is visible in some of them, and invisible in others. You can only trigger the next stage by visiting her again 48 in-game hours after your previous encounter.

## AGNES VISIBILITY

STAGE	STATUS
1a	Invisible
1b	Invisible
1c	Visible
2a	Invisible
2b	Visible
3a	Invisible
3b	Visible
4a	Invisible
4b	Visible
4c	Invisible
4d	Visible
5a	Invisible
5b	Visible
5c	Invisible
5d	Visible
6	Visible

# ANDERS ILLINDSON

**Availability:** Chapter 2 onward, between 8am and 6pm.  
**Notes:** A recruiter for the Cheltenham cult in Saint Denis, Anders tries to convince passers-by to join his ranks and will offer you a pamphlet if you talk to him.

# ARMADILLO TOWN CRIER

**Availability:** Epilogue 1 onward, between 8am and 7pm.  
**Notes:** This man can be found in two spots in Armadillo. He will warn you about a cholera outbreak in the town.

# BLIND MAN CASSIDY

**Availability:** Chapter 2 onward.  
**Notes:** This mystical blind man will tell fortunes if given a dollar. He is available in many possible locations (see map), and at any time. There are 18 potential stages to experience before the end of Chapter 6, though you will need to wait three in-game days to trigger a new meeting after each encounter. Once you reach the game's Epilogue, you have access to a further eight stages.

# CAVE HERMIT

**Availability:** Chapter 2 onward.  
**Notes:** This strange hermit lives deep inside a dark cave directly west of Hanging Dog Ranch, at the edge of the map. There are five possible stages, each available at least three in-game days after the previous one. Note that you need to stay in his presence for a sufficiently long period of time, even after he asks you to go away, to hear all the man has to say and to actually see him.

# CHELDNIAN MASTER

**Availability:** Complete Epilogue 2.  
**Notes:** The leader of a cult that worships turtles can be witnessed jumping off a cliff with his followers—the same cliff where you rescue Jamie during "We Loved Once and True".

# CAPTAIN RUSSELL

**Availability:** Chapter 2 onward.  
**Notes:** This old and forgetful Union soldier offers three stages to experience here, with subsequent encounters available after three in-game days. Two additional stages are unlocked from Epilogue 1 onward.

# CONSTIPATED MAN

**Availability:** After you complete "Point Society, Valentine Style" (Chapter 2).  
**Notes:** A constipated man can be heard struggling inside room 2A in Valentine's hotel.

# DOROTHEA

**Availability:** Chapter 2 onward, from 8am to 6pm.  
**Notes:** Dorothea is a suffragette who appears in Saint Denis. She attempts to convince the crowd that women should be given the vote. After your first encounter, you can experience a second stage by coming back at least one in-game day later.

# DR MACINTOSH

**Availability:** Chapter 2 onward.  
**Notes:** A scientist shares his theories in Annesburg. If you accept his book and come back at least three in-game days later, you will get to have a second conversation with him.

# EUGENES PROPHANT

**Availability:** Chapter 2 onward, between 8am and 6pm  
**Notes:** This man expounds his views on white supremacy on a street corner in Saint Denis. During the first stage, you can accept a pamphlet from the man, a cutscene ensues. After this, he will run away from you on a future encounter (which can take place after one in-game day).

# GAVIN'S FRIEND

**Availability:** Chapter 2 onward. Note that the Rhodes location is locked while the "No Good Deed" stranger mission is open.  
**Notes:** This man can appear at three different locations (Rhodes saloon, Roanoke Ridge, Saint Denis), and at a further four from Epilogue 1 onward (Blackwater, Tall Trees, MacFarlane's Ranch, east of Armadillo). He is searching for his friend Gavin. If you loot him, preferably not in town, you will obtain the "Letter to Nigel from Tom", which will help you to understand this side story.

# GIANT

**Availability:** Chapter 2 onward, between 8am and 6pm  
**Notes:** This character is located to the north of O'Creagh's Run. To unlock him, however, you first need to have studied at least 30 animal species. If that is the case, head to the west shore of the river directly east of the Wapiti Indian Reservation on a clear day (it will not work if the weather is rainy, snowy, stormy, or foggy). When you arrive, you should notice an unusual flock of birds on the river that will fly away. Follow these on horseback and they will lead you to the giant's den. You can have two different conversations with this giant, the second one at least three in-game days after the first.

# HERMIT

**Availability:** Chapter 2 onward  
**Notes:** This man lives in a cabin to the north of Annesburg. He will shoot to kill if he witnesses a trespasser. If you take him out, you can loot his house for collectibles (including a secret treasure map - see page 344) and claim his weapon: a rare shotgun.

# HOMELESS VET MICKEY

**Availability:** Chapter 2 onward  
**Notes:** This veteran of the Civil War asks for money at two possible spots in Valentine. There are six initial stages, each accessible three in-game days after the previous one. A seventh is unlocked from Epilogue 1 onward.

# JOE BUTLER

**Availability:** Chapter 2 onward.  
**Notes:** A one-legged former Confederate soldier, Joe Butler can be found begging in Rhodes outside the general store. There are initially three stages, each available three in-game days after the previous one. A fourth can be seen from Epilogue 1 onward.

# JON

**Availability:** Chapter 2 onward, between 12pm and 6am  
**Notes:** This old, drunken frontiersman can be seen ranting in Valentine at a Smithfield's saloon. If you listen to him and stay close, he will eventually attack you. Knocking him out will give you a chance to pick up his classic raccoon mount hat.

# LILLIAN POWELL

**Availability:** Chapter 2 onward, between 9am and 9pm  
**Notes:** This drunk, aging writer talks about life in the Saint Denis saloon. There are four stages to experience, each one three in-game days after the previous one.

# MAD PREACHER

**Availability:** Chapter 2 onward  
**Notes:** This individual appears in three different rivers, each time at least three in-game days after the previous encounter. The first potential meeting is to the northwest of Strawberry, then to the west of Annesburg, and finally to the west of Valentine. A fourth stage becomes available to the southwest of Tumbleweed after the Epilogue.

# NICHOLAS TIMMINS

**Availability:** Chapter 2 onward, between 8am and 8pm  
**Notes:** The mayor of Strawberry is welcoming people to his town. Speaking to him leads to additional lines once his speech is over. Three stages can be triggered (the first two at the Welcome Center, the third in the main street), each at least two in-game days apart from the others.

CHARACTERS

# POON JOE

**Availability:** Chapter 2 onward

**Notes:** This strange hermit lives in a tree to the north of Annesburg, near the edge of the map. To experience the three stages here, you will need to wait at least three in-game days after each encounter. The final one can only be triggered from Epilogue 1 onward.

# REVEREND

**Availability:** Chapter 2 onward, between 8am and 7pm

**Notes:** This prospector stands on a roadside in Strawberry. After your initial encounter, you can meet him again if you come back at least 24 in-game hours later. Your dialog choice during the initial encounter affects the second conversation, but has no gameplay consequences.

# ROBOT

**Availability:** Complete the stranger mission called "A Bright Bouncing Boy" (see page 188).

**Notes:** A robot appears on a mountaintop close to Colter after you complete the associated stranger mission. Note that the electric lantern (acquired by returning to the lab after completing "A Bright Bouncing Boy - II") will glow orange when aligned in the direction of the robot.

# SONNY

**Availability:** Chapter 2 onward

**Notes:** This strange and creepy man lives in the Bayou Nwa, in a cabin a short distance to the southeast of Lakay. If you accept his invitation to go inside the cabin, you are in for a bad surprise. You will wake up in the wilderness, with some of your money gone and your attribute cores exhausted. Returning to the cabin can be a profitable trip if you plan to exact revenge, with multiple collectibles to pick up inside.

# SOOTHSAYER

**Availability:** Chapter 2 onward

**Notes:** An old and nearly blind woman tells fortunes in exchange for money. There are 15 stages to experience, each available three in-game days after the previous one, with her location alternating between the Bayou and Bluewater Marsh. The first ten can be triggered between Chapters 2 and 6, and the last five once you begin Epilogue 1.

# SUN WORSHIPPER

**Availability:** Epilogue 1 onward

**Notes:** This man can be found in various parts of the State of New Austin. You can encounter him 12 times, each one at least three in-game days after the previous. The stages occur in the following areas: the first three in Hennigan's Stead, then one at Cholla Springs, then five in Rio Bravo, one in Gaptooth Ridge, and the final two in Rio Bravo again.

# THOMAS DOWNES

**Availability:** Between the beginning of Chapter 2 and "Sodom? Back to Gomorrah" (Chapter 3)

**Notes:** Thomas Downes is located opposite the stable in Valentine, trying to raise money for an orphanage. You can experience two different conversations with him, one before completing "Americans at Rest", a story mission that occurs during Chapter 2, and one afterwards.

# TIMOTHY DONAHUE

**Availability:** Chapter 2 onward

**Notes:** Timothy Donahue sells a book called "Get Rich Quick" near the harbor in Saint Denis, for the rather steep price of \$50. If you come back at least two in-game days later, you can encounter him again and ask for a refund - though you will need to chase the man and loot him to get your money back. Beware of witnesses during this process.

# TUMBLEWEED SHERIFF

**Availability:** Epilogue 1 onward

**Notes:** The unforgiving sheriff of Tumbleweed proclaims his authority over all who enter his town. There are three possible encounters, each at least one in-game day apart from the others.

# ATLAS

This chapter features detailed, annotated maps covering the entire world of *Red Dead Redemption 2*. No matter where you might go, the following pages will reveal everything that you can expect to find on your travels.

# INTRODUCTION

This chapter offers expanded topographic maps that collectively chart the full extent of the *Red Dead Redemption 2* world map. For each area, you will find detailed annotations revealing the positions of key points of interactivity and collectibles.

Whenever item locations require specific notes (such as additional guidance for well-hidden collectibles), you will find numbered icons such as  and footnotes such as .

★ These icon numbers make it easy to connect an annotation to its associated note where relevant.

★ All icon numbers are used globally throughout the guide. The very first cigarette card, for instance, is "001." Whenever this collectible appears in this book, you will always find it represented with that number and that number only: it is essentially the "item ID."

★ Numbers are grouped in logical ranges to facilitate easy reference.

BASE ICON	ITEM	NUMBER RANGE
	Cigarette Cards	001 - 010
	Points of Interest	201 - 210
	Chests & Lock Boxes	301 - 310
	Dinosaur Bones	401 - 410
	Rock Carvings	501 - 510
	Special Tonics	601 - 610
	Unique Collectibles	701 - 710
	Item Requests	801 - 810
	Rare Orchids	901 - 910

Note that certain features are not immediately available when you launch a new game, and are gradually unlocked as you complete the early chapters of the adventure and meet new characters. For this reason, we would suggest that you leave major collectible hunting expeditions until you have made sufficient progress. We provide detailed information on feature unlocks in the flowcharts that appear before each section of the main storyline in our Missions chapter.

# MAP LEGEND

The following tables offer an overview of the icons used not just in this chapter, but throughout the guide.

## SHOPS & SERVICES\*

# NOTES & NAVIGATION

Each map portion occupies most of the page it is displayed on. You can find a complete legend of all icons used on the page to your left.

Whenever you are in an area of the game that corresponds to the border of a map portion, you will find a page containing in the corresponding margin that details where the adjacent map can be found.

To ensure maximum precision, each icon uses a red pointer to pinpoint the exact position of the corresponding item.

Certain maps are so dense that we occasionally had to spread the notes over a complete double-page spread. This is represented by the  icon.

This atlas consists of a collection of map portions. We have divided the world map based on a grid, with each grid cell corresponding to a map portion; see overview for an illustration that will make things perfectly clear.

For the more hard-to-find collectibles and points of interest, we provide notes where necessary. These offer details on where the collectibles in question are hidden, whether special unlock conditions apply, or — with chests — what rewards they contain. You can easily connect an item position to its associated note by matching the number of the icon and footnote.

- 081 Parrot On a crate on the pier
- 090 Red Ankle On a shelf in the back of the saloon
- 092 The Showbook On a table on the east side of the pier. Can only be picked up after you activate the "Smoking and Other Habits" mission
- 093 Balmer Whaling Vessel On the window of the blue booth at the end of the docks

- 096 Vase On a table on the house's west porch
- 103 Lamin Tennis Paddle On a shelf on the back porch
- 108 Singsong - Aye McFarlane In the northwestern corner of the back porch, on a crate at the front of a workbench. Can only be picked up after you activate the "Smoking and Other Habits" mission
- 110 Carvers - 1814 - Joseph Nicéphore Niépce On a table on the balcony of the building just south of the theatre
- 115 Manned Cider 1893 Charles Kinsler On a workbench in the middle of the bar

- 118 Player Piano 1899 Edward Leveaux On the piano
- 122 Appaloosa On a barrel at the south end of the river
- 134 Peruvian Tobacco On the ground in the northwestern corner of the back porch, on a crate at the front of a workbench. Can only be picked up after you activate the "Smoking and Other Habits" mission
- 136 Turkey Cigarettes On a crate on the docks
- 139 Harvey Grape On a workbench inside the theatre, on the balcony of the building just south of the theatre
- 140 Manned Cider 1893 Charles Kinsler On a table on the balcony of the house
- 218 Grave Secret

- 219 Withered Arm
- 228 Tiny Church
- 307 Apple Miracle Tonic Snake Oil Next to the crates on the northeast side of the stables
- 321 Poison Throwing Knife Purple Pearl Nidom beneath a Rosewood mine taking shaft
- 328 Gamma Run Rifle Cartridges - Express Between two wagon wheels just east of Bolger Blade
- 544 Apple Chewing Tobacco Money Beneath the wooden support of the Rosewood mine taking shaft on the west side of the stables
- 609 Car Skull Mask At the back of a partly-collapsed shack
- 628 Broken Pirate Sword Found in a wrecked boat

- 714 On the piano in the room where the Saint Denis gunsmith robbery takes place (see page 181)
- 722 On cotton bales on the west side of the upper dock of the Maria Isabella cargo ship
- 748 On the handspike inside the cabin
- 760 On a windowsill on the upper platform in the west corner of the abandoned factory, close to the train tracks (you can jump in the platform directly from the ground)
- 802 The Coat of the Shrike in the Fog On a crates table inside a house
- 901 Lady of the Night Orchid
- 904 Aquinas Star Orchid
- 905 Cigar Orchid

- 906 Ghost Orchid
- 907 Night Scorned Orchid
- 908 Ant Tax Orchid
- 909 Spider Orchid
- 910 Clamshell Orchid
- 912 Ouse Orchid
- 913 Legendary Bulgate (Featured in the "Country Pursuit" mission)
- 914 Legendary Longnose Cat
- 915 Bayall Edge Shack
- 916 Legendary Lake Sturgeon
- 917 Legendary Bullhead Catfish

# WEAPONS

This chapter offers an exhaustive appraisal of all weapons, including stats, ammunition, customization, and advice on how best to maintain your firearms.

# WEAPON STATS

Each weapon has six main stats that broadly determine its overall efficiency. The first five parameters are normalized approximations based on other weapons, with higher totals indicating superior performance in the corresponding categories.

- ★ **Damage:** The damage each shot will deal when hitting a target
- ★ **Range:** An approximation of both the maximum lock-on range of the weapon and its maximum fire range. Both of these scale based on the weapon's class.
- ★ **Fire Rate:** How many bullets can be fired per second
- ★ **Reload:** How quick it is to reload one bullet; the time it takes for a full reload, divided by the number of bullets
- ★ **Accuracy:** How focused the weapon's spread is when you aim it, as indicated by the size of the reticle
- ★ **Condition:** The current mechanical status of the weapon, which in turn affects the other stats.

When you purchase or obtain a new weapon, its stat bars will generally look like the following diagram:

## A TYPICAL STAT BAR

- ★ The **white section** of a bar represents its current value. The larger it is, the more effective the weapon will be in the corresponding field. For instance, a large Damage white section means that each shot will hit harder. You will notice that white bar sections gradually shrink as you use your firearms and expose them to detrimental environmental effects such as water and mud. You can reverse this process by cleaning the weapon – a topic that we'll return to shortly.

- ★ The **gray section** of a bar represents its theoretical maximum potential. You can develop a weapon's potential in two ways:

- By equipping it with components, such as a long barrel or improved rifling. These are available at all gunsmiths via the Customize option.
- By firing specialized ammunition. Different types of cartridges can be purchased, crafted, collected, or looted. Each ammo type has its uses. For example, express cartridges will significantly increase the damage you deal – and therefore extend the weapon's damage bar.

If you equip a weapon with the relevant components and ammunition, it's possible for the white section of a bar to fill the gray section completely. This illustrates the fact that the stat in question has reached its maximum potential for that firearm.

Conversely, if you allow a weapon to degrade, you will see the gray bar sections extending toward the left. This reflects the fact that the weapon is losing some of its efficiency and requires maintenance.

- ★ The **black section** of a bar can never be attained; it is outside of the weapon's potential.

Note that the weapon section of the compendium keeps track of all weapons you have encountered so far, as well as key statistics such as kills, headshots, and accuracy.

# WEAPON DEGRADATION

Weapons gradually deteriorate in condition due to usage and environmental factors. Allowing them to become dirty or rusty will lead to lower damage, slower cocking, and longer reloads. It is therefore recommended to regularly maintain your arsenal.

## ★ THE DEGRADATION PROCESS ★

You can keep track of the condition of a weapon via the weapon wheel. Look below the five main stat bars to find a "condition" bar. Initially, this is fully white – which corresponds to an optimal condition. Over time, you will notice that the right end of the bar becomes gray, indicating that the degradation process has begun, and that weapon's potential has been lowered. This is also reflected visually, with the weapon in question showing signs of wear and tear.

There are actually three different hidden parameters that determine weapon deterioration:

- ★ **Soot** – Shooting the weapon will cause it to slowly degrade. A weapon will go from best condition to worst condition after being fired a certain number of times.

- ★ **Rust** – Rust appears when the weapon is submerged in water or deep snow (including when holstered). It will take a set number of seconds for a weapon exposed to water to go from best condition to worst condition.

- ★ **Dirt** – Dirt stains a weapon when it is submerged in deep mud (even when holstered). It will take a set number of seconds for a weapon exposed to mud to go from best condition to worst condition.

## DEGRADATION PARAMETERS

WEAPON TYPE	SOOT: SHOTS TO FULL DEGRADATION	RUST/DIRT: TIME TO FULL DEGRADATION
Revolver	300	300s
Pistol	200	300s
Repeater	300	300s
Rifle (including Sniper Rifle)	200	300s
Shotgun	150	300s

Degradation has the following detrimental effects on your weapons, applied in a gradual and proportional manner:

- ★ The damage caused by the weapon is reduced
- ★ The weapon's fire rate is reduced
- ★ If applicable, the weapon's cocking speed is slowed down
- ★ The time it takes to reload will be increased

## ★ SLOWING DEGRADATION ★

There are several items that can reduce wear and tear on your weapons. Their effects stack, making it possible to spend less time on maintenance with your favored firearms.

More generally, it is usually sensible to stow your preferred weapons on your horse should you need to spend an extended time in proximity to mud, water or snow. If there is no real danger of attack when you are engaged in activities that will directly affect weapon condition (such as swimming to reach collectibles, for example), it might be better to just take a disposable sidearm along for emergencies.

## DEGRADATION-SLOWING ITEMS

ITEM	TYPE	DEGRADATION SLOWDOWN	AVAILABILITY
Weapon Wrap	Component	10%	Any gunsmith. Only available for repeaters, rifles and shotguns.
Upgraded Holster	Accessory	20%	Any gunsmith, or crafted by a trapper with the correct ingredients after you complete the related challenge.
Reinforced Off-Hand Holster	Accessory	10%	Crafted by a trapper with the correct ingredients after you complete the related challenge.
Beaver Tooth Trinket	Trinket	10%	Crafted from a legendary beaver tooth at a fence.
Raven Claw Talisman	Talisman	20%	Reward from completing "Geology for Beginners" (see page 210).
Legend of the East	Outfit	10%	Complete all challenges in all categories.

## ★ MAINTAINING WEAPONS ★

You should maintain your weapons to negate the effects of degradation. There are two methods: manual upkeep, or employing the services of a gunsmith. Both will also remove visual effects such as soot, rust, and dirt from the weapon.

### MANUAL CLEANING

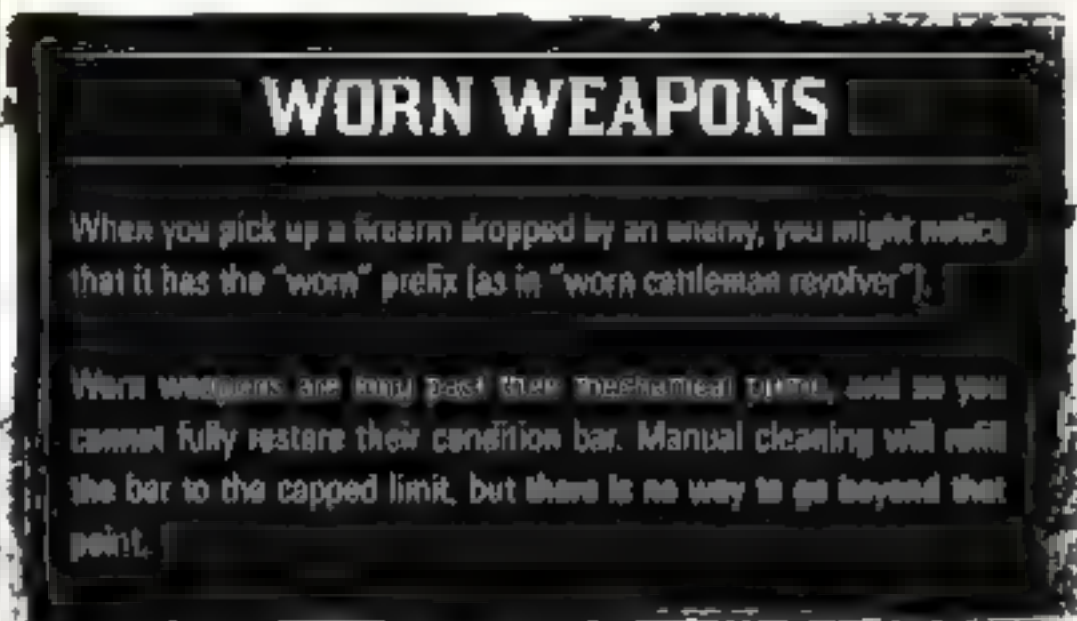

You can clean your firearms yourself as long as you own gun oil – an item sold in most shops, including gunsmiths, general stores, trappers and fences. You will also regularly find gun oil as a collectible.

To maintain a weapon, select it in the wheel menu and press **△**. Any deterioration affecting your five stat bars will be represented by red segments. Press **△/X** to clean it, consuming a gun oil item but restoring all stats to their current maximum value.

### GUNSMITH CLEANING

You can also pay a gunsmith to clean your weapons. Just like manual cleaning, this restores them to perfect condition.

Note that a weapon can be customized by a gunsmith only if it is perfectly clean. If not, all modification options will be grayed out in the corresponding menu.

## AMMUNITION & PROJECTILES

The type of ammunition you choose can play a decisive role, both during shootouts and when hunting. The following tables offer an overview of all the options at your disposal.

### FIREARM AMMUNITION

ICON	TYPE	AVAILABILITY	COMPATIBILITY	DESCRIPTION
	Regular	Purchased		Standard ammo
	High Velocity	Purchased		Damage +5, Range +10
	Split Point	Crafted (regular cartridge + hunting knife)	Most pistols, revolvers, repeaters, rifles, and sniper rifles	Damage +5, Accuracy +10
	Express	Purchased		Damage +15
	Explosive	Crafted (express cartridge + animal fat)		Damage +25, Explosive Effect
	Varmint	Purchased	Varmint rifle	Standard ammo
	Shotgun Shells - Regular	Purchased		Standard ammo
	Shotgun - Slug	Purchased		Range +5, Accuracy +20
	Shotgun - Incendiary Buckshot	Crafted (regular shotgun shell + moonshine)	Shotguns	Damage +15, Incendiary Effect
	Shotgun - Explosive Slug	Crafted (shotgun shell + animal fat)		Damage +25, Range +5, Accuracy +20, Explosive Effect

### ARROWS

ICON	TYPE	AVAILABILITY	DESCRIPTION
	Arrow	Purchased	Standard arrow
	Improved Arrow	Crafted (arrow + flight feather)	Damage +15
	Small Game Arrow	Crafted (arrow + regular shotgun shell + flight feather)	Damage +20
	Poison Arrow	Crafted (arrow + oleander sage + flight feather)	Damage +5
	Fire Arrow	Crafted (arrow + animal fat + flight feather)	Damage +20, Incendiary Effect
	Dynamite Arrow	Crafted (arrow + dynamite + flight feather)	Damage +40, Explosive Effect

### THROWABLES

ICON	TYPE	AVAILABILITY	DESCRIPTION
	Dynamite	Purchased	Regular explosive, can be lit while in hand and thrown, or planted and fired at
	Volatile Dynamite	Purchased & Crafted (dynamite + animal fat + high velocity cartridge)	Damage +10
	Fire Bottle	Purchased & Crafted (any alcohol + animal fat)	Sets an area ablaze on impact
	Volatile Fire	Purchased & Crafted (moonshine + animal fat)	Damage +10
	Throwing Knife	Purchased	Standard knife
	Improved Throwing Knife	Crafted (throwing knife + eagle/hawk feather)	Damage +10, Range +5, Accuracy +5
	Poison Throwing Knife	Crafted (throwing knife + oleander sage)	Damage +10
	Tomahawk	Purchased	Standard tomahawk
	Improved Tomahawk	Crafted (tomahawk + eagle/hawk feather)	Damage +10, Range +5
	Homing Tomahawk	Crafted (tomahawk + owl feather)	Range +5, Accuracy +10
	Ancient Tomahawk	Collectable (found sticking out of a broken target on the east side of Calumet Ravine, to the east of the Wapiti Indian Reservation)	Same behavior as a standard tomahawk, with a unique visual model

## GUNSMITHS

Gunsmiths can be found in Valentine, Rhodes, Saint Denis and Annesburg; an additional store is available in Tumbleweed from Epilogue 1 onward.

These specialists can clean your weapons for a fee, and will sell you various weapons and ammunition types. They also stock individual parts which you can use to customize your weapons.

Three accessories sold by gunsmiths are worth a special mention as they offer very useful perks. It is in your interests to purchase and equip these early in the adventure.

**Upgraded Bandolier:** Permanently increases your base ammo capacity for longarm weapons by 50%.

**Upgraded Gun Belt:** Permanently increases your base ammo capacity for sidearm weapons by 50%.

**Holster:** Permanently slows degradation for all weapons by 20%.

## ★ WEAPONS ★

## ALL GUNSMITHS

WEAPON	PRICE	UNLOCK REQUIREMENT
Cattleman Revolver	\$50.00	Complete "Outlaws From the West" (Chapter 1)
Carbine Repeater	\$90.00	Complete "Old Friends" (Chapter 1)
Volcanic Pistol	\$150.00	Complete "Eastward Bound" (Chapter 1)
Springfield Rifle	\$120.00	Complete "Eastward Bound" (Chapter 1)
Varmint Rifle	\$72.00	Complete "Eastward Bound" (Chapter 1)
Double-Barreled Shotgun	\$95.00	Complete "Paying a Social Call" (Chapter 2)
Pump-Action Shotgun	\$148.00	Complete "Pouring Forth Oil" (Chapter 2)
Double-Action Revolver	\$65.00	Complete "A Strange Kindness" (Chapter 2)
Lancaster Repeater	\$135.00	Complete "An American Pastoral Scene" (Chapter 2)
Sawed-Off Shotgun	\$85.00	Complete "Entire, Pursued by a Memory" (Chapter 1)
Rolling Block Rifle	\$187.00	Complete "The Sheep and the Goats" (Chapter 2)
Schofield Revolver	\$84.00	Complete "Blessed are the Meek?" (Chapter 2)
Bolt Action Rifle	\$180.00	Complete "Preaching Forgiveness as He Went" (Chapter 3)
Semi-Auto Shotgun	\$225.00	Complete "A Fine Night of Debauchery" (Chapter 4)
Repeating Shotgun	\$185.00	Complete "Visiting Hours" (Chapter 6)
Litchfield Repeater	\$145.00	Complete "Goodbye, Dear Friend" (Chapter 6)
Carcano Rifle	\$190.00	Complete "Goodbye, Dear Friend" (Chapter 6)

## VALENTINE &amp; SAINT DENIS ONLY

WEAPON	PRICE	UNLOCK REQUIREMENT
Semi-Automatic Pistol	\$210.00	Complete "The Joys of Civilization" (Chapter 4)
Maunder Pistol	\$250.00	Complete "That's Murfree Country" (Chapter 5)

## ★ ACCESSORIES &amp; AMMUNITION ★

## ALL GUNSMITHS – AMMUNITION

ITEM	PRICE
Arrows	\$0.50
Pistol Cartridges – Regular	\$1.00
Pistol Cartridges – Express	\$1.50
Pistol Cartridges – High Velocity	\$2.50
Repeater Cartridges – Regular	\$1.50
Repeater Cartridges – Express	\$2.00
Repeater Cartridges – High Velocity	\$2.50
Revolver Cartridges – Regular	\$1.00
Revolver Cartridges – Express	\$1.50
Revolver Cartridges – High Velocity	\$2.00
Rifle Cartridges – Varmint	\$1.00
Rifle Cartridges – Regular	\$1.50

## ALL GUNSMITHS – AMMUNITION (CONTINUED)

ITEM	PRICE
Rifle Cartridges – Express	\$2.00
Rifle Cartridges – High Velocity	\$3.00
Shotgun Shells – Regular	\$1.00
Shotgun – Slug	\$1.50

## ALL GUNSMITHS – ACCESSORIES

ITEM	PRICE
Gun Oil	\$1.50
Upgraded Bandolier	\$69.50
Upgraded Gun Belt	\$58.00
Upgraded Holster	\$45.50

## OTHER SHOPS

While gunsmiths offer the widest variety of stock, certain other vendors sell select firearms and ammunition types.

## GENERAL STORES: STRAWBERRY &amp; BLACKWATER

AMMUNITION TYPE	PRICE	UNLOCK REQUIREMENT
Pistol Cartridges – High Velocity	\$2.50	Complete "Eastward Bound" (Chapter 1)
Repeater Cartridges – High Velocity	\$2.50	-
Revolver Cartridges – High Velocity	\$2.00	-
Rifle Cartridges – High Velocity	\$3.00	Complete "Eastward Bound" (Chapter 1)

## GENERAL STORES: STRAWBERRY ONLY

AMMUNITION TYPE	PRICE	UNLOCK REQUIREMENT
Pistol Cartridges – Express	\$1.50	-
Repeater Cartridges – Express	\$2.00	-
Revolver Cartridges – Express	\$1.50	-
Rifle Cartridges – Express	\$2.00	-
Shotgun – Slug	\$1.50	-

WEAPON	PRICE	UNLOCK REQUIREMENT
Double-Action Revolver	\$65.00	Complete "A Strange Kindness" (Chapter 2)
Semi-Auto Shotgun	\$225.00	Complete "A Fine Night of Debauchery" (Chapter 4)
Rolling Block Rifle	\$187.00	Complete "The Sheep and the Goats" (Chapter 2)

## GENERAL STORES: BLACKWATER ONLY

WEAPON	PRICE	UNLOCK REQUIREMENT
Litchfield Repeater	\$145.00	Complete "Goodbye, Dear Friend" (Chapter 6)
Schofield Revolver	\$84.00	Complete "Blessed are the Meek?" (Chapter 2)
Pump-Action Shotgun	\$148.00	Complete "Pouring Forth Oil" (Chapter 2)

## ALL FENCES

WEAPON	PRICE	UNLOCK REQUIREMENT
Dynamite	\$1.00	Complete "Who the Hell is Leviticus Cornwall?" (Chapter 1)
Throwing Knife	\$2.50	Complete "Paying a Social Call" (Chapter 2)
Tomahawk	\$4.00	Complete "Americans at Rest" (Chapter 2)
Fire Bottle	\$0.75	Complete "The Fine Joys of Tobacco" (Chapter 3)
Hatchet	\$4.25	Complete "Dear Uncle Tacitus" (Chapter 5)
Cleaver	\$8.00	Complete "Dear Uncle Tacitus" (Chapter 5)
Machete	\$10.00	Complete "Dear Uncle Tacitus" (Chapter 5)

## TRAPPER

WEAPON	PRICE	UNLOCK REQUIREMENT
Throwing Knife	\$2.50	Complete "Paying a Social Call" (Chapter 2)
Tomahawk	\$4.00	Complete "Americans at Rest" (Chapter 2)

# WEAPON CUSTOMIZATION

Weapon customization is a system that enables you to apply component and style changes to weapons that you own via the services of a gunsmith.

## ★ MODIFICATION OVERVIEW ★

Most **component** modifications directly affect the performance of weapons. If you can afford to do so, applying suitable upgrades to your preferred firearms will give you an extra edge in combat.

**Style** modifications are purely cosmetic, enabling you to personalize your weapons in accordance with your preferences.

### COMPONENT: BARREL LENGTH

Barrel length is designed to improve the accuracy of weapons. This component is available for revolvers, pistols, and shotguns (with the exception of the sawn-off shotgun).

- ★ **Short Barrel:** Default component on all weapons of the above categories (except the Schofield revolver, which comes equipped with a long barrel).
- ★ **Long Barrel:** Increases accuracy due to a narrower cone of fire.

### COMPONENT: GRIP

A grip modification changes the design of the handle for sidearm weapons. You can change this component for revolvers and pistols.

- ★ **Basic Grip**
- ★ **Ironwood Grip**
- ★ **Ebony Grip**
- ★ **Pearl Grip**
- ★ **Hero Pearl Grip** (available exclusively for the cattleman revolver if your honor rank is 4 or higher)
- ★ **Gunslinger Ebony Grip** (available exclusively for the double-action revolver if your honor rank is -4 or lower)

### COMPONENT: BARREL RIFLING

Barrel rifling is the helical pattern inside the barrel designed to spin the projectile on exit, increasing velocity and range.

- ★ **Standard Rifling:** Default component on all weapons.
- ★ **Improved Rifling:** Weapon range is increased by 10%, damage falloff ranges are also increased by 10%, making weapons more effective at long distances. When used on shotgun weapons with buckshot ammunition equipped, spread is increased, leading to a wider cone of fire – but therefore lower accuracy.

### COMPONENT: IRON SIGHTS

Iron sights make it easier to aim your weapon. This modification is available for all firearms except sniper rifles. While aiming a weapon without a scope in first-person view, pressing **○** will toggle the iron sights view on and off.

- ★ **Stock Sights:** Default component on all weapons (with the exception of sniper rifles).
- ★ **Improved Sights:** Increase accuracy by enabling better target acquisition.

### COMPONENT: SCOPES

Scopes are available for repeaters and rifles. While aiming a weapon with a scope, pressing **○** will toggle the full-screen zoom scope view on and off. Note that this is not possible with sniper rifles, though.

- ★ **No Scope:** No zoom (not available for sniper rifles).
- ★ **Short Scope:** Low-level zoom.
- ★ **Medium Scope:** Medium-level zoom.
- ★ **Long Scope:** High-level zoom.

### COMPONENT: STOCK

The stock modification changes the grain texture of the wooden sections of longarm weapons (repeaters, rifles, and shotguns, including the sawn-off shotgun).

- ★ **Basic Grain**
- ★ **Straight Grain**
- ★ **Wide Grain**

### COMPONENT: WRAP

Leather wraps help to preserve the condition of weapons against wear from usage and the elements. This is available for repeaters, rifles, and shotguns (including the sawn-off shotgun).

- ★ **No Wrap:** Default degradation.
- ★ **Wrap:** Reduces weapon degradation by 10%. This stacks with other similar effects.

# WEAPON SHEETS

## REVOLVERS

**CATTLEMAN REVOLVER**

Availability: All gunsmiths | In inventory from the beginning of game

Damage	
Range	
Fire Rate	
Accuracy	
Reload	

**FLACO'S REVOLVER**

Availability: Found next to the body of Flaco Hernandez after your duel in the corresponding gunslinger mission. If you do not pick it up, you won't be able to acquire it later (see page 193) | Notes: Cannot be customized

Damage	
Range	
Fire Rate	
Accuracy	
Reload	

**GRANGER'S REVOLVER**

Availability: Found next to the body of Ernest Granger after your duel in the corresponding gunslinger mission. If you do not pick it up, you won't be able to acquire it later (see page 193) | Notes: Cannot be customized

Damage	
Range	
Fire Rate	
Accuracy	
Reload	

**DOUBLE-ACTION REVOLVER**

Availability: All gunsmiths (after "A Strange Kindness", Chapter 2) | Can be picked up during the home robbery offered by Sean in Chapter 3 (see page 183) | Notes: Players who have completed the related treasure hunt in GTA Online will receive a pre-moded version in their inventory after "Eastward Bound" (Chapter 1) and will be the only ones to have access to the gold metal color to customize this weapon

Damage	
Range	
Fire Rate	
Accuracy	
Reload	

**ALGERNON'S REVOLVER**

Availability: First reward for completing "Business and Other Animals" (see page 296) | Notes: Cannot be customized

Damage	
Range	
Fire Rate	
Accuracy	
Reload	

## REVOLVERS (CONTINUED)

**MICAH'S REVOLVER**

Availability: Return to the location of the final shootout at the top of Mount Hagen after "American Venom" (Epilogue 2) and retrieve the gun from the frozen corpse | Notes: Cannot be customized

Damage	
Range	
Fire Rate	
Accuracy	
Reload	

**SCHOFIELD REVOLVER**

Availability: All gunsmiths (after "Blessed are the Meek?", Chapter 2) | Found during the robbery of Valentine's doctor (see page 181)

Damage	
Range	
Fire Rate	
Accuracy	
Reload	

**CALLOWAY'S REVOLVER**

Availability: Complete the final step of "The Noblest of Men, and a Woman" and collect the weapons near the corpse of your victim after your duel; if you do not pick it up, you won't be able to acquire it later (see page 183) | Notes: Cannot be customized

Damage	
Range	
Fire Rate	
Accuracy	
Reload	

**OTIS MILLER'S REVOLVER**

Availability: Hidden in a hard-to-find chest in the north part of Cholla Springs; two secret treasure maps lead to this (see page 341) | Notes: Cannot be customized

Damage	
Range	
Fire Rate	
Accuracy	
Reload	

**VOLCANIC PISTOL**

Availability: All gunsmiths (after "Eastward Bound", Chapter 1) | Notes: Available for free with the Special/Ultimate Edition

Damage	
Range	
Fire Rate	
Accuracy	
Reload	

## PISTOLS

**SEMI-AUTOMATIC PISTOL**

Availability: Valentine and Saint Denis gunsmiths both after "The Joy of Civilization", Chapter 4

Damage	
Range	
Fire Rate	
Accuracy	
Reload	

## PISTOLS (CONTINUED)

## THROWABLES

# MELEE

**UNARMED**

Availability: From the beginning of game

Damage	
Range	

**JAWBONE KNIFE**

Availability: Final reward for completing "A Test of Faith" (see page 208) | Notes: Cannot be customized

Damage	
Range	

**CIVIL WAR KNIFE**

Availability: Found on a crate in the basement of Fort Broward, an abandoned fort southwest of Van Horn | Notes: Cannot be customized

Damage	
Range	

**MACHETE**

Availability: All fences (after "Dear Uncle Tacitus", Chapter 5) | Notes: Cannot be customized

Damage	
Range	

**HATCHET**

Availability: All fences (after "Dear Uncle Tacitus", Chapter 5) | Notes: Cannot be customized

Damage	
Range	
Accuracy	

**HUNTING KNIFE**

Availability: In inventory from the beginning of game

Damage	
Range	

**WIDE-BLADE KNIFE**

Availability: Found on a dead body deep in the Beryl's Dream mine, directly west of Mount Shann; press the plunger at the entrance to blow up the rocks in the way | Notes: Cannot be customized

Damage	
Range	

**ANTLER KNIFE**

Availability: Found on a dead bear, a short distance to the northwest of Hanging Dog Ranch | Notes: Cannot be customized

Damage	
Range	

**BROKEN PIRATE SWORD**

Availability: Found in a wrecked boat on the small islands directly south of Saint Denis' southern bridge | Notes: Cannot be customized

Damage	
Range	

**STONE HATCHET**

Availability: Only for players who complete the related bounty hunter mission in GTA Online; found at the Native Burial site, just north of Owsen | Notes: Cannot be customized

Damage	
Range	
Accuracy	

**RUSTED DOUBLE BIT HATCHET**

Availability: Found in a tree stump in Annesburg, a short walk north of the coal mining facility | Notes: Cannot be customized

Damage	
Range	
Accuracy	

**VIKING HATCHET**

Availability: Found in the old tank, a short distance to the northeast of Beaver Hollow | Notes: Cannot be customized

Damage	
Range	
Accuracy	

**RUSTED HUNTER HATCHET**

Availability: Found in a tree stump outside a shack, halfway between B'Conch's Run and Elysian Pool | Notes: Cannot be customized

Damage	
Range	
Accuracy	

**DOUBLE BIT HATCHET**

Availability: Found in a tree stump to the northwest of Wallace Station | Notes: Cannot be customized

Damage

**HEWING HATCHET**

Availability: Found in a tree stump on the south shore of Moonstone Pond | Notes: Cannot be customized

Damage	
Range	
Accuracy	

**HUNTER HATCHET**

Availability: Found in a tree stump directly south of Window Rock | Notes: Cannot be customized

Damage	
Range	
Accuracy	

**CLEAVER**

Availability: All fences (after "Dear Uncle Tacitus", Chapter 5) | Notes: Cannot be customized

Damage	
Range	
Accuracy	

# ITEMS

This chapter offers a complete catalog of all items encountered in the game, including parameters, availability conditions, and other noteworthy characteristics. It also provides a guide to crafting and comprehensive shop inventories.

# CONSUMABLES

The primary function of consumables is to restore your attribute meters or cores; see page 166 for further details on these concepts.

★ **Meter restoration effects** are expressed in terms of the circular "tank" segments that are replenished. Certain powerful items trigger the fortified status, which temporarily boosts the attribute in question to level 10 for a set duration.

★ **Core restoration effects** are expressed as a percentage: 50%, for instance, will replenish half of the related core. A few potent consumables will induce the "gold" status on affected cores, which temporarily halts the usual draining process.

Furthermore, consumables have a calorie value, which incrementally affects your character's weight — a system that we cover on page 168.

For each item, you will also find notes on its availability. The following general principles apply:

★ **Found:** The item can be looted from places you explore, acquired from chests, and claimed from bodies. Many of these collectibles

can also be picked up as free supplies at camp once you unlock the corresponding upgrades (see page 143).

★ **Crafted:** Some items need to be crafted. You can find a complete list of all recipes, ingredients and requirements on page 321.

★ **Purchased:** Many consumables are available in stores. Turn to page 324 for exhaustive shop lists featuring prices and, where applicable, unlock conditions.

★ **Hunting:** All animal parts, which represent the bulk of the "ingredients" and "materials" satchel categories, are covered in a dedicated section of this guide — see page 147.

★ **Fishing:** Refer to our section on fishing on page 163 for a full list of fish species and their habitats.

Finally, many horse consumables have bonding XP values. These contribute to developing your bonding level with your mount based on how full its related cores are — as explained on page 140.

## TONICS

## GROOMING

# KIT & TOOLS

Items in this category serve a very specific purpose. Some have gameplay applications (such as the binoculars, which enable you to study anything of interest from a distance), while others are specific to certain missions.

Of particular interest:

★ **Improved satchels** can be crafted by Pearson at camp (see page 144) or purchased at fences from Epilogue 1 onward (see page 327). These offer increased capacity – a very welcome feature that will enable you to make more profitable expeditions into the wilderness.

★ **Talismans and trinkets** induce permanent perks. You do not need to equip the items; their effects are always active, making them very powerful. Note that you can choose to show or hide talismans in the Wardrobe menu.

## KIT AND TOOLS AVAILABILITY

ICON	NAME	NOTES	AVAILABILITY
	Ancient Arrowhead	A special item that enables your stamina to last twice as long when you draw your bow.	Once you have inspected all 20 dreamcatcher locations, this is found in the cave hidden behind the Elysian Pool waterfall (see page 212).
	Antique Pocket Watch	A broken watch.	Found at Compton's Stead during "The Inquiries of History".

#14	Blackwater Ledger No. 75 New Hanover Gazette No. 40 Saint Denis Times No. 56	Complete "American Venom"

## CRAFTING

Crafting is the process of creating an object by combining ingredients, or by supplying necessary materials to an appropriate party who will do the work for you.

You can craft items yourself, which is the topic of this section. Certain shops also offer specific crafting services: fences (see page 326), the trapper (see page 328), and Pearson (see page 143).

You have access to two crafting methods.

- ★ **Crafting Tools** enable you to create items on the go. Hold to rest, then press . Alternatively, you can reach the same interface by selecting the crafting tools in the bottom slot of your item wheel. With this method, you can make both hunting items and improved ammunition or thrown weapons.
- ★ **Campfires** can be set up virtually anywhere in the world outside of towns. To set up camp, rest by holding then press the same button again, or select the camp option in the bottom slot of your item wheel. From campfires, you have access to additional recipes to create tonics, horse care items, and to cook.

Crafting often requires a recipe pamphlet. You will find details on the availability of each of these documents in the tables that follow.

As for the ingredients used in each recipe, sourcing them depends on what category they belong to:

- ★ **Animal parts** are obtained by hunting; see page 147 onward
- ★ **Fish meat** is acquired by fishing (see page 163)
- ★ **Ammunition** can either be found (at abandoned campsites, for instance), collected from Arthur's wagon at camp, looted from bodies, or purchased from gunsmiths and general stores (see page 286)
- ★ **Provisions** are collected in the wilderness (see page 303), available for free as camp supplies (see page 143), or purchased from general stores (see page 324) and fences (see page 326).

### CRAFTING TOOLS RECIPES

ICON	ITEM	RECIPE PAMPHLET	PAMPHLET AVAILABILITY	INGREDIENTS
	Predator Bait			Stringy Meat (x1); Blackberry, Evergreen Huckleberry, Raspberry or Wintergreen Berry (x1)

	Cover Scent Lotion	Cover Scent Pamphlet	Given at the beginning of Chapter 2	Scent Gland (x1)

## COOKING

The process of cooking is almost identical to that of crafting, though it always requires a campfire.

All recipes are available from the beginning of the adventure. With the exception of coffee, which is made from ground coffee, they all require meat – which is acquired primarily through hunting (see page 147).

The nature of the meat used determines the restorative properties

of a meal – in other words, what percentage of your attribute cores will be replenished by eating it. For most meats, you can optionally add one – and only one – of three seasoning herbs to a recipe. These make dishes even more potent: creeping thyme, oregano and wild mint increase the recovery of the Dead Eye, stamina and health cores by 25% respectively.

You can study parameters for all possible cooked meals on page 307.

## RECIPES

ICON	BASE INGREDIENT	YIELDED BY	COOKED ON ITS OWN	WITH THYME	WITH OREGANO	WITH WILD MINT
	Stringy Meat	Armadillo, Badger, Bat, Beaver, Chipmunk, Coyote, Fox, Muskrat, Opossum, Raccoon, Rat, Skunk, Snake, Squirrel	Plain Stringy Meat	Non-Seasonable

## SHOP LISTS &amp; SHOP CRAFTING

In this section you will find a list of everything sold in stores, as well as the crafting opportunities these businesses offer. The only exception to this are gunsmiths, which are covered in the Weapons chapter (see page 286).

Note that prices shown in this section are base values. The actual price that you pay may be affected by discounts or premiums that reflect your current honor rank.

## GENERAL STORES

## ITEMS

General stores are the most common shops you will encounter throughout the world. Available in most towns, they offer a wide range of supplies.

The Ranch Hand	\$65.75	
The Scrapper	\$71.50	Honor Rank 6
The Armadillo	\$57.25	

## BUTCHERS

Butchers can be found in Valentine, Strawberry, Rhodes, Saint Denis, Blackwater and Tumbleweed. They sell animal cuts, which are used in many recipes. They will also buy the parts and carcasses you obtain while hunting. This can be a valuable source of income, particularly when you are selling low-quality parts acquired with relative ease on your travels. Animal parts in perfect condition are required for various crafting purposes, so be sure that you have exhausted all available opportunities with Paquin and the trapper before you sell such items.

#### BUTCHER PRODUCTS

ITEM	PRICE
Salted Beef	\$ 50
Salted Venison	\$ 90
Mature Venison Meat	\$5.50
Prime Beef Joint	\$5.50
Tender Pork Loin	\$5.50

## BARBERS

You can find barbers in Valentine, Saint Denis, and Blackwater. They can trim and style both your hair and facial hair.

Natural	\$0.50	Extra Clean Shaven*	\$0.50

\* Only available after completing "A Fine Night of Debauchery" in Chapter 4.

## FENCES

Fences offer their wares and will purchase your ill-gotten goods after you complete "The Spines of America" during Chapter 2. In addition to the stock list detailed in the accompanying table, they also offer the following two special services:

♦ The wagon fence at Emerald Ranch is unlocked along with the other fences. When you deliver a stolen coach, the barn will open its doors for it and you will receive a payment as a reward.

\* The horse fence just north of Clements Point becomes available after you complete "Horse Flesh for Dinner" during Chapter 3. You can deliver illegally-sourced mounts here for cash payments.

## TRAPPER

The trapper is based in Saint Denis, but he also has four stalls in the wilderness (see the map on page 324). In addition to his shop inventory, he offers crafting services that enable you to obtain all sorts of special clothes. The process is simple: provide him the required animal parts, pay the associated price, and the trapper will craft the piece in question for you.

# EXTRAS

This chapter is home to a variety of trials, trivia and tidbits not covered elsewhere, including secrets, Achievements and Trophies, and advice on working towards Total Completion.

## SPOILER WARNING!

Even though the following pages do not feature careless plot revelations, some of the topics discussed are linked to important story events. If you are sensitive to spoilers, we strongly suggest that you first reach the game's Epilogue — and, better still, complete it — before reading any further.

# TROPHIES & ACHIEVEMENTS

Red Dead Redemption 2's collection of Trophies and Achievements offers a rich blend of story and gameplay milestones.

## MAIN STORY ACCOLADES

NAME	TROPHY	UNLOCK CONDITION
Back in the Mud	Bronze	20 Complete Chapter 1
Just a Scratch	Bronze	10 Complete "Enter, Pursued by a Memory" (Chapter 1)
To Greener Pastures	Bronze	20 Complete Chapter 2
Settling Feuds	Bronze	20 Complete Chapter 3
Washed Ashore	Bronze	20 Complete Chapter 4
No Traitors	Bronze	20 Complete Chapter 5
Third Time Lucky	Bronze	10 Complete "Goodbye, Dear Friend" (Chapter 6)
Redemption	Silver	30 Complete "Red Dead Redemption" (Chapter 7)
Cowboy Builder	Bronze	10 Complete "A New Jerusalem" (Epilogue 2)
Endless Summer	Gold	20 Complete Epilogue 2 Complete all optional honor missions
Lending a Hand	Silver	30 <ul style="list-style-type: none"> <li>"We Loved Once and True" - I to II</li> <li>"Gold, Honest, Snake Oil"</li> <li>"The Course of True Love" - I to V</li> <li>"Money Lending and Other Sins" - I to VI</li> <li>"Help a Brother Out"</li> <li>"Brothers and Sisters: One and All"</li> <li>"Fatherhood and Other Dreams" - I &amp; II</li> <li>"Do Not Seek Absolution" - I &amp; II</li> <li>"Archeology for Beginners"</li> <li>"Honor Amongst Thieves"</li> <li>"Mrs. Sadie Adler, Widow" - I &amp; II</li> </ul> All of these are covered in our Missions chapter.
Gold Rush	Silver	20 Earn 70 gold medals in story missions. You will find guidance on securing gold medals in our dedicated chapter (see page 30).

## OPTIONAL ACTIVITY ACCOLADES

NAME	TROPHY	UNLOCK CONDITION
Best in the West	Gold	100 Attain 100% completion. We detail all necessary requirements on page 336.
Western Stronger	Bronze	30 Complete 10 stranger mission strands (see page 186 for walkthroughs).
Artificial Intelligence	Bronze	10 Discover the fate of Marko Dragic. See our walkthrough for "A Bright Bouncing Boy" on page 188.
Friends With Benefits	Bronze	20 Complete a companion activity at the Horseshoe Overlook, Clemens Point and Shady Belle camps. You can find an overview of these activities on page 146.
Hobby Horse	Bronze	10 Play all table games (see page 220).
It's Art	Bronze	10 Find a permanent home for the squirrel statue (see box-out on the right-hand page) after finishing the "A Better World, A New Friend" mission (see page 212 for guidance).
Breaking and Entering	Bronze	20 Recover the sash from four homesteads. We cover all home robberies on page 180.
Collector's Item	Silver	20 This involves completing any one of the missions that require you to gather special collectibles, such as cigarette cards, exotics, dinosaur bones, or rock carvings. We cover all of these in the section that begins on page 199.
Errand Boy	Bronze	10 Complete five item requests for fellow gang members. Find out more about these activities on page 145. This accolade is time-sensitive: most item requests are available from Chapter 2 to Chapter 4.

## EXPLORATION & SPECIAL FEAT ACCOLADES

NAME	TROPHY	UNLOCK CONDITION
Take From the Rich	Bronze	10 Rob or loot \$250. You should accomplish this naturally as you explore the world and advance the main storyline.
Give to the Poor	Bronze	10 Donate \$250 to the gang's driving box, which is available next to the ledger at camp. Must be completed prior to "Banking, the Old American Art" in Chapter 4.
Pony Up	Bronze	10 Spend \$5,000 across all shops. This should happen naturally as you progress through the game.
Extreme Personality	Bronze	10 Reach maximum or minimum honor level (rank 8 or rank -8, respectively). This can only be achieved after "Paradise Mercifully Departed" (Chapter 5). We detail all actions that affect your honor on page 170. Note that Chapter 6 has a 1.5x multiplier for honor gains and losses, so is a good time to work towards this accomplishment if you need to make meaningful progress.
Bountiful	Bronze	20 Survive three days holding a bounty of \$250 in all states. This includes the state of New Austin, only available from Epilogue 1 onward. You should find it easier to achieve this by staying out of towns and away from well-traveled roads. Turn to page 174 for a complete presentation of the wanted and bounty systems.
Paying Respects	Bronze	20 Find the graves of each of your fallen companions. See page 346 for help, but be wary of spoilers if you have yet to complete the game's Epilogue.
Self Sufficient	Bronze	10 Craft any 30 unique items. We cover crafting in our Items chapter on page 320.
Skin Deep	Bronze	30 Skin every species of animal. A full list of animals, along with their habitats, is available on page 148.
Zoologist	Bronze	20 Study every animal across all states. Use our master list of animals and their habitats on page 149. You can study an animal by holding [R3] [PS4] or [RT] [Xbox] while in close proximity or through a scope or binoculars.
It Was THIS Big!	Bronze	20 Catch a fish weighing at least 16lbs. Consult our coverage of fish varieties and fishing spots on page 163.
Loaded and Loaded	Bronze	10 Upgrade each available component for a single sidearm or longarm weapon. You will find a complete guide to weapon customization on page 288.
Grin and Bear It	Bronze	10 Survive 18 bear attacks and kill the bear each time. To find these beasts, refer to our habitat maps on page 150. This requires you to be grappled by the animal and shoot it during the struggle. For optimal results, make sure you have a powerful weapon equipped (ideally with specialized ammunition) before each struggle begins.
Trusty Steed	Bronze	10 Reach bonding level 4 with a horse. We cover this topic on page 140.
Legend of the West	Platinum	-   PS4 Only: Obtain all other Trophies.

## IT'S ART

Obtaining the "It's Art" accolade requires you to complete a secret minigame, which is unlocked at Beecher's Hope once you meet the following two conditions:

- ★ Complete Epilogue 2.
- ★ Receive the statue from Ms Hobbs at the end of "A Better World, A New Friend" (see page 212).

At that point you can proudly display the statue on a shelf above the living room's mantelpiece. Someone else, however, will be rather less impressed with your taste in decoration. On a subsequent visit to the house, you may find the statue has been moved. Your goal is then to retrieve it and return it to its rightful place as many times as it will take for others to appreciate art.

# POINTS OF INTEREST & SHACKS

**Points of Interest:** There are 46 "sketchable" sites and structures that you can discover throughout the world. When you are within sufficient proximity to these locations, an onscreen prompt will invite you to hold **Y** to inspect them. This triggers a short scene where your character draws a sketch of the landmark in question in his journal, sometimes with accompanying notes. You need to find at least one of these points of interest to meet the corresponding Total Completion requirement.

**Shacks:** Similarly, multiple shacks and cabins can be found throughout the wilderness. These may

initially seem like unremarkable lodgings, yet each one hides some form of strange secret or story that you can explore. For instance, if you visit the Robard Farm cabin, you might wonder why a man and a woman lie dead inside – but a glance through the window will reveal the body of another woman, which you can investigate to find a letter shedding light on this mystery. These structures also tend to contain all sorts of interesting items to collect, including valuables, cigarette cards, and special tonics, so they are generally well worth the trip. You need to discover at least five of the shacks and cabins listed here to fulfil the related Total Completion requirement.

ATLAS	MEANING	ATLAS	MEANING	ATLAS	MEANING

# UNIQUE COLLECTIBLES

The items documented here are unique, and can only be found in the positions annotated on the map. This includes multiple weapons that count towards a related Total Completion requirement.

ATLAS	NAME	NOTES
601	Ancient Tomahawk	Sticking out of a broken target on the east side of Calaveras Ravine
602	Big Horn	Hanging from one of the wooden pillars of the slaughterhouse structure
603	Double Bit Hatchet	In a tree stump just north of a mine chimney
604	Hewing Hatchet	In a tree stump on the south shore of Moonstone Pond
605	Hunter Hatchet	In a tree stump just north of the shack
606	Rusted Double Bit Hatchet	In a tree stump in Annesburg, a short walk to the north of the coal mining facility
607	Black Sheep	In a tree stump just west of the shack
608	Black Sheep	Near the railroad just north of Meertland Overflow, carries a gold wedding ring
609	Civil War Hat	At the back of a partly collapsed shack
610	Civil War Hat	In the doctor's basement
611	Civil War Knife	On a crate in the old farm's basement
612	Meteorite	Inside the meteor house
613	Tricorn Hat	Inside the shipwreck on Flat Iron Lake's largest island
614	Ram Skull Mask	Hanging from one of the wooden pillars of the abandoned crypts
615	Nevada Hat	Behind the waterfall at Granite Pass
616	Torn Treasure Map	Inside the hermit's shack, in a drawer
617	Torn Treasure Map	Inside the Martin Glade cabin, in a side table drawer
618	Otis Miller's Treasure	Inside a small cave only accessible from Epilogue 1 onward
619	Viking Helmet	Inside the old mine
620	Otis Miller and the Black-Hearted Lady	On a table in the nightstand in the shack
621	Otis Miller and the Arabian Prince	On a table in the nightstand in the shack
622	Otis Miller and the Boy from New York	On a table in the abandoned schoolhouse
623	Wild West Heroes, No. 132	On a table in the nightstand in the house
624	True Tales of Frank Heck, No. 102	On a table in the nightstand in the shack
625	Antler Knife	On a dead body deep in the Beryl & Dream mine, press the plunger at the entrance to blow up the rock at the way
626	Antler Knife	Found in a dead body
627	Stone Hatchet	Found in a wrecked boat
628	Stone Hatchet	Available only if you have completed the related bounty hunter missions in <i>A Online</i>
629	Abalone Shell Fragment	Inside the mine house just a few steps to the north of the shore, a short walk to Rhodes

## UNIQUE COLLECTIBLES LOCATIONS

### OTIS MILLER'S TREASURE

The two torn treasure maps (found in the Hermit Women and Hermit shacks) point to a secret treasure chest that you can reach from Epilogue 1 onward. It is hidden in Retlelake Hollow, a small cave in the north of Cholla Springs. Head straight west from Twin Rocks and you will find it close to the State border. Among other prizes, the chest contains Otis Miller's Revolver: a rare sidearm that will prove to be a fine addition to your weapon collection.

# EVENT AREAS

Event areas are locations that change over time. Each area has several stages of development, which you can witness by visiting at semi-regular intervals as you progress through the main storyline. In most cases, you are invited to intervene in a specific way to facilitate the location's advance to its next step. If you refuse to lend a hand, or antagonize your primary contact at each location in any way, you might prevent any further progression – so respectful, non-threatening behavior is advisable. All event areas enter their final stage when you reach Epilogue 1, regardless of how many advancements you have previously triggered.

## APPLESEED TIMBER CO.

A timber company located northeast of Strawberry is in the process of clearing a forest.

**STAGE 1:** Initially, this site features a crew of lumberjacks chopping down trees with axes, or sawing logs. You can find a few minor collectibles in the tents, though their occupants will not take kindly to theft. If you speak to the foreman at the part-built cabin, he will ask you

to sell him goods – particularly food and medicine. Doing so will help advance the development of this event area to the next stage.

**STAGE 2:** The cabin where you originally encountered the foreman is now complete, the horse pen is finished, and the surrounding forest has fewer trees. There will be an accident during your visit. Run to the bugged location, hold **△/Y** then repeatedly tap **○/A** to lift the tree under which the victim's leg is stuck. This will reward you with an honor bonus. Once the others return to work, you can speak to the victim again and give him some money to receive an additional honor boost.

**STAGE 3:** This time you will find the foreman arguing with lumberjacks who refuse to return to work due to a local pack of wolves that has already claimed two lives. Speak to the foreman and agree to take care of the problem. Head to the highlighted zone, to the south of the site, and activate Eagle Eye to reveal a trail. This leads you to the bodies of the two victims, where a few wolves will attack. Deal with them however you please, though you should note that Dead Eye can prove really effective against such swift targets. Once all animals are down, return to the foreman to receive your reward.

**STAGE 4:** If you reach this stage before the end of Chapter 6, you will

see that the entire area is now clear of trees and the worker's camp has been dismantled.

**STAGE 5 (EPILOGUE 1):** A final visit during or after the Epilogue will show that almost every trace of the worker's camp has gone, with nature having reclaimed the last vestiges of its existence.

## CASTOR'S RIDGE

This event area features a cabin being built by a father and his two sons, just southwest of Valentine.

**STAGE 1:** At first only the foundations have been built, with tents to the side where you can appropriate various items if you wish. If you start a conversation with the father, he will be angered when the sons accidentally drop one of the wall frames.

**STAGE 2:** On a subsequent visit you will find that the construction has advanced but, of far more immediate import, that the family is engaged in a firefight with a gang demanding payment of "protection" money. Eliminate the thugs to receive honor and to ensure that the event area can move on to the next stage.

**STAGE 3:** The cabin is now looking almost complete, but a word with the father will reveal that he is running low on funds. He will ask you if you can lend him \$100. Agreeing to the loan is required to move on to the next step – and will actually prove to be a sound investment.

**STAGE 4:** This time the house is entirely finished. The father lets you know that he has sold it to farmers moving up from the south, which means he has the money to pay you back – with interest. He will give you \$150, making this an effortlessly profitable transaction.

**STAGE 5 (EPILOGUE 1):** The cabin now has occupants and a vegetable garden.

## CENTRAL UNION RAILROAD CAMP

Located halfway between Emerald Station and Van Horn, this event area is home to a group of workers laying down fresh tracks for a new railroad, with a senior foreman doing his best to keep them at work.

**STAGE 1:** With the workers hard at work during the day, you can visit the tents to loot a few collectibles – though you should do your best to do so out of sight. Speak to the senior foreman, Percy Whitsickle, outside his tent; agree to help him. After the cutscene, locate the junior foreman at the northwest end of the highlighted zone. Follow him from a safe distance until he reaches a large tree. When you see him place his hands inside a hole in the tree, confront him. Retrieve the money from the hiding place, then return it to Percy to complete the event. If you also take back the hogtied junior foreman, a special conversation is triggered.

**STAGE 2:** The camp has moved north, a most level with the Elysian Pool. Speak to Percy to learn that Leviticus Cornwell has bought a plot of land nearby, effectively blocking the construction work. After offering to lend a hand, head to the marker to the north where three goons await. At the end of the cutscene, hold **△/Y** lightly when prompted to fill up your meter, then press fully to trigger a Dead Eye moment: this will provide ample time to adjust a clean headshot on the leader, and thereby scare off the other two m'creants. Pick up the property deed dropped by your victim or loot it from his body, then return to the camp and give the document to Percy.

**STAGE 3:** The camp has moved northwest, with the railroad almost connected to the tracks northeast of Emerald Station. Percy invites you to help yourself to leftover supplies. Head to the tent at the southeast end of the camp and pick up any provisions that take your interest.

**STAGE 4 (EPILOGUE 1):** The railroad section is now complete, and the entire crew and camp are gone.

# THE POISONOUS TRAIL TREASURE HUNT

## THE POISONOUS TRAIL MAP 1

**Availability:** Chapter 2 onward

**Walkthrough:** This is a secret treasure map – there is not a single clue in the game world pointing to it. It has been designed to be found by persevering (or remarkably lucky!) players who leave no stone unturned. To put you on the right track, we can tell you that it is hidden on the outskirts of Cairn Lake, just southeast of Colter.

## THE POISONOUS TRAIL MAP 2

**Availability:** Complete this mission's previous step

**Walkthrough:** Open your satchel and study The Poisonous Trail Map 1. If you have been there before, you might recognize a location in Scarlett Meadows just west of Ringneck Creek, with a large rocky outcrop in the shape of a human face. Run up the back of the hill to find the next map in a hidden hollow at the base of a tree trunk.

## THE POISONOUS TRAIL MAP 3

**Availability:** Complete this mission's previous step

**Walkthrough:** The location shown on the second map should be very obvious if you have visited the site in question before. Head to Serpent Mound, a point of interest just southwest of Van Horn. Inspect the hole inside the snake's "head" to retrieve it.

## THE POISONOUS TRAIL TREASURE – STEP 1

**Availability:** Complete this mission's previous step

**Walkthrough:** To lay your hands on this treasure, head to Elysian Pool, to the northwest of Van Horn. Walk through the waterfall to reveal a hidden cave.

## THE POISONOUS TRAIL TREASURE – STEP 2

**Walkthrough:** Equip your lantern as you advance deeper into the cave, which soon becomes very dark. As soon as you leave the narrow corridor, go down the steep path on your right.

## THE POISONOUS TRAIL TREASURE – STEP 3

**Walkthrough:** At the bottom of the slope, you will soon notice a low and narrow tunnel in the wall. Crouch-walk through it and you will end up in front of a fork. Take a right (the left path is the one you will use on your way back). Loot the small abandoned campsite on the way if you wish (on your right), then keep walking until you reach a larger chamber.

## THE POISONOUS TRAIL TREASURE – STEP 4

**Walkthrough:** As you enter the chamber, turn left and observe your surroundings. Your goal is to sprint and jump from your current position to the platform below – as shown on this picture. Measure your approach and take a good run-up to avoid falling into the depths. Once you have landed safely, go down the slope on the other side.

## THE POISONOUS TRAIL TREASURE – STEP 5

**Walkthrough:** From the shallow pool at the bottom of the slope, look to your left. Climb up into the small alcove, where you will find the treasure – four gold bars – hidden behind rocks.

## THE POISONOUS TRAIL TREASURE – STEP 6

**Walkthrough:** When you're ready to head back, retrace your steps up the slope. Climb on the narrow ledge on your right, then up to the passage above, which will take you back to the fork that you encountered earlier. Crouch-walk through the little tunnel and you are then just steps away from the exit.

SECRETS

# SECRETS

\*\*\*\*\* **SPOILER WARNING!** \*\*\*\*\*  
This section covers certain secrets that are related to the main storyline. We *strongly* recommend that you do not read its contents  
\*\*\*\*\* until you reach the game's Epilogue. \*\*\*\*\*

*Red Dead Redemption 2* features countless potential discoveries that lie far from the beaten path. From remote landmarks to abandoned campsites, corpses washed ashore to derailed trains, the uncharted areas of the world map have many tales to tell!

## ★ GRAVES ★

As you progress through the main storyline, some of your companions and associates will meet untimely ends. Their graves are scattered around the world. Finding all nine of these, a requirement to meet Total Completion and unlock a Trophy/Achievement, can be accomplished during Epilogue 1 at the earliest.

## ★ POSTSCRIPTS ★

There are plot-oriented secrets that can be investigated to find out what happened to certain characters that appear in the story, or discover details that you could not have known during prior encounters.

**CATHERINE BRAITHWAITE:** The "Braithwaites' Secret" is actually not the only one in the area. Visit the burned-out manor from Chapter 4 onward and you will find the body of Catherine Braithwaite in the ruins. You can loot her corpse to retrieve an emerald brooch. A lock box can also be found in the adjacent room, just a few steps to the east of the body; this contains a gold bar. Another secret letter, this time involving both of the feuding families, awaits in a small chest on the main islet directly west of Sisika Island, in the mud at the foot of one of the large trees.

**MICAH:** After completing Epilogue 2, you can return to the top of Mount Hagen to find the frozen corpse of Micah — and retrieve his revolver in the process. This is a required step if you wish to obtain all weapons available in the game.

**BRAITHWAITES' SECRET:** If you head to the south from the gorgebo where you first met Penelope, to the west of Braithwaite Manor, you will run across a locked outhouse in the woods where the Braithwaites hide a family secret. Inspecting it before the end of Chapter 6 will enable you to encounter its occupant alive; she will be dead from Epilogue 1 onward.

**GRAYS' SECRET:** The Grays also have something to hide at the back of their manor, in the form of a letter on the table next to the corpse of Mr. Gray. This missive, available after completing "A Short Walk in Pretty Town", reveals salient facts about the origins of the self-proclaimed noble family of Southern patriots.

**MICAH'S CAMP:** If you visit it at a later point, you can find some of Micah's personal belongings at the location where he was based between "Blessed are the Meek?" and "An American Pastoral Scene" northeast of Strawberry. This includes a wanted poster of Dutch, as well as two newspaper scraps with details on Micah's past and the failed heist that took place in Blackwater just before the beginning of the game.

## ★ THE STRANGE STATUES PUZZLE ★

This is one of the hardest activities to find in *Red Dead Redemption 2* – let alone solve. This is a puzzle that is most rewarding and best enjoyed with a limited degree of assistance, so we encourage you to try to figure it out on your own.

If you are stuck, we provide gradual hints to put you back on track, but we strongly encourage you to read only one step at a time and see if this is enough for you to solve the rest of the puzzle by yourself.

### STEP 1 – THE PUZZLE ROOM

First things first, you need to find the puzzle's location. Head to the spot shown on the map on this page. Look for a crevice in the granite and enter the cave this leads to. Inside, you will notice seven male statues positioned around a central sculpture of a woman with eagle wings. You can inspect this landmark by holding **[X]**. At this point, your character will draw a sketch of it in his journal, revealing its formal name – "Strange Statues". Each of the seven statues rests on a pedestal; each pedestal features a button that you can press by holding **[X]**. If you press a button, it will disappear into the pedestal and come out on the opposite side, where you can press it again to reset it to its original position. The task at hand, then, is to identify which of the seven buttons need to be pressed, and which ones need to remain in their initial state.

### STEP 2 – OBSERVATION

The only clues you initially have at your disposal are the seven statues. If you observe them closely, you will notice that they are all slightly different. The detail that makes each one unique is its hands. More specifically, each statue has a set number of unbroken digits. The one closest to the entrance tunnel, for instance, only has its two middle fingers left. The one shown in the accompanying picture has six.

### STEP 3 – COUNTING FINGERS

If you go around the cave, you can count how many intact digits each statue has to differentiate it from the others. You should end up with the following figures: 2, 4, 5, 8, 3, 4, 6.

### STEP 4 – THE CAVE PAINTING

If you head to Window Rock, a relatively easy journey to the west of your current position (just follow the railroad), you can find a cave painting under the large rock overhang. Inspect this site by holding **[X]** and your character will sketch it in his journal – revealing that this point of interest has the same name, "Strange Statues".

### STEP 5 – PAINTING ANALYSIS

Study the painting up close and you should notice a few details confirming that you are on the right track. Seven male figures are shown in a circle with a stylized representation of an eagle at the center, which corresponds to the configuration in the cave. What's more, dozens of hands with their fingers clearly visible can be seen all over the wall.

### STEP 6 – COUNTING FEATHERS

After further scrutiny, one pertinent detail might draw your attention: each figure has an eagle next to him, and every one of them has a unique number of tail feathers. By counting the eagle feathers associated with each man, you should end up with the following numbers: 2, 7, 5, 8, 3, 4, 6. These are the same numbers that you identified in the puzzle room, with a single anomaly: a 4 in the puzzle room versus a 7 on the cave painting.

### STEP 7 – THE MISSING LIMB

Back in the puzzle room, there are two statues with four fingers: one that looks fine, and one that has a broken arm. How can you be sure of the true total finger count for the latter statue if you cannot see the missing hand?

### STEP 8 – SOLVING THE ANOMALY

If you explore the cave a little, you should soon notice the missing arm lying on the ground, next to a few rocks (to the left when entering the cave). Its hand features three fingers. If you add this to the four fingers on the other hand of the statue with the broken arm, you end up with seven.

### STEP 9 – SOLVING THE PUZZLE

You now have a number associated to each statue. The only question that remains is: how does this help you to figure out which buttons to press and which ones to leave alone? At this point, you might need a clue: *prime numbers*.

### STEP 10 – REWARD

Press the buttons on each statue where the total number of fingers is a prime number. With these activated, and all other statues in the default position, you will hear the distinctive sound of moving stone. Check the central pedestal, and you should now see a secret stash where three gold bars await.

TRAIL

SECRETS

## ★ MISCELLANY ★

In this closing section we document instances where you can find curious scenes on your travels and, in most cases, must intuit the stories behind them from the mute evidence that you find.

### METEOR HOUSE

If you enter this cabin just west of Brandywine Drop, a macabre scene awaits inside. In addition to being a point of interest, this structure is home to a meteorite that you can pick up. This valuable has an interesting property: it decreases the effects of exposure to hot environments by 10%.

### METEOR SHOWER

If you happen to be close to the meteor house in the dead of the night (2am seems fairly optimal), head to the field directly west of the house and look up – you might get to see a meteor shower in the sky.

### WHISKEY TREE

This large tree grows to the west of Dewberry Creek, at the top of the hill overlooking Flat Iron Lake. If you shoot the bottles hanging from its branches, one of them will yield a gold nugget. Note that you can identify it through Eagle Eye, with gold particles emanating from it. A ginseng elixir rests on the tree itself.

### WITCHES CAULDRON

This strange shack is built in a remote location, north of the East Grizzlies. It contains multiple items that you can collect, particularly tonics – but also a strange liquid in a cooking pot that you can drink at your own risk...

### DERAILED TRAIN

This derailed train lies at the bottom of the ravine just east of Granite Pass. The yellow carriage is home to a treasure chest with multiple valuables inside. The carriage stuck in a vertical position against the cliff contains yet more high-quality collectibles, including two gold bars, though you can only reach its interior by entering from above (see page 214).

### ALCHEMIST HOUSE

An alchemist lives in a small house to the northeast of Tumbleweed, by the railroad. When you approach the building, it will be consumed by a large explosion. A lock box can then be found on the east side of the burned-out structure. This contains high velocity cartridges, as well as the explosive slug pamphlet.

### GUTHRIE FARM

If you visit this farm, just west of Emerald Ranch, you will find a dead man and black sheep in the southernmost of three aligned shacks. The sheep has a ribbon around its neck, from which you can retrieve a gold wedding ring.

### SLAVE CORPSE

Just southwest of Shady Belle you can find the corpse of a slave on the river shore. Check the body to retrieve a letter, which will help you to understand the story that led this man here. Note that you will lose honor if you damage the corpse in any way.

### SHIPWRECK

A shipwreck lies in the middle of the largest island to the west of Clemons Point. Head inside and you can find a bottle of aged pirate rum in a lock box, along with a tricorn hat on the other side of the collapsed wall. This island is also home to a few rare species endemic to Guarma, such as the green iguana, which can be useful if you are striving to complete your Compendium.

### DEAD TRAVELER

A short distance to the east of Armadillo lies an old campsite surrounded by cactuses, where the body of a dead traveler rests. You can loot a letter from this man, as well as various collectibles nearby. There's also a lock box underneath the tent: it contains a bottle of valerian root.

## ENDLESS OPPORTUNITIES

And don't forget, these are mere examples to get you started. You have a whole world to explore, with countless more unique sights to be seen and experiences to be had, including:

- ★ whispering trees to the south of Brandywine Drop;
- ★ a sundial at the top of the ridgeline just west of Mount Shann;
- ★ a stuffed gorilla that fell from a wooden bridge north of Strawberry;
- ★ a love message on a tree just north of Flatneck Station;
- ★ a giant snake dead in a tree in the forest west of Lagras;
- ★ a strange man living in a tree house south of MacFarlane's Ranch;
- ★ old corpses of a chain gang just west of Kamasa River, to the north of Bluewater Marsh;
- ★ two spots where lightning bolt impacts can be seen (one near the top of Rio Del Lobo Rock, the other on the west side of the road just southwest of Annesburg);
- ★ a gruesome corpse pit just east of Aurora Basin;
- ★ an abandoned camp by the railroad, north of Bluewater Marsh;
- ★ a dilapidated hearse with a hanged man just north of MacFarlane's Ranch;
- ★ a secret "Letter To Bonnie MacFarlane" that can be looted from the corpse in the "Washed Ashore" chance encounter;
- ★ and many, many more...

## INDEX

If you are searching for specific information, this alphabetical listing is just what you need. To help ward against unnecessary **spoilers**, note that pages that may contain references to major storyline events are written in **red**.

### AUSTRALIAN WARRANTY STATEMENT:

This product comes with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

This product comes with a 1 year warranty from date of purchase. Defects in the product must have appeared within 1-year, from date of purchase in order to claim the warranty.

All warranty claims must be facilitated back through the retailer of purchase, in accordance with the retailer's returns policies and procedures. Any cost incurred, as a result of returning the product to the retailer of purchase — are the full responsibility of the consumer.
